Irrigation Loans from State Land Fund, Approved by Upper House-Irrigation Districts Fixed.

The senate held a long uneventful session yesterday in which 11 bills were disposed of seven being passed and four killed. The death of the four measures was accomplished merely through adverse committee reports. There was no measure before the senate upon which there seemed to be a division of sentimeint, which of course precluded any spirited debating. Perhaps the most important measure

that was passed was H. B. 64, relating to the inspection of sheep. The only negative vote was cast by Senator Loose. The opposition against the mill, that had been anticipated did not develop The other bills that were passed were

H. B. 50, authorizing loans of state land funds on irrigation projects; H. B. 56, permitting the passage of live stock into and out of Salt Lake valley through Emigration canyon, and S. E. 68, establishing a state irrigation and reservoir commission of five to provide for use of national irrigation funds.

The only opponent to Representative Morris' bill authorizing loan of state land funds for irrigation projects was Senator Sherman, whose objection was that the irrigation systems may depreciate in value and the loss would fall on the Senator Sherman was also the sol-

hance to recuperate. Dieting never cures dyspepsia, neither do pills and cathartic medicines, which simply irritate and inflame the intes-

When enough food is eaten and promptly digested there will be no constitution, nor in fact will there be disease of any kind because good digesters. on means good health in every organ The merit and success of Stuart' Dyspepsia Tablets are world wide and ey are sold at the moderate price of they are soid at the hackage in every drug store in the United States and Canada, as well as in Europe.
