

EASTERN NOTES.

Arkansas has 500 miles of railroad equipped and in running order. Three years ago she had only about fifty miles completed.

It is horrifying to be informed that Mrs. Alphabet Southworth has written forty-two novels and that her health is still good.

Appleton's Journal says individuals are often moved by other impulses, but the great motive force of the bulk of mankind is to better their condition.

Mrs. Swisshelm is accused of admiring Horace Greeley through gratitude for personal favor, whereas she declares she was personally unknown to him.

Chung Loo Wing, a Mongolian emigrant agent in Louisiana, has put his convictions into the following formula: "One Chinese man lickee fo niggles annee timee."

The sea captain who can't report a sea serpent on his arrival at New York is considered as a careless, unobserving man, who hasn't half attended to his business during the voyage.

John Clement, of Rock Island, Ill., will never stick his right thumb up to his nose, and wiggle his fingers in derision again, owing to his familiarity with the buzz saw.

Amateur theatricals have become so frequent in New York that it has been found expedient to publish a programme paper for these performances exclusively. It is called the *Amateur Stage*, and is neatly gotten up.

Where there is no law there is no sin—and there is no law against marriage between kindred, except those two laws which we have mentioned. The sin arises solely from the prohibition of law, not from the essential evil of the act itself.—*Catholic Telegraph*.

Prof. Tracy, at St. Louis Farmers' Club, said that dog husbandry and sheep husbandry were two branches of industry which could not be prosecuted successfully on the same farm, and that a good crop each of dogs and sheep could not be raised in the same neighborhood.

The Pekin (Ills.) *Register* reports that at the Orchard coal mines, the other day, while the workmen were "running a fault," they came upon a tree supposed to be black walnut, imbedded in the vein of coal 500 yards below the surface, and from 200 to 250 feet from the mouth of the drift.

A hotel proprietor at Brattleboro, Vt., was fined \$100 for selling liquor to a one-armed soldier, and then turning him into the street late at night in a state of intoxication, where he must have frozen to death had not a friend found and cared for him.

The Brunswick *Telegraph* tells a story of a young widow down on the Kennebec, who said to an acquaintance who was condoling with her upon the recent death of her husband, "I hope you'll excuse my not crying, but the fact is crying always makes my nose bleed."

The Missouri Pacific Railroad has issued an order which imposes on operatives the duty of preventing the public and the press from obtaining any information relating to accidents which may happen on that line. The St. Louis *Globe* characterizes this as an infamous order.

It has been estimated that it would require 4,000 men to be continually at work to supply New York alone with corks, if all had to be made by hand. There are at present sixty manufactories in the country, cutting and supplying corks to the value of \$2,250,000 yearly.

What it costs to "run" Plymouth Church, Brooklyn, a year, is shown in the following figures: Henry Ward Beecher, \$20,000; Mr. Halliday, assistant pastor, \$3,000; Mr. Weld, first sexton, \$3,000; Mr. Raynor, second sexton, \$1,200; music, \$8,000; insurance \$500; current expenses, \$7,000; Plymouth Library, \$700. Total, \$48,400.

Remember that a raw egg will clear your throat of fish bones. Put one in a little hot wine, add some sugar, and the fish bones will slip down all the easier. P. S.—You can take the egg, wine and sugar, anyhow. They're good as a preventive; and you don't know what moment you may get a fish bone in your throat.
