

SALT LAKERS IN GOTHAM.

Special Correspondence

NEW YORK, March 16.—Prof. Horace Cummings, superintendent of Church schools, who arrived in the city a week ago, has been busy from the moment he came until his departure Saturday. Friday evening he addressed the Mutual at mission headquarters, giving most interesting advice to all present. What time he has given to his friends has been greatly enjoyed by them, the only regret being his limited stay.

Prof. Cummings is here on two important missions, first to see to the publication of his text book, "Nature Studies" of the eight grades, a course for each year written under agreement and adopted before published, (a most unusual thing). The American Book Publishing company is now reading the manuscript and from all indications a speedy publication is promised. The business next in hand that brings the professor so far from home, is to endeavor to secure a share of the Rockefeller educational fund

for the Utah schools; Utah holding third place in the Union in educational interests is certainly entitled to a share of the great gift. The western state is well represented in Prof. Cummings, he having been closely associated with the schools since he was a very young man, and being thoroughly capable in every way of representing the cause of education.

Mr. and Mrs. Schuyler Constant and son left for the west Friday evening, intending to remain away until the middle of May. Mr. Constant will visit the mining properties of Nevada and Mrs. Constant will go on to Los Angeles after staying awhile in Salt Lake, where her parents are living at present.

The De Witt Clinton High School is giving another of its dramatic exhibitions this spring. Mr. Dan McQuarrie, son of President McQuarrie, who has been in the studio for several weeks, has shown his sympathy in the subject so near Mr. Cummings' heart. Success in both enterprises.

amount of school work this year he is forced to decline and is devoting himself to study entirely. The De Witt school ranges highest here and its amusements like its study course, are of great merit.

At 50 west Thirty-sixth street, Mrs. Helene Davis has bought out the Gaston-French millinery, and with the assistance of Nathan Clark, the young milliner designer, will go into business at that well known emporium. Mrs. Davis' brother, general manager of Pittsburg, is visiting with the Davis and Summer families on west Forty-fifth street, and will be here for several weeks.

Mr. and Mrs. C. W. Sells of Colorado Springs are here visiting with their sister and brother-in-law, Mr. and Mrs. John P. Meakin, on West One-hundred-and-Forty-fourth street. Mr. Sells, who is president of the Elks Peak railroad, is in New York twice a year owing to business, and is always glad to meet his Utah friends. Mr. Richards' brother, Atty. Tom S. Richards, has been in the studio for the metropolis a month or February, but left for home some time ago. Mr. and Mrs. Dewey Richards were among the guests at the great literary reception given two weeks ago by Martha McColloch Williams. These receptions are among the most exclusive of our literary events, many leading writers being present. Edith Wharton, a guest of the Salangundi club and the Dutch Treat club, whose members are the "Life" publishing association, and whose entertainments are the most

sought after of any art clubs in the city.

Mrs. John P. Meakin, who arrived in this city March 8, to visit for a month, will remain with her son and wife, Mr. and Mrs. Chas. W. Meakin, at 217 West One-hundred-and-Forty-fourth street. Mr. Meakin leaves for Buffalo this week, where he gives a lecture on the 14th, before the society of "Eagles," being a great favorite in that city. Mrs. Meakin will visit the places of interest during her short stay.

Mr. and Mrs. James Hendrickson of McDonough street, Brooklyn, has numerous relatives in Utah; Mr. Hendrickson is a woolen contractor and his son James is a mining engineer in Salt Lake, the University club being his headquarters. Mrs. Hendrickson is a cousin of Mrs. Alex Fyfer of the Twelfth ward, their mothers being sisters. Miss Hazel Taylor of Provo first made her home with Mr. and Mrs. B. W. Kohn, when she came east to study music. Miss Taylor and Miss Nona Ellison were guests of Miss Mamie Hendrickson last week at a dinner party, where Miss Ellison was able to give her hostess much information regarding their relatives in Utah. Mr. and Mrs. Hendrickson are charmingly situated in their home in Greater New York, and cordially welcome Salt Lakers when they meet them.

