# DESERET EVENING NEWS THURSDAY MAY 16 1907

there the "blind" ledge was encountered. "It is getting bigger and better every day," said Mr. Elliott this morning. "When first uncovered the ore was about a foot wide and at a depth of 12 feet it is six feet wide. The whole bottom of the shaft is in ore and while no assays have been made yet of this particular rock it pans between \$20 and \$30. The body is much bigger, that much is a certainty but how much bigger, we do not know. We will not

6

### be surprised at anything." TWO BIG LEDGES.

The discovery has led the management of the property to believe the ledge opening is the one on which rich strikes have been made in the Snow-flake. The Snowflake ledge and Jennie believe the strikes have been made in the snowledges curve towards each other and ledges curve towards each other and meet and it is now thought they spread out again in the Jennie Extension. It is the west ledge now being uncovered. A tunnel is being driven on the oppo-site side of the hill and although in but. 35 feet this is all in ore. The ore be-ing found in the Jennie Extension is identical with the ore found in the Jennie.

## WHOLE ACRES OF GOLD.

WHOLE ACRES OF GOLD. While in Gold Springs Mr. Elliott went over the Wild Irish and other properties. The men who are bringing Gold Springs to the front—F. R. Davis, Charles Short and Mr. Elliott and others—are conservative when talking about their holdings. They have been saying the ledge on the Wild Irish was loo feet wide. Samples taken from across this width yield an average value of \$14. In short the trio men-tioned, and associates have what prom-ises to be one of the biggest gold propositions in the west. A shinment of bullon will be ready at the Jennie mill tomorrow or within a very few days and it is expected this will bring between \$2,400 and \$3,000. The mill is working splendidly as the new plates are satisfactory and all details running in the top shape.

### SOME OFF-SOME FIRM.

### Other Stocks Just Stationary on Local Mining Stock Exchange.

few of the favorites were slightly off this morning on the local mining stock exchange. Uncle Sam sold as low as 63, but the last open loard trans-fer saw the stock at 65 again. Colorastock at f again. Colora. do continues to be a shining light. It sold this morning at 3.05. Yankee is off, selling this forencon at 49. Star Con vat 28% is another weak offering. Trading was fair, several large trans-fers running the totals up to decent figures. The sales, totals and closing quotations follow:

Prospect on Road to Brighton Causing Some Wonder in Park, (Special to the "News.") Park City, Utah, May 16.—Among the promising prospects of this camp there is none which looks better at the pres-ent time than the Copper Apex. This is situated below the Scottish Chief on the high divide along the road to Brighton and from showings now being found it is probable a good mine will be opened. The camp is wate ing it eagerly. Reports of improving condi-tions are coming to camp constantly and should the Copper Apex prove up big it will be found that ground on all sides has been taken up. A shaft has been sunk to a depth of 175 feet and in the neighborhood of 200 feet of drift-ing completed. Just what lead the com-pany is following is not certain, but it is working eight men on two shifts and is apparently extremely desirous of rushing ork ahead as rapidly as possi-ble. (Special to the "News,")

COPPER APEX LOOKS O. K.

COPPER GOSSIP.

Decrease in Visible Supply-Anaconda

Issues Report on Its Production.

Utah. The properties are to be handled by the La Sal Amalgamated Mining com-pany and now that money has been ob-tained active preparations are under way to prove them up. Machinery and supplies are being ordered at the pres-ent time. It is explained that Mr. Propper will have charge of the prop-erties. He has prospected the La Sal district for 10 years and is thoroughly conversant with the territory's condi-tions. He believes the ground em-braced in the groups just merged is highly mineralized. James A. Pollock & Company received the following paragraph this morning: Boston wires: The foreign visible copper supply on May 15, 1997, was 11,603 tons; a decrease of 1,355 tons within the past two weeks. The Ana-conda report shows copper production of 94,963,935 pounds, or about the same as last year. The net profits were \$8,-584,169, or \$5,000,000 in excess of last year. This 1929,47 per cent on the 30,-000,000 stock after deducting all devel-opment expenditures of the year, detions. He believes the ground ent-braced in the groups just merged is highly mineralized. The Iowa group borders the Tornado which has been shipping for the past year. It has a 14-foot vein of flourite carrying \$17 to the ton in gold. A cross-cut tunnel is in 529 feet and it is expected the vein will be reached within the next 50 feet. The Castle Mountain group has seven veins, vary-ing width from six to 100 feet and carrying average values of five per cent in copper and \$10 in gold. A cross-cut tunnel now in several hun-dred feet is being driven to go through the seven veins. The apex vein will be followed for a distance of 2.600 feet according to present plans of the com-pany. The Utah Midland group has not been opened up yet but to all indi-cations will prove up well inder earnest development. year, this is 20.4, per cent on the 30,-600,000 stock after deducting all devel-opment expenditures of the year, de-pletion of coal and timber lands and depreciation of plant and equipment. They do not give the price received above 19 cents. With a production of 100,000,000 pounds which is expected this year, and the price of 25 cents, which is also confidently predicted, they would make between five and six mil-lion more than last year, or about \$11 per share on the stock. The report in detail is about six pages and the above covers the gist of it. They claim on account of the high price for copper received during the year, there has been a greater portion of lower grade ore mined, although the reserves of the higher grade ores have been increased largely. higher grade ords had a largely. Late reports from the North Butte Extension are to the effect that work on the shaft has been resumed and three shifts of men are now being em-AMONG THE UNLISTEDS.

