The Commission Has Decided to

Purchase it in the Markets

Of the World.

This importnt decision was reached with some reluctance because it was appreciated by Secy, Taft and the executive committee that there would be surely a great outery from two great interests in this country, the producers of material and the shipowenrs, if the purchases were not limited to the American products.

But it was decided that the money consideration was so great that it could be ignored, for it was held that in some cases fully 50 per cent more would be charged for material needed in canal construction than the same goods could

construction than the same goods could be produced for in Europe. Chief Engineer Wallace, for In-stance, showed that two ships in addi-tion to the ones running between New York and Colon and owned by the Panama Railroad company were abso-jutely necessary to carry the food sup-ply and material needed for the work. No American ship could be bought at any feasonable price, and when it eame to building such ships it was found. according to Seey, Taft's statement, that while he can buy two 2,600 ton ships in Europe for \$750,000, it would cost \$1,400,000 to build such ships here. And in addition, while the European ship could be had at once, it would take at least eighteen months to secure American boats.

months to secure American boats. As to material needed for canal con-struction the committee decided that by reserving to itself the right to pur-chase in the world's markets it would at least oblige American manufacturers to give them the benefit of their for-eign prices if they wish to sell goods to the committee.

Secy. Taft explained today that he felt obliged to endorse this decision because, having given Congress every opportunity to give a contrary de-cision, he felt that the very terms of the canal act provided that it should be constructed at the lowest possible

Chleage, May 16.-Brickalyers' hall, chief labor headquarters in Chicago and meeting place for the Federation of Labor, has been invaded by the polics. Eleven union men were arrested who had taken refuge in the building after a bride and groom which had lasted from 4:30 o'clock, when a gny young Lochinvar had driven past Rowland hall in a carriage, ond a sweet young maiden, daintily dressed in a tennis-costume had deserted her racquet to enter the carriage for a rapid drive to the county clerk's office, and then to the home of Rev. Benjamin Young, where the plans of a year's standing were to be carried out. The marriage-ceremony followed 15 minutes after the procuring of the license, and while the mistress of Rowland hall was value trying, in another carriage, to locate the wedding party, and to forbid the banks. STARTED A YEAR AGO a non-union driver had been "slugged." Fear that he would meet the same fale as C. J. Carlstrom, the woodworkfale as C. J. Carlstrom, the woodwork-er who was killed, it is alleged by "sluggers," has 'ed John Mitterman to kill himself. Matterman cut his throat with a razor while standing in the street opposite his dwelling. He died two hours later at a hospital, raving against the unions. Mitterman up to and after the time of the strike, was in the employ of Fred L. Meckel, in whose shops Carlstrom worked. He was one of the men on the list of those to be "slugged" of whom Carlstrom was the first. The fact that he was to meet the fate of Carlstrom so preved upon Mitter-STARTED & YEAR AGO.
