

TELLS TRAGEDY OF BROKEN HOME

Charles Tyler Pleads Guilty to
Assault but is Dis-
charged.

USED CLUB ON TWITCHELL.

Judge Bowman Acquits Man for At-
tacking Destroyer of His
Home.

The tragedy of a broken home was shown on the courtroom screen this morning, when Charles Tyler pleaded guilty to a charge of having assaulted Eph Twitchell, the weapon used being a club. The story wasn't completely told for the defendant, before he could finish his pathetic tale was stopped by being discharged from custody.

Tyler, a middle-aged man whose face is pitted with the lines of worry and sorrow, and looking pitifully haggard as the complaint was read to him, replied in firm voice and with a straightening of the shoulders, "Guilty," but in the next breath, his knees sinking and with a sobbing catch in his utterance, "But, Judge, he broke up my home and my family. I felt I was doing right, and my neighbors tell me that I didn't do enough."

"That man came into my home and ruined it. I stood it as long as I could, and that morning when I was leaving to go to work and he came there, I couldn't help myself. I struck him over the head with the club, and I haven't seen him or my wife since."

Overcome with his emotion Tyler had to pause a minute and then with a sob he blurted out:

"They went away together, and—"

But Judge Bowman with the kindness of sympathy, but gruffly, perhaps to hide his own emotion, interrupted him with the curt:

"You're discharged."

With barely audible thanks Tyler hurried from the courtroom.

SIXTY DAYS FOR LOVE.

Theodore's Handiness With Brick
Wins Him Turn in Jail.

Theodore Love's handiness with a brick brought him a reward today in the shape of a 60-day job for the city on the rockpile. Love, who is a colored man and a roustabout with the Parker Carnival company, demonstrated his ability to handle bricks last night when he brought one down with crushing force on the head of D. F. Drake, inflicting a severe scalp wound. He didn't deny his strength, but wanted it known that he had used the brick after Drake had hit him twice. Prosecutor Rogers, speaking for Patrolman Kast, had a different version of it, and told a story of 60 days for Love.

AUSTRIAN BELIEVED TO BE UNDER WATER

Jordan River Being Dragged for
Body of Tony Nichivich.

Sheriff Joseph C. Sharp this morning sent Deputy Sheriffs Butler, Bush and Hillen to the Jordan river to drag the stream with grappling irons in search of Tony Nichivich, who is believed to have lost his life in the river last night. Up to a late hour this afternoon no word was received of the recovery of the body.

Nichivich is an Austrian and is 35 years old. For the past seven years he has been employed at the Bingham Junction smelter. At the dinner table last night he told his friends that he intended taking a swim in the Jordan river after the meal was over. He was seen to go about 200 yards south of the Winchester bridge.

When he failed to return his friends started out this morning to find him. They found his clothes close to where he was last seen. It is believed that he took cramps in the river and was drowned.

PRESIDENT KERR A VISITOR.

Former Utahn on His Way to the
Denver Convention.

W. J. Kerr, formerly president of the Agricultural college at Logan, now president of the State Agricultural college of Oregon, situated at Corvallis, passed through Salt Lake today on his way to the National Educational convention at Denver, which opens Monday. On Tuesday there is to be a discussion of a subject of considerable importance, as to whether special agricultural schools should be introduced into the existing high schools and common school grades, or should the subject be introduced into the common and high schools as they at present exist. Mr. Kerr will speak on this subject, and is also booked for an address at Seattle before the educational congress, which opens there on the 12th. Mr. Kerr speaks highly of the work of agricultural education in the Oregon institution, where he reports 1,400 pupils enrolled last year.

His bail was fixed at \$250, in default of which he was remanded to the custody of the sheriff.

Mr. and Mrs. A. Hugo Westman were happily surprised by the birth of a large, beautiful boy Wednesday, June 30.

BLACKFOOT IS IN HER GAYEST DRESS

Great Commemorative Celebration in
Prosperous Idaho Com-
munity Today.

(Special to the "News.")
Blackfoot, July 3.—Blackfoot is in
gala dress today, celebrating in its
best style the holiday which has
brought people from all the surround-
ing country to this thriving commu-
nity. The festivities began with a par-
ade which started from the armory,
breaking up at the court house, where
the services of the day were held. The
gathering, which completely filled
every inch of available space about the
court house grounds, entered into the
spirit of the day with a vim, opening
the exercises of the day with a rousing
rendition of the song "Idaho, Oh, Idaho."
This song was followed with the
presentation of the new flag of the
state to Governor Brady by the Rev.
C. A. Edwards. Governor Brady in ac-
cepting it, declared himself to be high-
ly honored in participating in the ex-
ercises. The flag was raised amid the
strains of "The Star Spangled Ban-
ner," played by the band, many in the
crowd joining in with the music in the
words of the anthem.

