L. B. MATTHEWSON,
Blue Front, near Seventeenth Hall.
dew 17

The Firemen have secured the services of the Australian Wanders and Little Lottie, who will give two performances at Fuller's Hill on the 10th, at 4 o'clock and 8.30 p.m.

Like the Fortune Teller from beds of flowers is the breath that has been rendered agreeable and with SOZODONT, which communicates to the teeth a marble whiteness, and to the gums a rosy glow. Use it, and beautify your mouth.

Travellers often wonder why their fellow travellers are so fond of their prize of the Colomado Hotel, Philadelphia, but, after a visit themselves, they are satisfied of its famous excellence.

GILBERT'S EXTRACTS. The best in the world.

No DISCOVERY IN MEDICAL CHEMISTRY has been productive of such benefit to the human race as GILBERT'S SULPHUR SOAP.

All kinds of diseases of the skin are speedily eradicated by it and it is at once the best and most inexpensive cleanser and emollient of the complexion in use. With a box of this soap, which only costs 50 cents, all the advantages of a series of sulphur baths, which cannot be enjoyed without incurring considerable expense, are secured. Nothing opens the pores so effectively and so unobtrusively as this soap. All complexional defects are obtained by its use and it invariably mitigates rheumatic pain. Sold by all druggists.

HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c. dw

TERRITORIAL Scrip taken at the Commission House, Old Constitution Building, John C. Culter, agent.

Great reduction in the price of meat for cash, at American Meat Market.

WM. SHORRY, Proprietor.

ALLIEN'S YEAST POWDER. The best never fails to please. dkw

LOCAL AND OTHER MATTERS.

District Court.—Tuesday, July 10th.

N. S. Rainshoff vs. Henry M. May; motion by plaintiff for judgment upon the pleadings argued and overruled.

Acquitted.—Rory D. McDonald, who was indicted for the murder of John Metz, in Bingham Canyon two or three years ago, was yesterday acquitted by the District Court, there being an insufficiency of evidence to convict him. The defendant and his bondsmen were discharged.

Rip Van Winkle.—At the Theatre, on Monday evening, July 15th, Mr. Joseph Jefferson, the world-renowned Rip Van Winkle, will present his great specialty to the public. The expense attending the engagement of this noted actor has been such as to necessitate the charge for seats at the old rates. The box office will be open on Thursday morning, when tickets for both Monday and Tuesday night's performance may be secured. Mr. Jefferson will only appear two nights, on Tuesday with a change of programme.

Obsequies.—The funeral services over the remains of the late Elder John H. Picknell were held in the 11th Ward Meeting-house, yesterday afternoon, shortly after 2 o'clock. The house was full of relatives and friends of the deceased. The services were conducted by Bishop Andrew Burt, and suitable remarks, eulogistic of the character of the deceased, were made by Bishop Edward Hunter, President Angus M. Cannon and Joseph E. Taylor, Bishop L. W. Hardy, Elder George C. Ferguson, Bishop Jacob Wetler and Elders A. N. McFarlane and James Leach.

Twenty-three vehicles, filled with relatives and friends, followed the remains to the Cemetery.

The Firemen's Day.—This morning, when the Ogden Fire Brigade escorted by the Salt Lake Company, arrived at Firemen's Hall, the former formed a line while the latter filed into the building, the 10th Ward Band bringing up the rear. All entered the upper hall, when Chief Olinger called the assemblage to order and made a concise speech, in which he called to mind the invitation and cordial reception extended by the Ogden Fire Company to that of Salt Lake. He then, in behalf of the Salt Lake Brigade, presented to Chief Keya, of Ogden, a highly ornamented parade horn, as a memento of the occasion, and a symbol of friendship between the two companies. The party then partook of a collation. They have been spending an agreeable day at Fuller's Hill, which is a very pleasant retreat.

The Fire Brigade.—This morning, the Salt Lake fire brigade, accompanied by the 10th Ward Band, marched to the Utah Central Depot to meet the Ogden Fire Company and the Ogden band, who arrived by the 10 o'clock train. The two companies then joined in procession, and, after parading the principal streets of the city and discharging some enjoyable music, proceeded toward Fuller's Hill to begin their day of fun and festive enjoyment. Among other attractions at this pleasant retreat there are to be shooting of glass balls by a Salt Lake marksman, the clever performance of the Australian Lotties, etc., etc. The firemen are bound to have a good time, and they deserve it. The fine appearance of the Ogden Fire Battalion was subject of general comment as they marched through the city.

