

night last night saw the end of the Butte contingent of the Coxe army marching on to Washington.

For sixty hours traffic on the Northern had been stopped in this state, and during all this time a train had been running wild from the mountains to this point, where it was taken in charge last night by Colonel Page, with 500 men from Fort Keogh.

Before leaving Miles City, last night, the authorities had warrants sworn out for the arrest of General Hogan, Lieutenant Pat Meaney, Conductors Smith and Wiley, Engineers Olney and Cleveland, and ten others, charged with grand larceny, in stealing a box car of tools and car of coal.

The charge of burglary will also be entered against them as soon as the government reaches them. The commonwealers are still here and will be here until tomorrow awaiting orders from the secretary of war.

The arrested men are to be turned over to the United States marshal and his deputies and escorted by them to Butte, accompanied by two companies of troops for the better protection of the deputies.

TOLUCA, Ills., April 27.—The miners who halted for rest at Big Sandy last night, broke camp at 4 a. m. today, arriving at Toluca at 6 a. m. with the Blair brass band and drum corps. There were nearly 5,400, although foot-sore and weary they had not lost their enthusiasm. Most of the colored miners that work here left for other places last night to avoid a skirmish. The army from Streator and Kingley arrived later. Gill, president, J. Crawford and Vice-President James W. Murray came in a special train and the conference took place between the men and Charles J. Devlin in the latter's private car. The mine officials wanted Devlin to address the miners, but he declined, saying he had not invited them here. The meeting was addressed by Gill, Crawford and Murray, who counseled peace, and urged the army to leave and told the Toluca miners to decide for themselves whether to strike. Finally this was agreed on and Devlin at once arranged for a special train to take the army home. It is the general impression here that the Toluca miners will not return to work.

MOUNT STERLING, April 28.—Galvin's men are still holding the train. Attorney General Richards is here with Adjutant General Howe. John Mahoney offered to attempt to drive the men from the train with his thirty special officers, but was advised by the attorney general not to use force or shoot. The attorney general said the military alone should do the shooting.

The train of soldiers at 11:30 pulled out for Mount Sterling. Gating guns were taken. A special to the *Dispatch* says when Mahoney was presented to a committee of Coxeyites they laughed at him.

At 11:55 a. m. Adjutant General Howe and Attorney General Richards arrived. After conference with them Scott Chenoweth, the sheriff, ordered the men off the train. Attorney General Richards said to them: "If you refuse to get off the train the state of Ohio will compel you to do so." Galvin then said to the men: "I have no control over you; you must act on your own judgment in this matter. Every man must act for himself individually, but I would advise you to obey the orders of the sheriff."

Not a word came from the men. The sheriff then asked for the assistance of the military. Galvin said to a reporter: "I don't see the necessity of all this trouble. All the men want is to ride on that train. They do not expect to do anybody or anything any injury."

The troops arrived at Mount Sterling at 12:10 p. m. At 1 o'clock they mounted the cars and the Galvin men scrambled off and the train moved away. No shots were fired.

SAN FRANCISCO, April 28.—The city commissioners for Golden Gate park have at last taken a hand in the athletic event which Colonel Daniel Boone has been so energetically advertising to take place in his animal arena on the Midwinter Fair grounds tonight. Fully 1,500 tickets have been sold for admittance to the "wrestling" match between the lion "Parnell" and a big grizzly bear from Nevada. Col. Boone has positively announced that

the harmless little affair will come off tonight and the executive officers of the Fair have offered no very serious opposition. The park commissioners came to the front yesterday, however, and flatly warned the executive committee of the Fair that the match must not take place. They threaten that if the battle takes place their concession of the use of Golden Gate park will be withdrawn and the Midwinter Fair brought to an untimely end.

DENVER, Colo., April 29.—A special to the Rocky Mountain *News* from Chicago says: A scheme of prodigious proportions, which contemplates the overthrow of the country and government in the interest of co-operative enthusiasts, was sprung this afternoon at a meeting of the White City Co-operative association, a powerful organization of known socialistic tendencies. Colorado was declared to be the state where the overthrowing should begin. It is intended to place the co-operative committees in one state, so they can multiply and eventually control the legislation of that state to the establishment of a complete state co-operative machine, and then the conquest of the balance of the country would be the more easily and more quickly secured, through the example of its practical operation on so large a scale as a state.

The jury brought in a verdict of guilty, and Henri was shortly afterwards sentenced to death.
