

## LOCAL AND OTHER MATTERS.

**THEATRICAL.**—Last night "Uncle Tom's Cabin" was well played throughout; every character was sustained in a creditable manner. Lotta as "Topsy" was immense. To-night is the last appearance of this wonderfully versatile young artist, and all who have not seen her should certainly go to the Theatre this evening. The play is "Fire Fly," which is one of Lotta's greatest characters. The famous battle scene in this piece, between the French and Moors, is the most gorgeous and life-like of the kind that has ever been got up here, presenting, with almost fearful reality, the bursting of shells, the rattle of musketry, and the hand-to-hand combat, forming such a picture as is seldom seen. Mr. Chaplin, Miss Lockhart, and all the favorites of the company will appear.

**APPOINTMENTS.**—From a late number of the *Millennial Star* we learn that Elder John Toone had been appointed President of the Warwickshire Conference, and Elder George Romney, President of the Liverpool Conference. The following brethren were appointed Traveling Elders in the Conference named: John Tuddenham, London; H. G. Park, Glasgow; Andrew P. Shumway and Charles Shumway, Jun., Birmingham; Samuel M. Price, Kent; Wm. M. Taylor, Manchester; George O. Noble, Durham and Newcastle; and George H. Dunford, Cheltenham.

**A FALSE ALARM.**—The *Territorial Enterprise*, of the 14th inst., says that as Dan Castello's Circus was entering Virginia city the day before, one of the carriages containing a portion of the menagerie was upset, and the cry of "a tiger loose," which was almost instantly raised, created considerable alarm for a short time, the people running in all directions and adopting every imaginable precaution for safety, one or two only showing the least courage, and preparing for a fight. The alarm was entirely without foundation for the carriage overturned contained nothing more terrible than dogs and monkeys.

The show is highly spoken of, Martini and Clarinda Lowanda receiving especial praise for their performances. The number of spectators at the first exhibition was variously estimated at from 2,500 to 4,000, being the largest crowd that ever assembled at one time to witness any amusement in this city.

**SUPREME COURT.**—Chief Justice Wilson and Associate Justices Strickland and Hawley on the Bench. Mr. Hemsted continued the argument on the part of the people in the appeal case of Brannan until last evening. Mr. J. W. Towner, of Cleveland, Ohio, commenced his argument in favor of the appellants, and will probably conclude this afternoon.

**LEFT FOR EUROPE.**—Elder John Jaques left this city this morning for the terminus, en route to the East, and thence to Great Britain to fulfill the mission to which he was appointed last April Conference. His departure has been delayed until this late date by sickness in his family. Prosperity attend him!

**LETTER ON SENSUALITY.**—We have received a letter from Bro. John Devey, of the 34th Ward, containing an account of his observations and experiments in sensuality; and on the first favorable opportunity shall submit it to some one who has had experience in such matters, when, if the circumstances narrated are considered at all singular or extraordinary, we shall probably give his letter a place in the NEWS.

**DULL TIMES AMONG THEATRICALS.**—Our New York exchanges are talking of the exceedingly dull times, and empty benches at the theatres; the "naked drama," as it is called, failing to draw houses. This is attributed by the press, in great part, to the fact that managers, having presented plays of such a sensational and indecent character, the respectable portion of the public have forsaken the Theatre; and they need not expect prosperity to return until the sensational, and immoral are withdrawn, and a class of plays presented which do not appeal to the lowest instincts of human nature, but teach lessons of morality and virtue. Wilke's *Spirit of the Times* has expressed a determination to write down immoral theatrical representations. It could not easily be engaged in a more laudable task, and we wish it all the success such a labor deserves.

**CONFERENCE IN MALAD CITY.**—On Saturday and Sunday, the 10th and 11th inst., the Saints residing in Malad City and vicinity held a Conference, Elder Lorenzo Snow presiding. Among the speakers were Elders Snow, J. C. Wright, S. Smith, Bishop Nichols and J. D. Rees. They had a good time together. One of the results of "hints" thrown out, already visible, is that the citizens have commenced taking the necessary steps for the erection of a new meeting house. Bro. D. B. Dille having subscribed \$200 toward it. Others are following his example as far as they have the means.

