HAMILTON M. GARRICK,
District Poundkeeper.
Gunnison, June 10th, 1876.

WHAT are the credentials of GLENN'S SULPHUR SOAP? Firstly, it is indorsed by medical men as a disinfectant, deodorizer, and remedy for local diseases of the skin. Secondly, it is an admirable article for toilet use. Thirdly, it is inexpensive. d&w

DIED.

At the residence of Sister Maria Bidgood, 11th Ward, of dropsy, June 14th, 1876, AMELIA CHAPMAN, aged 70 years, 3 months and 10 days.

Mrs. MARY SHIPP GIVENS, daughter of Austin and Louisa Caroline Shipp, June 17th, at 4 a. m., at the residence of her parents, in this city.

Deceased was born Oct. 17th, 1840, in Edinburgh, Johnson county, Indiana; embraced the gospel in 1871, and proved her integrity as a saint of God; and in the relations of life, as daughter, sister, wife, and mother, her example is worthy of imitation. Her last sickness, which was long and distressing, she bore with great fortitude and submission; ever deriving consolation from her trust in God through the faith of the gospel.—[Cox.]

STOLEN.

JUNE 9th, from Tooele, a dapple grey Horse, eight years old, branded D L on the left shoulder.
Any person giving information that will lead to the recovery of the above described horse will be liberally rewarded.
PHILIP PHIDLE,
Tooele City.

SCHUTTLE WAGONS

Still the favorite Wagon in the market, by reason of their strength, durability, lightness of draft and general finish. The improvements which have been made on the Schuttler Wagon have caused the demand for them to increase greatly, and to anyone wishing a wagon I extend the request to call and examine the Schuttler before purchasing, and feel satisfied that the Schuttler will suit you better, and last you longer, without repairing, than any other wagon manufactured.
I carry at all times a full and complete stock, embracing all sizes and styles of Farm, Spring, Freight and Ore Wagons.

Improved Buckeye Mowers & Reapers

Improvements have been made on the Buckeye for this season, which place them far in the lead of all competitors. All the gearing is now completely covered, rendering it impossible for dirt and grit to get into the gears. No wood is used in the construction of the Improved Mower, and all machines are built with a simple arrangement for raising or lowering the guards. As Mower, Dropper or Self-Rake, I assert that the Buckeye is the best machine in the market. It is the simplest in construction and the strongest built, the afore the most durable and easiest managed. The Improved Buckeye is the lightest draft machine in the market, and for doing good work in grass and grain has no superior. Every machine fully warranted as represented.

ELWARD HARVESTERS!

The only Harvester in the market which saves all the shelled and headed grain, and the only one upon which three binders can bind at the same time. Many valuable improvements have been made in the Elward Harvesters, to which attention is called. No timber is used in the construction of the Elward but what has been thoroughly seasoned. It is strongly and well built, and I will guarantee the Elward to be the best Harvester offered for sale in Utah.

SWEEPSTAKES THRESHERS!

Pronounced by practical Threshmen to be the best Thresher, to give entire satisfaction to customers, and the only Thresher which has successfully stood the test of properly and thoroughly threshing Utah grain. It is simple in construction, built of the choicest material throughout, and all the wood used in them is thoroughly seasoned. The Sweepstakes Separators this season will be built with enlarged Riddles and wider Elevator Cups, besides many other improvements, and I am positive that anyone who purchases a Sweepstakes Thresher this season will get the best which is manufactured. They are easily managed, sets table to get out of order, and lighter draft than any other Thresher sold. I will warrant them to thresh and clean the grain thoroughly as fast as it can be fed to the machine.

THE FURST & BRADLEY Sulky Hay Rake

Has never failed to give perfect satisfaction to the purchaser. I have sold hundreds of these Rakes in Utah, and in every case the verdict has been "the best Rake I ever had in my field. All materials used in the construction of these Rakes are of the very best quality. The Rakes have high wheels, broad tire, finely tempered spring steel teeth, are easily managed and will leave a clean field every time.

ARCHER SELF-DUMPING RAKE

The latest designed, very simple in construction, having none of that intricate mechanism which has heretofore always been the objection to Self-Dumping Rakes, especially for raking on rough ground. The Archer Rake is strong and durable, and as an evidence of their superiority over all other Self-Dumping Rakes I will present the fact that it took the First Premium for Self-Dumping Rakes by a unanimous vote of the Committee at the last "St. Louis Fair," when were entered in competition all other Self-Dumping Rakes manufactured in the United States.

NOTICE.—I make it a strict rule in my business to always have on hand a full and complete line of Repairs for all machines I sell. For Circulars, Price Lists and all desired information call on or address
