THE EVENING NEWS.

Friday, - - March 31, 1871.

LOCAL AND OTHER MATTERS.

THEATRICAL.—"Twixt Axe and Crown" was splendidly played last night. "The Lady Elizabeth" of Miss Rose Evans was a superb piece of acting. She will appear to-night in the difficult role of "Hamlet, Prince of Denmark," in Shakespeare's tragedy of that name. The rendition of that character by a lady is a novelty here, and there is no doubt but it will be done justice to. The bill should draw a good house.

EDITORIAL ITEMS.—The following was received too late for publication in yesterday's NEWS:

BEAVER, March 30.—Major Jas. Gorlinski, U.S. Deputy Surveyor, arrived yesterday, from his camp at Fremont's Pass. He has entered and completed his surveys in Parowan, and is preparing to cross over the Iron mountains to Sevier, on sixth standard parallel, of which he has already surveyed a portion, and finds the route practicable. He intends to reach, with his line, the point due south of Salt Lake City, at the principal meridian, and lay out the basis for the future surveys of the whole upper Sevier and Kanab country. He contemplates finishing the present contract by bringing his surveys north to Bullion City silver mines.

Farmers are busy putting in small grain. The weather has been very cold for several days. There is a strong north wind blowing.

The following has been received by Deseret Telegraph Line:

LOGAN, March 30.

This is the finest day of this season. Sickness is prevailing among children, mostly from cold. There has been no discovery of grasshopper eggs so far.

FILLMORE, 30.

Three miners from White Pine, together with a few citizens, are working about four miles south clearing rocks from a place named Hell Hole. It has every appearance of an old shaft and is thought to have formerly been worked by Mexicans. Rocks taken from the side of the shaft will assay from one to three hundred dollars gold, per ton; the shaft is is now 80 feet down.

GRAND OPERATIC CONCERT BY SIGNOR FARINI.—It will be remembered by the public that Signor Farini gave a concert in this city about three weeks ago; and which, although he had but about four days in which to drill his entire *corps musical* gave such general satisfaction and pleasure that he has been repeatedly solicited by a number of his friends and admirers in this city to give a second concert, which he has consented to do as will be seen by the following correspondence:

SALT LAKE CITY,
March 29-5, 1871

We, the undersigned, duly appreciating the ability of Signor Farini as a Professor of Music, as evidenced on the occasion of his first Concert in this city, notwithstanding the short time he had to prepare his choice entertainment, and being desirous of hearing him again, after due preparation, would respectfully request the Signor to gratify his admirers by giving another Concert at his earliest convenience.

SALT LAKE CITY,
March 30th, 1871.

REV. D. H. WELLS, WM. JENNINGS, MESSRS. WALKER BROS., D. O. CALDER, M. CRONALL AND OTHERS:

Gentlemen,—I feel highly honored by the above mark of your appreciation of my humble abilities as a musician, and take great pleasure in naming next Tuesday evening and the Theatre as the time and place, when I will have the honor of appearing before you in a Grand Opera Concert. Very respectfully,

A. FARINI.

RETURNED.—Bishop Leonard E. Harrington, of American Fork, returned to the city last evening after an absence of several weeks on business in the East and visiting his relatives. He left this city on the 6th of last January, and has had a most delightful trip, and, we should judge, has been greatly blessed, in disabusing the public mind of many incorrect ideas respecting the Latter-day Saints. He has visited his friends in New York; Jackson, Michigan and De Witt, Iowa. We find the following notice of his visit to De Witt in the *Observer* published in that town:

"A LIVE MORMON ABROAD.—Mr. L. E. Harrington, of American Fork, Utah Territory, was in our sanctum yesterday. He is a regular dyed-in-the-wool follower of that peculiar faith, and is a firm believer in, and a happy subject of, Brigham Young. Mr. H. says he is himself the possessor of but two wives at present, having lost one by decree of death, some time since. He has lived in Utah Territory twenty-five years, was one of the very first settlers at Salt Lake City, and has been thoroughly identified with that place from its earliest history. He is one of the prominent men of the Territory and has been a member of the Legislature during the past sixteen years. He is also Mayor of American Fork, some thirty miles from Salt Lake City, and has been for several years. He is free to converse upon the subject of Mormonism, and really seems honest in his strange belief—claiming to be one of the faithful, doing God's service, in point of morality, industry and general intelligence he challenges comparison with any other portion of the Footstool. One blessed good thing in Salt Lake City, of about 20,000 inhabitants, is that grog shops are not countenanced there, which goes far towards offsetting the polygamous iniquity. Mr. H. has been to Washington on public business, and stopped at De Witt on his return trip, to visit relatives. Mr. S. S. Harrington of this place, introduced him to us for "interviewing" purposes and we made use of the opportunity, for it was a real satisfaction to converse with an intelligent, gentlemany follower of Brigham. We have read a great deal about the Mormons and have seen parties who practiced certain fundamental principles of that faith, but never before met and conversed with a living "saint" —a sane man who really believes in Mormonism. He is a man of about fifty years, and is, in our opinion, one of two things, viz.; either thoroughly conscientious and candid, or else one of the profoundest hypocrites and blatherskites we ever "pumped." We place him under the first head.

Mr. Harrington will remain two or three days with his relatives in and near De Witt, and then return to Utah. Twenty-six years have elapsed since he last met these friends, as he has kept close to his hearthstone ever since settling on the far-off western frontier—this being his first trip East. We wish him safe transit to his numerous family.

EXCURSIONISTS.—A party of Excursionists, numbering over twenty ladies and gentlemen, are spending the day in this city. They are mostly from the Eastern States and are on their way to California. We believe this is the first party of the kind this season and there are many already organized which will, in turn, appear amongst us. We trust that our citizens will continue to evince that courtesy to strangers which has hitherto characterized them, and so contribute to make the short stay of visitors pleasant and interesting. Among the excursionists are Mr. George L. Dunlap, the gentlemanly superintendent of the Chicago and North Western R. R. and his charming daughter. The Sup't, is highly spoken of by all of our people who have had dealings with him, and we regret that his stay here is so short. The party is traveling in the Directors' car of the Chicago and North Western Railroad, and have elegant accommodations. The excursionists take their departure this evening.

PEOPLE'S VERDICT

Over Half a Million sold and in use!

4,000 made and sold per week.

SINGER'S
New Improved Silent
FAMILY SEWING MACHINES
ARE
The Best in the World,

Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable.

THE SINGER
NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense and is now incomparably the best Sewing Machine in existence.

It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as Black Walnut, Chestnut, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction, namely, from the operator, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*

The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which is liable to break and to miss the stitch.

In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines drive their Shuttles in a race, thus causing great wear, and *requiring oil*, soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing. Which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the
Oldest Practical Sewing Machine,

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements. It is the only Machine sold on Easy Terms, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those *who utterly fail on other Machines.*

SINGER'S
New Manufacturing Machines

Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are applicable to *all kinds of heavy and light manufacturing in Cloths, Leather, etc.*, and run in the most perfect and reliable manner without trouble to the operator.

HAVE ARRIVED!
A Full Assortment of those
Beautiful and Unrivaled
MACHINES.

(The numbers on which show a manufacture of between Five and Six Hundred Thousand.) Consisting of the different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

EASY MONTHLY INSTALMENTS

So that all may possess one of these *Blessings.*

For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.

We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to speak for themselves. We want this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.

We having been so fortunate as to secure the
General Central Agency,

For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.

We Guarantee every Machine we sell to give entire satisfaction.

THE SINGER
BUTTON-HOLE MACHINE
Is the only Practical one in the World.

OTHER SEWING MACHINES REPAIRED on Reasonable Terms.
