EASTERN DISPATCHES.

PITTSBURGH, Wm. F. Johnson, ex-governor of Pennsylvania, died in this city yesterday, of dropsy. His death, though sudden to the public, was not unexpected to his friends.

WASHINGTON.—It is believed that the Democratic nominee for Congress in the 23rd district in the recent contest, but on account of failing health, withdrew before the election.

BOSTON.—Banks has accepted the Labor Reform nomination for Congress. In consequence of the horse disease, horse car accommodations are almost entirely withdrawn in Boston city.

NEW YORK.—It is stated that Anna Dean is Anna Baker Dean, who married her father's coachman.

DETROIT, 26.—The prevailing horse disease appeared here on Thursday, and a large number now are affected. The street cars on four routes were halted off yesterday. The disease has also reached the lumbering district north of Saginaw.

NEW YORK.—The ravages of the horse disease continue unabated, but up to this p.m. no fatal cases were reported.

LEWIS, Del.—The bark *Medway*, from London, went on the Hen and Chicken, below Hellenopolis light, last night and will be a total loss. The captain and part of the crew were landed safely. Seven men left the wreck in a boat and doubled back.

Two of the seven missing men of the crew of the bark *Medway* were picked up by a pilot boat, one dead body was found.

NEW YORK.—The bank statement shows a decrease in specie of \$1,800,000.

ROCHESTER.—More fatal cases of the horse disease are reported this morning than during the whole time since it appeared. The streets are deserted by horses, but wagons and carts draw by men are plentiful. The express companies announce that no more goods will be received at the railroad companies cannot deliver their freight. The reports from Erie canal, particularly between this city and Buffalo, are very bad, and many boats are tied up.

BOSTON.—There are very few horses in the streets, and all the various departments of business requiring horses are at a standstill. Business is suffering much in consequence. Handcarts are in demand. Numerous wagons drawn by men are the only encouraging feature. A few cases will prove fatal.

NEW YORK, 25.—Specie shipments to-day were one million, four hundred thousand dollars. Total for the week \$1,614,000.

The bank statement shows a loss in the legal reserve of two millions, six hundred thousand dollars.

NEWARK, Conn., 26.—The Board of Selectmen to-day admitted to the rights of an elector, Mr. Sarah M. Thurlington. She will vote for the Presidential ticket. It is believed she will be the first female voter thus admitted.

CUMBERLAND, Md., 26.—Wm. Craig, a young negro, yesterday was convicted of the rape of Mrs. Little Dayton, a white woman, 74 years of age, and to-day sentenced to death.

NORFOLK, Va., 26.—A boiler in Graves' ship yard exploded to-day, killing Peter Evans, colored engineer, and injuring several other employees and heavily by seriously.

LOCKPORT, New York, 26.—The horse disease is in this vicinity, cases are occurring in the town and adjacent country, stages and difficulty in making trips and there is a general depression of business.

PHILADELPHIA, Pa., 26.—In the Court of Sessions this morning the District Attorney withdrew the motion that Mary should be sentenced to a double term of imprisonment for attempted murder, on the ground that the Governor's pardon had exonerated him.

CHICAGO, 26.—A special dispatch from Toronto to-day says of the horse disease, which has committed such ravages among the equines in Canada and which appears to be spreading over nearly all the Eastern States:

"The epidemic first made its appearance in Toronto and neighborhood about the first of October, and within a few days nearly every horse in the district was attacked, when it created a good deal of alarm and among a certain class of owners a general resort to quack treatment and remedies. The disease is of the nature of catarrhus febris, accompanied by slight inflammation of the throat and

bronchial tubes. It is evidently the result of some atmospheric influence, and although a very alarming complaint, it is not attended, if rationally treated, with any great fatality. The disease appears to take from 10 to 20 days to run its course, according to the severity of the attack. It is characterized by discharge from the nostrils and severe hacking cough, quickened circulation and labored breathing. Impure air or exposure increases the symptoms and the lungs become affected, which is the great danger from this disease. On a calculation it appears, when a rational means of cure and treatment have been adopted, that there has been but a small percentage die."

