

BUYERS SEEM PLENTIFUL.

Beck Tunnel Recovered Some of Yesterday's Losses-The Closing quotations and Sales.

May Day had the right of way on the floor of the Salt Lake Stock & Mining exchange today. It was the center of attraction for investors and no matter how rapidly it was offered, there were buyers ready to take it up. The stock opened on a sule at 31% cents and no time could it be bought under 30 cents There is every reason to believe it is going higher. The company has several cars of one in transit and when returns come in from these, it is said. some surprises muy be looked for.

Lower Mammath moved up a few points and Beek Tunnel recovered some from the losses it sustained yesterday. New York Bonanza continued weak but did not fall below 26 cents. There was some demand for Thompson and the stock was furnished at 23% cents, closing quotations and sales WAPEL

JOINS IN THE RUSH.

Mrs. Atwood of Idaho Seeks Riches Hidden in Nevada Mountains.

Mrs. E. T. Atwood of Quartzberg, Ida., arrived in Reno early this week, says the Gazette, to look into some pending mining deals, and left this morning for mining districts in the eastern part of the state. Mrs. Atwood is anxious to obtain control of mining properties in Nevada and has consider-oble menay to fuest she already owns able money to invest. She already owns interests in rich mining claims in Idaho, Montana, Colorado and other mining states, but says that she thinks Nevada

states, but says that she thinks Nevada offers the best opportunities for invest-ment and for this reason is anxious to gain control of some claims here. When Tonopah was first discovered by Jim Butler, a mining engineer met Mrs. Atwood in San Francisco and offered to sell her the January mine for \$75,000. Mrs. Atwood wanted to see the property before paying for it, but the mining engineer insisted that part of the money would have to be paid immediately, as there were others who wanted the property and would take it if she did not. Mrs. Atwood refused on these terms and now says that she wished she had taken it on any terms. on these terms and now says that she wished she had taken it on any terms. She will visit Fairview and other camps-in the eastern part of the state and will then go to Tonopah and other points in the southern country looking for claims and investment. Mrs. At-wood is well informed on mining mat-ters and has had a great deal of ex-perience in mining. She has been asso-clated with Schwab and other capital-ists in different mining ventures and ists in different mining ventures and is well acquainted with all the prominent mining engineers.

CON. ALTA CIRCULAR.

Fiscal Agents of Alta Company Out With One,

In a circular put out by a well known New York brokerage firm, the proper-ties of the Continental Mines & Smelt-ers corporation at Alta receive consid-erable attention. The statement is put forth that the tonnage of ore ex-posed has a valuation of \$5,70,000, and that the property is well contened with that the property is well equipped with mill facilities.

"Early in 1903," the circular says, "a contract was made with the American Smelting & Refining company for de-livery and sale of 75,000 tons of ore then standing in the Continental mines and awaiting extraction. In January, 1905, this was amended to cover 176,000 tons, this was amended to cover 176,000 tons, and the new contract gave the com-pany \$3 per ton lower smelting charge on low-grade ores. This concession ap-plied on more than 100,000 tons, giving company advantage of an additional profit amounting to \$300,000." In reference to the lease of the rail-road right of war from Binchers Junc

The reference to the lease of the rall-road right of way from Bingham Junc-tion to Little Cottonwood canyon, which was obtained from the Rio Grande Western road, it is figured that a net profit of \$100,000 annually can be ob-tained from the operation of the line and that the cost of equipping it will quipping it will

ported late yesterday were: Crude ore and concentrate, 32,000; base buillon, \$32,000; gold buillion, \$10,500.

General Manager D. C. Jackling of Utah Copper company, returned from an inspection of the Bingham mill and mine of that corporation this morn-

The Taylor & Brunton smaplers re-ported the receipt today of five cars of ore from Nevada, one from Bingham, nine from Tintic and one from Colorado.

George Gunn is inspecting a mining proposition in the Mason Valley dis-trict in Nevada. It is believed Mason Valley is going to experience quite a boom this year.

The directors of the Utah mine at Fish Springs met yesterday afternoon and posted a dividend of \$1,000, or 1 cent a share. The books close tomorrow at noon, and payment will be made on the 17th inst 17th inst.

Postmaster Stillwell of Alta is down from camp again and says a heavy snow storm raged there yesterday. He predicts the greatest activity in the history of the Little Cottonwood dis-trict this year.

J. M. Daugherty of Omaha, one of the directors of the Wabash mine at Park City, is here for a few days to inspect local interests, after which he will go to the Butte, thence to the Pacific coast for a brief vacation.

The directors of the South Swansea Mining company organized yesterday afternoon with Claude V. Wheeler, president; J. M. Wheeler, vice presi-dent and manager; J. T. Croxall, treas-urer and W. H. Farnsworth, secretary,

The management of the Columbus Extension Mining company, organized last week to operate in Alta, is placing orders for equipment, which includes a compressor plant, power drills, etc. The work of extending the Shakespeare tunnel will soon be inaugurated.

