## MINING, BUSINESS AND STOCKS

## **NEWHOUSE IN** CAMP OF PIOCHE

Visit of Salt Lake Mining Man Regarded as Epoch Making Event.

#### STRIKE IN THE ELY VALLEY

One of the New Mines Beginning to Attract Attention-Other Mining News.

Special Correspondence.

Pioche, May 24.- The recent visit of Samuel Newhouse and party to Piocho and their expressions of confidence in the prospects of the district are regarded as epoch making events in local history. Mr. Newhouse, accompanied

history. Mr. Newhouse, accompanied by local mining men, visited all the principal properties in the vicinity of Pioche, including more especially the Ohio Kentucky, Prince Consolidated. Boston-Pioche, Demijohn, Ely Valley and Lincoln-Nevada. Most of these properties are already producing ore and piling it on their dumps awaiting such time as it can be conveniently and economically shipped.

One of the most promising of the recent strikes has been made on the property of the Ely Valley Mining company of which George Waddell is president. At the 130 foot level there is a cross-cut, which at a distance of about 46 feet from the shaft, encountered ore in which it has now advanced about 15 feet. All the ore is of good grade while about a foot and a half assayed 300 ounces in silver and over 50 per cent lead.

sayed 300 ounces in silver and over 50 per cent lead.

The ledge has been drifted on for a considerable distance and nothing but ore in sight. This ledge is only one of three or four which can be distinctly traced on the surface. One of these contains considerable free gold which can be panned out from the drift. It is confidently expected that this property will prove to be one of the very best around Pioche and is situated about three miles west of town.

The 100 horsepower hoist of the Boston-Pioche company is partly set up and will soon be in condition to begin work. Six of the eight working faces are in ore which is now being piled up on the surface, but ground has been broken and timbers are being framed

broken and timbers are being framed for a new ore bin, which will soon be completed, providing ample and con-venient storage for the present needs.

#### ON MINING EXCHANGE.

Some of the Knight Stocks Higher Today-Closing Quotations.

This was a busy day on the mining exchange, and many local stocks are quoted higher. Beck Tunnel and Mountain Lake made some rapid strides in that direction, the former selling up to 74 and the latter at \$1.20 per share. Black Jack also moved upward; so did

Black Jack also moved upward; so did Iron Blossom. Seven Troughs re-mained around 31 cents, with little in-terest being taken.

Among the unlisteds, Uintah Treasure Hill sold at 19½ and 20 cents, which is some better than Saturday's quota-tions; the only other unlisted sale was Silver King Coalition, which went at \$3,75. The closing quotations and sales were:

# CON. MERGUR GOLD **GOES TO DENVER**

Consignment Vauled at Nearly \$65,000 Forwarded to United States Mint.

MAY DAY SHIPMENT IN.

Two Cars of Ore Settled for Today-Headed for Dividend

Column.

The Consolidated Mercur Gold Mines company is enjoying an era of prosperity which it has not experienced in a number of years, much to the gratification of Manager George H. Dern and other officials of that well known organization

A few days ago, gold bullion of the value to \$64,840.82 was shipped to the United States mint at Denver and represented the April earnings of the company, with the exception of a lot of refining slag which will have to be ship; ed to the smelters before the gold contained therein can be extracted. Secy. A. Reeves stated today, however, that the value of this slag is probably \$1,500, which would bring the total output of the mine up to \$86,000 in round numbers for the month of April. The Consolidated Mercur is now adding steadily to its surplus each month. ing steadily to its surplus each month and it is reasonable to presume that the mine will soon be enrolled among

the mine will soon be enrolled among the dividend payers again.

Another property that ought to be in the "velvet" column before very long is the May Day of Tintic. This company resumed ore shipments about three or four weeks ago, the product being consigned to the Murray plant of the American Smelting & Refining company. Returns were received from two cars sent from the mine early last week, the same netting \$1,960.90. Notice was received during the day that two was received during the day that two cars of concentrate were at the sam-plers and according to the mine assays should bring something like \$2,500. It is believed that the May Day company will pay a dividend in June; but certainly in July.

