Big Fire at Fall River.

FALL RIVER, 28.—This evening a
fire was discovered in the picker
house of the Fall River mill. The
discovery of the flames was made
from a belt box on the main belt in
the engine room of the lower story
of the picker house, and spread like
lightning to the upper story. The
magnificent structure was of granite,
five stories, and constructed and
equipped at a cost of \$800,000; main
building 390 feet long by 50 wide.
The picker house is also granite,
three stories high. Most of the
workmen had gone home nearly an
hour before. In fifteen minutes the
lower story of the main mill was
wrapped in fire, which burned
fiercely, the flames issuing from the
roof and every floor of the mill. Fif-
teen minutes later every piece of fire
apparatus in the city was put in ser-
vice. Directly opposite the burning
mill was the Wampagan mill, an-
other massive granite structure, 150
feet away. A strong northeast
wind blew a cloud of burning cin-
ders straight against it. It seemed
at one time as though this also was
doomed, and word was telegraphed
to New Bedford, Taunton and New-
port for assistance. Meanwhile the
fire raged on the point kept gaining
headway in spite of the efforts to
check it, and soon the entire south
end of the mill was burning. Floors
began to fall and walls fell, and
then the wind changed to the west,
and the fire leaped from every win-
dow. The wind carried a blazing
cloud of sparks a distance of a quar-
ter of a mile. Flames were leaping
fully 50 feet in the air, and the
tire mill was a seething furnace,
against which the streams of water
were of no avail. Wampagan mill
was saved with only slight damage,
as were also the Sierston houses, the
nearest of which was less than 200
feet from the burning mill. The heat
was so intense that walls of houses
1,000 feet away were heated and the
paint blistered and cracked. Burning
masses of cinder fell on roofs at con-
siderable distances. Large blocks of
granite were hurled 100 feet when
the east wall fell. The loss, includ-
ing mill, machinery, and goods in
process of manufacture, will be near
\$1,000,000, not more than \$500,000 in-
surance. \$300,000 in eastern com-
panies. The mill had a capital of
\$800,000, and a large amount of the
stock was held by men who can ill
afford to lose it. The total number
of stockholders is nearly 200. The
mill employed 500 hands, had 50,000
spindles, and an annual production
of 13,000,000 yards of print cloth.
The strikers were greatly annoyed by
lack of water.

Sunk in the Sea.
SAN FRANCISCO, 28.—A Victoria
dispatch says: The British man-of-
war *Kingfisher* returned from the
west coast of the island, bringing
news that the wreck, previously reported,
is the bark *Melville*, 934 tons, Capt.
Edward Harlow, owned by E. F.
Harlow & Co., of Freeport, Maine.

The *Kingfisher* sailed for San Fran-
cisco on the 18th inst. and was wrecked on
a reef off Hesper Harbor on the 10th
inst. All hands were doubtless
lost. The body of a lady, who was
in the ship and supposed to be the wife
of Captain Harlow, and four male
bodies were washed ashore, and
buried by the Catholic priest at Hes-
per Harbor. The captain has two chil-
dren on board as well as his wife.
The vessel went to pieces shortly
after she struck.

Poisoned.
SHEPHERD, 28.—Eight colored
people were poisoned on the Wallace
plantation at Parry in Bolivar, Ala.,
by mistaking arsenic for yeast pow-
der, and using it in bread. All were
very sick at last accounts.

775,000 Fire
EAST SAGINAW, Mich., 28.—A
fire this evening at the lumber dock
of Hamilton, McClure & Co., six
miles below the city, destroyed
600,000 feet of lumber, together with
the dock and trains. Loss \$75,000;
insured.

Thrown from the Track.
BOSTON STATION, 28.—The St.
Louis express on the St. Louis, Al-
bany & Pacific, was thrown off the
track by a misplaced switch; John
McSwain, fireman, killed.

More Victims.
BUFFALO, 28.—Mrs. Regar, one of
the family of persons poisoned by
arsenic at Parry, Ala., yesterday, died.
The others are very sick.

North Adams, Mass., 28.—W. Mc-
Donald, another victim of the recent
L. W. disaster, died this morning,
the seventy-third since Saturday.

Yellow Fever.
PENSACOLA, 28.—Thirty-three
new cases; one death.

Brownsville, 28.—Col. Lester, of
the Nineteenth Infantry, who was
down with the fever, is convales-
cing.