Trading in the unlisteds was again light yesterday. The quotations during the day were as follows: Standard, selling at 47; Copper Glance at 15; Em-ra Copper at 25; Honerine, 76 to 80; Mason Valley, 1.75; Ohio Copper, 4.60; Variantee, Copper, 20, Variantee, Leon Mason Valley, 1.75; Ohio Copper, 4.80; Yerington Copper, 30; Yerington Iron-sides, 20; Cedar, 40 to 45; Newhouse, 15.87½ to 16.00; Kearns-Keith, 5.00 to 6.90; Western Nevada Copper, 65 to 75; Naildriver, 23 to 36; Ely Witch, 80 bld; Keystone, 15; Uintah Treasure Hill, 20 asked. Nevada Superior sold for 75 cents. This stock is brand new in the pit and is already among the more factpit and is already among the more active stocks.

lent demonstrations. The strikers have declared that any of their num-ber found drunk will be taken to their homes at once, and have passed a resolution constituting each striker a committee of one to see that there is no disorder or rowdyism. This afternoon Traffic Manager Geo. W. Heintz of the smelting company, said that there were no new develop-ments, and that so far as he knew the shut down would continue indefi-nifiely, while preparations are being made to withhold shipments of ore from the smelters for a few days, and to ship them to Colorado points, should the plant be kept out of commission for a long period. No meeting has been arranged between officials and the men, and no attempt is being made to reach a settlement by either party.

In today's local markets the re-ceipts include three cars of oranges, four cars of bananas, one car of lem-ons, a car of Idaho tubers, a car of tomatoes from Florida. The smaller shipments include Cuban fine apples, increasing amounts of cherries now

RETAIL.

MEATS AND POULTRY.

DAIRY PRODUCTS,

SPECULATION VERY QUIET.

### Pressure to Sell Deminished, and Late In the Day Stocks Gathered Strength Slowly.

New York, May 16 .-- Opening prices of stocks were very little altered from last night's closing, a number of the usually ctive issues starting unchanged and th dealings were significant in volume.

A demand for Reading, which carried point above the opening prices. at a point above the opening pilots, steadied the remainfer of the market, but the list did not hold long in face of liberal offerings of Union Pacific, Atchison and the metal stocks. Average losses were limited to fractions outside of the leaders, but speculation became exceedingly quiet when the list made an effort to radiy. Granby Mining yielded Ex. Smelting and Lead By and Union Pacific and Atchison L.
Pressure to soll stocks diminished and allowed the scant demand to lift prices slowly. Central Leather declined 1%. Bonds were heavy.
An abrupt fail in Lead by the announcement that the dividend rates had been increased to 5 per cent. There was a quick radiy of 2 points, after which it lapsed into the rut the rest of the list was in.
Special stocks gathered strength slowly as the day progressed, but particularly for espectively above yesteridays closing. Other stocks also hardened perceptibly. Illinois Central fell B<sub>2</sub> and General Electric 2%. steadied the remainder of the market, but

WESTERN MARKET LETTER.

Kansas City Stockyards, May 13 .- Sup

MEATS AND POULTRY.

Kansas City Stockyards, May 13.- Supply of range cattle for the past week has been moderate, one-fifth less than in any recent week, at 32,000 head. The general market advanced 10 to 26 cents, fat steers from Colorado feed lots selling at 5.00 to 5.60, showing the full advance over the previous week. Stock and feeding grades made advances of 10 to 15 cents, stockers reaching 5.35, feeders 5.45, and calves 5.25, bulk of the stock (attle from 4.00 to 5.60. The run today is 10,000 head, moderate when the good market last week is considered, and those who are predicting small runs for this month find confirmation in the run today and the market without any special feature, except that there is a latent feeling of excitement, in sympathy with unusual advances in whead lately, which may come to the surface in the shape of a star neghbor of 10 to 15 cents. The sympathy with unusual advances in whead lately, which may come to the surface in the shape of a star neghbor of 10 to 10 to

### DAILY GRAIN LETTER

James A. Pollock & Co., bankers and tokers, furnish the following, received rokers, furnish the following, received ver their private wire, this afternoon: Chicago-Wheat-Traders had the iost remarkable turn in prices today sen in many years in the wheat pit. When the market opened on a lower able, slightly better wearher conditions orthwest and a left-over feeling of carishness from yesterday combined o give a weak and lower opening. The heat went right into the hands of ig wire houses, perhaps 5,000,000 ushels, the first 30 minutes. This was hint to the sellers of wheat that it as time for akange of front. On the errific swell near the close, July wheat old at 99% cents. September wheat old at 99% cents and the sellers of the sellers wheat old over \$1. December at \$1.02. There as heavy buying early by houses as heavy buying early by houses entitled with the northwest. This as followed by advices from that barter that at best the northwest iates would not exceed 75 per cent of ist year's wheat acreage. Logan & dryan.