#### AFTER MORE GROUND.

Utah Copper Takes Steps to Safeguard Interests in Future.

It was learned from good authority today that the Utah Copper company is negotiating for some additional ground near the mouth of Bingham canyon, the object of which is to fa-

canyon, the object of which is to facilitate operations in the future.

Officials of the Utah Copper, as welt
as others familiar with existing conditions in the camp, realize that the
big copper company is badly in need
of more room. Something must be
done to provide a place to dump the
thousands and thousands of tons of
overburden, or waste, which the steam
shovels are removing from the great
ore deposit of the property. There
being no place for it within the confines of the canyon, the material must
be transported out of it. The copper
company also needs greater trackage
room, and with a yard established just
outside of the canyon, would materiality assist the company in the movement of ore trains. ment of ore trains.

#### PARK CITY CONSOLIDATION.

The story of a gigantic consolidation of Park City mines has been revived in the east, and the Botson News Bu-

in the east, and the Botson News Bu-reau is quoted as saying:
"The consolidation of a number of silver mining properties in the Park City, Utah, camp which was in con-templation a year ago, will be brought about, we understand, through the medium of the Ontario Silver Mining

The Ontario is a \$15,000,000 Utah corporation which, aside from its mines and drain tunnel, which has just been reopened after a serious cave-in of three years ago, owns a controlling interest in various other coal and sh-

interest in various other coal and siver and lead mining concerns. "Affairs are yet in an embryonic state, but there will probably be included in the merger, if completed, the Daly West, Daly, Ontario, Weber Coal company, Park City Electric Light company and Park City Water company. The capitalization of the Ontario will undoubtedly be increased sufficiently to permit of the acquisition of the shares of the various companies. of the shares of the various companies which it is proposed to take over."

#### NEVADA MINE MERGER.

Old Producers at Austin to be Under One Management.

The Austin-Manhattan Consolidated Mining company will soon begin opera-tions upon an extensive scale at Austions upon an extensive scale at Austin, Nevada. This company recentify acquired 87 patented claims in the district which included nearly all the old-time producers of the district. The enterprise is backed by a strong eastern syndicate, Austin has been a dead mining camp for a good many years, but it now begins to look like it would have a genuine revival and take its place among the active producers again.

#### NEWHOUSE INTERVIEWED.

In an interview with a representa-tive of the Pioche Record, Samuel Newhouse, who visited the mines of Pioche last wek, is quoted as having

Principle last week is quoted as having said:

"I have looked over the Susan Duster, mine of the Ohio Kentucky company, Prince consolidated and Boston-Pioche, and made a general survey of all the properties and dyke country to the east, including Mr. Freundenthal's "Wide Awake" claim. I have seldom seen a country where the order in the country I have traversed, and that is so responsive to development and with such good results. Take for instance, the Boston-Pioche property, which is the east extension of the Yuba Mine belonging to the Nevada-Utah. It seems to me as if the management of the Boston-Pioche merely

had to organize its plant and with a magic wand, touched by that grand old prospector and miner, Mr. Lloyd,

find mineral

find mineral.

"I think all of the mining claims along the Spring Mountain on the easterly and westerly strike will have the same results arrived at by the other big mines of the camp, by the employment of a little money.

"The same may be said of the properties belonging to the Lincoln Nevada Mining company and the properties now being worked by George Weddell of Engiand. This gentleman's last strike in the Ely Valley is a most important find, and I believe is the beginning of a great nine.

portant find, and I believe is the beginning of a great mine.

"Perhaps a solution of the reason why the outside world have so long been kept in ignorance of your camp is because of the inactivity of the two large companies who own the greater acreage of the camp. The reason that impels them to remain thus inactive is best known to themselves, and I would not care to discuss it, further than to say, that the sooner these two companies get together and arrange their differences, the better it will be for Pioche camp, as well as for the companies themselves."

#### CONCENTRATES.

M. M. Johnson of the Newhouse en-gineering staff will leave for New York again during the week.

Samuel Newhouse is expected to return to the city from Goldfield during the latter part of the week.

H. B. Cole, the well known broker, has returned from a trip abroad where spent several months very pleasantly

Another shipment of ore from the Bingham Central Standard mine in Bingham is expected in the local market this week.

