NEW YORK.

Resolutions favoring the repeal of the income tax—convicted and sentenced—A big lawsuit.
 NEW YORK.—The Union League Club, to-night, adopted resolutions in favor of the repeal of the income tax.
 E. Cary has been arrested for the embezzlement of \$3,000 from the Erie Railroad, as a ticket seller at New York.
 Margaret Daly, charged with the murder of her uncle, the Rev. P. B. Daly, an ex-Catholic priest, was yesterday found guilty of manslaughter and sentenced to four years in the Penitentiary.
 The city is vigorously contesting the right of the New York and Harlem Railroad Company to take a certain portion of the Fourth Avenue and other public streets, up town, for a new depot. The arguments in the case commenced yesterday before the general term of the Supreme Court.

OHIO.

Fatal Railway accident—Convention of manufacturers and inventors—The Sangerfest.
 CINCINNATI.—A freight train on the Louisville and Cincinnati Railroad ran into a hand car to-day and instantly killed James Dugan.
 A convention of the Manufacturers and Inventors of the North American Continent, is proposed to be held here about the time of the industrial exposition, in September next.

The concert of the Sangerfest to-night, was a grand success; fully 15,000 people were present. The orchestra contained 1,600 performers and the chorus 1,500 singers.

ILLINOIS.

Woman's Rights Convention—More about San Domingo matters.

CHICAGO.—The Iowa Woman's suffrage Convention met at Mount Pleasant to-day; there was a large attendance. Speeches were made by male and female speakers.

The Times' Washington special says there was quite a scene in the San Domingo investigation committee to-day, when Consul Perry, who was being examined, stated, in reply to a question from a Senator, that Howard had tried to influence him not to write a report to the state department on the imprisonment of Hatch, saying that he, Howard, would make it all right with the President. Howard, who was present, denounced the statement as false, but Perry reiterated and took out some of Howard's cards, with the memoranda pencilled on the back.

The Tribune's Washington dispatch contradicts the rumors that Secretary Fish is about to resign or that there is any disagreement between him and the President. The resignation of Hoar is solely in pursuance of an intention long since announced. There has been no difference between the President and the Attorney General, and there is no cause for believing that the resignation indicates any general change in the cabinet. The President's Cuban message was under consideration in the cabinet for at least two weeks before it was sent to Congress. The best information leads to the conclusion that it was written by the Assistant Secretary of State, Davis, and revised by Secretary Fish and Attorney General Hoar.
 The majority of the San Domingo committee will report, exonerating General Babcock from the charges made against him by Hatch; while the minority hold that he has not fully cleared himself from the mud.

FOREIGN NEWS.

WEST INDIES.

Prisoners executed—Rebels released.
 HAVANA.—Gutierrez and Peralta, two of the men captured on the Cairo cruise, were executed on the 3rd inst. The Captain General, on his birth-day, liberated twenty-seven rebels, mostly negroes.

MEXICO.

Earthquake.
 CITY OF MEXICO.—An earthquake, on the 11th of May, was felt at Tabasco; all the churches and nearly all the private dwellings at Nahuatl were thrown to the ground; near Pachuca the roads were rendered impassable by rocks from the mountain sides.

PRUSSIA.

African gold mines worthless.
 BERLIN.—Hew Hubber, sent by the Prussian government to inspect the gold mines in the southern part of Africa, reports that they are worthless.

FRANCE.

Monopoly relinquished—Municipal elections—The Emperor better.
 PARIS.—The French Cable Company has relinquished the monopoly it enjoyed of landing cables on the coast of France in exchange for the right of amalgamating with other companies. The municipal election occurs throughout France at the end of July.
 The Emperor is much better to-day.

ITALY.

Heavy silk crop anticipated.
 FLORENCE.—A heavy silk crop is anticipated in Italy this season.

CREAT BRITAIN.

Ironclad launched—Dickens' property—Sugar trade brisk—Heavy showers—Interesting Will case.