The crops in that district are looking well; water is abundant, grass plentiful, stock doing well, and the health of the people good. In fact, in the language of Bishop Daniels, the people there have everything around them to make them happy, and they are full of thankfulness to their Heavenly Father for His many mercies towards them.

## Died:

In St. George, May 7th, 1899, Schuyler Ellis, son of Henry and Rebecca Everett, aged seven months and eleven days.

In this city, on the 12th inst., of debility from old age, at the age of 74 years and two months, Edward Raulin, a native of Sweden, who came to this country in 1860. He died as he had lived, a true hearted and faithful saint, and a good husband and father. He leaves a wife and three children to mourn his loss.—*Com. Millennial Star* please copy.

In this city, on the 16th of July, 1899, of lung fever, Blanche, daughter of Allen and Anne Hilton, aged one year, three weeks and three days.

At Tooele City, July 11th, 1899, Bro. Edward W. Berry, in the 44th year of his age, at the residence of his brother, Bishop John Howberry, after a lingering sickness of 15 years, caused by the dislocation of the hip joint by rheumatism. He has scarcely seen a day during that time when he was not in pain. He bore his illness with patience. Previous to his affliction he was a young man of much promise. He was devoted to his religion. He held several offices of trust in the County with honor, and his course had been such as to secure the confidence of all who knew him. He died in the full faith of the Gospel, and it can truly be said that he fell asleep in peace, surrounded by his friends, who ministered to him every possible comfort during his long affliction. *Millennial Star* please copy.

## By Telegraph.

## GENERAL.

Washington, 16.—The French and British legations have respectively forwarded to the parties directly interested, the letter of the Secretary of State, relative to telegraphic communication between the United States and foreign countries, particularly in relation to the landing of the French cable. A copy of the same letter will be transmitted to the Governor of Massachusetts, as the terminus of the cable will probably be secured in that State. Copies of the bill which passed the Senate, but failed to be acted upon in the House, are also enclosed to the parties above mentioned, as the base of action on the part of the Government, showing the opinion of Congress on the subject. The Executive Mansion is nearly deserted, only one clerk is now employed in the President's office.

From indications at the Treasury Department it is believed that the next public statement will show another large reduction in the national indebtedness, though not so large as that exhibited during the present month. The receipts from the customs and internal revenues are considered good for a dull season, and estimating the receipts and expenses of the Government for the remainder of July on the basis of what they bear to date the debt statement for August will show a reduction of upwards of \$10,000,000.

The revenue officers in Philadelphia, with the aid of the Marines, have been making another raid on the illicit distilleries in the Richmond District, this time completely cleaning them out. Owing to the importance of the questions involved in the Yerger case the Attorney General has entered into a written stipulation with Phillips & Carlisle for the purpose of instituting proceedings, by which these questions may be brought before the Supreme Court in October next for consideration and adjudication. In the meantime the application to the Chief Justice is suspended without prejudice to the petitioner. The District Attorney of Mississippi has been directed to facilitate any proceedings necessary for the presentation of the case to the Supreme Court. The Attorney General is authorized by the President to say that no sentence of the military commission will be carried into effect more than is necessary for the safe custody of the prisoner. This agreement meets the approbation of Chief Justice Chase.

**POUGHKEEPSIE.**—There is much excitement here growing out of the Welch swindle. Sheriff Kedworth has attempted several times to attach some property at Pleasant Valley, but the Irish laborers to the number of 75 or 100 have resisted him. The military have been ordered to report to the sheriff forthwith. A riot is believed to be imminent, as the Irish at Pleasant Valley are organized for resistance. Captain Hamberst, with the 21st regiment, will respond with forty men, each with thirty rounds of ball cartridge. His company is now assembling at the Armory.

A number of convicts at the quarry of the Sing Sing refused to work yesterday and were locked up. The prison authorities entertain fears of a general rebellion.

**CINCINNATI.**—Henry Schumatz committed suicide last night by shooting himself with a pistol; cause, domestic difficulty, his wife having deserted him a few months ago.

