

FROM SATURDAY'S DAILY, JULY 21.

**From Cache.**—Elder Brigham Young, Jr., arrived in the City, from Cache, last evening.

**Beaver.**—Elders W. Woodruff and E. Snow have organized the Beaver Stake of Zion, Elder John R. Murdock was appointed President and Elders Ashworth and Shepherd his counselors.

**Bathing.**—Large numbers of Salt Lake people avail themselves of the facilities presented by the Utah Western Railroad, for a pleasant and cheap run to Lake Point, a bath in the briny waters of the "Dead Sea," and return, these summer evenings. It is a health-giving "out."

**Committed.**—J. H. Newby, the aged person who stole eight pistols from Heusser Bro's store, on Thursday night, had an examination, before Justice Pyper. In default of finding \$500 bonds, he was committed to await the action of the grand jury.

**Heber.**—Brother Charles Shelton writes from Heber City—

"The crops of this place look unusually well, grasshoppers have been hovering over our heads, but only few have dropped down upon us yet."

**Accident.**—Last Wednesday, Edward Earl, of the 10th Ward, while at work at the saw mill of Swift & Crocker, Parley's Park, had his left leg broken, a short distance above the ankle, by a log rolling over upon it. He was brought to the city and is being attended by Dr. Benedict.

**Dewy.**—In early times dews were almost if not entirely unknown in this Territory. But, for a number of years past, it has been otherwise. Now the dews are heavy, and continue so through the season. This morning and yesterday morning, for instance, the vegetation was very wet with dew. But we might say it is the case every morning in this city in the growing season.

**More Troops.**—Another company of soldiers left Camp Douglas this morning, for Cheyenne, leaving but a meagre supply of the "boys in blue" at the post.

The whole country, excepting Utah, appears to have gone into the "uprising" business. A somewhat notable fact. How effectually is the refuge of lies swept away from the enemies of the Latter-day Saints. It will always be thus.

**Trains Running.**—The following special to the News was received, to-day, from Chicago—

"All trains on the Fort Wayne and Pennsylvania line are running regularly, between Chicago and eastern cities, both ways, and passengers by this line have every assurance that they can go through without any detention."

"F. R. MYERS,  
"Gen. Pass & Tkt. Agt."

**At Nauvoo.**—The Nauvoo Independent says: A young Pratt, son of Parley P., and one Madison, a couple of Brighamite Mormons of Salt Lake City, were in the city and called to see us, one day last week. While in the city Pratt went to visit his old home, the house in which the family lived while here, and which was built by his father several years before the expulsion of the Mormons. The house mentioned is the one which was used by the Catholics as a place for worship before the building of their new church a few years ago. It has since been used as a parsonage and school-house.

**When?**—When will the people of this great republic learn to act fairly towards the people of this part of the Union? When will wisdom be learned in this matter? In 1857 there went up a great hue-and-cry falsely against the "Mormons," and a large and well appointed army was sent here to do fearful things. Soon after that army was badly wanted in reality to quell insurrection and civil war of a fearful character in the States whence it came.

This year there has gone up a like hue-and-cry falsely against the "Mormons," an angry demand for troops has been made and troops have been threatened in answer to that hue-and-cry. Now troops are called for and sent from Utah back east to quell terrible and widespread riotings, incendiarism, and other acts of public violence.

When will the people of this great republic learn wisdom, and act with fairness towards all classes of citizens? To learn wisdom through suffering is a hard way.

**Good.**—To-day we were shown a specimen of dressed sheepskin, from Bishop Hunter's tannery, in the 19th Ward. It was soft, pliable, and beautifully white. We have not seen an article excelling it, either home-made or imported. The quality is all that could be desired.

**Crash.**—The Ogden Junction of the 28th says, in digging for the foundation of the large brick block on the ground lately devastated by the fire, the trench was run under or nearly under Mr. Canfield's property, on the north; and late last night the southern portion of his buildings tumbled with a crash to the earth.

**Robbery.**—Last night a man broke a pane of glass in the show window of Jacob Heusser's gun shop, and stole eight pistols. The thief was subsequently discovered, in a saloon, intoxicated, with seven of the weapons on him. He was arrested and placed in jail.

**Troops.**—Companies E and G Fourteenth Infantry, Captains Krause and Trotter, left Camp Douglas for the East, this morning. Their present destination is Cheyenne. They have gone to look after the "uprising" business, but not in Utah.

**Hennefer.**—W. G. Brewer writes from Hennefer—

Sprague, before whom he was taken. The warrant was issued on the affidavit of Martin K. Harkness, foreman of the grand jury, in advance of an indictment. The charge is General Burton's alleged connection with the Morrisite homicides. He was admitted to bail in the sum of \$10,000. Messrs. L. S. Hills and Nicholas Croesbeck were the sureties.

Mr. Williams, General Burton's attorney, demanded an immediate examination, but, District Attorney Howard being unprepared, it was deferred until Wednesday next.

**Conference at St. George.**—A Quarterly Conference, of that Stake, was held at St. George, Washington County, July 7th and 8th, President John D. T. McAllister, presiding.

The Conference opened by the choir singing "Hail to the Brightness of Zion's Glad morning;" prayer by Elder Henry Hairman; singing "Come We that Love the Lord."

He left here on the 15th of last November, and labored in the St. Louis District, under the direction of Elder David M. Stuart. He attended a large number of meetings, and bore testimony to the truth of the gospel whenever opportunity presented. The St. Louis Saints are all well, and anxious to come to Utah as soon as possible.

**Cost of the Strikes.**—It has been estimated that the destruction of property, hindrance to business, loss of wages, etc., caused by the current railroad strikes will amount to twenty million dollars. That is fifty cents apiece for every man, woman and child in the United States, for the public pays the bill eventually. Or, reckoning upon one grown man for every five inhabitants, the cost would be two dollars and a half to each man. Now, then, every man in the country, step up and settle, and then there will be a general reabzation of the costliness of this rude way of settling the relations between labor and capital.