Gov. Brady was introduced as the or-
ator of the day and in his oration he
reviewed the history of the Blackfoot
valley, and the progress of the com-
munity. He declared himself to be high-
ly honored in participating in the ex-
ercises. The flag was raised amid the
strains of "The Star Spangled Ban-
ner," played by the band, many in the
crowd joining in with the music in the
words of the anthem.

The afternoon is being made lively
with a baseball game between Black-
foot and American Falls. Horse races
and other sports will close the day's
celebration and in the evening a ball
will be given.

The observance will be continued to-
morrow, when in the Methodist church
a commemorative service will be con-
ducted, on the anniversary of the
birth of the pioneer.

WILLIAM WILLES RETURNS.

Reports Much Success in Missionary
Labors in London.

William J. Willes of the Willes-Horne
Drug company has returned from Eng-
land, where he fulfilled a successful
mission. Mr. Willes was absent more
than two years and for 20 months la-
bored in London.

Mr. Willes was one of three elders
who had charge of a large company,
and they crossed the water on a new
ship of the White Star line, the Megan-
tie. He said the new boat is equipped
with everything possible for the com-
fort and convenience of the passengers.
The boat was delayed in a fog for 16
hours near New Foundland, where the
passengers saw 10 great icebergs.

On the first day the new ship had clear
running weather and it made 422 miles.
Mr. Willes says the work is progress-
ing wonderfully well in England and if
not a great many converts are being
made the missionaries are doing great
work in uprooting the deep seated pre-
judice that has existed there against
the Mormon people. The street meet-
ings have met with much success and
the good work is being done among the
higher classes. He also brings a glow-
ing report of the splendid work being
accomplished by President C. W. Pen-
rose, who has charge of the European
mission.

PREST. ROBINSON HERE.

Sad Errand Calls Him from His
Labors in California.

President Joseph E. Robinson, of the
California mission, is in the city today.
Mr. Robinson has just buried his little
boy, who died at Los Angeles on June
14, of lymphatic leukemia, which is a
hemorrhagenous condition which the
physicians seem unable to cope with.

His little son was not quite six
years old. He was buried at Pismo
Washington. County, which is Mr. and
Mrs. Robinson's old home. Mrs. Rob-
inson expects to join her husband in
his clerical work at Los Angeles, where
he will return to Los Angeles.

Mr. Robinson says that the mission
work is progressing in a most satisfac-
tory manner. More Book of Mormon
sales have been reported, and many
baptisms have been performed this
year than ever before in a like period.

"The elders are contented and working
hard," said President Robinson, "and
the mission is in a most satisfactory
condition. Business conditions do not
seem to be so good on the coast as in
the interior mountain country. It was a
great blow to the Pacific coast when
San Francisco was shaken and burned
nearly out of existence. It is hard to
recover from the shock." President
Robinson has been more than nine
years in the California mission, and
begins to feel like California is his home.

Fifth ward, which was made by
Judge Bay, was confirmed today at
a meeting of the board of education.
Eight members being present. No
choice was made today of a president
to succeed Judge Henderson, who died
recently, but it is probable that
Byron Cummings will be chosen for
the position at an early date.

SOCIAL AND PERSONAL.

John Q. Critchlow was called to the
Oregon Short Line in the Twin Falls
country, and one of the best friends

duced, is in Salt Lake today on a busi-

COURT NEWS

FAILED TO PROVIDE.

Mrs. Alice E. Ross seeks a divorce
from Robert Edward Ross on the
grounds of failure to provide in a com-
plaint filed yesterday in the Third dis-
trict court. They were married here
April 12, 1883, and have six children. For
the last year he has failed to give her
any money, although he was working
and earning good wages. She wants
\$30 alimony and attorneys' fees, be-
sides the custody of all the children.

TWO NEW CITIZENS.

Louis Lowenstein of Price and Aaron
Cline of Salt Lake City, were admitted
to citizenship today before Judge Mar-
shall in the United States district
court. Both are natives of Russia.
Two other men, one a native of Aus-
tria and the other from Italy, were
to have been admitted but their wit-
nesses failed to put in appearance and
their cases were allowed to go over.

BARREL FOR AN OVERCOAT.

Policeman rudely Takes Off Wooden
Clothes of Fijian Imitator.

