

NEW DEVELOPMENTS IN EQUITABLE LIFE.

Supt. Hendricks' Report on it is
Only Preliminary, Not Relating
To Management.

EXAMINATION WILL BE LONG.

Interesting Exhibits May be Expected
—People of the Whole Country
Are Interested.

New York, June 22.—Further developments may be expected before Supt. of Insurance Hendricks gets through with the Equitable Life Assurance society. The report just submitted by Mr. Hendricks is only a preliminary one, which does not contain matters relating to the management now under investigation. These lines of investigation may produce, it is understood, as interesting an exhibit as those to which investigation has been completed sufficiently to be included in the preliminary report.

It is understood that the experts of the state insurance department who are working on the society's books will require four and possibly five months to complete their examination of the company's financial affairs.

Attention was directed today to the fact that four of the Equitable officers mentioned in the report of State Supt. of Insurance Hendricks as drawing salaries for the last five years are no longer actively connected with the company.

E. W. Lambert appears in the report as medical director, with a salary of \$2,000 a year. He died 13 months ago, and yet, according to the table, his salary was paid this year and last. Edward Curtis, who figures as medical director, at \$15,000 a year, resigned that position 18 months ago. George H. Smith, who is now a director of the company, is down on the list as financial manager at \$12,000 a year, although H. H. Winthrop succeeded Mr. Smith as financial manager many months ago.

A. B. Loring is recorded as registrar, with a salary of \$3,500 a year. Mr. Loring ceased to perform the active duties of the registrarship in April, 1903.

Officers of the society today said that possibly Mr. Hendricks had gotten hold of an old list.

August Belmont has tendered his resignation as a director of the Equitable.

Atty.-Gen. Julius M. Meyer arrived here from Washington tonight and will remain in town several days investigating Equitable affairs. In an interview tonight Mr. Meyer said:

"It is manifest that the people throughout the whole country are profoundly interested in the affairs of the Equitable Life Assurance society. Therefore I think it fitting to say that appropriate steps will be speedily taken by me.

"First, to accomplish the return to the Equitable of any profits wrongfully made or retained by reason of trust relations.

"Second, to debar from holding office in this company any person who has been faithless to his trust or who violated any provision of law.

"Third, to obtain an accounting for any waste or misapplication of funds for any reason or by any body.

"There are certain other matters of importance which I am studying, but to which it would be premature to refer in detail. It might be, for instance, to the interest of the policyholders to learn the character of and the occasion for some of the legal services paid for during the past few years. But above all inquiries as to the alleged delinquencies the greatest necessity of the situation is that the rights of the policyholders in all respects be ascertained as clearly and as completely and as quickly as is legally possible. In this and in other particulars I shall try my best to obtain results.

"If any crime has been committed by anybody, that situation is manifestly for the district attorney."

A close friend of the attorney-general stated tonight that the attorney-general would have the rights of the policyholders ascertained by the courts.

GOVERNOR SPEAKS.

Albany, N. Y., June 22.—That Gov. Higgins regards the report of Insurance Supt. Hendricks upon the Equitable Life Assurance society as worthy of the attention of the criminal authorities of New York county was made plain by him today when he broke his silence on the subject of the Equitable situation by a reference to the commission. "The general not stealers having been among the laws violated in the management of the insurance company and by the announcement that he had sent a copy of the report to the district attorney."

NORWEGIAN NATION.

Formal Notice of its Creation Received at State Department.

Washington, June 22.—Formal announcement of the creation of the new nation of Norway reached the state department today in a report from the American consul-general at Christiania, Norway, transmitting a note from the Norwegian minister for foreign affairs, in which the minister says:

"I have the honor to request you, directly or through the ministry with which you are corresponding, to acquaint the government of your country with the contents of the enclosed documents, in which a translation is submitted."

The documents include the letter to King Oscar and the resolution of dissolution, and other resolutions, setting forth the details of the separation of the two countries.

No action has yet been taken by this government toward recognizing the new

BAD BLOOD CAUSES

ANKLES AND LEGS TO SWELL UNTIL MAN CAN SCARCELY WALK.

Mr. Hoar Suffers for Six Months Before He Finds the Simple Treatment Which Restores Use of His Limbs.

"People can cure themselves of a good many common ailments at a very small cost if they go about it in the right way," said Mr. Hoar, recently. "For instance, I have just cured myself of a very annoying trouble. I might have begun to treat it sooner, that's all the mistake I made in the matter. But I found the root of the difficulty and I picked out the right remedy without the aid of a doctor."

"What was the matter with you?" "It was really all in my blood. I first felt a twinge in my left foot and ankle in the middle of last January, following exposure to cold. I realized I had a little rheumatism and I knew that really comes from bad blood. Cold simply develops it. Then my hands and feet were cold and clammy even in hot weather, and numb a great part of the time. I concluded that my blood was thin and poor and the circulation sluggish."

"Did you do something right away to improve your blood?" "No. As long as I could get about all right, I was careless. But finally my feet and ankles swelled so badly that I could only tie my shoes half way up. After that my legs swelled terribly, until I could walk only a short distance before giving out completely, and it caused me a great deal of discomfort to walk at all. Then I felt something had to be done at once."

