- - May, 24, 1871.

THE news from Paris which will be a vivid picture of the dreadful carnage which has attended the struggle between the Commune and the Versaillists. War under any circumstances is with frightful misery; but such a war se has been raging of late at Paris and its vicinity possesses no feature to redeem it from savagery.

Our attention has been called by the visit of Mr. Hawkins, (who is acting as the Financial Agent of Jay Cooke & Co.,) to the Northern Pacific Railroad and the progress which is being made in pushing it through. By the charter of this Road the company is authorized to construct and operate a continuous Railroad from "a point on Lake Buperior, in the State of Minnesota or the Columbia river, with a branch from might be obtained if possible. some convenient point on its main trunk line across the Cascade Mountains to Puget Sound." In aid of the work, the charter grants to the company work, the charter grants to the company 20 alternate sections, or 12,800 acres, of public land, to each mile of finished divorce laws of the State. He said: track, through the States traversed, and 40 alternate sections, or 25,600 acres, per mile through the Territories. The are notoriously loose—more so than charter also grants right of way, 400 feet in any other State except Indiana in width, through the public domain, were in this State 406 divorces and 4,871 mile through the Territories. The and the privilege of taking, free of cost, from the Government lands adjacent to the Road, all necessary construction

The General Mortgage conveys to two trustees, Mesers. Jay Cooks and J. Edgar Thomson all the property and rights of property of the Northern Pacific Railread Company.

Mr. Hawkins informs us that, including the purchase which the Northern Pacific Company has made, it has 475 miles of road now completed, and by September next 100 miles more will be finished. It is the intention to have the road entirely built by 1875. Accounts agree in representing the region which this road traverses as very fine. It has a mild climate, a naturally rich soil, and a fair supply of moisture. At the western terminus of the Northern Pacific Railroad, flowers have bloomed in the open air every mouth of the past winter, and along most of the fertile belt traversed by the read, cattle readily subsist the year round on the nutricious grass of the plains and valleys. The snow-fall is said to be much less, and the rain-fall much greater along the Northern Pacific route than along the Union and Central Pacific.

Tun Catholic church is not the only

one which has its institutions of nume; there are sisterhoods of Protestants in New York who are united together by obligations, and who wear a grave and peculiar dress resembling that worn by the Catholic sisters of charity. But the members of these establishments do not take yows to abstain from marriage, neither are they separated from the world or from the society of home and friends. They have assumed their obligations from choice, are associated in "homes" because they think they can accomplish more good than by isolated effort, and have adopted a uniform because it is both a convenience and a protection. Before becoming "a full sister" in one of these orders, "the Sisters of St. Mary," each candidate must serve "a novitiate" of two years, in order that she may be quite sure of her heartfelt preference for the life she has chosen, as when she assumes the obligations of sisterhood she is supposed to take them for life, although she is at entire liberty to leave the order should she so wish. The members of another Sisterhood, that of "Protestant Nuns," after a "probation" of six months, assume their obligations for no more than three years, at the end of which parted they are at entire liberty to remain for another term of service or to return to the world. Another organization is known

as that of the "Sisters of the Good Shepherd," They are united under an "elder sister;" have several "probationers" as their assistants, and are also sided, in their works of benevolence, by volunteers who come for a few days or hours as they can give the

These orders of nuns have under their charge a number of charitable institutions for the relief of various classes, and many ladies in attending to them doubtless find room for the exercise of those benevolent qualities for which the sex is noted, and in which loy, which was a week ago tast Monday, they can find a pleasure not to be obtained in a life of frivolity and self-

children, &c. She was in service with a family named Boor, living in Newuffs, London, and on Good Friday her master and mistress went out for an evening's visit, leaving her at home in charge of three children. On their return home, between 11 and 12 o'clock in the evening, they found one of the children lying on the floor beside the bed, without any clothing, and another any dead, on the floor between the bed and the wall, the app of the body indicating that the child pet show that murder was a passion with her, and that in several families with omestic animals had so place a friend of the n came to visit, and placed her baby on the bed, and shortly afterwards it was this girl lived there, three dogs, a cat, a parrot, a number of gold-fish and upwards of a dozen fancy birds were found dead at various times,

there being, seemingly, no cause for death. In another situation she brought home a child insensible, which she said had fallen out of her arms; the child recovered, but about a week after, she brought it home, from another siring, dead. When residing in another family, one of the children, seven years old, awoke with a choking sensation, and afterwards told his father that the found in our telegraphic columns gives girl had placed her hand over his mouth, and then given him some money not to say anything about it. In the same family several domestic animals suddenly died. In another situation, a painful to contemplate and is attended child, of whom she had charge, was found insensible in bed, and evinced The Versalllists gave no Quarthe greatest terror on beholding her. after its recovery; and finally, it was tostified that while at service with another family, she locked up a child in a wardrobe, then took it out and put it to McMahon and Thiers will Enbed, and shortly after it was found

