## THRILLING STORY OF A SHIPWRECK.

### Disaster Occurred on Lake Superior, Eleven of the Crew Losing Their Lives.

### ELEVEN OTHERS WERE RESCUED

### Seven Offered Up Their Lives as a Sacrifice for the Rest of Those Aboard the Ill-Fated Ship.

### BUT IT WAS IN PART ALL IN VAIN

### Four of Them Perished—Trip Ashore of the Lifeboat One Of Terror.

Bayfield, Wis., Sept. 4.—Eleven of the crew of the steamer Sevonia were drowned by the wreck of the steel steamer on Sand Island reef in Lake Superior late Friday night. Eleven others were rescued, including the remainder of the crew and four women. The story of the disaster is as thrilling a tale of shipwreck on the great lakes as has ever been told. Seven of the dead offered their lives as a sacrifice for the rest of the 22 on board the ill-fated ship. Of those for whom they gave their lives four are dead. The rest reached shore after a night of buffeting by the waves in an open boat, and a trip of more than 24 hours cutting a road through the wilderness of northern Wisconsin.

Those who gave their lives for their shipmates were:

Captain E. S. McDonald, Northeast.

First Mate Louis Durwin, Medina, O.

Second mate, name unknown, shipped at Cleveland on last trip.

Wisconsin man, name unknown, shipped at Cleveland on last trip.

Two watchmen, names unknown, shipped at Cleveland on last trip.

Wholesaler, name unknown, has brother named Denny at Buffalo dry dock, shipped at Cleveland.

Those who were probably drowned in an effort to reach shore were:

Fireman, name unknown, shipped at Cleveland on Aug. 23.

Van Vleet, of Erie, Pa.

Deckhand, name unknown, from Northeast, Pa.

The Sevonia, a big ten-hatch vessel, was bound from Milwaukee to Chicago, when it was wrecked on Sand Island reef.

The vessel was carrying a heavy load of lumber, and the crew was unable to get the vessel ashore.

## WIRELESS TELEPHONE; A San Francisco Boy Seems to Have Solved the Problem.

Chicago, Sept. 4.—A dispatch to the Tribune from San Francisco says: Francis J. McCarthy, a 17-year-old San Francisco boy, seems to have demonstrated the application of wireless telegraph to the telephone. Yesterday at Ocean Beach, on home-made instruments, he was able to carry the words of a song for one mile so that it was relayed distinctly to the other end of his circuit. For several months the boy has been working at his invention on which he hopes to get a patent. His apparatus is in front of his apartment house in front of his apartment. He sang a half dozen songs, and newspapermen and others at his receiving station a full mile away heard the words as distinctly as if they came over an ordinary telephone wire.

## TREATY TO BE FOLLOWED BY OPENING OF SOUTH MANCHURIA

Peking, Sept. 4.—Commercial men of north China hope and believe that a complete opening of southern Manchuria to foreign trade will be incident to the new status of the territory now occupied by the Japanese troops. Japanese colonization in Korea has been reported in Manchuria on a large scale. Japanese civilians have been permitted to enter the country freely, and Antung, Fengtian, Mukden, Dalny and Newchwang have become populous Japanese cities. Newchwang, where before the war there were about a hundred Japanese, now has more than 5,000. The number is continually increasing by the arrival daily of from 100 to 200 immigrants. The Japanese army department is operating a light railway between Antung and Fengtian, and the two provinces in the early summer had a population of more than 5,000 Japanese each, and they are still growing. Representatives of many large Japanese firms engaged in various sorts of enterprises have been investigating the possibilities of the country, and are impressed by its wealth. It remains, however, to be seen how large a proportion of the population will take up a permanent residence there. A great many of those now here are of course engaged in supply the army, but some large and many small traders propose to move into the country, if it proves profitable.