New York.—The following brokers were brought before Judge Cardoso today, on charges of usury: David M. Morrison, Russell Sage, Geo. Phillips, Edward R. Jones, Lucian J. Vanburen, Kirk, Reuben W. Holmes and Chas. A. Macy. They each gave bail in \$3,000. The court room was densely crowded by friends of the prisoners and citizens generally. Warrants were issued for the arrest of other parties indicted, but they are not yet executed. The officers not having been able to find the designated persons; it is rumored that some of them have left the State in order to avoid arrest.

**MEMPHIS.**—Captain Haynes, of Crittenden county, Ark., opposite this city was shot and killed yesterday, at Marion, by Clarence Collier. Haynes was a notorious leader of the late military outrages and was very odious to the citizens. The difficulty which caused his death arose over a game of cards. A perfect reign of terror prevails to-day in the vicinity of Marion. The negroes have mobbed and gutted Rice's store, destroying over \$20,000 worth of property and then set the store on fire. They are on a general rampage. They caught an unoffending citizen near Mound City this morning and whipped him badly.

**ST. LOUIS.**—Advices from Lexington, Mo., to the 14th say that a terrible tornado had swept over that town, in which trees and fences were blown down, many houses unroofed, the streets blocked with wrecks, horses injured with flying timbers, and the *Caucasian* newspaper office completely wrecked. No lives were lost as far as heard from.

New York.—The *Herald's* special at St. Pierre, on the 15th, says the laying of the shore end of the American portion of the line began to-day.

Washington.—A dispatch from the mail agent at Messina, New Mexico, states that the Apache Indians have killed two drivers of mail wagons and captured and torn up the two last mails. Between there and Tucson, Arizona, the whole route is infested with predatory parties.

A dispatch from Sidney station says a train ran off the track yesterday near Antelope station, in consequence of the washing away of an embankment; two men were killed and three injured. Three passenger cars a baggage car and the engine were smashed. A freight train was also run off the track near there, and a passenger train going east ran off the track on Tuesday, killing a discharged soldier. Rains had been heavy.

Galveston.—Advices from San Antonio, report that the Guadalupe river is higher than ever it was known; the entire valley is over-flowed and nine-tenths of the crop in Gonzales county is destroyed. The Comal river rose to the third story of a cotton factory at New Braunfels, and destroyed all the material and machinery. Every flouring mill, woolen factory, and bridge on the Comal river is swept away. No lives lost.

The wounded and burned in the Mount Hope disaster are reported doing well.

San Francisco.—The Chicago Commercial party arrived here last night; they were met at the steamer by several prominent citizens, and escorted to the

Cosmopolitan hotel. A large number of the San Francisco merchants, to-day, assembled at the Chamber of Commerce and extended a welcome to the Chicago delegation, which was responded to by Governor Ogelsby, Richards, Judd, Arnold and others.

The *Tribune's* Washington special says it is the belief, prevalent among persons in a position to know something about the purposes of the Administration, that Siskies has been entrusted with a delicate duty in his mission to Spain. It will be remembered that there was an important debate in the Spanish Cortes some weeks ago on the Cuban question, in which Castellar made a speech of a noticeable character, in which he called attention to the fact that the Cubans had been invited to send representatives to Spain to place the grievances of the people before the Cortes. He said redress had been again put off with false promises, and also said the rebellion was only the natural result of many years error and injustice and that the despotic was over Cuba.

He said a great blot on the field of American democracy. He closed in bold language, by declaring that Spain could secure permanent peace in the island, and retain her hold on it as a colony but in one way, and that was by giving it such freedom and control of its own affairs as England had given to Canada. It is the general belief that Siskies is instructed to tender the good offices of this country for the furtherance of the course thus indicated by Senor Castellar; in other words that he will, at the proper time and in the proper manner, make known to the Spanish authorities that, in our opinion, Spain cannot honestly be made to Cuba with advantage to Spain as well as to the people of the island, without derogation to the home Government. It is thought, by those who believe this report, that our Minister has been instructed to lend all his efforts in this direction and that most of the Cubans would desert the revolutionary movement, if they were conceded such a control of their own affairs as the Canadians have of things in Canada. If such a result be brought about by our intervention, the effort would strengthen the friendly relations between our country and both Spain and Cuba.

