Sibley an Expansionist.

Washington, Feb. 1.-Representative Joseph Sibley of Pennsylvania, who attained great prominence in the Fifty-fourth Congress by his earnest championship of free silver, assalled his Democratic colleagues today for their opposition to expansion in a speech that made the floor and galleries roar. Mr. Sibley has recanted his views on

free silver, and is now generally out of structure, which is four stories high line with his colleagues on the Democratic side. He insisted today that ex- and covers a large area, was burning pansion was an original Democratic doctrine promulgated by Jefferson and adhered to by Madison, Jackson, Tyler, Polk and Buchanan. In eloquent lan-guage he plotured the destiny of the United States carrying the arts of peace and the story of the cross to the remotest corners of the globe. Mr. Sibley received an impressive demonstration when he closed. The remainder of the debate today was uninteresting. It touched the questions of mediation in the Transvaal, lynching in the South and the jury law in Hawail. Not much progress was made with the Indian appropriation bill, which was under consideration.

s follows: Gold \$403,496,507; sliver \$502,043,317; saper \$63,413,615. Bonds, deposits in paper \$69,413,615. national bank despositories, disbursing officers balances, etc., \$108,475,123. CLOSE CALL FOR FIRE CHIEF

Head of Chicago Department Overcome by Smoke.

Rescued by His Men-Supposed that the Veteran Was Seized with a Fainting Spell.

Chicago, Feb. 2 .- Fire Chief Swenie had a narrow escape from death early today in the burning factory of the Rauch Furniture Manufacturing company. The veteran head of the department was overcome by smoke and fell unconscious in the rear of the office on the first floor. 000,000; in 1899 it was nearly \$12,000,000. 000. The amazing advance can best be realized by comparison. In 1870 the manufacturers of the United States just about equalled those of Great Britain; in 1899 they were two and a half times as great as the total volume of British manufactures and equalled those of manufactures and equalied those of Great Britain, Germany and France put together. The increase in the an-nual American product within thirty years has been double the combined in-creases of those three great nations of Europe. In other words if you match the United States against Great Britain. Germany and France together, our manufactures are now equal to all those and are growing twice as fast. We are manufacturing nearly two-thirds as much as all Europe, with its 370,000,000 people and more than one-third of all that is manufactured in the world.

"We have not gained the same lead in textiles. But though we began fifty years ago with a valued product of only one-seventh of Great Britain's, only one-fifth of France's and only one-half of Germany's, we have now caught up to Great Britain and nearly equal France and Germany combined. Our predominance will become as signal in this field as in metals."

Sarcastic Spaniards.

City of Mexico, Feb. 2 .-- The election difficulties in Kentucky are regarded here as indicating that that section of the American Union is in a state of civil war, and Corre Espanol, the organ of the Spanish colony, sarcastically re-marks that the United States is giving a fine example to Latin America, and adds that if a similar state of things were apparent in any Latin-American country, the newspapers and the pub-lic of Yankeeland would be clamoring for American Intervention. Kentucky has in the past few days attracted about as much attention as South Afri-

The assembly unanimously adopted the report and also a resolution to the effect that the chairman of the meeting appoint a standing committee of five, to whom all facts, experiences and complaints with reference to tuberculosis in cattle might be communicated; that this committee be authorized to call other meetings, if it should seem advisable; that it reautine law so far as the protection of the public health and the stock interests of the State might be conserved, and that it recommend to the next legislature such legislation as might be necessary for the protection of private property, the soundness of the cattle and the prosperity of a leading in-dustry of Illinois.

TERRY TALKS OF THE FIGHT

Says That for Two Rounds the Chicago Hoy Put Up a Better Fight Than Did Dixon.

Chicago, Feb. 2 .- Terry McGovern, who last night at Tattersalls' won the clear title to the feather-weight championship of the world by knocking out Eddle Santry in the fifth round of a six-round bout, said in an interview:

"Santry gave me a better fight for two rounds than Dixon did, and I must give him all the credit in the world for his showing. Dixon worried me longer and, I think, was able to stand the pace better. I must say that Santry had me a trifle worried in the second round. After that I got the range and it was only a matter of time."

Eddle Santry said: "I thought I was fighting at my best when I was knocked out. The awful space McGovern sets is killing to any man, and I honestly think this little fellow can whip most of those clever light weights we hear so much about. It was extremely discouraging to me to hear the cries about the ring about McGovern is the featherweight champion all right. He is the greatest little fighter the world has ver known. I am simply unlucky to

be in the same class with him." Geo. Siler, the referee, said: "I counted Santry out. When I reached the count of ten, I said, Ten and out, Ed-die; you lose.' He was then on his hands and knees, and did not have a chance to get up. My move in getting between the men and waving McGov-ern off appears to have been taken as That is not the case, and those who bet that Santry would be knocked out win. It was as fast a fight as I ever saw."

We used the CUTICURA RESOLVENT, CUTI-CURA Ointment, and CUTICURA SOAP, all traces of the eczema disappeared, the skin and scalp were left perfectly clear and smooth, and she was entirely cured. MRS. My oldest boy, age nine years, was troubled with sores on different parts of the body, especially on the leg, about twenty-four in all. They were about the size of a five-cent piece, and would fester very much and eject a pus. They were very painful. After my above experience with the cure of my little girl with CUTICURA REMEDIES, I did not bother with the doctor in this case, but gave him the CUTICURA treatment which completely cured him in four weeks. Seven bids in all were received. Each of the local clubs, the Broadway Athletic club and Seaside Athletic club, offered 60 per cent of the gross receipts of the match.

The most attractive offer was made by the Carnival company of San Francisco, which agreed to give the fighters a purse of \$30,000 and a 50 per cent interest in the pictures to be taken of the fight, or a purse of \$33,000, the club to all the interest in the pictures. J. Wolf, president of the Carnival company, was notified by telegraph after the meeting that if he would accom-tany his offer with \$5,000 in cash, to be posted with Al Smith he could have the match. He was also notified that both of the principals has posted \$2,500 with A' Smith as a guarantee of good faith, and that it was necessary for the club securing the fight to post \$5,000 as a guarantee that it would bring the match to a successful conclusion.

The National Athletic club, of San Francisco, offered 70 per cent of the gross receipts and guaranteed that the fighters' share would not be less than \$20,000. Brady made an offer for the match. He said that he would give 6.2-3 per cent of the gross receipts or purse of \$15,000. His offer was accompanied by a certified check for \$2,500. When asked where he would hold the contest. Brady said:

"Maybe in Paris, maybe in San Francisco, maybe in New York." He said, however, that in the event

of securing the contest he would name the place of holding the fight by Feb.
