

tember 2, 1874. He remained there two years, acquitting himself with honor, and then entered the Rensselaer Polytechnic Institute, at Troy, New York, where he graduated in 1880. Returning home he was soon appointed to take a mission to Mexico, and started in company with Apostle Moses Thatcher, November, 17, 1880. While there he labored assiduously, studying the Spanish language and assisting in publishing articles and pamphlets explanatory of the doctrines of our Church. His health was but feeble, and on the 9th of September he wrote to his mother that he was feeling unwell. The next news received was of his death from typhoid fever, one hundred miles out from Havana. His remains were consigned to the waves. He sleeps on the bed of the ocean. But his rest will be as sweet as though in the bosom of mother earth with sunshine and flowers above. And when the resurrection morning dawns and Christ calls His jewels from earth and sea, the Divine voice will be heard as quickly through the deep waters as in the graves under the soil, and our brother will come forth to receive the reward of those who died while in the discharge of duty. Peace be to his body, and may God comfort the bereaved mother and friends.

LOCAL AND OTHER MATTERS.

FROM FRIDAY'S DAILY, OCT. 7.

Going Southward.—Brother William Brammall, who represents the NEWS as travelling agent, will, in the beginning of next week, start southward in that capacity, on a business tour as far as Kanab, Kane County. He will visit the counties and settlements intervening between here and that point, beginning at Utah County and passing through Juab, Sanpete, Sevier, Beaver, Millard and Piute. He will also visit Washington County. Our friends will find him a genial gentleman, with whom it is a pleasure to do business, and we bespeak for him a cordial reception, and the tender of every needed aid to enable him to accomplish the object of his trip, which he invariably receives in his travels.

Painful Accident.—A very painful accident occurred at Clarkston, Cache County, on Wednesday, September 28th. While Eugene Stine was greasing the side gearing of a threshing machine, from which the guard was broken off, his shirt sleeve was caught in the cogs, drawing his hand in. The forefinger and little finger were torn out and the ends taken off the two middle ones. The back of the hand, wrist and arm were also very badly bruised and lacerated.

Dr. Lamereaux, of Logan, was sent for and attended to the unfortunate man's injuries. The patient is doing as well as could be expected. The thumb and the larger portion of the two middle fingers will be saved.

Stine is a stranger in the place, and is receiving the most kindly attention at the house of Mr. R. K. Homers. These facts were communicated to us by "W. V. C." a special correspondent of the NEWS.

FROM SATURDAY'S DAILY, OCT. 8.

A Disastrous Fall.—The Ogden Herald tells of a serious accident in that town on Thursday evening, C. F. Dieson, 21 years old, a carpenter, fell from a scaffold in the new building of Boyle & Co., a height of 28 feet. His right arm was broken above the wrist, his forehead was terribly bruised, his right eye badly injured, a number of his front teeth were broken out, and his body was otherwise badly shaken.

A Special Prize.—The Studebaker Central Branch House, Salt Lake City, Mr. James B. Glass manager, has nominated as the recipients of his special prize of \$25, the maker and owner of the cedar bookcase, made of native wood, \$15, and of the inlaid woodwork, \$10. The award is made with the sole object of encouraging home industries in these directions. Besides, the articles justly merit this generous recognition.

Lost Baggage.—Elizabeth Clayton, who came in with the September company of emigrants, lost a portion of her baggage, consisting of a box addressed to Provo. Louisa Walker also lost an oil-cloth sack, containing bedding and other articles. It was addressed to Payson.

Any person knowing anything of the whereabouts of this property, will confer a favor by communicating with James Finlayson, of Payson, Utah.

