## PARK CITY NEWS. Activity at the Little Bell-Last

Weck's Ore Shipmens.

Weck's Ore Shipmens. With one shift only at work the development work at the South Dakota is going along nicely, says the Park City Record and the management is taking a well-grounded chance, as are many others in the mining business, on "getting it big" some day. Notices have been sent out of the assessment of one-quarter of one cent on the issued capital stock of the Mountain City Mining company, the same being payable on or before the 22nd day of August, "05. The date of sale is September 8.

22nd day of August, '05. The date of sale is September 8. Allah Jordan was this morning awarded the contract for driving the 80-foot extension tunnel at the East Valeo property, which is reported by recent visitors to be in splendid shape, and from the indications at the face something good ought to be encoun-tered before the contract is completed. The boliors at the Little Hell were steamed up this morning, and while information is given out to the effect that it is the intention merely at the present to enter the mine in order to ascertain conditions there, as regards water, etc., it is very probable that operations will be resumed at the mine in the near future.
