Divorce Granted.

Today Mr. John Squires was brought in from the penitentiary, where he is habitation. His presence was required in court, in the proceedings against his legal wife for divorce. Mrs. Squires ran off with a fellow named Solomon Hancock, last spring, leaving Solomon Hancock, last spring, leaving her ten caildren with her husband. She went to New York, from where she wrote a letter to Mr. Squires, stating that she had left the children with him because they would be better cared for than with her; she gave as her reason for leaving her husband that "she loved the man" she was now living with. The decree of divorce was granted.

Animated Pictures. We have before us a number of street views of the Fourth of July procession taken by the instantaneous process, theartist being Mr. C. W. Carter, the well-known photographer. They are excellent pictures, being unusually clear. It is indeed interesting to inspect them. Each figure is in the prescise position it was in at the moment of transmission to the glass. The soldiers are on the murch with one foot solid on the ground and the other lifted in the act of walking. The attitudes of the bystanders are multifarious, and in some instances comical. The pictures are, on this account, remarkably animated. They make excellent souvenirs.

West Portage.

This morning Brother John D. Gibbs of West Portage, Box Elder County, called at this office. He informs us that grasshoppers have appeared in the Malad Valley this season, and have done a good deal of damage to grain crops, principally wheat. Some farmers have lost as much as six acres in a number of instances, by the rayages of these pests. All the local organizations of a progressive character are reported in good running order, and the health of the people is good. Brother Glbbs is one of the oldest setlers of West Portage, and likes the location, the main drawback being & too strong affection in the festive grasshopper for that region. This season the fruit crop is practically a

A Boy Crushed to Death.

A fearful accident occurred at Nuttall's mill, near the head waters of Hobble Creek, on Monday last about noon. Little Isaac Nuttall, a six-yearold son of Wm. G. Nuttall, and nephew of City Recorder Fuller, was crushed between a couple of logs and killed almost instantly. It appears that about most instantly. It appears that about moon the employes of the mill all quit work and went to dinner, and after they had been in the house a short time they heard a dull sound of logs striking together, and at once knew that it proceeded from a pile of logs in the mill yard and as the employes were in the house, one became curious to know who was rolling the logs and went out to see. He found the little child lying under a big log that had rolled down on him. It seems that the little fellow had gone to the pile of logs as seen as the men went to dinner to pick gum and the log rolled on him; but just how, it is impossible to state. The log was taken off the child and it was found that his head was crushed almost to a jelly one leg was broken and the body fearfully bruised. When found he was still alive but breathed only twice afteralive, but breathed only twice after-

wards.
The body was taken to Wallsburg by the parents, who are living at the saw mill, and on Tuesday the funeral services were held at Wallsburg. The parents of the child are almost freuzied with grief over the sa'l affair.-

of school teachers from Colorado and Indiana arrived in this city, and put up at the Metropolitan. The party, which numbered about seventy-five, was met at Provo by a committee of teachers from this city, headed by Dr. Park.
