Canadian Pacific Steamers MONTREAL, 6.-Sir John A. McDon-Montreal, 6.—Sir John A. McDon-ald, Camadian Premier, and John Stephens, resident of the Canadian Pa-cific, left for New York to-day to take a Cunard steamer for England on Wed-nesday. Mr. Stephens goes to establish a line of steamers in connection with the Canadan Pacific, between British Columbia, Japan and China. Negotia-tions are already on foot with this end in view, and Mr. Stephens says the steamers will be much finer than those sailing from San Francisco and that steamers will be much then those sailing from San Francisco and that the route from Yokohama to Europe via the Canadian Bacific will be shorter by three days than via San Francisco. Mr. Stephens' visit is also to make financial arrangements for the purpose of building the Manitoba and Southwestern and other Canadian Pacific branches in the northwest. It is bebranches in the northwest. It is be-lieved Sir John McDonald accompanies Mr. Stephens for the purpose of offering government support to the scheme. James G. Blaine of the State of

BELLAIRE, 6 .- Blaine has written the following letter to Hon. Wm. McKin-ley of Ohio:

Bellaire, Oct. 4. 1884. Hon. Wm. McKinley, M. C. Canton,

My Dear Sir:-I have your favor stating charges against me which you wished to be able to centradict authoritatively. I answer you promptly and decisively. First, it is utterly untrue that I ever advocated a residence of twenty-one years as a requirement of naturalization in the country. I always opposed the party that suggested it. I think the only change in the naturalization laws for which I ever voted in Congress, was to advocate for these foreigners who had honestly served in Union army citizenship withou the Union army cleaning the delay required of others. Second, I never voted to impose a tax of \$10 per annum on miners by the internal revenue laws framed to raise. money for the expenses of the war. The proprietors of the mines were taxed \$10 per annum, just as lawyers, physicians, builders and other callings were, but the individual miner, the man who actually worked in the mine was not in the least affected by the tax. I voted for the tax on the proprietors of mines as I did for every other tax needed for the support of the Union armies. The tex was repealed 15 years ago. Third, I don't own and never did own an acre of coal land or any other kind of land in the Hocking Valley, or in any other part of Ohio. My letter to Hon. Hezeklah Bunday in July last on this same subject was accurately true.

subject was accurately true.

Very truly yours,

JAMES G. BLAINE. Fairmont, W. Va., 6.-Blaine's party left Wheeling at 8 this morning. The first stop was made at Mounds-ville. Blaine, who was warmly re-ceived, said: I am glad to meet the cit-izens of Marshall county. I am glad to be in West Virginia. I consider it one of the encouraging signs of the times that an earnest contest is going on in what once a slave State, for the ascendancy of republican principles. ascendancy of republican principles, and republican principles this year means a tariff for the protection of American labor. If West Virginia is in favor of this she is republican; if she is opposed to it she is not republican. The decision rests with her

At Cameron, Littleton, Mannington and Farmington there were brief stops and at each point Blaine spoke briefly of the importance to West Virginia of a protective tariff. At Fairmount there was quite a large meeting, and Mr. Blaine left the train and addressed the people from the stand

the people from the stand.

Parkersburg, W. Va:, 6.—At Grafton
Blaine said: "Citimens of West Virginia: As your distinguished chairman has intimated, I am no stranger to
your State. I have known it personally for more than 40 years, and I have
known this section of it well. I was
born on the bank of yonder river. ally for more than 40 years, and I have known this section of it well. I was born on the bank of yonder river, a few miles below the point where it enters Pennsylvania, and you do not need to be told by me that there was always a unity of feeling among the inhabitants of the Monongahela Valley. But I do not see before me the West Virginia which I knew in my boyhood. The West Virginia of 40 years ago was comparatively a wilderness. The West Virginia of to-day is a prosperous, industrial State in the United States. West Virginia as an independent commonwealth began her existence during the civil war, and then the most liberal estimate of the total property according to the enumeration of the United States census did not exceed \$190,600,000, and in 1880 it showed you possessed a capitalized wealth to the amount of \$350,000,000. From the close of the war to the year 1880 West Virginia has therefore gained in wealth the enormous sum of \$250,000,000. You have fared pretty well, therefore, under republican administration. Probably some political opponent does me the honor to listen to me, and I would) ask as a candid man, what agency was it that nerved the arm of industry to smite the mountain and create this wealth in West Virginia? It was the protective tariff and the financial system that gave you good money. Before the war you never had

Birmingham, 6. — James Russell Lowell, American Minister to England delivered the opening address at the town Hail to-day as president of the Midland Institute, upon the subject of "Democracy." The mayor of the city was chairman. There was a very large audience. President Lowell said by temperament and education he was a conservative. He saw the last years of the existence of that quaint Arcacia which French travelers beheld with delight and amazement almost a century ago. He watched the change, to him a sad one, from an agricultural to a proletarian population. Addressing himself then to a single point in the long list of offences of which America has been more or less guilty, Lowell said they were infesting the old world with what seemed to be thought an entirely new disease, democracy. Unpoubtedly the spectacle of a great democracy on the other side of the Atlantic must react powerfully upon the aspirations and political theories of men of the Old World. Not finding things to their mind whether for good or for evil it should not be forgotten the acora from whence it sprung was ripened on the British constitution under whatever disguise it may be placed in prudence and decorum, was in all its It was the protective tariff and the financial system that gave you good money. Before the war you never had circulated in your midst a bank bill that would pass current 500 miles from home. You do not to-day have a single piece of paper money circulating in West Virginia that is not good all around the globe. (Great Cheering.) Not a bill that will not pass currently in the money markets of Europe as in New York or Baltimore, so that the man who works for a day's wages knows when Saturday night comes that he will be paid in good money. Under protective tariff your coal and iron industries and the wealth of your forests have been brought out and it is for you voters of West Virginia to say whether you want this to continue, or whether you want to try the free trade policy. I make bold to say with all respect that there is not a democratic statesman on the stump in West Virginia conspirators. lieved the British constitution under whatever disguise it may be placed in prudence and decorum, was in all its essentials democratic. The people were continually saying America was "in the air." He was glad to think it was, since the term meant that only a clearer conception of human claims and human duty was beginning to prevail.