John James Henry William Clifton,
colored, landed at the police station
again today when he endeavored to
imitate a Fijian and travel the streets
in a barrel. Clifton was arrested by
Patrolman Pitts because he continued
to wear his costume of barrel staves
and much paint and caused consid-
erable commotion in Main street. The
negro was endeavoring to advertise a
Second South street shoe store.

When Clifton was taken to the sta-
tion he did not climb out of the bar-
rel readily enough to suit the police-
man, who was able to jerk him out of
the wooden overcoat in short order. His
face was horribly painted and his color
was heightened by the use of black
paint.

Clifton has been hanging around the
police station for several days. He
was recently in trouble over a dish of
peas and was beaten by another
negro in Commercial street.

LATE LOCALS.

Returns from Geneva—Sixty-three
boys returned this morning from the
Y. M. C. A. camp at Geneva, Utah lake,
after camping for a week. Thirty men
go down this afternoon to spend the
next three days at Geneva, and on
Tuesday, another outfit of 60 association
boys will go into camp for 10 days.

Begin Ninth Avenue Work—Grading
and street laying will begin next
week on the Ninth avenue street car
line extension from Sixth avenue and
R street, where the construction gangs
now at work at the Pioneer monu-
ment will be transferred. The Utah
Gas & Coke company is laying mains
on Ninth avenue.

To Consider Acoustics—Several lo-
cal scientists will consult Monday morn-
ing with Bishop Scanlan to secure more
perfect acoustics in the new cathedral
with reference to speaking from the
choir. The choir gallery acoustics
could not be improved upon.

Will Not be the Host—An announce-
ment printed in a morning pa-
per, which did not attempt to verify
the matter, conveyed the information
that Principal George A. Eaton of the
High school would entertain the mem-
bers of the freshman and sophomore
classes of the school at the lake this
evening. The announcement was evi-
dently conveyed to the newspaper by
some youth with distorted conception
of the matter. Mr. Eaton requested
the "News" to state for him that he
planned no such festivities. His man-
ner of speech indicated that the boy had
caused him no little embarrassment.

Saturday Closing Hours—The United
States land office will be closed at
1 p. m. on Saturdays during the months
of July, August and September.

Plumbers Still Out—The plumbers
strike is as far from being settled to-
day as when the men went out, though
things are reported to be in a little bet-
ter shape for the employers, one of
whom stated this morning that some
men from the outside had already ar-
rived in the city and more are expected
next week, when the masters hope to
put their orders through more prompt-
ly. All they have been able to do
this week is to attend to the most
important work, and in order to do this
the masters have had to help each other.

IDAHO FARMERS WILL SOON LIVE IN PALACES

(Special Correspondence.)

McCAMMON, Ida., July 1.—Farmers
will soon commence haying. The alfalfa
crop will be very heavy. The alfalfa
will also yield a banner crop if the
weather continues favorable. Farmers
are making a special effort to harvest
the largest crop of potatoes ever raised
in this valley. Some farmers planted as
many as 10,000 on one acre.

Potatoes are selling here at 2 cents per
pound; wheat at \$1.20 per bushel; oats
at \$1.00. These are better prices than
the farmers ever received before. Con-
sequently the farmers will soon live in
palaces instead of log huts.

Though the words of Brigham Young
will be fulfilled when he said that "a
barrel of flour would bring the farmer
a barrel of gold."

Petitions are being signed to be sent
to the county commissioners asking them
to make a special election to vote on the
question whether Bannock county
should be wet or dry.

FUNERAL OF JOEL LEWIS.

McCAMMON, July 1.—The funeral of
Joel Lewis, one of McCammon's pioneers,
was held in the McCammon Opera
house last evening. The services were
conducted by Joseph Brim, Fred H. Campbell,
William Davis, James Henderson and Bleh-
as. The words of the bereaved family, de-
ceased was a faithful Latter-day Saint
and a good citizen.

McCAMMON NOTES.

year. This is the decision of the com-
mercial club.

ABORIGINES OF AUSTRALIA.

There are now 75,000 of the aboriginal
population in Australia. Of this num-
ber there are about 20,000 in the col-
ony of Queensland. Queensland has
an elaborate system for looking after
the welfare of the blacks by means
of "protectors" stationed all over the
colony to see that the natives are
fed and clothed and shielded from in-
terference of white people. Many of
the natives are over six feet in height.
Like most savages, they are polyga-
mists, but they are not cannibals. The
natives under civilization have devel-
oped habits of economy and saving.
They have made good progress in both
reading and writing, but missionary
reports state that teaching them arith-
metic is hopeless.
