Became Quieter-Live Stock Firm

-Produce Weak.

New York, Nov. 27 .- Saturday's ex-

ceptionally favorable bank statement,

in Americans in the London market.

Leading international stocks advanced

moderately, Pennsylvania exceptionally

rising 4%. The local market opened

with a great show of animation and

prices better all around. Simultaneous

sales of 12,060 shares occurred in Penn-

sylvania at from 1.351/2 to 1.37 as com-

pared with 1.321/4 Friday. Six thousand

shares of Baltimore & Ohio preferred sold at from 83% to 85, and 5,000 Union

Pacific brought from 50% to 51%.

Changes in some of the specialties were

a point or better in the way of im-provement, but the grangers and south-

western shares varied but slightly. A fierce and sudden raid on leather

dropped it 6 points, and other special-ties were then attacked. Sugar yielded

3 and tobacco and Manhattan a point. This checked the buoyancy in the rail-

way group, and realizing depressed Baltimore & Ohio issues, Pennsylvania

Business was large and the distribu-tion wide but the market became quiet

by the end of the hour. Prices had

reacted in many stocks below Friday's

level. Moderate buying to cover shorts caused rallies in a few shares, and the

strength became quite general by mid-day. Sugar, Baltimore & Ohlo pre-ferred, Burlington, Manhattan and Federal steel were the leaders and

averaged over a point.

Better prices were obtained for bonds.

in middle trade issues. Chesapeake & Ohlo was carried above

Grande Western preferred rose 2. Other-wise the tendency was downward, ac-centuated by St. Paul's decrease in October net earnings. Sugar was forced

down in the late dealings to 1.54, and the steel stocks to a low point. The closing was active and easy at mixed

BUSINESS IS **NOT VERY BRISK**

Petro Shows a Very Decided Gain Over Saturday's Prices.

YANKEE CON. IS WEAKENING

Dalsy Not Materially Changed-Silver King Participates Sacramento Does Heavy Trading.

TODAY'S METALS: SILVER 58% LEAD, \$4.40 CASTING COPPER 1514

Business on the exchange today hardly came up to expectations and with but few exceptions prices ruled weak. Dalsy was a little stronger than on Saturday, but Yankee Con. showed a very perceptible change, selling down to 16. Sacramento went to 30, while Sun-

beam fell back to 621/2 and Tetro to 7. Petro shows a decided improvement, being extensively traded in up to 36c, Star Consolidated sold at 26 and Northern Light at 16%.

Daly-West participated at \$12.00, Grand Central at \$5,51, and Silver King dropped 50 shares at \$52.50.

Buckeye commanded 21/2, while Little Pittsburg changed hands at 5, and Bowers Extension at 6%.

HORN SILVER LOOKING WEL

May Shortly Tap the Vein on the 1100 Level.

coupled with reports of British mili-WILL ENLARGE SMELTER. tary successes, caused heavy trading

> Dexter Looking Fine-Tuscarora Makcing a Showing-News of the Camps.

Though its operations have not been heralded from the house tops, it is nevertheless a fact that the Horn Silver Mining company is making great headway with the system of development work mapped out some time ago. It is stated that the mine is showing up well in response to the efforts being expended on it. Especially is this so of the 700 and 800 levels, where an excellent grade of copper ore is being mined. The silver lead vein shows no signs as yet of giving out and, added to this, the management has developed a fine copper chute from which about 50 tons is mined every week, which assays as high as 25 per cent. The copper vein runs side by side with the silver lead and has now a width of 12 feet in its face. This vein has been opened up on the 700 and 800 levels and the management are at the present time on the point, they believe, of proving its continuation to the 1,100 level. Ex-tensive prospecting work is also being done on the 900 and 1,600 levels and if this big copper chute is proved to exist at the 1,100, as is believed will be the case shortly, it will strengthen the be lief that it will also be found at the 1.600. It is intimated that this old prowhich has paid over 54 millions in dividends, is perfectly able to hand out a Christmas dividend to its stockholders. If it does not do so it will be because of the desire of the conservative men at its head to keep plenty of funds in hand for the big work of de-

RULES FOR LISTING STOCKS. Committee Formulates a List of Questions.

velopment already laid out.

