Columbus, O., 10.—No additional returns of consequence have been received here this morning except from private dispatches and scattering telegrams. On what has been received, however, the democrats claim that Hoadley is elected by 9,000, and also the legislature. They claim that Hoadley is running ahead at Cincinnati, and will have 4,000 majority in the county. The republican committee thinks that Hoadley's majority will be from 3,000 to 4,000, and that Rose will be elected. Governor Foster thinks Hoadley's chance the best, but does not abandon hope of either the Governor or Legislature. News from Cleveland indicates that Hoadley will have a small majority in the county with the legislative ticket four democrats and two republicans. The republican headquarters are still hoping for a change. The democrats claim the legislature by five and the republicans the Senate by one.

CHICAGO, 10.—Secret service officials here report the arrest, at Grand Forks, Dakota, of three men, supposed to have been engaged in printing and circulating spurious ten dollar silver certificates. The chase made by the secret service men was a prolonged one. It was learned that various parties on the line of the Northern Pacific railroad had been victimized. The men employed are named Walters, formerly of Quebec; James McGovern, of Montreal, and a man named Chambers. The detectives found all the paraphernalia for carrying on counterfeiting. They discovered also four copper plates for printing \$5 and \$10 bills on the bank of Montreal. The latter plates were fine ones and morticed in such a manner that the check numbers and bank officials' signatures could be changed at any time.

The meeting does not seem to have been entirely harmonious, the majority favoring breaking cars at Albuquerque, N. M., but the following arrangement was finally made. Through Pullman sleepers from St. Louis and Kansas City to San Francisco. The St. Louis route is via Frisco to Halstead, Kansas; Atchison, Topeka and Santa Fe from Halstead to Albuquerque, Atlantic and Pacific from Albuquerque to the Needles, and from the Needles to San Francisco. By the Southern Pacific from Kansas City the route will be by way of Atchison, Topeka, Albuquerque, thence as before. Pullman sleepers will start from the termini of the route Oct. 20th. The time is 12 hours, and 250 miles shorter than the present Deming route. In the district of the Rocky Mountains, geographical and geological work was pursued with vigor, particular attention being paid about the region near Fort Wingate, and the region near the Yellow-stone Park. Hoffman carried on successfully the work of mapping the New Idria quicksilver region. All the above-mentioned important geological work has been well done, particularly that in Colorado, where, in view of the great interest manifested in artesian wells, especial pains have been taken to make geological researches which would be particularly useful.
