### AN EXCELLENT SOCIETY.

In this issue is published the annual as a very interesting document, show ing the amount of business this 50clety has done during the two years of its existence. It was organized and incorporated in the summer of 1883, by a number of active business men of this city, and its success thus far has demoustrated the need and the usefulness of It in our city.

Tue balance sheet shows \$32,509, bo cis. to \$20 has been loaned out in

The profits of the society are realized from the interest paid by borrowing sioned this, and the new reform meas-

members at the rate of 8 per cent. per annum. Reference to the balance sheet source, Other items of gain are entranceffees, \$ 55.50; fines paid by delinquent stockholders \$151.55; premrums \$45.63; transfer fees \$23.25, making a total income, from all sources 01 \$35,495.05.

The expenses of the society have been very light-only a little over one and a half per cent. of the income. There are other expenses attending the competent examing committee appointed by the board of directors.

There has been \$5,362.50 withdrawn by retiring members, a provision of Gladstone the society allowing stockholders to withdraw the amount standing to their

credit on the books by giving thirty. diys' notice; thus the society hap-oved very useful to workingmen who have contributed small sums in times expose him to the sneers of the "mob" or prosperity, and when business has when "British homan" seems to be as-become dull have withdrawn these safed and the war spirit is in the air, savings to help them through the winter.

Zion's Benefit Building Society was, not organized for the purpose of man-ing large profits for its investing means. For this retirement. This step, it is probable, will involve more bers, but rather with a view of making than the r sig. atlon of his office; he is merchingion than they were not creased secretion and expectoration.

FRENCH,

a dividend of 96c per share on the firs' series stock-invested two years-and 24c per share on the second series stock-invested one year-and a re- | dens of an expensive and bloody war. serve fund of \$221.30.

The dirst series stock represents \$12. paid in 24 monthly contributions of 50c each; the second series represents \$6, paid in 12 monthly contributions of 50c each; hence the dividend declared is equal to eight per cent. per annum for the average time invested.

This is a remarkable showing when it is remembered that the money is loaned at the reasonable rate of eight per cent. per aunum; and is due to the economical management and the compounding of the interest, which is paid monthly and re-loaned to other members:

Building Associations are doing great good in the Eastern States, but we write advisedly when we say that none are based upon fairer or sounder fluancial principles than Z. B. B. S. I: is so evenly balanced between the investing and borrowing meniber, that it is difficult to tell which receives most benefit from menibership. The investor gets a fair return for the use of his money, and the borrower only pays an equitable interest for his ioan, and the loan is repaid in such small monthly payments that it is no burden to the borrower. At the same tim : provisions are made that a member may repay his loan wholly or in part at any time, without

object. Here we see a body of men small sums-which is loaned immedistely to one or more members to bulk! homes: the borrower gets the benefit of the lowest cash rates for material and work, and his house built quickly in consequence of his having the money. Employment is thus furnished our builders, our city is improved by the erection of a better class of dwellings, and the members who do not borrow are benefitted by the accumulation of their savings increased by the addition of yearly dividends. Zion's Benefit Building Society

should receive the recognition of our citizens and all who have a desire to benefit the community and our beautiful city. They should identify themselves with it to help increase the good it is accomplishing.