Refined, steady; crushed, 5 9-16; pow-dered, 54; granulated, 5 3-16. A list of twenty-nine questions have been formulated by the chairman of the listing committee of the Exchange which in future will be put to parties Prime mercantile paper, 31/26 per cent. Sterling exchange strong with actual desirous of listing mining properties business in bankers' bills at 4.83@1/2 and 4.87 for demand and at 4.81 for 60 on the exchange board. The questions are asked in order to enable the committee to draw the line between those days; posted rates, 4.82@1/2 and 4.87; others that may have little or no merit. As will be seen from the following rules and regulations it is the intention to have the stock list of the exchange as Government bonds, strong; U. S. 2's reg., 1.01½; 3's reg., 1.09½; do coupon, 1.09½; new 4's reg., 1.32½; do coupon, 1.32½; old 4's reg., 1.13½; do coupon, 1.13½; 5's reg., 1.11½; do coupon, 1.11½. bona fide as possible. In order for a stock to be accepted by the committee the company must own most of the ground. The stock must be assessable. At least 25 per cent of the treasury stock must be sold and the money New York, Nov. 27.-Copper, dull; brokers, 174; exchange, 17; castings, must be in the treasury or have been expended in improvements. There must Lead, quiet and steady; brokers, 4.40; be at least 200 feet of development work on the property. Work consisting of at least one shift of two men must be

in progress.

To be classed among the listed mines the property must have yielded at least \$5,000 net during the previous year as

shown by mill or smelter returns. No stock will be listed if there is an assessment pending; if there is a bond on the property; or if the company is heavily in debt. If at any time the company discontinues work at the mine the committee reserves the right to take the stock off the board until such time as work may be resumed. The committee may take the stock off the board by giving ten day's notice and returning the listing fee; provided that the stock has not been called for six months when no fee will be returned.

FROM THE NEW PASS. This Nevada Property is Showing Up Well.

A report from the New Pass (Nev.), gold mine states that a very fine looking vein of ore is being worked at the bottom of the shaft which is now The vein is three feet wide and yields ore running \$20 a ton. Enough ore has been blocked out to warrant the erection of a new mill of greatly increased capacity over the old one. It is considered that with the ore already in sight enough ore is obtainable for a run of several years, and the owners have decided to begin the erection of the plant in the near fu-

CAPACITY TO BE INCREASED. Plans for Enlargement of the Highland Boy Considered.

Hon. Samuel Newhouse, who is so intimately associated with mining af-fairs in Utah, is here on a short visit accompanied by Hon. George Keppel. The information has been given out y Mr. Newhouse that the capacity of the Highland Boy smelter, of which he is the founder, will be materially increased in the near future. Just when the work of enlarging the plant will begin can not be learned, but the fact that the matter is under consideration points strongly to the undertaking being started next spring.

FROM NEVADA PROPERTIES. Mr. Dern Speaks of His Visit to Several of Them.

George Dern has returned from his trip to Nevada and says that the start-ing up of the new machinery at the Young America at Tuscarora was most successful. It will be remembered that the property is now furnished with a 37-horse power gasoline holst and a 25-horse power pumping engine, which will work a Cornish pump having a capacity of 250 gallons a minute. The workings are down about 200 feet and while lots of water has been encountered, the pumps will be more than suf-ficient to keep the mine clear and allow of the work of drifting both ways on the Poor Man vein being carried on without a break. The ore on this vein goes over \$25 a ton.

The Dexter is reported to be looking well on every level. The work of blocking out ore is still progressing nicely, and only that ore which is in the way of the development work is

removed.

The Tuscarora Gold Mining company is working on the Frank claims. The West Poor Man shaft is now down about 130 feet and drifting both ways about 130 feet and ways are very seed. on the vein is going on. Very good values are said to be obtained, some assaying \$40 in gold. A new working shaft is being put down, which will be similar to the Dexter shaft. It will have a depth of 200 feet when completed.

THE IN THE PROPERTY OF THE PRO better than was expected. The com pany has several cars of ore on the dump which will be marketed as soon as the differences between the team-sters and the management are settled. The shaft is down 130 feet. The ore that has been shipped has been obtained from the 60 foat level, and it is expected that the present drift from the 150 level will show as great things as are seen nearer the surface. It has been decided to expend \$2,500 on the property right away. The improveproperty right away. The improve-ments will consist of a gasoline hoist ore bins and a boarding house, which when completed, will enable the Nevada Mining company to come nearer the front as a producer. The property is located about 15 miles from Battle Mountain.

IN THE COUR D'ALENES. An Immense Amount of Capital Invested There Lately.

State Auditor Sinclair, who has just visited the Coeur d'Alenes, is quoted in the Fremont County News as saying that "The entire district is perfectly quiet and filling up with good citizens. Every mine and hundreds of prospects are working to their fullest capacity. An air of thrift prevails there which An air of thrift prevails there which old timers assure me they never before saw. No man need be one day without work in the Coeur d'Alenes. Plenty of work and the best pay may now be had. More ore is being shipped in the aggregate and per miner than at any time in the history of the district. any time in the history of the district. An immense amount of capital has been invested up there the last three

IRON COUNTY COAL MINES. Church Will Encourage Their Development.