Washington, 28.—A general naval
court martial has been ordered for
the trial of Captain Warren Hop-
kins, charged with unauthorized
conduct in having deserted his post
at the navy yard, Pensacola, on the
first appearance of yellow fever.

More Conspirators.
WASHINGTON, 28.—The Star
Route scandals now seem likely to
break out in a new place. Accord-
ing to the latest story, several offi-
cers and clerks in the Department
of Justice are to be discharged for
revealing the secrets of the prosecu-
tion to the defense. Several persons
are said to be implicated in this
business. During the investigation
and trial of the cases, it was noticed
that the defense had important infor-
mation early as the government itself,
and this led to an examination,
which it was disclosed the fact
that clerks were betraying the
department secrets. The scandal in-
volves some quite prominent officers
at the department.

Foreman Dickson, of the Star
Route jury, was arrested this morn-
ing. He was arraigned in the Cir-
cuit Court and gave bonds of \$5,000
to appear. Counsel for Dickson asked
for an early trial, and Judge Small
said he would take the case in order,
beginning with that against
Paine on Tuesday next. During
the colloquy between counsel, Smith,
for Dickson, commented on rather
severe remarks upon Brown's absence,
to which Gov. Wells replied: "If
his client wanted him he had but to
event out a warrant against him in
Philadelphia; that the statutes pro-
vided for such cases."

New York, 28.—Washington spe-
cialist A. Story is on the streets to-
day, the effect that Richard D. Evans,
late disbarred clerk in the Depart-
ment of Justice was transferred to
the Postoffice Department because

he was charged with having given
information about the inside work of
the Department of Justice to the
Star Route scandal.

Reform.
Constantinople, 28.—The British
ambassador has invited the Porte to
turn its attention to the reform of
the judicial system, and to the
reform, particularly in Armenia,
conformably to the Berlin treaty.

Starvation.
Berlin, 28.—Three hundred per-
sons on Story Island are without
food, and other portions of the popu-
lation of western Ireland are threat-
ened with starvation.

Sir Garnet Wolseley.
Gen. Sir Garnet Wolseley landed
at Dover this afternoon from Egypt.
He was enthusiastically received by
the British authorities, and was wel-
comed at the station by Gladstone,
the Duke of Cambridge, Earl Granville
and the Duke of York.

SUNDAY SERVICES.
The regular Sunday services of the
Church of Jesus Christ of Latter-day
Saints were held in the Assembly
Hall, on Sunday, commencing at
2 p. m.

The choir sang the hymn on page
380:
O thou, at whose supreme command
The hosts of darkness fly,
Grayer by Elder F. A. Mitchell.
The choir sang the hymn on page
308:
Jesus, one of humble birth,
Now in glory comes to earth.
The sacrament was administered
by the Priesthood of the Fifth
Ward.

Apostle W. Woodruff said that
in tracing the history of the
world for the last 6,000 years
we find that God has promised cer-
tain things to the children of men,
and during that time not one of His
promises has failed to the earth un-
fulfilled, and they never will. Men
require the inspiration of His spirit
in order to understand their destiny,
and if they do not have this inspira-
tion they will worship the devil or
anything sooner than God. There
are two powers on earth, working
against each other, and a great
many men would sooner follow the
devil power than the good. The life
of the Savior should be an example
to every man, although He was per-
secuted by nearly all men even unto
death.

How different will be His second
coming. Formerly He came as a
lamb led to the slaughter, but when
He comes again He will come in the
clouds of heaven as King of
Kings and Lord of Lords. All peo-
ple who have endeavored to serve
God have been persecuted. But
their reward is great. They
will be exalted and will reign with
the Messiah. But their persecutors
will be condemned to eternal punish-
ment, and sorrow. This is the reason
the Saints have been willing and
able to endure everything for the
Gospel's sake. There never has been
a greater dispensation than the one
we live in—the dispensation of the
fulness of times. There never
was but one greater Prophet than
Joseph Smith, and that one
was Jesus Christ, the God of Israel
in the flesh. He came to save man-
kind from all unrighteousness. He
was built up on earth. If it were
not the case it would be impossible
for the Elders to do the work which
they are doing. The Latter-day
Saints are not to meet a few
days away here on earth. They
expect to live as long as our Heavenly
Father lives and labor with him.
Every Prophet and Apostle who
ever lived is waiting the move-
ments of this people with
great interest. We have
been called out of the world,
therefore the world hates us. There
is a great change approaching Zion;
approaching the world. The Lord
told the early Elders of the Church
that he was going to prune his vine-
yard. The last time he com-
manded them to go forth and
preach the Gospel to every kindred,
tongue and people on the face of the
earth. The Lord said he would
fight the battles of Zion. Our
opponents have somebody else to deal
with besides President John Taylor
and the small number of people.
God has protected this people when
ever they have obeyed his laws and
commandments and endeavored to
serve him; but when they have
gone astray he has forsaken them
and let their persecutors come upon
them. Let us realize our calling and
our responsibility, Zion will grow
larger and larger, and every
man will receive a glory according
to the law he keeps. It will pay us
to keep the law of God.