LONDON.—The ironclad *Swift* and *Sure* was successfully launched at Jarrow, Durham, yesterday.
 The *Irish Times* says Dickens left a fortune of £80,000 sterling. Six monthly parts of the "Mystery of Edwin Drood" are finished, and the rest of the story is outlined as to leave its completion easy. It is understood that Wilkie Collins will undertake the task.
 There were, yesterday, unusually heavy transactions in the Havana sugar market.

Heavy thunder showers have prevailed here nearly all night, but it is feared that they come too late for the wheat crop on the light lands.
 In the case of Hill vs. Ribbles, where in the property of the late N. W. White, of Yorkshire, amounting to two hundred thousand sterling, was claimed by a daughter born in New York, the claim was barred by proof of a valid Scotch marriage previous to that in New York.

Correspondence.

FARMINGTON, June 16, 1870.

Dear Bro. Cannon.—The liveliest institution in Farmington, except the Committee of Arrangements for the 4th of July, is the Female Relief Society, presided over by Sister Sarah J. Holmes.

By invitation I attended their annual business meeting, held yesterday, 15th, at the meeting house, at which a report of the preceding year's financial matters was read, and a full account of the amounts received and disbursed by the Society was rendered. The report showed the Society in a prosperous condition, due not so much from the amount of means handled, as from the energy, perseverance and good business tact displayed by the managers. Although the people did not need the report to tell them that much good had been done by the Society, yet they were much gratified to hear a detailed statement of their doings, and could not but acknowledge that the great good done had been accomplished with very small means.

The meeting was addressed by the Bishop and several brethren, who gave excellent instruction, expressing themselves very much gratified with the progress the Society was making, extended their promises of aid with their means and influence to further its object and growth, and all coincided in the assertion that the Female Relief Society was one of the most useful and worthy institutions in the valleys, and capable of doing an immense amount of good.

We have a prospect of probably half a crop in Farmington. The people feel well generally. Those interested have, with very few exceptions, donated the portion of land required by the U. C. R. for their track and buildings to the Company; the few who have not yet done so were away from home when the deed was in motion, and no doubt will conform to the spirit of the majority, when they have taken a little time to think.

Yours truly,

AMICUS.

IRON CITY, June 6th, 1870.

Dear Brother:—Gratitude is a rich boon to those alone who can and do express it. This privilege I avail myself of at present for myself and also in behalf of the Iron Company, for the courtesy shown us, in you, towards our Superintendent, Dr. Scheuner, while on a visit to your city. The Dr. expressed himself thus of you, when I quitted how he was received, &c.: Said he, "Had I money, Mr. Smith should never want. He reminds me," says he, "of a barrel of good wine, the longer it's kept the better it grows." We are only reassured by this that we may be confirmed in the fact that you remain a steadfast friend to the iron interests of Utah. I would to God there were more than there now appears to be. Without iron railroads will be of little benefit to us. Without iron we cannot compete with either the East or West in agricultural or mechanical pursuits. With it we are comparatively independent; without, miserably poor! We shall make the grey cast iron. Who, we again ask, will purchase it of us for the price of freight? My whole soul I have thrown with all my means into the works, and can live to produce iron when, if it falls of a market, I must again resort to my profession for bread for wives and little ones. I feel best when engaged in fostering the manufacturing interests of our Mountain Home, and cannot perceive how we can succeed as a people only through Home Manufacture. Grey cast iron is the foundation of all successful iron works, and I trust President Woodruff and the Board will encourage its production as well as other iron by liberal premiums.

Zinc and copper abound in our vicinity. Unsurpassed is the zinc in richness and quantity, assaying from 60 to 75 per cent. It is easily worked, and can be brought into use for wash tubs, wash boards, buckets, bowls, piping and the various uses that tin and brass are used for. It can be produced for 10 or 15 cents per pound. These items I think I would like consideration and I desire to promote their production. I feel the want of a response in my feelings to our enterprise by the Editor of the NEWS. I may be wrong; but my feelings are that we will succeed, and we would like to have the record of the present I read to future generations—that it may be seen that unaided we labor for the cause of Zion. I am offered a press, type, &c., if I will advocate the mining interests of Southern Utah. I shall not accept, but the iron, copper, the zinc and tin business should be encouraged by our leaders and it will be a success.