Pres. U. T. Jones returned from the metropolis the first of the week, where he went on business connected with the disposition of the Cedar City Furniture Company's coal properties in Coal Creek canyon, says the Iron County Record. Mr. Jones reports that no sale was made of the properties, but they will be handled by the Church officials in connection with their heldings here, and that it will be the policy of the Church to encourage the development of our resources, by offering their propperty at a reasonable figure to sons who will be likely to push its development. Mr. Jones seemed quite en-couraged over the prospects for the early utilization of our matchless re-

GOLD MOUNTAIN NOTES. Work is Being Pushed on the Annie Laurie Claims.

MacLean and Snyder the contractors on the Annie Laurie are doing work in two tunnels on the property. In the old tunnel on the Senator Stewart which is now in 450 feet they are driv ing two upraises and continuing the tunnel at the same time. The direction of the lessees is to run an upraise every hundred feet and cross cut the ore every fifty feet. At 400 feet the cross cut found the vein 32 feet wide. At the same place the upraise reached the sur-face in 205 feet 180 feet of which was in ore. The ore averages \$35,00 principally

On the Annie Laurie claim a new tunnel is being run which will cut the vein under the Annie Laurie mill at 600 feet. This tunnel is now in 300 feet. A compressed air plant has recently been placed at the mouth of this tun-nel and as soon as the hard formation is struck it will be attacked by Burleigh drills operated by this plant. The work ig done under the direction of A. D. MacLean and Abner Gay.

James Long is working ten men on the Mammoth. The tunnel is now in 800 feet and will steadily progress until The Blue Bird people are working six

men on development work. The Snyder Improvement Co. is working four men on the Surprise shaping things up for a large force.-Richfield

Special Correspondence.

stock is assessable.

Provo, Nov. 25 .- Articles of incorporation of the Black Jack Mining Company were filed with the county clerk

The new company is incorporated for \$300,000 divided into as many shares at \$1 per share. The incorporators, and the number of

shares held by each are as follows: Jesse Knight149,85 Jacob Evans L. Holbrook The company will engage in general mining and milling business. The

The new company own the following patented claims in Tintic district: South Mammoth lode, West Mammoth lode, Black Jack mining claim and the Trail mining claim. Following are the officers: President

Jesse Knight: vice president, David Evans; treasurer, J. W. Knight; sec-retary, Jacob Evans, The above, with L. Holbrook, constitutes the board of directors. The general offices will be Strike at Three Mile Creek.

Ogden, Nov. 27 .- A rich strike is reported in the Posey mining property at Three Mile Creek. The directors of the property have about thirty men working the ore body, which it is said is a bonanza and promises to be one of the best in that district. The gentlemen are laying a track from the mine to the railroad and expect to ship several car-loads within the next few weeks.

BINGHAM'S "WEST DIP." Pole Canyon Shows Shows Some Very Good Rock.

Samples of what is believed to indicate the proximity at pay ore have been secured by Milando Pratt of this city, from what Mr. Pratt terms the "West Dip" of Bing-ham, where some Salt Lake and Eastern people have taken up and are work-ing some claims under the name of the Ensign Gold Mining company. The property is located in Pole Canyon, which is a branch from Pine Canyon, in which the Star Gold Mining company's mines and mill are located. A 6-foot vein is said to exist on the claims of the Ensign company, which is being operated up by a tunned and also by a

ITEMS FROM THE PARK. Improvements Taking Place at the Daly-

Important changes and improvements are taking place at the Daly-West properties, especially in the mill. A Record reporter visited the works on Thursday and was shown through the mill, holsting works, boarding house,

Twelve carpenters are at present at work putting up a forty-foot addition to the north end of the mill to make room for four new Wilfley tables, three of which are now here and the other on the road. They will be placed in a short time. This will make ten Wildeys and hereafter five tables will be run on slimes instead of two as at pres-

From 120 to 150 tons of ore are being run through the mill dally, taken from the second landing to the mill, while four men are kept busy separating first-class from second-class for the sampler. An elevator is to be put in at once to raise the concentrates to the level of the collar of the shaft, so that they can be sent out through the tunnel. The number of seitling tanks is

improvements made as will meet the

increased demands.
Foreman McSorley took the writer through the hoisting works, where there are also extensive improvements under way. The foundation in the engine room for the other side of the Ingersoll air compressor, run by a large Corliss engine, is nearly completed. The com-pressor is at the hoist, and is of the latest improved cylinder. It is to be put in place at once, which will make the compressor a complete 16x42 Duplex, from the Ingersoll Drill company, and one of the best in the State.