President Joseph F. Smith said
that the world says Joseph Smith
was an impostor, and the Lord said
through him that his name should
be had for good or evil throughout
the earth. This man, at least
of his prophecy had been fulfilled,
for to-day there is no man so widely
talked of over the entire face of the
earth as Joseph Smith, in connec-
tion with the word of God. He was
instrumental in the hands of God of
restoring. All civilized nations
speak of his name and honor, by
fulfilling the prophecies which he
made by the Spirit of God. The
work in which Joseph Smith was
engaged does not pertain to this
life alone, it pertains to the future
and the past. The Book of Mormon
has been translated into many dif-
ferent languages, and will be trans-
lated into many more in fulfillment
of the word which he contained in
it. The world who are ig-
norant and know nothing of
Joseph Smith revile him and call
him an impostor, and they also call
Jesus an impostor. They regard
Joseph Smith to-day in the same
manner as they regarded the Savior
anciently, they ridicule his doctrines
while they enjoy the fruits of every
they build aerial castles in order
that they may tear them down.
They see the Latter-day Saints
of sins which they would not dream
of committing. They call us mu-
derers, immoral, ignorant and super-
stitions dupes. They say we are
under the hands of the Priesthood,
are bound by them and therefore
dare not speak for ourselves. Are
these accusations true? The Latter-
day Saints will compare favorably
with the people of any
Slate in the Union, and are far
in advance of many in education.
There is not a nation on the whole
globe, where more simple morality
exists than among the Latter-day
Saints. They do not murder their
children; they have plenty of them
and endeavor to take care of them.

solitor is also about to go to Eng-
land to take depositions. Sir Wm.
Gregory, Mr. Wilford Blunt, M.
Minot, a member of the home
guards, who was taken prisoner at
Kassassin, will be unable to attend
the trial.

Washington, 27.—The report of
the Superintendent of Foreign
Mails for the last fiscal year shows
45,000 more pounds transported than
the previous year not including
Canadian mail. The cost of ocean
transportation was \$415 more than
last year. Amounts estimated ne-
cessary for the foreign mail service
for the fiscal year 1883 and 1884
follows: Transportation, \$350,000;
balance due foreign countries \$300,
000; total \$650,000. In number of
postoffices the United States ranks
43,384 offices; the next
highest being 14,040 in Great Brit-
ain. Switzerland leads in respect
to the number of offices for every
inhabitant; the United States
one for every 1,137.

The Army.
The Paymaster-General of the
Army in his report for the fiscal
year shows the total receipts and
disbursements \$15,132,245. He re-
commends the act of July 29th
in Chicago, who married the check-
book of the Secretary of War one
month's leave of absence to de-
fence of the army without deduc-
tion of pay or allowances. For each
year during which absence has
not been taken, he thinks it would
be better not to have the pay at-
tached.

The Wicked World.
TROY, 28.—An attempt to wreck
the train from Boston was made
near Schenectady to-night. Two
cars were derailed by ties on the
track. No one injured.

Chicago, 28.—A few days ago a
young man, who had been col-
lection clerk for a Minneapolis agri-
cultural house, was arrested here
for appropriating checks and drafts be-
longing to his employers. He had
been kept secretly since then. It is
now believed that he has also gained
access to the money letters of other
firms, and that he had an accomplice
in Chicago, who married the check-
book of the Secretary of War one
month's leave of absence to de-
fence of the army without deduc-
tion of pay or allowances. For each

not been taken, he thinks it would

tached.

Philadelphia, 28.—Sharpening

explosion which killed the late
Senator Schenectady, to-night. Two
cars were derailed by ties on the
track. No one injured.