For our people to control the iron business of Utah is of more importance, in my judgment, than to own the C. R. railroad, and will prove more lucrative, for without iron I can not see what we can, or hope to, produce for exportation.

With my own means I established the oil business in St. George, and expect to be a principal in placing on a solid basis, the iron works; but I hope to meet with more encouragement in iron than I have had in the oil business. You will excuse my iron mania. I am interested, or I should not live and work as I do. A railroad near us must shortly be built and a telegraph. Commercial relations will be extended to us so soon as iron can be put in market. Southern Utah must be provided for, commercially, or others will reap the harvest. Therefore I urge our capitalists to send their experts in iron and examine, and, if our deductions are true, lend a hand to fasten an interest that to-day is without moorings.

News with us becomes stale by the time it reaches us,—ten days from your city, a time to us like ox-train days of general prosperity attends the labors of the people, with usual good health. The spring is dry and cool, "hoppers" none. No fears of the Culm Bill,—I never had any. The "New Movement" has only one advocate on the Pinto, the most of us realizing that we have all in old "Mormonism" that we bargained for, and more than we live to and fully enjoy.

Kind regards to all in the office.

Truly your friend,

SETH M. BLAIR.

ELGIN WATCHES!

MANUFACTURED BY

The National Watch Company

All the grades of the Elgin Watches

INCLUDING THE

"LADY ELGIN"

READY FOR

SPRING TRADE.

The company also call the attention of Watch buyers to the fact that the Elgin Watches now offered have an added improvement over all others, in a new

PATENT DUST EXCLUDER

So constructed as to enclose the works, and form a protection against dust, enabling the movement to remain in order without cleaning double the time that a watch will ordinarily run without this protection.
 The company feel confident, after having had their Watches three years in market, in selling many thousands of them in all parts of the country, that the Elgin Watches are the best time keepers now offered to the American public.

OVER FIVE HUNDRED DEALERS

In various parts of the land have unreservedly endorsed them. They are in use upon numerous lines of Railway, including the Union Pacific and the Pennsylvania Central, and officers of these roads, with other prominent officials, endorse them as the best watches for the use of R. R. employees and travelers yet introduced.
 The following are presented as specimens of these testimonials:

TESTIMONIAL.

UNION PACIFIC R.R., OFFICE OF GEN'L

SUP'T, OMAHA, Dec. 16, 1869.

Hon. T. M. AVERY, President National Watch Co., Chicago, Ill.

Dear Sir:—During the month that I have carried one of your "B. W. Raymond" Watches it has not failed to keep time with so much accuracy as to leave nothing to desire in this regard. For accuracy in time keeping, beauty of movement and finish, your Watches challenge my admiration, and arouse my pride as an American, and I am confident that in all respects they will compare successfully in the markets of the world, with similar manufactures of other nations. They need only to be known to be appreciated.
 Yours most respectfully,
 C. G. HAMMOND, Gen'l Sup't.

OFFICE OF THE HUDSON RIVER RAIL

Road, Gen'l Sup't, New York, Jan. 17, 1870.

T. M. AVERY, Esq., President National Watch Co.

Dear Sir:—The Watch made by your company which I have carried the past two months, has kept excellent time. I have carried it frequently on engine, and have been on the road with it almost daily. During this time it has run uniformly with our standard clock.
 Truly yours
 J. M. TOUCHEY, Gen'l Sup't.

The following dealers also, in various parts of the country, have certified that they consider the Elgin Watches to be all that the road with them have advertised them, as better finished, more correct and durable, than any in market of similar price, and that they have great confidence in recommending them to the public, on account of their general merit.