An assessment of one-tenth of a cent a share on the stock of the Great Copper King Mining company is pending and become deliquent July I. The property of the company is located in the Draper mining district. The Manhattan Ore Reduction & Re-

fining company at Manhattan, Nevada, has announced that in the employment of help there will be no distinction between union and non-union men hereafter. The management proposes to have an open camp. The Tonopah scale of wages will be paid.

The Nevada Hills, says a Nevada exchange, has ore in sight and blocked out in sufficient quantities to keep that mine in operation for many months, if not years, to come. There is ore in all the workings, and of high grade in value, and the strike on the 150 foot level, the same ore body struck again on the 200 foot level, being of a sulphide character, proves conclusively the permanency of this property as a producer. The Nevada Hills, says a Nevada ex-

TODAY'S MONEY MARKET.

#### TODAY'S MONEY MARKET.

New York, May 25 .- Close: Money on call easy 1¼ at 1¾; ruling rate 1¾; closing bid, 1¾; offered at 1¾ per cent. Time loans somewhat firmer;

days 2½ per cent, and 90 days 2¾ per cent; six months, 3½ at 3¾ per cent. Prime mercantile paper 314 at 4

per cent.
Sterling exchange easier with actual business in bankers' bills at 487,10 for demand and at 485.25 for 60 day hills Commercial bills, 48456.

Bar silver, 53¼. Mexican dollars, 47c. Government bonds steady; railroad bonds irregular.

## STOCKS SHOWED MORE STRENGTH

on the tape was of Brooklyn Transit at an advance of 2¼ over Saturday in consequence of the veto of the Coney Island 5-cent fare bill. Subsequent transactions showed that only a few other stocks were supported for frac

ville & Nashville, Baltimore & Onio, American Car, American Sugar, Anaconda and others.

General Electric sold at a decline of 4 and Pacific Mail 2½. Secondary quotations showed better prices in some cases and the tone became somewhat irregular.

The market turned upwards and converted some of the early losses into gains of a point or more. The standard railroad stocks were bought heavily around the low prices and led the recovery. The market receded again, Reading losing its early gain.

The vigorous rally having demonstrated the effectiveness of the supporting measures; the buying was cut down. Prices wavered from time to time. Central Railroad of New Jersey declined 5. St. Louis & San Francisco first preferred 4, Cleveland, C. C. & S. Louis preferred 2½ and Kansas & Texas preferred 2½ and Kansas & Texas preferred 2½. Northwestern advanced 2¼ and National Lead 1.

Bonds were irregular.

The market became very dull for a period after 12 o'clock, prices were well sustained around the high level. Northern Pacific gained 1.

The market fluctuated aimlossly within a narrow range but prices did not recede from the high level. The local traction group and the Eries were conspicuously strong.

The market closed strong. Prices advanced another stage in the final hour Union Pacific, St. Paul and Reading were lifted 2½, Southern Pacific fand United States Steel preferred 1½. Pennsylvania, New York Central, Great Northern preferred, Anaconda, American Cotton Oil, North American, Westtinghouse Electric and Mackay companies 1.

## Annual Insurance Reports Show Interesting Figures.

Reports from 35 life insurance companies filed with Secretary of State Tingey show some interesting figures as to insurance statistics of the state for the past year. These reports show that policyholders in Utah last year paid \$1,362,723 in premiums, and that \$255,810 was paid out by the companies in 1907 for death losses. The 2 percent tax levied against the companies neited the state \$27,854 in the year, and other revenues amounted to perhaps \$5,000 mprc. In new business written, the Great Western Life ied all companies with \$1,363,840, on which \$32,-

PEERY WILL ST ORE WOOL

Telephones Secretary Stewart That He

Will Join Co-operative Scheme

Of Growers.

Henry Peery of Ogden, a heavy ship-

per of Utah wool, is the latest west

ern man to join the co-operative plan of the woolgrowers to protect their interests from eastern buyers, intent upon securing the Utah clip at a ride

upon securing the Utah clip at a ridic ulously low figure. Mr. Peery today telephoned Secretary Stewart of the association, pledging that he would store all of his wool and would work for the storage plan.