FEET.

dent of the Daly Judge mine at Park City, goes back to camp he will make preparations to begin storing ore from the great shoot encountered on the 1.500 level in the western part of the property. For several weeks Mr. Mc-Sorley has had a force of men drifting two ways on this ore body and when he left the mine yesterday morning it had been opened up to the extent of about 270 feet. No cross-cuts have yet been run, but this will be done right away and when it is done people right away and when it is done people will begin to realize the real conditions as they exist at the Daly Judge at the present time.' The ore on the 1.500 level will bring the company, it was said today by a gentleman who is in close touch with Daly Judge affairs, about 345 per ton. So when Suct. about \$45 per ton. So when Supt. McSorley begins stoping it will be an easy matter for him to move the prod-

easy matter for him to move the prod-uct to market at a very rapid pace. Within the past month, it has been learned from an official, the manage-ment has retired another lot of the cutstanding bonds. Up to date, 97 of them have been called in and can-celled, making a total of \$97,000, which reduces the bonded indebted-nees to \$112,000. At the beginning of the present year.

ness to \$112,000. At the beginning of the present year, the company owed \$209,000, represent-ing the bonds then outstanding, and a \$30,000 overdraft at the Commercial National bank. The latter has been wiped out, in addition to the \$7,000 stated, making a total of \$127,000 cleared up since ore production was resumed about Jan. 1, all of which goes to show that the statements made goes to show that the statements made some time ago to the effect that the company is making a net profit around \$45,000 per month, is substantially correct, although shipments have not been crowded. Now that the 1,590 level ore body

Now that the 1,500 fevel ore body has been shaped up to respond, a not-able increase in the company's earn-ings can be looked for, and that the re-maining indebtedness of the corpora-tion will be paid off within a very few weeks, may be anticipated. The com-pany ought to nay dividends before very many months. very many months. President John J. Daly is still in

NEVADA'S BOOM CAMPS. Sand Springs Discoveries Excite Some

Of Reno's Citizens.

W. W. Sanford, J. N. Ferguson and G. W. Likes, three of Churchill coun-ty's most prominent citizens, were in ty's most prominent citizens, were in Reno yesterday, says the Gazette of that place. They are full of enthusi-asm about the recent mineral dis-coveries in their section, and expect to see Sand Springs, Fairview, Westgate and Monte Christo among the best dis-tricts in the state in a little while. They are the original incorporators of the Sand Springs Muning company the Sand Springs Mining company, and are in a position to speak accu-rately of the situation.

"You can't say too much for old Churchill now," they said yesterday to a Gazette representative. "We are com-ing to the front with leaps and bounds, and we have the gods to back up the excitement. People are pouring into Fairview every day, and many of them are people with money. That dispatch from Salt Lake which says that Fair-view is likely to become a second Com-stock is not far-fetched. Mining men from all parts of the country who have been all over the state say that nowhere have they seen better ledges than we have in Fairview, Sand Springs and the other districts. The only marvel to them is how the coun-

only marvel to them is how the coun-try happened to be passed over for so long, because the ledge crops regularly and has good values from the surface. 'Our company at Sand Springs is go-ing right ahead. We have uncovered the ledge for several hundred feet, and are ready to take out ore on a large scale. We notice that Reno people are beginning to be interested in our disscale. We notice that Reno people are beginning to be interested in our dis-trict, and we welcome them to the field. The Nevada Sand Springs company, in which J. M. Fulton, Hen-ry Anderson and others are interested, and the Sand Springs Extended to And the Sand Springs Extension, in which Judge Curler is one of the main holders, are both good properties. They have started a crew of men at work on each property, and intend to do considerable development work.

"Fallon is the liveliest town of its size in the state, and it won't be long before its population will be in the thousands instead of the hundreds."

STAR CON. MEETING. Big Attendance at Annual Session

Yesterday Afternoon.

As is usually the case when the shareholders of the Star Consolidated meet in annual session, there was a large attendance at the gathering in the offices of that cororation in the Atlas block yesterday afternoon, a total of 222,610 shares being represent-ed

cd. Superintendent J. P. Turner was present and submitted his report, show-log in detail what had been done at the mine during the year. About 3,000 feet of exploatory work was performed, in-cluding the 200 feet of sinking. The superintendent assured share.

The superintendent assured share-holders that conditions at the mine at this time are most encouraging and anticipates some - important develop-ments before the close of the present ments before the close of the present year. Mr. Turner called attention to the fact that the mine contains at the present time a large tonnage of silicious ores that will be needed by the smelters sooner or later, and from which the company ought to derive good profit. It was also pointed out that there are anywhere from 20,000 to 30,000 tons of mill ore that will net from \$5 to \$7 per ton. \$5 to \$7 per ton receipts of the year amounted to

\$28,984,72, and included \$23,602.12 from two assectments, from the sale of 473 tons of ore \$4,62,59, from the sale of 3,159hares of treasury stock \$37, and from ther sources \$132.96.