PHILADELPHIA, 26.—Fletcher Mills, twelve years a clerk in the Delaware Safety Fire Insurance Company, was arrested as a defaulter. He has been systematically defrauding the company by false certificates of scrip. The amount of the swindle is about \$35,000.

BOSTON, 26.—Twenty-seven deaths from small-pox this week.

NEW YORK, 26.—The Anti-Cruelty Bazaar, as a remedy for the prevailing horse disease, warm blankets, non-exposure to drafts of air, total absence of bleeding, cathartics, twenty or thirty drops of tincture of iron in a glass of Jamaica rum, diluted with water, given every four hours, in order to preserve the strength of the horse, or tincture of arnica will produce relief, or a plaster bound round the throat, causing one or two portions of cayenne pepper and two of linseed, mixed with sugar, is excellent.

Lograve, who sometime since swindled merchants to the amount, it is said, of nearly half a million, was taken into custody to-day, on his arrival from France, where he was apprehended. He was put in jail in default of \$40,000 bail.

The *Evening News*, Ben Wood's paper, has a significant editorial to-day, suggesting the withdrawing either of Lawrence or O'Brien from the majority candidature, as his views would prevent the success of the Republican candidate.

The horse disease to-night is reported unabated, in fact is said to be spreading. Owners of animals not seriously affected are keeping their horses in the stables and giving them every care. The number of cars running is decreased very considerably to-day, although this is not quite so much owing to the disease as to the great inclemency of the weather, caused by heavy rain.

The 9th Avenue road has stopped the cars, as did also the 5th Avenue stage company. In some instances the disemper has made it apparent that the number of cars running is decreased very considerably to-day, although this is not quite so much owing to the disease as to the great inclemency of the weather, caused by heavy rain.

The express companies report several cases among their horses. It is stated that the United States express company has forty car loads of freight in Jersey City in consequence of the scarcity of teams. The European steamers have not been delayed to-day, although they have been inconveniently somewhat by the stoppage of the cart drivers. Some lines receive cargo on barges. Along the docks and piers it looks like Sunday. The same may be said about the railroads. The novel sight was witnessed this afternoon, of the present Board of Aldermen, Isaac Robinson and Edward Castello of the old Board, for frauds in connection with "ceding" city property in the upper part of New York for railroad purposes.

Andrew Johnson had an immense meeting to-day.

BRUNSWICK, N. Y., 26.—The horse disease has appeared here in a mild form.

CHICAGO, 26.—It appears to have been definitely settled that there are as yet no cases of horse disease in this city. West Side St. Railway has a large number of horses sick with colds, but none appear to have symptoms of the epidemic prevailing in the east, though some veterinary surgeons claim to have had some cases of the disease.

CHICAGO, 27.—Lewis H. Kornoudy, the well known gymnast proprietor, shot himself in the head at the Briggs house, inflicting a mortal wound.

Most of the saloons are now open. Mayor Medill declares he knows no influence but that of the law, which he shall enforce until it is repealed.

PHOENIA, 27.—Rev. R. N. Pullman has been appointed Secretary of the National Universalist Association. He is on leave of absence one year from his church here.

MEMPHIS, 27.—M. J. Wicks, President of the Memphis Savings Bank, announces the suspension of that institution. It is represented that its liabilities are \$175,000.

WEST INDIES.

HAVANA, 26.—One thousand insurgents attacked the town of Guisa on the 19th and burned fifty houses. The government troops assaulted and repulsed the insurgents. Seven of the latter were killed and three Spaniards were killed. People Gonzales killed the insurgent leader Mulres, a former companion of his.

MEXICAN.

MATAMORAS, 26.—Porter C. Bliss, charge of the City of Mexico, telegraphs to-night to Thomas F. Wilson, U. S. consul of this city, that he had been informed from "Oaxaca" that the steamer *Guatemala*, of the Panama and Colon line, was on her way on a box off pulso line, when she was captured by Chichas, October 13th, and twenty-three persons perished. Those who were saved are in Tehuacan, awaiting transportation and requesting that information be telegraphed to New York.
