WEDDED.

Some quick and bitter words we said,
And then we parted. How the sun
Swam through the sullen sea of gray!
A chill fell on the summer day.
Life's best and happiest hours were done;
Friendship was dead.

How proud we went our separate ways,
And spake no word and made no moan;
She braided up her flowing hair,
That I had always called so fair,
As though she scorned my loving tone,
My word of praise.

And I? I matched her scorn with scorn,
I hated her with all my heart,
Until—we chanced to meet one day:
She turned her pretty head away;
I saw two pretty tear-drops start—
Lo! love was born.

Some fond, repenting word I said,
She answered only with a sigh;
But when I took her hand in mine
A radiant glory half divine
Flooded the earth and filled the sky.
Now we are wed, and never quarrel any more.

Opinion by Attorney General.

WASHINGTON, 11.—In response to an application from General Cowan, Assistant Secretary of the Interior, for an opinion from the Attorney General as to whether the former can legally perform the duties of acting secretary after today; the Attorney General decided that he could not.

Report Issued—More Gold Discovered in the Black Hills.

The reports of the United States Commissioners to the Vienna Exposition are now being issued by the government printing office. The first out is that on the metallurgy of lead, silver, copper, and zinc, by Howard Painter, mining engineer. It is an elaborate review of the exhibits of the various nationalities, and their processes of smelting and refining, with minute descriptions of the latest discoveries in roasting and smelting furnaces.

The commissioner of Indian affairs received the following dispatch to-day, from Walter P. Janney, geologist, exploring the Black Hills, dated Camp on Rapid Creek, Sept. 29—"I have discovered gold in small quantities in the Bear Lodge Mountains, about twenty miles east of Little Missouri Buttes, in the north-western portion of the Black Hills; the field is limited in area, not exceeding fifty square miles, and is wholly in Wyoming, being separated from the region about Harney's Peak by Red Water Valley. The gold is derived from the decomposition of lodes of feldspar and porphyry, carrying oxides of iron and manganese, no quartz being found in the region, and the deposits, so far as examined, are gravel bars of limited area near the head of the mountain streams flowing in belts from the river. I have nearly completed the work of the survey and expect to reach Fort Laramie on the return about Oct. 15."

Adjourned.

RALEIGH, N. C., 11.—The state constitutional convention adjourned *sine die*, this evening, after a session of thirty-one working days. In the last few days of the session many important ordinances were passed amounting to a general emancipation of the legislature from the restrictions under which it has labored since 1868, and giving it larger powers. The public debt question was not interfered with, several ineffectual attempts being made to repudiate the special tax bonds.

President Grant and Party.

KANSAS CITY, 11. — President Grant and party left this city at 5.30 this afternoon, by special train, for Chicago.

A. H. Stephens Seriously Ill.

AUGUSTA, Ga., 11.—Alexander H. Stephens was taken ill on Saturday; his suffering is represented as excruciating, and his condition is critical. He is afflicted with stone in the bladder.

Nomination Declined.

NEW YORK, 11.—The Springfield *Republican*, to-day, announces that General Bartlett has declined the nomination for Lieutenant-Governor of Massachusetts, on the democratic ticket.

Philadelphia to have a Revival.

PHILADELPHIA, 11. — At the meeting of clergymen and laymen, this p. m., a telegram was received from Moody, the revivalist, reading as follows—

"Have asked Brooklyn to let me off; I will commence work in your city Oct. 31st, God willing."

WESTERN.

$250,000 Fire.

SAN FRANCISO, 11.—The hoisting works of the Utah mine, Virginia City, were destroyed by fire last night; loss a quarter of a million. The works were recently completed with machinery to sink to a depth of two thousand feet. The engineer stood at his post and hoisted the miners until he was badly burned. Four men remained below when the engine was abandoned, but they escaped through an old shaft.

FOREIGN.

GREAT BRITAIN.

Review of Produce Market.

LONDON, 11.—The *Mark Lane Express*, this evening, in its weekly review of the produce market, has the following—"The weather has been more broken, there having been hail in some places, but the interruption to field labor has only been partial. The dampness has interfered with the threshing, and the condition of samples is generally bad. The upward tendency in prices is continued though business is restricted. The averages, as compared with 1874, are twopence lower, while in France they are slightly higher. There is less doing at Odessa, but rates are maintained. Dantzic is rather dearer. The receipts of wheat from India are unprecedented. The quality is low, however, but if the shipments pay it places a vast acreage at the service of England."

Going to Switzerland—The Concordat.

The Carlist General Sebalis goes to Switzerland; Spain intends to demand his surrender as a robber.

The Spanish minister to the Vatican has presented a note to Cardinal Antonelli, relative to the concordat.

SPAIN.

A Big Fire.

SANTANDER, 11.—A great fire is now raging in a timber yard near the railway depot in this city; the premises contain a great quantity of fine timber.

ITALY.

A Committee to be Appointed.

ROME, 11.—Italy will appoint a committee of Italians resident in America to act at the Centennial Exhibition at Philadelphia. The Pope will send two mosaics, representing a Madonna by Raphael, and St. Agnes by Gaetili.

FRANCE.

The Turkish Debt.

PARIS, 11.—It is reported that the British and French governments are in communication relative to the steps to be taken in view of the recent edict in regard to the Turkish debt.

INSANITY IN AUSTRALIA.—Australian statistics show that insanity of a violent kind prevails to a frightful extent on that continent, especially in South Australia, with its population of two hundred thousand. In 1861 there were 160 inmates of asylums in that part of Australia, being one to 750 inhabitants. In 1870 they numbered 307, and at the close of 1871 there were as many as 324, or one to 524 of the population. These figures do not represent the entire list of the insane, but include only madmen and other inmates of the asylums. The cause of this great prevalence of insanity can only be surmised, as no authoritative explanation of it is given. Dr. Patterson, Director of the Insane Asylum at Adelaide, does not think that alcohol is the principal cause. One explanation is that it is produced by the weakening effects of the climate, and by the restless, anxious lives led by the English colonists, who are often made mad by repeated failure in business.—*Lippincott's Magazine.*