In the boller room are three large

bollers; in the blacksmith shop are two forges, employing two blacksmiths and two helpers. The machine shop is busy with lathe, drill press and planer, thoroughly equipped, where are built all the cages, cars, etc., necessary for the mine workings. The carpenter shop, with store roon

overhead, is located in front of the shaft on the second landing, where a number of men are kept busy. mill is working steadily and satisfactorily in every department.

In the mine everything is running smoothly and is responding in a gratifying manner to the efforts of those in

charge in increasing its producing ca-pacity, and before the completion of the spur to the mouth of the Ontario tunnel it will have materially increased. The property is certainly looking splendidly, and over 200 men are employed in At the boarding house great changes have taken place. The old office has

been torn out and this space added to the dining room, which now contains fourteen tables and will seat 100. A new office about thirty feet square, a reception room, toilet and bath rooms, have been added and are now nearly completed with fixtures. Four rooms have been nicely furnished above the office for guests and for the use of the company, while an addition of thirty feet has been made to the bunk house. In the cellar is stored provisions enough for a small army, including potatoes, fruits, meats, etc., and when the writer went down a Chinaman was buslly engaged in dissecting a beef. He

busing engaged in dissecting a beef. He informed us that the entire beef would be consumed that day, with other meats in addition. Everything is kept clean and neat, and a sample of the dinner served convinced the writer that Daly-West fare was far above average. age. ORE SHIPMENTS.

Following are the shipments of ore from the Mackintosh sampler for the Apex v...... Valeo

Total number of pounds2,306,180

MINING NOTES. Thomas Weir left for Tintic today,

Seven cars of ore were at the sampler today from the Centennial-Eureka. The Blue Jay in the Copper Mountain district is working a force of ten The drift from the shaft at the

Bunker Hill was reported last evening to be entering the vein. The Taylor-Burton sampler reported seven cars from Tintic, one from Boise,

Ida., and one from Elko, Nev., today. A car of ore from the Superior, of Boise, Ida., and one from the Baltimore near Elko. Nev., were on the market today.

The Copper Mountain company's property in Beaver Lake district has been bonded to C. H. Smith and company of Denver. It is stated that Aquila Nebeker and

Henry M. Ryan are about to build a \$30,0000 smelter plant in the Buckskin A New York company is reported to

have bonded a large tract of copper bearing ground at Ely, Nev., which is now being prospected. A box of gold cyanides reached the refinery today from the Star, of Pine canyon, and something over 400 pounds

came in from the Nevada Reduction Company's property. R. W. Chapman and Uriah Dudley, prominent mining men of Australia, have gone to Butte, after spending a week of inspection among the mines of

Utah. A contract for 3,000 feet of narrow guage railroad track has been let by the Bingham Copper and Gold com-pany, which, when completed, will enable the company to get up its supplies at much less expense.

A. W. McCune has returned from his

A. W. McCune has returned from his trip to the Stateline and Dear Lodge camps. He has 69 men at work there at present. About \$100,000 has been spent already at the Homestake and Horseshoe properties. The ore is low grade, but with the expenditure of over a quarter of a million Mr. Mc Cune is certain of a good return.

J. A. Brown, who came back from a trip to American Fork canyon en Sat-urday, says that while little real de-velopment work has yet been done there, some of the claims indicate the possibility of a good camp forming there some day. Bingham Bulletin: The Fortune mill

Bingham Bulletin: The Fortune mill foundation is now all ready for timbers, and erection of the building will be pushed to completion. On Wednesday 14,000 feet of lumber had been delivered and 42,000 feet is en route and to be hauled from Leadmill station as wanted. It is planned to have the machine the second state of the second chinery in place and the mill turning its wheels before the close of January. nel. The number of settling tanks is A carload of coal is being received at the showing at Galena, Nevada, was to be doubled at once and such other the Fortune this week.

"J. D. Blunt arrived Saturday even ing from a nine-months solven in Michigan and will spend the summer is Florence. Joe came in over the Buring-ton road and is enthusiastic in his co-mendation of that road's fine. mendation of that road's fine stup-ment, and especially their one-sign run between Chicago and Denver."

Florence (Colo.) Refiner.

If you have ever seen, if you have ever traveled on the Chicago Special the Burlington's "one-night-onthroad" train between Denver, Chicago and St. Louis, you will understand the cause of Mr. Blunt's enthusiasm. Take this train any day in the week it leaves Denver at 2:30 p. m.; and next morning you are in Omaha 8. Joseph, or Kansas City; in St. Louis at Chicago next evening.

Tickets, at offices of connecting lines. Ticket Office, 214 S. W. Temple Street, W. F. McMILLAN, General Agent Salt Lake City. R. F. NESLEN, Trav. Pass & Freight Agent.