Mrs. Hattie Carter of Salt Lake, cousin to Miss Kate Thomas, who has been here nearly three weeks taking a course at the "Mitchell" tailoring

school, will leave for her home the coming Saturday. Mrs. Carter has been an inmate of the Thomas household since coming to New York, and has been able to take advantage of the operatic and theatrical season, which has been in full play the last six weeks.

Elder J. Milton Beck, who has been visiting with relatives in Trenton and other cities in New Jersey, turned over his field of labor in the Brooklyn conference yesterday, having had a most enjoyable time with his people and removing an amount of prejudice among his relatives there.

At today's chapel services President McQuarrie gave a lecture on the "Relationship of Church and State." In interesting talk that was listened to by a large congregation. This is the second of the lecture series to be given this spring by the elders and other speakers, who are residents of the "colony." Miss Hazel Taylor, accompanied by Mrs. Stuart Kohn, sang a sacred solo in a most sympathetic and beautiful style.

JANET.

CURES OLD SORES.

Westerville, Ohio, May 5, 1907. Last Saturday, Mrs. E. C. Shaw Liner, most cured an old sore on the side of my chin that was supposed to be a cancer. The sore was stubborn and would not yield to treatment until I used Shaw Liner. She did not work in short order. My sister, Mrs. Sophie J. Carson, Altonville, Mifflin Co., Pa., has a sore and sometimes she has a cancerous sore and uses Shaw Liner. Sold by Z. C. M. Drug Dept., 112 and 114 South Main St.

Consular and Trade Notes.

CONSULAR-GENERAL WILLIAM H. MICHAEL furnishes figures to show that the sea-borne trade of Calcutta in 1906 was an expansive one. The total value for the eight months from May to December, inclusive, increased over \$3,900,000, the \$4, from \$2,166,666 to \$2,521,000.

According to a French consular report there is an increasing demand in the Canary Islands for all kinds of furniture, due to the growth of Las Palmas and to the extensive building of villas and hotels among the islands. The principal business is done in light goods supplied by Spanish manufacturers.

The Kirin Brewery has been sold for \$1,000,000, gold, to a Japanese company, states the Deutsche Japan Post. The Kirin brewery dates from 1888, when it was registered in London, England. British firms have always been German. The new company has been formed by the partner of the firm Heidya G. Yone. This firm has for many years held the general agency for the whole of Japan.

Consul-General Günther writes that in the winter 1906 there departed from the port of Hamburg 173,483 emigrants, exceeding the number leaving from that port in the preceding year by about 30,000. The following countries were the chief contributors to

the exodus in 1906: Austria (Bohemia), 36,647; Hungary, 28,582; Russia, 71,221; Germany, 26,057. Of the latter, 19,127 went to the United States, 9,047 to Argentina and 4,876 to Great Britain.

The British consul at Panama reports that the shareholders of the Central and South American Telegraph company have unanimously approved the project of the directorate to lay a direct cable between New York and Panama. The distance is to have a length of 2,200 miles, and there will be only one intermediate station, namely, at Baracoa, Cuba. The same company proposes to introduce into the service a telegraph line along the routes of the railway companies of Oran, Argentina and Buenos Aires, on the Pacific, and the establishment of a regular telegraph between Buenos Aires and Valparaiso. All these improvements are to be put in operation in 1907.

DO NOT BE IMPOSED UPON.
Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great popularity of Foley's Honey and Tar, many imitations are offered for the cure. There are worthless imitations, similar sounding names. Beware of the genuine Foley's Honey and Tar. It is a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. Sold by F. J. Hill Drug Co.

SALT LAKE'S SUPREME EASTER CARNIVAL OF VALUE GIVING

WHAT GRAND NEW WASH GOODS FOR SUMMER WEAR.

What a wonderful display—how good and how attractive! We are pleased in comparison with the prices other stores ask that's what well posted customers said here last week—and every word was true, too.