A Disgraceful Affair.—We are informed that there was a most disgraceful melee at Hill's Farm, in Mill Creek Ward, on the Fourth. Fighting commenced in the early part of the day and continued at intervals till quite late in the evening. There were several bruised heads and faces, and one man has since been compelled to walk around with the aid of a crutch, having been injured in one of his legs. In one instance a pistol was drawn but not used.

Several families that were on the grounds in the morning had to leave early for fear of being injured. There are not the first proceedings of a similar kind that have occurred at the same place. We have not heard that any arrests were made. Such affairs are barbarous and disgraceful, and should not be tolerated. It matters not who are the parties that engage in them.

A Beneficent Project.—Yesterday morning, Mayor Little and Watermaster Hyde took a trip up City Creek Canyon, about 11 miles, for the purpose of testing the feasibility of increasing the supply of water from that source, by opening the springs on the sides of the canyon, and causing the numerous little rivulets and drippings to flow into one common channel to contribute to the use of our citizens. The result of their examination was encouraging, and the intention is to send a company of men up to begin work on the first spring, and thence up to the very head of the canyon, tapping every place that gives indication of containing water. If the execution of the plan be successful, the benefit conferred on the community will be, indeed, a great one. We commend the enterprise heartily, and hope the result will be as fruitful as the idea is good.

City Council.—The Council met, last evening, Mayor Little presiding.

A petition was received from George Danford and others residents of the east bench, south of Emigration Creek, setting forth that they had, some years ago, been granted a portion of the water from Emigration Creek, of which, however, they are now deprived, and asking that a decision heretofore made by a former watermaster be ratified or the matter investigated for action. Referred to the committee on irrigation.

A petition was received from Jonathan Chatterton, asking that his son, James Chatterton, be remunerated for injuries received from a chip flying from a water main on which the city laborers were working, and through which injury the boy has lost an eye and is injured in health. Petition received and prayer thereof not granted, the matter having been previously investigated by council committee and decided adversely.

A petition from Wm. E. Pollard, others, set forth that a number of persons were endeavoring to establish small meat markets in the suburbs of the city, and asking that, as they are unable to do equal business with butchers in the heart of the city, graded licenses be established for the city, and meat markets be permitted in certain localities. The petition was referred to the committee on license.

Petition of Robert Jones and others, endorsing the petition of William Ridd, for the opening of certain streets in the 19th Ward, and asking that certain other streets, in the same locality be opened also. Referred to the committee on streets and alleys.

George Anderson, of the 20th Ward, asked the privilege of conveying water from the sea to mix feed for his cows. Referred to the watermaster.

A special committee, to whom was referred the matter of the amount paid by the corporation for gas consumed, reported as follows: Your special committee, to whom was referred the subject of investigating what amount of gas is used in the street lamps of this city, and why the gas consumed is not extended northward, report that we have had an interview with the superintendent of the gas company, and learn from him that there is a certain amount of gas used in the street lamps, and that they are not able to extend their mains northward this fall, as far as their contract requires them to do. We have also had an interview with the president and several of the directors of the gas company, and learn that by resolution, they have instructed the superintendent of gas works to reduce the price of gas for each street lamp five dollars per annum, from the 1st of the present month. And we learn from the superintendent that their is a prospect of their being able to make a still further reduction on the 1st of January next, owing to the opening of new mines and a consequent reduction in the price of coal. We have made arrangements with the superintendent to him to furnish a meter at the City Hall, and attach it to a street lamp, and place the same in charge of the committee, by which, after a period of time, we can more fully determine the amount of gas used in the street lamps, and the consequent price thereof.

The committee on the report of the street supervisor, reported that they found the supervisor's account correct, and recommended that \$1,555.35 be appropriated to cover the amount expended over and above his appropriation for the three months ending May 31st. Report adopted and amount appropriated.

The committee on the city cemetery, to whom was referred the report of the street supervisor, recommended that the further sum of \$200 be appropriated to carry on the improvements in the cemetery, as desired by the section. Adopted.

On motion, action on the petition of Wm. Ridd, asking for the opening of certain streets, was deferred for one week, until further information should be obtained.

A bill of \$1,129.70 from the gas company for furnishing gas to street lamps and public buildings during the month of June was allowed.