"Last year," he said, "wool was perhaps 25 or 30 per cent higher than it is this year, but the prices offered hereby the buyers is less than 50 per cent of last year's prices, and that leaves

of last year's prices, and that leaves them a clear 25 per cent of profit for themselves, which the sheepmen can safely figure on by shipping to Phila-

delphia and Boston, and then awaiting the commencement of buying by the manufacturers."

manufacturers."

The identity of the eastern broker whom the wool men have brought west to advise them on the situation has now become known. He is G. Winthrop

Coffin of Coffin & Son, Philadelphia, Pa., and his opinion is that the good staple clips should sell at a reason-able figure, which is not being offered

here.
The Utah clip of 12,000,000 pounds isonly a portion of a total western clip of 190,000,000 pounds, which is now being gathered from points west of the Mississippi with 60,000,000 to be figured on from the other side of the big river.

er.
Support for the plan of holding possession until prices that are more reasonable prevail has increased rapidly since the exact nature of the fight with the buyers became known.
"They plan" said E. H. Callister in discussing the problem "to make even from the Utah growers on their last

year's losses by taking the wool that is now in storage at a cost of 25 cents

adding a like amount of this years' clip at 9 cents, totalling the cost and dividing it by two and by selling near this price, equalize their ledger. It's all very fine for the buyers, but it is hard

the growers here."
From the banks has come considera-

ble support to the wool men, and promises have been extended to advance money on storage wool. Cashier C. S. Burton of the State Bank of Utah when

Burton of the State Bank of Utah when asked for his opinion on the storage plan said: "I favor it for the Utah growers. They should not get as low ts 9 cents. but should get nearer 13 or 15 cents and I believe they will make this figure by storing until the market is lively through the purchases of big clothing factories for the fall suitings. Wool men, however, should not forget that the nation as a whole is pressing up its last year's suits this spring, and wearing a patch on the worn out portions. Demand for woolen goods therefore has become less lively through the hard times."

from the Utah growers on their

New York, May 25,-The market open unsettled and for the most part other stocks were supported for fractional gains, while wide declines were registered throughout the general list. Losses ran from I to 1% in Union Pacific, St. Paul, Atchison, Missouri Pacific, Wabash preferred, Kansas City, Southern Erie Norfolk & Western Chesapeake & Ohio Southern Rallway, Louisville & Nashville, Baltimore & Onio, American Car, American Sugar, Anaconda and others.

General Electric sold at a decline

KANSAS CITY.

Kansas City, May 25.—Cattle—Receipts, 5,000, including 400 southerns; market 10c igher. Native steers, 3,000/4,00; native cows and heifers, 2,750/6,25; stockers and feeders, 3,250/5,50; bulls, 3,50/25,60; calves, 3,75/26,50; western steers, 5,00/26,75; western cows, 3,50/25,50.

## WOOL.

CHICAGO. CHICAGO.

Chicago, May 25.—The wheat market was firm at the opening today, the trade being chiefly in July and September. Receipts in the northwest were small, and Liverpool cables were firm. Heavy rains in the southwest which may delay harvesting formed another bullish factor, July wheat opened 14 @ 3 to 3, @ 12 higher at 90% to 90%, and sold at 91@ 91%.

higher at 30% to 30%, and so 30%.

Corn was quiet and easy. Trading in the May option was dull and prices were off 1. Receipts were liberal, and the weather in the corn belt was considered favorable. May corn opened ½ to ½ liwer at 75½ to 75½ and sold at 75 July corn was unchanged to ½ lower at \$55% to 66% and sold at 65% \$65%.

The oats market was dull and steady. July oats opened unchanged to ½ high-

# fore has become less lively through the hard times." On the part of the buyers there is less hope now than formerly to get extensive control of the Utah clip, and they offered Enos Bennion this morning to take his wool on consignment, giving him the market price for twhenever he is willing to let go. The offer was not accepted, as Mr. Bennion considered it part of the general maneuver to control the clip and dictate terms to buyers later on. Mr. Bennion leaves for Vernal tonight after putting his wool in storage with the association. association.
