ADMINISTRATOR'S NOTICE

HAVING been duly appointed administrator of the estate of Levi Murdock, late deceased, by the Probate Court of Salt Lake County, Utah Territory.

Notice is hereby given to all the creditors of said deceased, and all persons having claims against said deceased or estate, that they are required to exhibit the same with the necessary vouchers to the undersigned, at the office of A. Miner, Esq., Second South Street, Salt Lake City, in said county, within ten months after the first publication of this notice, or the same will be forever barred. And all persons owing said estate are hereby requested to settle their indebtedness with the undersigned without delay.

JOHN W. MURDOCK,
Administrator of said Estate.

Oct. 25th, 1879. d 2, 10, 9 to 25, 11, 9

WATCHES JEWELRY

ABOUT three months ago all the watchmakers in the city agreed and subscribed to cert ain prices for work in their line, for the purpose of obtaining uniform and Cheap Rates. This agreement, however, has already been broken by several watchmakers, who are underselling their colleagues and thereby proving themselves untrue to their written word. In consequence of which, the undersigned has withdrawn his name from said agreement and established his own prices, cheaper than any other watchmaker's in Salt Lake City.

CLEANING WATCHES $1.50 A PIECE

And everything else in the line of

WATCHES and JEWELRY

Reduced in the Same Proportion.

Articles and Workmanship Guaranteed to Give Perfect Satisfaction.

CARL C. ASMUSSEN,

Per J. NEILSEN, Manager.

Lake City, Sept 20tm

For You, Madam,

Whose complexion betrays some humiliating imperfection, whose mirror tells you that you are Tanned, Sallow and disfigured in countenance, or have Eruptions, Redness, Roughness or unwholesome tints of complexion, we say use Hagan's Magnolia Balm.

It is delicate, harmless and delightful article, producing the most natural and entrancing tints, the artificiality of which no observer can detect, and which soon becomes permanent if the Magnolia Balm is judiciously used.

EASTERN.

New York Notes.

NEW YORK, 27. — The *World* says: On Wednesday last a chair for instruction in Chinese was established in Harvard. At first sight the need of the study of the formless Chinese at classic Cambridge may not be apparent, but it must be remembered that the wealth of many of the Brahmins of Beacon Street was built up out of the China trade, and that the pithy sayings and doctrines of Kung Fu Tze, the most sagely ancient teacher, have long been discussed and accepted in the radical parlors of Chestnut Street. Thus, reasons have existed for some time for the study of Chinese and the establishment of a chair is not the result of novel agitation.

An argument took place to-day in the United States Circuit Court on the demurrer to the bill of discovery filed by the government in the suit against Samuel J. Tilden, for unpaid income tax. Judge Blatchford gave a decision overruling the demurrer, and directed plaintiff to serve his proposed form of order.

A meeting of the open board of stock brokers to-day adopted a constitution and by-laws. Five hundred members were enrolled. One hundred and twelve thousand dollars was subscribed to be invested in government bonds, which constitute a permanent fund. Dealings will be allowed in government, State, railroad, mining and insurance stocks.

George J. Holyoke, the English author and student on labor questions, has brought the attention of Secretary Evarts to the idea of issuing an official book, giving information about the public lands of the United States, which can be circulated in England among workingmen. Secretary Evarts takes much interest in the matter.

There was, this morning, an informal meeting of the presidents of several leading banks to consider the relation of the banks to the stock exchange. A committee was appointed to confer with the governing committee of the Stock Exchange in reference to the establishment of a stock clearing house. The bank committee consists of Fry, of the Bank of New York; Hayes, of the Union, and Tappan, of the Gallatin.

Washington Notes.

WASHINGTON, 27. — Postmaster General Key to-day issued instructions to the postmasters at New York City, Louisville and New Orleans to refuse hereafter to rent boxes in their offices to lottery companies or lottery agents.

The forthcoming report of the superintendent of the railway mail service will show that during the last fiscal year 59 lines of railway postoffices have been operated over 17,340 miles of railway, and performing about 50,000 miles daily service, and nearly 80,000,000 miles service annually. The aggregate number of miles of railroad mail service of all kinds, including transportation not only of postal cars but of closed pouches, was over 93,000,000 miles during the year. The number of letters handled and distributed by the employees of the railway mail service on postal cars during the 12 months was about 1,669,000,000, besides there was nearly 980,000,000 papers showing an increase of about 400,000,000 pieces or nearly so in amount of work as compared with the preceding year.

The standard silver dollars coined to date are 44,423,850. Of this number, 12,221,010 are in circulation and the remainder in the Treasury.

It is said the republicans are preparing to send speakers to Louisiana at once, as she practically votes for president this year.

Indian Trouble North.