The whole of the preceding was given in evidence before the Coroner. but he did not consider it sufficient to hold the girl for the murder of the Beer child; but the parents instituted pro ceedings against her in the Lambeth police court, preferring a charge of murder against her. Throughout the inves-Wisconsin, thence westerly by the most tigation, which took place on the 29th eligible railway route within the ult, the prisoner was apparently un-United States, on a line north of the concerned, and declined to say any forty-fifth degree of latitude, to some thing. At the close of the proceedings point on Puget Sound, via the valley of she was reminded that further evidence

bid fair to bring us into disrepute. They marriages -- a ratio of about one to twelve. which has been about the proportion for several years. In Vermont the material. Iron and coal lands are expressly embraced within the terms of the grant.

Tatio is one to twenty-one, in Ohio one to twenty-seven, in Massachusetta one to forty-four. Divorces may be granted in this State for too many causes—in fact, for almost no cause at all. Discontented and vicious people come here from other States to get divorces which the more strict legislation of their own States deny, thus creating much scandal and tarnishing the fair fame of our State. Some marked cases of this kind have occurred the past year, which loudly call for reform in our laws."

> The divorce of one out of every twelve who are married, and that proportion having prevailed for several years, furnishes a rather low opinion of the morality which now prevails in the State

A CORRESPONDENT of the Golden Age wants a Bible that adequately expresses the religious sentiment of the race. The Bible of Christendom is to much of a Hebrew affair to suit him. It should, in his opinion, be cosmopolitan. The religion of a petty tribe cannot meet the demands, he says, of all races and centuries. Therefore, he asks if "some of our scholars" cannot compile a Bible of humanity-a perfect Bible in which all Bibles shall be represented? | immediately shot. By pruning away from our Hebrew Bible, from the Koran, the Shaslers, the Zend-avesta, and other holy books, all that is contradictory, superfluous limited, and taking what is essential, harmonious and universal, arranging all in a certain order, a Bible will be produced, he affirms, that will satisfy the head as well as the heart of the age He describes the effect such a Bible

"Such a book would tend to break down the partition walls of sect and creed that divide mankind, bind in fraternal unity the religious sentiment of diverse peoples, and raily the race into one Church Universal, whose animating principle shall be the Fatherhood of God and the Brotherhood of Man."

A very fine plan-on paper; but who will perform this work? And if this book should be compiled, who will be. lieve it? Even the Bible, which Christendom accepts as the word of God, men will not receive and believe, and what man or body of men have sufficient authority with their feilews to \$1,000, and received in change a good have their compilation accepted as a check for \$500. The thousand was dis-Bible? It would scarcely be printed until somebody would be anxious for a revision. Men cannot rest satisfied without tinkering what they profess to believe to be the word of God, as the revision of the scriptures now going on proves; what, then, shall restrain them from tearing the Bible to pieces which shall be the compliation of man? In all propositions of this kind there is visible the most intense egotism and vanity. It is man-worship of the most palpable character. God is completely ignored. The creature, and not the Creator, is to set things right. Such suggestions as the above give a very clear idea of the depth to which the world is descending.

FROM BEAR LANE,-Bishop William Budge, of Rich County, called last even-ing. He says when he left Bear Lake Valmatters were, generaly speaking, in a very desirable condition. Considerable new indulgence.

In a life of igivelity and selfland had lately been broken and brought
under cultivation, and grain had been sown
earlier and a groupe breadth of it had been
put in this season than in any previous one.

A Vivid Picture of the Fighting in Paris!

WASHINGTON.

WASHINGTON. - The Senate occupies six hours on the treaty of Washington. Nearly all the time was occupied by Casserly who examined the treaty in all its aspects, particularly in relation to the international law, making elaberate quotations from Vattel, Group to-day, even if another session should be required for that purpose, but after sitting till nearly five o'clock, and see-ing no probability of concluding the subject announced until to-morrow, it was postponed. It is now uncertain whether a vote will be reached before

Thursday. Corbett, of Oregon, will address the Senate to-morrow.

The Senate confirmed the nominations of William A. Pile, Minister Resident to Venezuela; Adolphus L. Stu-der, Consul at Singapore; Jos. Belknap, Supervisor and Inspector-General of steamboats; A. W. Chubbuck, Post-Master at Gold Hill, Nevada, and N. P. Sullivan, at Sante Fe. The Secretaries of State and of the Navy met at the War Department on Saturday and agreed upon a plau, prepared by the supervising architect, for the erection of a new State Department.

NEW YORK. Arrested for rape, - Stocks - Fighting

NEW YORK .- Dr. Edward J. Shears editor of the National Quarterly Review, has been arrested on a charge of once known as the "land of steady rape, preferred by Miss Margaret O'- Keefe, who is said to be a relative of his. She has also instituted a civil suit against him for ten thousand dollars

Money easy, 3 @ 4. Money easy, 3 @ 4.