From Tennessee.—Last evening we were gratified to receive a call from Elder Hyrum Belknap, who has just returned from a mission to the Southern States, on which he left Utah June 17th, 1879. He labored the whole of that time in Tennessee, over which conference he presided during the last summer. He attended 323 meetings, was several times threatened with violence at the hands of oppositionists, but never suffered any. He baptized 23 persons, and is very grateful for the experience he has gained. He was succeeded in his position as President of the Tennessee Conference, by Elder B. H. Roberts, of Centreville. Elder Belknap is a young man, son of the Bishop of Hooper, Weber County.

Random Fair Notes.—The first chair made in Utah, the product of Levi Jackman's skill, calls forth many comments. It has the appearance of having been made with a jack knife. It contrasts grimly with the splendid furniture exhibited by H. Dinwoodey, which is in the advanced style of modern mechanism.

White & Hopwood's brush display receives a good deal of attention. The articles are highly creditable.

Provo Manufacturing Company have a most excellent display of woolen goods and yarns, of superior quality.

Bear Lake leather is said to be the best ever produced in Utah. Mr. W. H. Rowe speaks very highly of it.

The ladies' department is so filled with beautiful articles, nearly all attractive, both in the region of ornamentation and utility, that to select and discriminate would be a perplexing process. The assortment of articles is really brilliant.

The insect collection of a lad named Sugden, 13 years old, in the art department, is very attractive. The arrangement of the different species indicates considerable skill for one so young as he.

A lad named Jonathan Evans has shown a good deal of mechanical ability in the making of a model anvil, and different kinds of tools.

Successful Manufacturer.—We had a pleasant interview, to-day, with Brother W. S. Hansen, proprietor of the cheese factory formerly belonging to the Brigham City Co-operative Institution. He was employed by the institution for eight years, until, by advice of President L. Snow, he rented the premises last year, and, by counsel from the same source, purchased them outright, early last Spring. The factory is situated twelve miles due west from Logan, on the divide, close to the line of the Utah & Northern R. R.

Brother Hansen has twenty-two hands employed, and used 340 cows this season, the product of which was 50,000 pounds of cheese, the quality of which has been so acknowledgedly superior that it has been nearly all sold at from one to two cents per pound higher than the eastern article.

Brother Hansen has had an excellent exhibit in the Fair, in which he was awarded the \$25 prize for the best 50 pounds of cheese, and the \$10 given by the Cliff House proprietor for the best cheese. He is also awarded the silver medal for the best canned butter, four months old.

Brother Hansen is one of the eminently successful manufacturers of Utah, and we wish him a continued career of prosperity in that laudable line of business.

Missionary Experience.—This morning we received a visit from Elder C. H. Bliss, of this city, who is just in from a mission to the Southern States. He left here for his field of labor on the 1st of July, 1879, and operated in the ministry in Alabama, Georgia and Mississippi.

Brother Bliss, for a young man, being not yet twenty-one years old, has had a somewhat rough missionary experience, having suffered somewhat from the abuse of mobocrats. The first ordeal of that nature he had to pass through occurred on the 4th of January, 1880, when he and Elder Van Natta were decoyed into an out of the way place, that they might fall into the hands of a mob in ambush. Brother Bliss had been shown the matter in a dream previously, in

which it was manifested how the brethren could escape. By taking the course indicated the persecutors were baffled. The Elders had, however, to remain a large portion of the night in the woods, and walk forty miles after the rising of the moon.

In February, 1880, in Columbus, Mississippi, mobocrats placed a volatile substance in the meeting house, when Elder Bliss was preaching, that raised such a horrid odor, that the congregation had to disperse. At the same place a Dr. Richards had croton oil put in some water that was placed for Brother Bliss to drink. He unconsciously partook of it, but it did not affect him. The lights were put out and he was followed to the hotel where he put up, by a large crowd. Since that time two of the mobocrats, Sharp and Hatch, quarrelled and shot each other dead, and another committed suicide by poisoning. Rev. Pickins, who was in sympathy with the persecutors, got in to some difficulty about a woman, whose husband shot and killed him.