"What did you do?" "I was getting on towards July then, and I saw that my blood had been getting poorer and poorer for six months. I looked around for the best blood remedy that could be found. When I read of the cures of all kinds of blood diseases that had been effected by Dr. Williams' Pink Pills, I was convinced that they were just the remedy for my case, and so I proved. I could see that they were benefiting me before I had quite used up the first box. The improvement was decidedly marked after I had taken two boxes. Three more boxes restored my hands and feet and legs to normal, cooling the feeling and then I stopped taking medicine and have since been perfectly well."

Mr. F. LeRoy Hoar lives at No. 122 Constitution street, Bristol, R. I. Any one can readily tell for himself when his blood is thin, by the pallor of his skin, the bloodlessness of the lips and gums particularly, and he can be certain that his blood is impure when the limbs swell and rheumatic aches are felt. Any one can get convincing evidence that Dr. Williams' Pink Pills have cured anemia, rheumatism, erysipelas and other serious diseases of the blood by simply writing to the Dr. Williams Medicine Co., Schenectady, N. Y. Every druggist sells these famous pills and knows that they deserve their great reputation as makers of pure rich blood.

It is understood that Washington will await the initiative of European powers directly interested.

CASTRO'S LATEST MOVE

Establishes Custom House at

Caranero, Injuring La Guayra.

Washington, June 22.—The state department has received official advice of the establishment of a custom-house at Caranero, 75 miles east of La Guayra, Venezuela, by order of President Castro of that country, dated May 22. The action has aroused intense interest here, in view of the fact that it will very materially diminish the hypothesized customs revenues of La Guayra, just as the port of Puerto Cabello was affected by the recent establishment of a custom-house at Ocumare del Costa. Thirty per cent of the customs revenue of the ports of La Guayra and Puerto Cabello is pledged to the creditors of Venezuela.

The customs port of Caranero is the center of a famous moon-growing district, the product of which has hitherto been exported to the United States and Europe by way of La Guayra. Shipments hereafter will be made directly from the newly opened port, thereby seriously affecting the commercial interests of La Guayra, the present emporium. Six other custom-houses have been established by executive decree within a few months.

VERY BAD ACCIDENT.

Horse Backs Buggy Filled With

Family Over Precipice.

Ballinas, Cal., June 22.—News has been received here of an accident on the Central grade, in which Mrs. A. Housatoff and eight children were injured. Mrs. Housatoff is thought to be fatally hurt.

Mrs. Housatoff, who lives with her husband on the George ranch in Carmel valley, was returning home with her children in a buggy. The horse took fright and backed over a bluff, plunging over a steep bluff about 200 feet high. The injured woman and children were discovered by persons passing and given assistance.

The horse was killed and the buggy was demolished. It is thought that Mrs. Housatoff's spinal column is broken.

Forest Fire on Valdez Island.

Vancouver, B. C., June 22.—A forest fire is raging in a valuable timber tract on Valdez Island, on the British Columbia coast 200 miles north of Vancouver. The location of the fire is about 10 miles from the coast. The fire has been burning for three days. If the high winds prevailing continue the value of the timber destroyed will amount to hundreds of thousands of dollars.

Montana Japs Celebrate Victory.

Missoula, Mont., June 22.—Japanese residents of western Montana to the number of 100 celebrated Togo's victory tonight with speeches and fireworks. Prominent Japanese addressed the little group of men in English and their mother tongue. Great stress was laid on prospective peace and each sentiment was heartily applauded. Rainy weather prevented an elaborate parade.

NATIONAL GOOD ROADS CONVENTION

Portland, Or., June 22.—The second day of the National Good Roads convention, being held at the Lewis and Clark exposition, was filled with addresses and profitable discussion.

On convening of the association, President Moore, while the reading of the first order of business was the reading of communications from Congressmen J. H. Bankhead of Alabama, Hon. W. M. Hay, assistant secretary of the department of agriculture, Postmaster General Cortelyou and Secy. of Agriculture James A. Wilson, all expressing regret over inability to attend.

The report of the committee on credentials followed and was accepted. It recommended the recognition of all registered with the secretary, and all who may register as members of state, county or municipal organizations.

Judge John H. Scott of Salem, Or., delivered the opening address of the day. His subject was the development of the good roads movement in Oregon, supplemented by remarks on the desirability and practicability of road construction by convict labor. A strong appeal was made for convict road building.

Other speakers were the Hon. Martin Dodge and James W. Abbott, representative of the road division of the government.

A serious discussion exists in the ranks of the National Good Roads association whether an election of officers shall occur at this meeting. According to the best information, when the association adjourned after its meeting at St. Louis last year, it adjourned to meet in Portland, Or., and did not adjourn "since die."

It is over the construction of the motion to adjourn that the difference of opinion exists.

According to the contention of President Moore, who says there will be no election held here this year, the meeting at Portland is but an adjourned meeting of that held in St. Louis. More than this, he says that this was expressly agreed to by Col. Richardson.