SIOUX CITY, Iowa, 27.—A report has been received that Spotted Tail's Indians, in southern Dakota, are causing a serious outbreak. Last week a warrior shot Henry Young, an agency employe, claiming that his heart was bad from his mourning over a sister's death. Agent Newell arrested the Indian and during the entire night his comrades from the hills fired on the camp and eventually compelled Newell to surrender him. The Indians then rewarded the escaped warrior. The troops are 178 miles away.

Another R. R. Accident.

ATCHISON, Ks., 27.—There was an accident on the Chicago, Rock Island and Pacific Railroad, near this city, yesterday. An engine containing five persons jumped the track and turned over in the ditch. D. A. Adams, a telegraph operator, was killed, and others scalded. J. C. Mull, brakesman, and N. M. Holmes have since died. Holmes has been superintendent of bridges on the road for several years.

A Fatal Shooting Affray.

A shocking tragedy occurred in this city yesterday, resulting in the death of two men. A negro named Monroe Ames entered a saloon and called for liquor. He was evidently drunk, and the barkeeper ordered him out. He went to the sidewalk where he began talking very loud, and making threats. Policeman Lewis Chew came along and attempted to arrest him, when the negro took deliberate aim at the officer and fired, shooting him through the abdomen. Chew fell, drew his revolver and shot the negro, the ball entering just above his heart. The negro fell and died in a few minutes. Officer Chew died at 2 30 o'clock to-day.

Business Revival.

MEMPHIS, 27.—There was a general resumption of business this morning in all branches of trade. Stores that had been closed since last July, were opened by the proprietors, who have returned to the city, and the wheels of commerce are once again moving rapidly along. Through trains on all the railroads, except the Little Rock route, have arrived and departed. The streets present their usual animated appearance. The Cotton Exchange is open to visitors and members.

But one case of fever is reported.

WESTERN.

Grant in Nevada.

SAN FRANCISCO, 27.—A Virginia City dispatch says: To-day was specially adopted for the reception of General Grant. The whole town was astir at an early hour. The streets by 9 o'clock, were thronged with pedestrians and the houses generally decorated. C Street was a mass of flags from the beginning of the First to the end of the Fourth Ward. Most extensive decorations were at the Savage office, where Grant is to remain during his stay here. Promptly at 12 o'clock the military portion of the procession, including veterans of the Mexican and late war, together with civilians in carriages, which included the mayor in an open barouche, members of the reception committee, city, county and State officers, formed on B Street and marched to Gold Hill. There was a crowd at the depot an hour before the advertised time for Grant's arrival. It increased every five minutes, until by a quarter to 1 o'clock there was hardly standing room anywhere in the vicinity. The houses and hill tops were covered with people, all waiting anxiously for the first signal. The town was a wilderness of decorations. At 10 minutes to 1 o'clock a salute was heard from American Flat. A few seconds later sharp reports of anvils utilized as cannon for the occasion, were heard mingled with the scream of whistles. As the sound of each whistle ended, the line of hoisting works joined in the chorus and indicated the progress of the train. At two minutes to 1 o'clock the train reached the depot.

Gen. Grant came up in the palace car, California, with his wife and son Ulysses Grant, jr., the Governor and his staff, and a number of ladies invited by the Carson committee. As he reached the depot steps, a great cheer from the crowd and a crash of music from the brass bands went up. He was met by Mayor Young, who delivered the following address of welcome:

GENERAL GRANT: As Mayor of Virginia City, in the name of her citizens I bid you welcome, and cordially extend to you and yours such hospitalities as we can extend. Other cities have many attractions with which to entertain guests. We have but a mining camp on a desert mountain side, but, General, if you will remain long enough with us, I trust you will be led to conclude that the hearts of our people are like our mines, they grow warmer and show more and more gold the more they are explored. Those hearts are throbbing all hail to you to-day. The people of Nevada have watched exultingly and with full appreciation your past career, and will never cease to remember with reverence the service you have rendered to your native country. I once more bid you a hearty welcome to Virginia City.

Gen. Grant replied with a bow and a word of acknowledgment.

There was an immense concourse of people on D street, in the rear of the Savage mansion, and in response to calls for Grant and a speech, the General appeared on the balcony and was introduced by Mayor Young. He spoke as follows:

FELLOW CITIZENS: I am glad to meet you here to-day, and I feel under many obligations for the fine reception you have given me. It is impossible for me to make a speech on this occasion. I am not like your Senators who are in the habit of making speeches for the purpose of catching votes. I can't talk that way.

The last sentence was received with prolonged cheers. There were then loud cries for Senator Sharon, Senator Jones and Colonel James G. Fair, all of whom addressed the people briefly, after which the crowd gradually dispersed.

China and Japan News.

SAN FRANCISCO, 27. — The following is received per *City of Peking*:

Hong Kong Oct. 1st. — Official communications from the British colonial office show the hostile demonstrations of the disaffected residents of Hong Kong against Governor Heunessy have proved futile. Hennessy is sustained on every point of the controversy, and his approval emphasized by an increase of emolument to £6,000 yearly, dating back from January 18th.