A dispatch to the World, from St. Denis, Wednesday p.m., May 23rd;—The fighting in Paris has ceased. Marshal MacMahon and President Thiers will enter to, morrow. The losses of the Communists are fearful. The troops gave no quarter. Many of the leaders of the Commune were captured and

PENNSYLVANIA. Fasting and prayer for the sins of the

PRILADELPHIA.— In the reformed Presbyterish synod to-day the commit-tee on "the signs of the times" made a report expressing thankfulness for the completion of various acts of justice which had lately taken place in Eu-rope. One of these was in the down-fall of the Roman Church and the overthrow of the French Empire. The committee recommend the church to Farmer Allen ... observe, as a day of thankegiving, the last Thursday in November next, in addition to the day set apart by the civil authorities. The committee rec ommend the first of January next to be observed as a day of fasting and prayer for the sins of the church.

CALIFORNIA. Passing a Counterfeit,

SAN FRANCISCO, 23.—A young man who was stopping at the Grand Hotel, under the name of E. B. Groker, purchased a bill of goods of about \$500 at Hardy and Frederick's carpet store, Sansoms Street, to-day, and ordered them shipped to Sharp, carpet dealer, S-cramento; he presented a check for covered to be a forgery, and Croker was arrested. His real name is said to be Spaulding, and he has been bookkeeper

for Sharp.
Valentine O'Connor, a sick pauper, sent, as he stated, from Oroville to San Francisco by the authorities of that place, who applied for admission to the hospital here a few days since, but was refused admittance, because he was not entitled, not being resident here, dropped dead on Broadway this morning. His death is looked upon as the result of heart disease and the cruelty of sending him here from Oroville. Such cases occur very frequently.

FOREIGN NEWS CREAT BRITAIN.

London.—In the Commons this evening, Gladstone denounced the university test bill, as received from the House of Lords.

Mr. Walpole spoke in support of the bill, which became a theme.

There was a general but uninteresting discussion in the House of Lords this evening on the bill enabling the Dominion of Canada to create provinces. It reached the second residing unopposed.

Adjourned.
London, 23.—The special corredent of the Tribute, at Paris, date of Monday, telegraphs that, y day afternoon, the insurgents were from the Chaicau de in Muette ey subsequently railied and held the tionic with considerable tenacity, be lose by a heavy fire from the V-battaries. At nine c'clock Don't under cover of a couple of guns ed the Cametry des Palices, met by a firm and withering empted to storm the

along the relieving battalions came along imparting a fresh panic. The fire of the Versaillists entered the Trondero Avenue. Between the Arc de Triomphe and that point was packed densely with fugitives. The Communists showed themselves behind a big barricade in the Place de la Concorde, but did not fire. The Versaillists' battery below the arch awant the Champs Elysees. the arch swept the Champs Elysees. The Versaillists pressed on the Avenue Friendland, to the open space at the top of the Boulevard Haussmann, thence they could sweep from the Boulevard Malesherbes to Madeline and open the way to the Rue Royale.

SINCER'S

New Improved Silent

The Best in the World

ense all of them are in constant use, while a very large proportion of other makes are no used, owing to their being partially or utterly imprecticable:

THE SINCER

FAMILY MACHINE

NEW Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence,

It is simple, compact, durable, beautiful, quiet, light-running, and capable of performing a range and variety of work never before attempted upon a single machine; using either Bilk, Twist, Linen or Cotton Thread, and sew, ing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner. The New Improved Attachments for Hemming, (any width) Braiding, Embroidering Magic Ruffing, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mabogany, Rosewood, Satinwood, and from the plainest to the most elaborate patiern and finish. The Machines themselves are piain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction,

namely, from the operator, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, competing the operator to me in a bent and unhealthy position, and thus causing weakness of the back, etc. The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which is liable to break and to miss the stitch.

In the Singer Machine the Shuttle is carried,

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing which is not the case with any other. Many so-called chemp Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the

Oldest Practical Sewing Machine,

Being about twenty years in the murket, Having been constantly improved by the em-ployment of the most skilled ingenuity of the ployment of the most skilled Ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and improvements, It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those who utterty fall on other Machines. 11 North Main St., - ST. LOUIS, MO

SINGER'S

New Manufacturing Machines Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are applicable to all kinds of heavy and light manufacturing in Otoths, Leather, etc., and run in the most perfect and reliable manner without trouble to the operator.

HAVE ARRIVED!

Beautiful and Unrivaled

MACHINES. (The numbers on which show a manufacture of between Five and Six Hundred Thousand.) Consisting of the Different Varie is made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical ranning order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.

We resort to no trickery whatever to sell Sewing Machines, but affew their Grent Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make roore than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works. We having been so fortugate as to secure the

General Central Azency.

For this Territory, we extend a cordial levila-tion to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you ex-
