LEAVES PARTNER TO PAY THE BILLS

Disappearance of W. J. Bracken
Of the Firm of Voss and
Bracken.

DEAF AND BLIND SCHOOL.

Contracts Let for Improvements to be
Made in State Institution—Elks.
Exalted Ruler Visits Ogden.

Ogden, July 4.—According to a statement made by John Voss, of the meat firm of Voss & Bracken, W. J. Bracken has absconded with about \$700 belonging to the firm and at the present time his whereabouts are unknown. Voss has not yet decided to prosecute Bracken but may do so later, provided he can be found.

In the statement, given to the press last evening, Voss stated that he and Bracken some time ago took over the retail store of the Ogden Packing & Provision company, located on Twenty-fourth street. While Bracken looked after this business, Voss continued in the service of the Packing company as foreman of their new plant. On Tuesday Bracken disappeared and, as Voss put it, "left me to pay the bills." An investigation showed that since June 26, Bracken had deposited but \$80 in the bank and upon this account he had drawn a check payable to himself for \$20. Mr. Voss stated last night that he could not tell exactly how much Bracken had collected but estimated the amount at \$700. The two men held an equal interest in the business. Mrs. Bracken did not accompany her husband, but has since disappeared and the belief is that it was pre-arranged for her to follow him to some distant place.

SAD PLIGHT OF CHILDREN.

One of the worst cases of neglect on the part of parents was made known to the police by the residents of Twenty-first street yesterday, when a verbal complaint was made against Mr. and Mrs. Will E. Brent. Summarized, the complaint was to the effect that early Tuesday evening Mrs. Brent went to Sylvan park, where her husband runs a shooting gallery. Three children, including a baby 5 months old, were locked in the house. Mrs. Brent returned about 11 o'clock. The neighbors claim to have heard continuous crying of the baby throughout the night. Shortly after 5 o'clock yesterday morning the youngest of the children died. Dr. H. J. Powers said that death was due to acute indigestion caused by bottle nursing. Those reporting the case assert that the locking up of children alone in the house was no uncommon occurrence. The police are further investigating the case.

INJURED BY BIG FIRECRACKER.

Mickey Hughes, a locomotive fireman employed by the Union Pacific, while discharging a cannon fire cracker at the corner of Twenty-fifth street and Lincoln avenue at 8 o'clock last evening, had the middle finger of his right hand

broken and two other fingers on the same hand badly lacerated. He was also burned about the face. Hughes failed to throw the fire cracker away in time after lighting it and it exploded in his hand. His injuries were dressed by Dr. G. W. Perkins.

CONVICTED OF BATTERY.

The jury in the battery case of the state against Robert McLean of West Weber, returned a verdict of guilty of assault late yesterday afternoon, and the court set Friday morning at 10 o'clock as the date for passing sentence. This is the second of three defendants to be tried. The first was against James Hoag, in which the jury disagreed. Hoag will be tried again after the case against Charles McLean has been disposed of. J. P. Gibson is the complaining witness.

KANAB.

ANGORA GOAT RAISING.

The Coming Industry of Southern Utah—News Notes.

Special Correspondence.

Kanab, Kane Co., July 1.—A very interesting conference of the Relief societies of this stake has just closed. Mesdames Dusenberry and King were in attendance. Today they are starting to the Grand canyon, accompanied by President E. D. Woolley and others, who go to complete the tramway across the Colorado river.

The Angora goat raising is looked upon by those interested as the coming industry in this county. The highest price paid for mohair from this locality at Sanford mills this season was 38 cents per pound net. Three loads of goat wools have been shipped to Kanab City, and a high price is expected.

Warm weather has finally come. Farm and garden truck, which up till the present has been at a standstill, will now begin to grow. The first crop of hay is nearly all up, but on account of the cold weather and late frost, is only about half a crop. The range is in an excellent condition and the prospects for goat, sheep and cattle raising are very encouraging.

The county commissioners have just completed their irksome task of equalizing and raising the taxable property of the county. An excellent program is in readiness for the Fourth of July celebration.

ORANGEVILLE.

DAMAGE BY FLOODS.

Guyman Family Celebrates 88th Birthday of Progenitor.

Special Correspondence.

Orangeville, Emery Co., July 3.—The Cottonwood creek here is, and for some time has been a raging torrent, and has cut around the upper bridge, erected two years ago, and but for timely aid, and careful watching by Road Supervisor Joseph H. Jewkes, the new bridge erected one year ago would, in all probability, have gone down. The current is very changeable, and recently it has been cutting away several rods of land along the Blue Cut canal, and finally has taken together the dividing gate, canal and all, doing considerable damage and completely cutting off the water from a part of the town and all the farms below.

GUYMAN FAMILY REUNION.

Last Sunday a few of the more than 365 descendants of Noah T. Guyman, Sr., met at his house to celebrate his eighty-eighth birthday and partake of the good dinner prepared by his children, and a good time was had by all present. This has been a hard season on beeskeepers, and feeding has been in order up to the last of June, but the honey flow has begun, and beemen are now more hopeful.

CARDSTON, CANADA.

RAINY SEASON IN ALBERTA.

Promise of Bounteous Crops—Close of Successful School Year.

Special Correspondence.

Cardston, Alberta, Canada, June 30.—The rainy season is on, with most copious showers to freshen the vegetation.

The result of too much precipitation however has set all the streams on the rampage; Lees Creek, as usual under such conditions, tried to repeat the escape of five years ago when the good people here had what are termed the "Floods."

Everything seems to be making satisfactory headway, and all together the country and locality never looked better nor more prosperous. The record of growth in vegetation so far is a field 132 cent on the 29th inst. by Pres. E. J. Wood for hay, that was 60 inches in height. Fall wheat in many places measures 30 in. inches and just ready to head out. All wild grasses are headed and overly well seeded so that the people do not feel that the season is so backward, although it has kept so cold and stormy. This wheat crop is a real bonus for a bumper harvest if the season of warm days will only be extended to the usual limit.

Elaborate preparations are made for the celebration of "Dominion Day," as well as "Cardston Day," July 1 and 2.

The first is the seventieth anniversary of the Federal Union of the Provinces into a Dominion, the second is the birthday celebration of Cardston as a municipality.

The vote for the new bond issue of twenty thousand dollars, was almost unanimous, only two dissenting votes were cast, so that now the authorities have ample funds to complete an extensive and necessary system of improvement.

There will be a scarcity of farm help this year. It is anticipated that the help required will be brought in from Ontario and eastern provinces whither Manitoba farmers have for years been forced to obtain the help they need to secure the bounteous harvest.

Mr. and Mrs. Barker are rejoicing over another boy at their home. The friends of Miss Ina Wright will be pleased to hear of her marriage to Albert Brown, one of our prosperous ranchers near Cardston.

SCHOOL CLOSURE.

The public schools closed June 23. The examinations indicate a most excellent condition and promotions were numerous. The graduating class, also the two high school classes, will take the examination under government inspection during the first week in July. If successful there will be a number of bright young men and women prepared to teach at the beginning of 1908. The educational system here requires them to take a four months' normal course after having graduated in their studies, before they can teach.