ma, to Tennessee and to Louisiana.
They are all interested in a protective tariff, and the question is, "Which do they prefer to gratify a prejudice, or to promote general prosperity?" West Virginia can lead the way; she can break this seemingly impreguable barrier of the solid South. Solid on what? Solid on a prejudice, solid on a tradition, solid upon doctrines that seperate the different portions for the Union; whereas I invite you to join in a union not merely in The Taking of Tamsul. trines that seperate the different portions of the Union; whereas I invite you to join in a union not merely in form, but a union in fact, and take your part in the solution of the industrial and financial problems of the time. If West Virginia takes that course on the 14th of October, she will do much to settle the controversies that now agitate us. The repeal of the protective tariff, according to the terms of the Morrison bill, would cost West Virginia a vast sum of money. Between 1870 and 1880 you gained in this State \$160,000,000; between 1880 and 1890 you will gain much more with a tariff for protection, but I ask any business man If he believes you can do it with free trade. Here I close my words of counsel, leaving action to you, I leave you, not as a community influenced by sectional feeling, but as a community broadly national. I leave you as a State alifed on the one side to Pennsylvant and on the other to Ohio as much as you are to Virginia and Kentucky. I leave you as a State that stands in the van of the new South, inviting the whole South to join in the great National Government which shall in fact and feeling, as well as in form, make us a The captain reports that a new volcano has been discovered at Four Mountains near Seventy-two Pass. After Blaine, Hon. A. W. Penny of Brooklyn made a speech.

From Grafton the special train turned again toward the Ohio river. At Clarksburg and at several other points. New York, 6.—In the suit of Mathew Graham and Phillip Reilly against the Atlanta Hill Gold Mining and Milling lo., brought to set aside a mortgage of Clarksburg and at several other points on the route to Parkersburg, Blaine spoke briefly of protection to Ameri-can industries as the chief issue of the \$100,000 of the cor pany, made about a year ago to secure its bonds, Judge Andrews to-day decided the mortgage valid. The plaintiffs, who were stock-holders, claimed the company had only right to mortgage the property to pay ts debts

CHICAGO, 6.—A Tribune-Republican's special from Emporia, Kansas, received at midnight, says: Early Sunday morning, ten miles west of here, an attempt was made to rob the Santa Fe passenger train. The rebbers evidently intended to ditch the train. Two rails were unspiked but not removed. When the passenger train came along strike against the proposed reduction of 12% per cent, which was to go into effect to-morrow. This will compet the firms to close down. While only the unskilled labor will be effected by the reduction, the suspension will throw out of employment over 3,000

Toronto, 6.-George F. Franklyn, one the most extensive cattle exporters of Canada, has just returned from England, where he went to ascertain the true state of the markets. Franklyn says the demand for meat in England is very little in excess of the sup-ply. He says Canadian shippers have other business. John C. posted party who has arrived from the interior attributes the real cause of the recent bloody riet in the town of Salinas to the high state of political feeling existing between the Trevino and Naraugo parties, both of which have candidates in the field for the Governorship for the State of Nueva Leon. Alcade Senatos and his father were naminated adherents of General BOSTON, 6.—The earnings of the Union Pacific entire system for August were as follows: \$2,430,000, a decrease from August of last year of \$47,000. The expenses were \$1,101,000, a decrease of \$275,000; surplus earnings, \$1,328,000, an increase of \$228,000. For \$1,525,000, an increase of \$225,000. For the eight months to August 31st, the earnings were \$15,871,000, a decrease from the same period of last year of \$2,066,000; expenses \$1,372,000, a de-crease of \$148,000; surplus earnings for the eight months \$6,498,000.

Philadelphia, 6.—The Baltimore & Ohio Railway has been given notice by the Pennsylvania Company that on and after October 12th it will be deprived of the privilege of running trains over the Pennsylvania line between Baltimore and New York. Neither passenger tickets nor baggage checked through from the West via the Baltimore & Ohio lines will be received by the Pennsylvania Company.

SAVANNAH, Mo., 6.—The trial of young Bateman, who outraged and then murdered the McLaughlin children at Flag Springs a month ago. opened this morning, but was soon ended by Judge Kelly accepting a plea of guilty, and sentencing the prisoner to be hanged on Nov. 21st. Bateman refused to have counsel appointed to defend him, saving he deserved death and wanted to die. Coarleston, W. Va., 6.—Gen. John A. Logan and suite arrived here from Huntington en route through the southern part of the State. Large crowds greeted the gentlemen along the route. Gen. Logan stopped off-here and made a speech to a large crowd. He left two hours later. He will stop at all the towns up this valley, and through to the Virginia line.
