Tariff Reduction and Genuine Reciprocity Inscribed on Democratic Banners.

PATERNITY OF STAND PAT POLICY

Attributed to Gen. Grosvenor-lowa Idea-No Free Trade Party in United States.

Washington, March 28 .- Representaive Champ Clark of Missouri today added a comprehensive chapter to the ampaign material of the Democratic party in the delivery of a carefully prepared speech on the tariff question in the house, Mr. Clark said in opening: "We go forth to battle with 'tariff reduction and genuine reciprocity' in-

scribed on our banners." He then drew a line of demarkation between the tariff ideas of the two parties and dwelt at length on the "stand pat" declaration of the Republicans. He called attention to the dissenting element of that party, who, he said, marched under the banner of the down idea" and inferentially he

classed this element as Democrats, "Republican harmony, which they spell with a big, big 'H,'' said Mr. spel with a big, big H, said Mr. Clark, "is only on the surface, while Republican dissension pervades the g. a, p, through and through. They may be able, by hook and by crook, to get together for this election, but that there will be a sloughing off of the party which will amount to a split in the near future is indicated by all the signs of the times.

That Col. Roosevelt will be nominat. ed appears to be a certainty, but hun-dreds of thousands of Republicans will support him under protest. The 'stand patters' will make the platform, but a large majority will receive it sullenly. In fact, the reading out prochas already begun.' Clark referred to Representa-

tives Hepburn and Grosvenor as "lu-minaries of the first magnitude in the ongressional galaxy, and high priests

in the temple of protection." He took Mr. Hepburn to task for saying in a speech that the production of pig iron in this country had in-creased from 11,000,000 tons ten years ago to 44,000,000 tons in 1902. Mr. Clark declared that, in 1902, the production n the United States was 17,821,300 tons. He then quoted Mr. Hepburn's state-ment, in this same speech, "I live in s county of 24,000 people, a farming community. There is not a protected industry in that county," and com-mented on it as follows: "By that one declaration, unwitting-

ly uttered no doubt the gentleman from Iowa answers completely all the Republican speeches, editorials and essays as to how the high tariff helps

their connection with postoffice leases

Representative Overstreet, chairman

of the house committee on postoffices

and post roads testified that the orig-

general investigation of the postoffice

department had been referred to a sub-

committee of the house postoffice com-

mittee. In January the Hay resolution,

calling for additional information, was

referred to this sub-committee of which

was owned by members of Congress. During the hearings on the postoffice appropriation bill Mr. Waters, chief of the salary and allowance division,

made reference to a list which includes the names of members of Congress re-

on the file of the fourth assistant." It was suggested that a letter be written

from the committee to the postmaster-general, asking for this information. Mr. Overstreet dictated this letter Jan.

forth by Mr. Williams, the minority leader. "It is," he said, "an authori-tative statement upon which we are willing to stand in the pending cam-paign and hereafter. It is the Democratic party believes that when on any articles that go to Cuba or any other people on the face of the earth you get an agreement to reduce the burdens of their consumers by reducing the duties in their markets, you have conferred a benefit upon their consumers and also on the American producer, because you enable the consumer in Cuba or elsewhere in any country en-

tering into these reciprocal relations, to get the product at a cheaper price. That enables those who have been buying it to buy more, and enables those who have hitherto not been able to buy any to buy some, and that in-creases the volume of the consumption of American products and benefits the American producer by enabling him to sell more goods at the old profit, and thus both parties to the trade are benefited.'

The "stand pat" policy, Mr. Clark at-tributed to Gen. Grosvenor, who he said, was interviewed shortly after the election in Ohio in November, 1901, and in exuberance of spirit, said re-garding the election: "It means that there is no more prospect of the Ding-ley tariff rates being tinkered with than there is of the ten command-

ments." Mr. Clark spoke of the "Iowa idea" as expounded by Gov, Cummins and

said: "By advocating the 'Iowa idea' Goy. Cummins has become the bete noir of the 'stand patters' and they would ex. communicate him from the Republican church without deal and without ceremony were they not afraid that, like Samson, he would pull down the temple upon their heads as well as upon his own.

The recent efforts of the American Publishers' association, convened in New York to enforce the anti-trust law against the paper trust and declaring itself in favor of removing tariff duties on pulp and white paper, was dis-cussed by Mr. Clark. This association, said he, was largely Republican in membership. "When consumers of the articles controlled by trusts in general have raised a howl, these same Rep lican editors who now split the welkin with their protests against extortions of the paper trust have looked on with a sardonic grin on their faces and have about as much sympathy for the vic. tims as the old woman had for the eels squirming in her hot skillet. In three Congresses I have introduced bilis to place wood pulp, white paper and all the ingredients into the comthe cause of this reduction in price of and all the ingredients into the com-steel, which was the discovery of the position on the free list-one of the preparations now urged by the Publishers' association as a remedy for trusts. The other day, in the committee on ways and means, I called up my bill to place wood pulp, white paper and the ingredients thereof on the free list. Every Democrat in the committee voted for the bill and every Republican voted against it. They being in the majority, it was defeated." Mr. Clark declared that there is no free trade party in the United States and quoted at length the Democratic position as outlined by Mr. Williams, the minority leader, in a magazine ar-ticle, the position taken being that that for revenue only" was the doc. DIED OF PNEUMONIA.

