Such is English View - Demands Considered Moderate-France Anxious for Success of Negotiations.

Oyster Bay, N. Y., Aug. 21,-An unexpected phase of the peace negotiations developed today in the arrival here of Baron Kaneke, a special representative in this country of the Japshere government for a conference with President Roosevelt. The meeting, it is known, was arranged hurriedly. It was II aclock before he reached Sagamora Hill. No outsiders have engageprests with the president today.

Baron Keneko remained with the resident three quarters of an hour, and then deposited for New York, Baron eneke decimen to discuss his contense with more president. Baron aneke said needld not deny that he as a representative of the Japanese syernment, but wished it understood the was not the financial repre-tative. GERMANY LESS CONFIDENT. Berlin, Aug. 21.—There has been a de-ded weakening of the confidence felt y government officials and members of the diplomatic corps that the negotia-ions at Pertsmouth would result in a ons at Portsmouth would result in a care agreement. The worst sympom, as it is looked at here, is that resident Roosevelt should have found a necessary again to take action. It is seinted out that if the negotiations were proceeding smoothly toward the desired end, the president would not have interposed, and that he has done to is considered an indication of acute tension. One of the belligerents, it is eaid, invited the president to intervene. Whatever the president may have Whatever the president may have done, however, is likely to be strongly supported by the German government

RUSSIAN AND FOREIGN COMMENT ON THE DOUMA

St. Petersburg. Aug. 21—The Novoe Vremya and the Russky Slovo to-day unreservedly praise the douna project. The other St. Petersburg newspapers, however, fail to show much enthusiasm. While half-heartedly admitting that the project makes for improvement, these latter papers freely critises the limitation of the powers of the douma and ask for an extension of the freedom of the press, freedom of meeting and political amdom of meeting and political am-

The principal objection raised to the roject is the high qualification neces-ary for city voters, ranging from \$475 invally in St. Petersburg and Moscow 5 5400 in the smaller towns. This, it i argued, will exclude the vast majorfully insured everywhere.

COMMENT IN GERMANY.

Berim. Aug. 20.—The Russian emperor's decree invoking a mational ussembly was published in Germany yesterday evening and is analyzed by the newspapers of today. The conditions existing in the empire of her next-door fieignfor are probably as well known in Germany as in any outside state, yes opinion is as varied regarding the organic change in the Russian system as there are positival groups.

Emeror Nicholas designed to show those in his empire struggling for constitutional liberty how little he cares for their aspirations. The newspapers aver that a constitution providing for 1to voters in such cities as St. Petersburg and Moscow is ludicious.

The North German Gazette considers that Emperor Nicholas, by a stroke, has placed Russia among the constitutional governments of the world. It regards the document as drawn with wisdom and inspired by a sincere purpose to begin self-government and yet taking due account of ment and yet taking due account of the incapability of Russians as a whole to govern themselves. While not the very thing, this semi-official journal ys, is inspired its directors manage give an important questions the onarchial and intensely conservative

Between these two extremes of opin ion are others which voice the hope that Russia has at last begun the de-velopment of equational institu-tions, a development that must be slow and experimental.

LONDON IS NON-COMMITTAL. Loudon, Aug. 21.—The morning newspapers devoted considerable space to discussion of Russia's new consti-tution. Their opinion may be summed up in the words of the Telegraph.

"It will introduce enormous changes a Russian administration, and its ex-

Numerous others were elightly hurt and were taken to their homes for treatment, their names at this time being unobtainable.
The tragedy was one of the most horrible in the history of Butte and the most serious ever experienced by company. the street railway company. That more were not killed is a mystery for the accident occurred with an appalling suddenness that precluded any hope of escape for those on the front end of the car. Most of them were woman and young girls and six of these were killed, the other two victims being men.

Protruding from beneath the bottom of the mass of twisted and broken timbers were the feet and lower limbs of several of the victims. The limbs were badly crushed and the feet of a comman were almost completely severed just above the aukles. Her agonizing screams could be faintly heard but as the remainder of the body was obscured from view it was impossible to iden-tify the victim.

The hand of a man extended from beneath the pile of debris and was severed from the body just above the wrist. The man had evidently been crawling from beneath the car when it fell back and pinned him to the ground.