Disbursements exceeded the receipts by \$174.70. The company's total in-debtednes is \$26,740.61. * As an offset the company has 5,051 shares of stock in the treasury and 100,000 shares up as security against a loan of \$10,009. The

not greatly exceed \$100,000. "Tonnage already available for the oad is considerable," is another tatement. "The Continental mill ends to the market daily about twenbaor statement. ty tons of concentrates, and its mines are preparing to send down from 25

to 100 tons on direct smelting ores daily. The Columbus company's mill is furnishing 20 tons daily, and the City Rocks is beginning operation and will be a large shipper. The Consolidated Flagstaff has 150,000 tons ready for bioment. The Former mine to below Flagstaff has 150,000 tons ready for shipment. The Emma mine is being reopened; the Albion is beginning to ship, and a dozen other smaller prop-erties will contribute in the near future

The immediate saving to operators by use of this railroad assures the line by use of this railroad assures the line a monopoly of the traffic of the camp. Before installation of its aerial tram the Continental paid \$3.75 per ton down on ore and \$10 per ton on up freight. Other mines slightly nearer Sandy are now paying \$3.25 down on ore and \$8 per ton on up freight. "The railroad will be able to cut the up freight expense in two and still make a handsome profit: it will

the up trend expense in two and still make a handsome profit; it will likewise be able to give a rate of \$1.75 and \$2 on ore as agains; the wagon haul rate of \$3.25 and \$3.75." The stock of the transportation com-

rany is being disposed of to the east-ern investor, it is said, around \$10 a share, and for each share issued is also included a share in the mining com-

Lead District, Near Ely, Begins to Attract Considerable Attention.

Special Correspondence. Provo, April 12.—J. F. Brim will jeave for Duck Creek, near Ely, Nevada, in a few days, to superintend the devel-opment of the great lead properties in which he is interacted and the which which he is interested, and in which provo and Utah people have become in-terested through Mr. Brim. He has al-ready mailed instructions to his son, who is in Ely, to put a force of men to work getting out ore. Eastern capi-talists are now inspecting the property with a view to purchase, and a sale may be made. But Mr. Brim is not particularly anxious to sell, as when the railroad reaches the camp, which it will in a few months, he can ship ore right along and will have a paying properties from the start

proposition from the start.

CONCENTRATES.

W. C. Orem has returned from a trip out of town on mining busienss. A steady improvement in conditions at the Emerald mine in Tintic is report-

Col. E. A. Wall spent yesterday in Bingham looking after mining interosts.

Don C. Robbins, well known in local mining circles, has returned from a trip to California.

C. P. Brooks, the well known mining ingineer, has returned from a professional trip to Pioche.

Frank B. Cook has returned from a trip to Stateline, where he has been on professional business.

J. J. Snider has returned from a trip to the property of the Mason Valey Copper company in Nevada.

Purchasing Agent A. E. Hadley of the Con. Mercur Gold Mines company has gone to California for a two weeks' vacation.

J. M. Callow, the well known mechanical and metalurgical engineer, is expected to reach home tonight from his European trip.

C. O. Ellingwood, general manager of the Western Exploration company, returned from a business trip to California last evening.

The ore and bullion settlements re-

PROTEST IS MADE.

By M. & M. Association at Removal of Soldiers From Post.

On account of the diminishing force of troops stationed at Fort Douglas, the Manufacturers and Merchants are not quite pleased at the prospect of still further depleting the station. Accordingly a letter, which explains itself, has been forwarded to the Utah congres-sional delegation. Its text is as fol-"Dear Sir—The executive committee of the Manufacturers and Merchants" association of Utah begs to call your attention to the fact that the orders

attention to the fact that the orders calling the transfer of troops from one military post to another, which were recently given by the war department, will take three batteries from Fort Douglas to other posts. As yet no orders have been given transferring other troops to this post. "The nonulation at Fort Douglas

"The population at Fort Douglas prior to the transfer of the Twenty-sec-ond battery to Fort Russell, exclusive of civilians, was 900 officers and men, With the transfer of the Twenty-second battery, 133 men were removed. With the transfer of the Tweifth battery and the Nineteenth battery, which will take effect April 25, 129 officers and men and 122 officers and men and 132 officers and men, respectively, will be removed. These transfers entail the removal of a total of 349 officers and men and 325 officers and men, respectively.

"The merchants of the state are concerned over the depopulation of Fort Douglas. They estimate that with the three batteries and five companies sta-tioned there at least \$25,000 a month is placed in circulation in this city. This neludes the purchase of supplies for the This mmissary departments and the oney expended by the men in our lo ommissary the

cal markets. "The loss of this volume of trade each month will have a marked effect on business conditions in many lines on business conditions in many lines and I have been instructed to implore you to bring your influence to bear upon the proper officials of the war depart-ment looking toward the transfer of a large body of troops to Fort Douglas. "As you know, the government has recently expended large sums of money to remodeling the nost and making it in remodeling the post and making it one of the most beautiful and substan-tial in the entire country. I trust that you will be able to give this matter your careful attention. Thanking you for past courtesies and expressing the appreciation of the board and the as-sociation for what you may do in this

instance, I am, yours truly, GORDON H. PLACE, Manager Manufacturers and Mer-chants' Association of Utah.

Now are at 25 E. First So. Studio. room 36 Hooper Block.