## MAYOR DUNNE FIRM. He Has Not Abandoned His Municipal Ownership Plan.

New York, Sept. 4.—J. Hamilton Lewis, corporation counsel of Chicago, who is in this city on a round-trip to Newport, R. I., where he will spend a vacation of 10 days, in an interview yesterday said that there was no truth in the reports that Mayor Dunne of Chicago had abandoned his original plan of municipal ownership in favor of a qualified franchise to a private company. He said that before the end of the month Mayor Dunne would have in operation the only completely municipalized street railway in the United States.

Boston, Sept. 4.—Dr. Heber Bishop, the well known Boston sportsman, has gone to the woods today to prepare for a moose hunt through the Maine woods with a kinetoscope. Shot guns will be carried in order to give realism to the chase, but no shells will be used by the party. The picture machine will be manipulated in a light buggy wherever practicable.

Berkeley, Cal., Sept. 4.—That the process of regeneration may be controlled in plant life is the discovery made by Wm. Albert Setchell, head of the botany department of the University of California. The results of Prof. Setchell's experiments have been published in a bulletin. The experiments from which so much of his work will come were made on a sea weed known as kelp.

## GRAND ARMY OF THE REPUBLIC

### Receptions and Reunions Marked Opening Day of Thirty-ninth Annual Encampment.

### THOUSANDS POUR INTO DENVER

### Old Soldiers Given a Most Entertaining Reception—Many Entertainments.

### Denver, Sept. 4.—Receptions and reunions marked the opening today of the thirty-ninth annual encampment of the Grand Army of the Republic and the conventions of the various auxiliary organizations. It was a day of preparation for the many interesting features to come during the week. Incoming trains added thousands to the host of Union veterans of the civil war, who had previously arrived and 50,000 is now regarded as a conservative estimate of the number of strangers who will be in the city this week.

The old soldiers received an enthusiastic reception from their local comrades and express gratification at the ample preparations for their entertainment.

Various state headquarters were opened today in the hotel, the Colorado Dames society kept open house in commodious quarters for the veterans and their friends after holding a reception in honor of the late Gen. R. King, commander in chief of the G. A. R., members of life staff and the ladies of his party. A reception was also given to a number of officers of the Women's club by the Women's Relief corps, department of Colorado and Wyoming.

The workingmen's parade in celebration of Labor day was viewed with pleasure by many of the visitors who will themselves march in procession later in the week. It attracted about 5,000 marchers in the parade.

Indian dances in the city park were a feature of the day's entertainment.

## A REV. DR. MACARTHUR DEFENDS JNO. D. ROCKEFELLER

New York, Sept. 4.—Defense of John D. Rockefeller and denunciation of Gov. La Follette of Wisconsin, who criticized him, were the features of the sermon delivered last night by the Rev. Robert K. MacArthur, who has just returned from a summer lecture tour on the Chautauque assembly platform. Dr. MacArthur made special reference to the speeches of Gov. La Follette, which related to the oil industry and oil company, and declares them to be exaggerations which only served to excite sympathy for the person against whom the charges were made.

The other parade was composed of unions affiliated with the labor council and city federation. It was begun at the Oakland ferry depot, moved through the main streets of the city. ### TREATY OF PORTSMOUTH MAY BE SIGNED TOMORROW

Portsmouth, N. H., Sept. 4.—The indications this morning were that the "Treaty of Portsmouth" would not be signed until tomorrow. The "protocol" of the "historic session" of Aug. 29, when peace was arranged, was still in issue and the Japanese were insisting on its completion and approval. It was expected that the treaty would be signed at 2 o'clock, and both sides would read the official record of the signing Aug. 29 as the greatest importance. The agreement was reached in secret, but subsequently there was a "public rehearsal" in the presence of the secretary of state and the division of Sakhalin. The Japanese at 10:45 p. m. said that if the treaty is not signed this afternoon the delay will be due to the Russian of the Russian indemnity and the division of Sakhalin. The Japanese said they have no information of the Russian revolutionary outbreak in Japan. Cable communication which is via Formosa is slow but cables have been received dated today.