Two Members of Philippine Commission to World's Fair.

St. Louis, March 28 .- Two Filipinos have died and three are seriously ill from pneumonia contracted during the trip of the members of the Philippine colony at the world's fair from Tacoma, Wash., to St. Louis. The dead are: Falayay, a member of the Manguiane tribe, and Ibay, a Negrito. There will be no native funeral rites, and the bodies have been placed in zinc coffins so that they may be sent back to the Philippines should the governor of the islands so order.

Aquino Pardoned.

Washington, March 28.-Following the recommendation of Secy. Taft, the president has granted a full pardon to Servillano Aquino, the brigadier general in the Philippine insurgent army who was sentenced by a military commission to a long term of imprison ment for having, it was alleged, ordered the summary execution of five American prisoners during the insurrection in the Philippines.

SULLY'S CREDITORS.

His Proposition is to Pay Them 40 Per Cent Cash. New York, March 28 .- The following

statement was given out today by John R. Dos Passos, counsel for Daniel J. Sully "Mr. Dos Passos, counsel for Mr. Sul-

ly, appeared before the committee of creditors in the cotton exchange this fiernoon and stated in behalf of Mr. Sully that the latter desired to have his affairs arranged and adjusted immediately, and he authorized a proposition to his creditors of 40 cents on the dollar cash, payable within 30 days, and the balance in notes, without interest,

payable in one, two and three years. "In addition to the above, he proposed to assign to a committee of creditors all the rights, title and interest of the firm of D. J. Sully & Co., and D. J. Sully, individually, in the claim or claims which they, or he, have against Hawley & Ray, arising out of their joint transactions and operations in cotton. "The committee has no power to ac-

cept the proposition of Mr. Suily, but it was agreed to immediately confer with the receivers and with the creditors of D. J. Sully & Co., for the purpose of receiving authority to act on the proposition."

It is understood that the creditors' commaittee will meet tomorrow. The books of the Sully firm, it is said, show assets of \$1,100,000 as a minimum

Gen. Chaffee Thinks Some of Them Are Objectionable.

Washington, March 28 .- Secy. Taft has forwarded to the senate military committee, with his approval, a letter written by Gen. Chaffee, chief of staff, opposition to certain features of the bill providing for the purchase of camp sites for military mane overs at Conewago valley, Pa.; at Fort Douglas, Wis.; at the Henry ranch, in California, and at Fort Sam Houston, Tex. He suggested that an appropriation of \$2,-000,000 he made for large maneuvering camps, and that their selection be left to the decision of the war department after further investigation of the sub-

members, who thought, in view of the exaggerated report in the paper, that the real facts ought to be printed, because after that publication there was and always would be a controversy as to whether the committee was really suppressing something that was a se-rious reflection on members. It was not until after this publication that the subcommittee took formal action and re-ported to the full committee. When the full committee had acted, Mr. Overstreet ordered advance copies from the printer for the press. It was not until after the report had been received and distributed in the house that it was discovered that at the head of each page was the following line: "Charges Against Members of Con-

gress."

He at once ordered the public printer

to take that line off. Mr. Richardson asked Mr. Overstreet if in his conversation with Postmaster General Payne the latter had suggested

the impropriety of publishing the names of members in this connection. Noth-ing was said on this point, replied Mr. Noth-Overstreet. The original manuscript of the report was produced and Mr. McDermott, after examining it, said that the line "Charges Concerning Members of Congress" did not appear in it, and must have had its origin in

the government printing office. McCall informed Mr. Overstreet that Mr. Wynne, the first assistant postmaster general, had testified that a list was prepared first without the names of members and that this list was ob-

jected to by the postoffice committee. Mr. Overstreet: "I made no such request.

REPUBLICAN CONVENTION.

Sub-Committee Meets and Discusses Preparations.

Chicago, March 28 .-- The sub.committee of the Republican national convention having in charge the arrange-ments for the national convention in

this city met today with the local com-mittee to discuss the preparations that have been made at the Collseum, where the convention is to be held. All arrangements made by the local committee were approved by the mem-

bers of the national committee. It was explained to the members of

the national committee at the outset that Chicago had never promised to put up for the use of the national commit-tee such a sum as \$15,000, nor, in fact, had it promised to put up any sum of

noney at all. What it had promised was to pay all the bills of the convention, and this it ould do.

Harry S. New of the committee sug. gested that there were some things for which the national committee would be compelled to pay and he thought it well if the local men would place a cer-tain sum at the disposal of the national committee. This the local men agreed to do as

nce, and the amount suggested by Mr. New-\$5,000-was promptly arranged for. It was decided that all the bills for the convention are to be turned over to the local committee and they will pro-vide for their payment. None of them will be presented to the national com-mittee—which will be under no obliga-tions for any of the expenses attendant upon the holding of the convention. In going over the arrangements made

for scating it was found that the total number of seats in the hall will be 8,428. Of these 500 will be on the stage and 275 will be for the press. There will be 990 seats for delegates and the same number for alternates, leaving 5,673 for the spectators.