Wm. R. Adkins was allowed \$55 for labor on Union Square.

The ordinance in relation to the city cemetery and section was then taken up and considered. The ordinance, after discussion, was referred back to the committee on cemetery, with instructions to confer with the section.

Adjourned for one week.

Base Ball.—The anticipated match game between the Deserets and Red Stockings, which, if won by the latter, will decide the question of championship in their favor, will come off on Saturday afternoon. Reports have been in circulation that the Deserets intended to engage the services of Messrs. Otero and Blake, of the Denver Club, who are tarrying in Salt Lake, for the occasion. The Red Stockings, on hearing this, very properly declined to play if these gentlemen assisted their opponents, when upon the Deserets disclaimed any such intention, and have avowed their willingness to play their own nine against that of the Reds on Saturday. In the event of the Reds gaining this victory the opinion is that the Deserets will disband, reorganize under another name, with Otero and Blake as members, and challenge the Red Stockings to play again for the championship.

An Act of Heroism.—Yesterday, while Hyrum Scott, of Mill Creek, was narrating the circumstances attending the accidental drowning of the late Levi North, he appeared entirely oblivious to the fact that, in nobly striving to save the unfortunate man's life at the imminent peril of his own, he had done an act of heroism. He made the statement of the part he took in the attempted rescue with great modesty, and only on being directly questioned. He manifested evident feeling when he stated that when, after being swept down the river over half a mile, both sank, he lost his hold upon Brother North and it was impossible for him to again reach him. Hyrum Scott is thirty-one years of age.

Back Again.—Captain Henry Sewell, well known and respected in this part of the country, has returned to the city, after an absence of four years. His purposes residing here permanently.

From Ogden.—Messrs. Richard Ballantyne and H. A. Keiser, of the Ogden Junction, are in the city.

SHORT AND SHARP.

In the third precinct a policeman arrested a man who tried to explain that he was only "weary." The policeman explained that there is arrest for the "weary."

Mrs. D. A. Dodd, of Humboldt, Ia., has given birth to 22 children; seven times she made her husband the unhappy father of twins. When he heard of the arrival of Dodd Jr. XXII, he merely said, "My Dodd!" —Chicago Tribune.

Among the Zulus, a nation of the Caffres, according to etiquette, the mother-in-law cannot face the son-in-law, but must hide, or pretend to hide, behind a wall. Such is this country the custom is reversed. It is the son-in-law who does the dodging.

Mr. Edison has invented a machine for measuring heat, which is so sensitive that the temperature of the stars can be known. Such an instrument is not needed to ascertain whether or not a coldness exists between female neighbors. —Turner's Falls Reporter.

A well-known actress being asked her age, frankly replied: "I have four ages; the family archives unfortunately preserve that I am 35 by daylight, I pass for 35 by daylight not more than 30, and, with all my war paint on, in a soft light and no rude glare, I pass for five and twenty."

Said a Hibernian lawyer of Omaha, in concluding his address at a meeting in commemoration of the death of a fellow-citizen, who had been killed in a railway accident: "Deeply I deplore the calamity which deprived us of our countryman and friend, which he might be alive to-day and maybe with us here on this solemn occasion."

If Adam could, for ten minutes, come to life, would he recognize the old place, the same old city lots, the same old houses, oranges, figs, figs, peaches, pears, and persimmons that he used to name up and chalk down? All would be gone. He would recognize naught. But if he happened to wander into the negro minstrel he could hear the same old joke.

A very genteel appearing young man, wearing kid gloves and carrying a little flexible walking stick, thought he would have a joke with a rustic and venerable farmer on the Fair Grounds, last Tuesday afternoon.

"Halloo!" said the dandy, "are you one of the judges on the hog?"

"Well, yes, walk right up and let me look at you," said the old farmer.

That youth was soon lost amid the crowd, and no other judges on a line saw him.—Woonsocket Patriot.

A "blasting" writer, on the Washington Union, who does not glorify the "old times," thus chuckles over what the "Father of his Country" did not know: We don't like to do it, but we would like to see what our forefathers knew! What, for instance, did George Washington know? He never saw a steamboat; he never saw a fast mail train; he never held his ear to a telephone; he never sat for his picture in a portrait gallery; he never received a telegram; he never dispatched a Krupp gun; he never listened to the "fizz" of an electric engine go down the street to a fire; he never heard of socialism, and he never took laughing gas.
