

SPECIAL BUSINESS NOTICES.

To the Citizens of Salt Lake City.

The small pox of Ogden City has proved to be of a very malignant and fatal character.

All persons suspected of having been recently exposed to the disease should be immediately placed in quarantine.

Railroad conductors and train hands in general are respectfully requested to watch their trains closely, so that no infected individual be brought to this city and allowed to mix with the public.

Disinfectants should be profusely used every passenger car, box car and caboose, that are constantly on transit between this city and Ogden.

A kettle of burning tar should be kept in each car sufficiently long to permeate every interspace and crevice with the fumes thereof, at least three times a week.

Carbonic acid and water, 20 per cent solution, should be sprinkled freely over the floors and platforms of every car, every day.

I trust that all railroad officials and others throughout the city and county will take all possible preventive measures to keep away the dreaded scourge from their midst.

Respectfully,
SEYMOUR H. YOUNG, M.D.,
Quarantine Physician for Salt Lake
City.