There is great exultation in Chinese official quarters over the restoration of the Province Ili by Russia through the treaty negotiated with St. Petersburg. Apprehension is expressed by many diplomatic agents that China, inflated by this unexpected accession will assume henceforth a bearing of increased arrogance and defiance. Intelligence from Peking as to the temper of the government is eagerly awaited at the coast ports. Until the present time, the efforts of interested foreigners to foment trouble between China and Japan on the Loo Choo question have failed. It is anticipated, however, that in view of China's sudden success in her Russian relations, these endeavors will be renewed.

The revelation is made in Hong Kong of a system of human slavery, practiced by Chinese purveyors for brothels, of raids made by desperadoes among the villages on the main land, whereby young girls are captured, brought to Hong Kong and sold or confined till sufficiently mature to be resold. The discovery was made through a proclamation offering a reward for a runaway slave girl 14 years old. A rigid investigation is progressing, and extraordinary disclosures are already made. The operations of the slave traders are very extensive, reaching even to Japan, one little Japanese girl having been found in bondage.

Yokohama, Oct. 11.—The cholera is rapidly subsiding. Official returns show that there have been upwards of 150,000 cases since its outbreak in April last, and 85,000 deaths. The suppression now is attributed to the energetic efforts of the government, and its unprecedented expenditures for sanitary purposes. The authorities claim that if their endeavors had been seconded, instead of openly opposed by the European representatives, the epidemic would have been under control two months ago, and probably thousands of lives saved. In consequence of the German and others ports resisting the sanitary precaution as a ridiculous limitation, attempted by the Chinese agents, who claim exemption from the visitation, and inspection for their subjects here residing, although notoriously uncleanly, and breeders of disease, the breakage of quarantine by the German minister is cited as a precedent for their contumacy. Parker, the British envoy returns to England by this mail. He commands all ordinances relating to the subject to be espurged from the national code, so that no vestige of its recognition shall be preserved.

There is an extraordinary report circulating of the fraudulent issue of several millions of government paper money of small denominations, which is declared to be obtained from Germany where the currency was originally engraved, and printed. The government declines giving information at present, but from the best available source I learn that the fact of the irregular issue is confirmed, though the alleged extent is greatly exaggerated. Secrecy is necessary to secure all the participants. Owing to the first extravagant rumors, paper money depreciated, but two days afterward it resumed its normal rate.

Norkenskjold and party start on their return to Sweden to-day in the ship *Vegas*. She stops on her way at various Asiatic ports.

The substitution of the Japanese silver yen for the Mexican dollar progresses rapidly. The former coin is now universally accepted by foreigners and its superiority over the old Mexican is acknowledged. It is the intent soon to extend throughout the open ports of China and Hong Kong, Singapore, etc.

The woolen manufacturing industry was inaugurated September 27th, by the opening of the great government factory under the auspices of the Home Department.

Shanghai, Oct. 1.—The question is still unsettled. The native Japanese papers state that the final answer is sent to China. The Japanese are actively preparing for war.

Miss Howard has returned to Peking, loaded with presents, and specially honored by the viceroy.

FOREIGN.

GREAT BRITAIN.

Foreign Notes.

LONDON, 27.—A dispatch from Rome says: An American lady and gentleman named Baron were attacked in a railway carriage on the Alta Itala line, a few days ago, by two men, one of whom drew a revolver and the other a knife. After a violent struggle, the robbers succeeded in getting possession of the gentleman's purse and watch, and escaped by dropping off the foot board when the train slackened its speed.

A lady of rank encloses to the London *Times* a letter dated September 17, from her son's agent, deeming it of interest to those dependent on Irish property. The writer says he has fears that he cannot collect the entire amount of her jointure due at Michaelmas, and proceeds: "Even those tenants who are well able to pay are afraid to pay as the resolution arrived at is to shoot the tenant who pays as well as anyone who takes a farm from which a tenant has been evicted for non-payment. I fear much that matters will end badly. This is the worst year I recollect since the famine. I fear that few of the small farmers can hold their land at any rent. Cattle and sheep are unsalable, and as for the crops, they are all lost in consequence of the never-ceasing rains."

The five men hanged for complicity in the massacre of the British embassy include Kotwal, of Cabul, the head of the city Mollahs, and two generals, one of royal blood. One of the generals, it is claimed, dragged the head of Major Cavagnari from the British Residency to Balahaisur.

The Prefect of the Paris Police has forbidden the appearance of the *Mat D'Orde* newspaper, which was to take the place of the *Marseillaise* during its suspension, for insulting the magistracy and defending currencies, which the law characterizes as crimes.

The German Minister of Ecclesiastical Affairs, speaking at a public dinner at Essen, said: "You are aware that the Emperor has sacrificed his personal feelings to the public weal. He has done so because he thought it his duty to conclude the alliance which he hopes will secure the peace of Europe.