Cincinnati.—Several cases of sunstroke occurred yesterday, only two terminating fatally. Jerome Wilson, assailed Charles Sheller, yesterday, with a hatchet, and cut his arm nearly off and sunk the hatchet in his back. Sheller is considered mortally injured. Wilson was arrested. The affray grew out of a dispute over a job of washing. Both are negroes.

A desperate affray occurred last night in a cell at the Union Street police station, between John Swan and Nat Connor, both incarcerated for drunkenness and disorderly conduct; during the struggle Connor threw Swan, his head struck against an iron bolt in the wall, inflicting a severe and probably a fatal wound.

Toronto, 16.—During the first six months of the present year 19,308 emigrants have arrived here, of whom 5088 have remained in Canada; the others went to the United States.

New York, 16.—A few additional particulars of the Erie Railroad accident have been obtained: Mr. Gibson, a passenger, says of the burning of the smoking car, that it, wedged into his seat by heaps of broken timber, sat the Rev. Mr. Halleck, perfectly unhurt, but unable to extricate himself from the wreck. In calm accents and perfectly collected tones, he told us to get an axe and try to cut inside. We searched around and obtained one from a house by the roadside, but it was too dull and we could do nothing with it. We worked and strove to liberate the unfortunate gentleman, who sat there sound in limb, watching the approach of the hungry flames; nearer and nearer they came until his hair began to crisp and burn and his skin to crack. We, in like manner, found the heat unbearable, and reluctantly retired, compelled to leave this poor gentleman with eight fellow passengers, to their terrible fate. We moved off until all was over. Nine others were injured more or less severely.

Another passenger says: "I heard little children screaming for their mothers, and passengers in the ruins calling for help, groaning with pain. Axes were got, and one or two actually chopped out of their imprisonment. Most of the passengers in this car were killed, their bodies consumed or injured. I should think there were sixteen or seventeen in the front end of this car, and I think but two were taken out. I don't think any were killed by the smash, but all the deaths were by burning."

Another passenger says: "I heard little children screaming for their mothers, and passengers in the ruins calling for help, groaning with pain. Axes were got, and one or two actually chopped out of their imprisonment. Most of the passengers in this car were killed, their bodies consumed or injured. I should think there were sixteen or seventeen in the front end of this car, and I think but two were taken out. I don't think any were killed by the smash, but all the deaths were by burning."

**FOREIGN.**  
Brest.—The cable, by its satisfactory response to the tests, is thought to be the best ever laid.

London.—The *Times* says the Irish Church bill will go back to the Lords in almost its original shape. The Commons have decided that the amendments adopted by the Lords are inconsistent with the bill, and there is no reason to believe that the Commons will surrender.

In Lurgan, Ireland, on the 12th, an Orange mob was pelted with stones, and retaliated by utterly destroying seventeen houses, occupied by Catholics. The woodwork of the buildings and the furniture were carried into the street and burned. At Newry, Orange Hall was attacked by Catholics; the occupants fired on their assailants, who were driven off, leaving three badly wounded.

The *Herald's* Havana special sends accounts of tolerably sharp fighting at several points, the insurgents having the advantage slightly. The Spanish Governor of Barracas was actively engaged in burning property, and killing all the insurgents who fell into his hands.

Washington.—Special despatches from Minister Motley report his reception in the usual manner by the Queen, but they fail to confirm the report that he had an unsatisfactory interview with Clarendon on the *Alabama* question. He says the British Government declines to release Col. Halpin or any other Fenians, in whose behalf our Government has made intercession.

Provo.—Bro. A. F. MacDonald, writes from Provo on the 12th instant, that the hay and grain harvest had commenced. Preparations were being made by Bishop A. O. Smoot, to lay the foundation of a large woolen factory; and the prospects for many other improvements in Provo during the present season are very good.

## ARRIVALS.

TOWNSHIP HOUSE.  
Jude A. O. Aldis, Vice Consul at Nice.  
B. K. Buford, Iowa.  
Hon. D. N. Cooley and wife, Iowa.