At Buttacatchie River, Monroe Co., Miss., Elders Bliss and McLenahan were mobbed at the instigation of two men who had signified their intention of being baptized, but became bitterly opposed. One of them had been refused baptism, on the ground of his being an unfit subject for that ordinance. The door was closed against the ministrations of the brethren in that place, and they went to another locality and succeeded in opening up a good field.

Elder Bliss baptized some and assisted at the baptism of quite a number of others. One year of his mission was spent without a companion. He traveled over 5,000 miles on foot, and never lacked friends, food or clothing. He was released on the 4th of July, and spent the intervening time between that date and his return in obtaining an account of his genealogy, in Indiana and Illinois, in which he was quite successful.

Welcome Home.—The Saints were delighted yesterday to see Apostle Moses Thatcher once more in their midst and hear his voice. His remarks at the conference in the afternoon were listened to with absorbing attention. His allusions to the late Feramorz L. Young were deeply pathetic, and caused tears of sympathy to moisten many a cheek in the great assemblage of Saints. The speaker said of the deceased Elder, that no strong drink had ever passed his lips, he had never used tobacco nor had he uttered a profane sentence. Here was an example that the whole of the youth of Israel could profitably emulate. Elder Thatcher, who reached the city yesterday from his mission to Mexico, appeared to be only in moderate health, and considerably fatigued by a journey extending over a period of twenty-seven days. The Saints give him hearty welcome.

Baby Show.—The baby show at the fair created something like a sensation on Saturday evening. The music stand in the wagon department was occupied by sixty beautiful babies and as many beaming expectant mothers. The surrounding space was densely packed by a jovial crowd, who hugely enjoyed the novel spectacle. The ages of the competing specimens of infantile loveliness ranged from four to 16 months. It was an interesting sight. These specimens of incipient manhood and womanhood were all enchantingly lovely. So much so that one was instinctively reminded of the song, "Let me kiss him for his mother."

The committee examined the array of little folks, each of whom—in the opinion of the maternal parent—was the bonniest of the lot. Some of the diminutive family organs unfortunately manifested a desire to be heard above the din of the crowd and the music of Brother Barrell's band. This created maternal consternation, and the efforts of some of the mothers to maintain a smiling expression upon the objects of their solicitude was pathetic. Even some of the fathers were not free from this anxiety. We observed one in particular, who leaped upon the stand and commenced to say, "ish, ish, pretty naby, pretty baby," but the infantile music proceeded, notwithstanding that he rattled a box of candy in front of the face of the hopeful.

After the committee had examined the competitors, the judgment was reached by ballot. Only two got a couple of votes each, Alice E. Evans, 14 months, and Alice Paul, 12 months, the other five votes being distributed singly. The contest was now centered in the two rivals, the first named baby, daughter of the late Mr. S. L. Evans, getting the first prize, \$20, given by the Oyster Grotto, and Miss Alice Paul getting the second, a couple of silver napkin rings, given by E. H. Orem. Over fifty boxes of candy, given by the Grotto, were also distributed among the competitors. Several uncomplimentary remarks about the decision, were made by disappointed mothers, but the committee escaped without a scratch.

A Silver Cup, presented by Swaner Bros. for the cutest baby, was carried off by the infant of H. J. Grant of Roundful.

Two members of the committee fainted by the way and failed to appear.

JNO. JOHNSON, ds&w1 Logan Canyon, Utah.

It is to be hoped that the poisonous Ague medicines have had their day. Arsenic and quinine are not desirable commodities to carry about in one's system, even for the sake of temporarily displacing the malarial poison which produces Fever and Ague. Ayer's Ague Cure is a sure antidote for the Ague, and is perfectly harmless, leaving the system in as good condition as before the Ague was contracted. ds w

I carry in stock, at the Mitchell Wagon Yard, a full line of Concord Team Harness. I warrant all Harness Oak tanned. The great popularity of these harness are known. Farmers and Freighters are requested to examine my stock. ds w L. B. MATTISON
