PETERSBURG, 11.—The following is the text of the Czar's speech at Moscow yesterday: "I thank you for the sentiments respecting the political situation, which is now more clearly defined than before. You know that Turkey has yielded to my demands for an immediate end of the useless slaughter in Serbia and Montenegro. In this unequal struggle the Montenegrins, as heretofore, have shown themselves real heroes. Unfortunately the same cannot be said of the Servians, notwithstanding the assistance of our volunteers, many of whom shed their blood for the Slavonic cause. I know that all Russia joins me in warmly sympathizing in the sufferings of our brethren and co-religionists. The true interests of Russia are, however, dearer to me than all. My wish to the uttermost is to spare Russian blood, therefore I have striven and will strive to obtain a real improvement of the Christians by peaceful means. In a few days negotiations will commence at Constantinople. My most ardent wish is that we may arrive at a general agreement. Should this, however, not be achieved, and should I see that we cannot obtain the guarantees necessary for carrying out what we intended to demand from the Porte, I am firmly determined to act independently. I am convinced that the whole of Russia will respond to my summons should I consider it necessary and Russia's honor require it. Moscow will lead the van by its example. May God help us to carry out our sacred mission."

LONDON, 12.—A Cairo despatch says the Egyptian Minister of finance endeavored to originate a plot against the Khedive by representing to the people that the Khedive, by accepting the reforms advocated by Mr. Goschen, was selling the country to the Christians. He was exiled to Dongola, and died while being escorted thither. A despatch ascribes his death to excessive drinking.

A despatch from Calcutta to the Times says it is reported that 20,000 persons perished in the cyclone of October 31st, and some estimates place the loss of life as high as 40,000. In a town of Burrishal, the capital of Backergunge district, 3,000 houses were leveled with the earth. Letters from the survivors report that a great wave, nine feet deep, swept over the large island of Dakhin, Shababazpore. The whole of Eastern Bengal appears to have suffered severely from the cyclone. Calcutta narrowly escaped.

The reports of famine from Bombay are worse.

ROME, 12.—Cardinal Simeoni, recently the Papal Nuncio at Madrid, has been appointed to succeed the late Cardinal Antonelli as Secretary of State to the Pope.

LONDON, 13.—A heavy gale prevailed on the coast on Saturday and Sunday nights, and a number of shipping disasters are reported.

There has been a hurricane at Lisbon.

A Greek bark was run down in the channel on Saturday, and eight of the crew perished.

Lord Chief Justice Cockburn, today, declared judgment in the case of the Queen against Captain Keyn of the steamer *Franconi*, which sank the steamer *Strathclyde* in the channel. His Lordship says the conviction of Keyn must be quashed for want of jurisdiction.

MORMON IMMIGRATION.—The steamship *Wyoming*, of the Williams & Guion line, which arrived in this port yesterday from Liverpool, brought among her passengers 126 Mormons for Salt Lake City. The party came in charge of Elders Barton and Lyman and are principally natives of England and Wales. They come from Manchester, Newcastle, Sheffield and Birmingham, the majority being mechanics and farm laborers by occupation. The ages of the party vary from two to seventy years. Among them were several very pretty Welsh girls. The party were subsequently dispatched from this city in charge of the Pennsylvania railroad agent, Mr. Frank Edler, and took the five o'clock train bound for Salt Lake City. Mr. W. C. Staines, Mormon Emigration Agent of Utah in this city, informed a *Herald* reporter subsequently that the present party is the last to

arrive from Europe for the present year. The parties which have arrived this year were of 150, 638, 350, and the *Wyoming's* 126 above mentioned, making a total of 1,254 souls. "To-morrow," said Mr. Staines, "I expect a party of twenty-five, under the charge of Mr. Cummings, from Lawrence, Mass., who will leave forthwith for Salt Lake City. About sixty Mormon missionaries are to be sent out shortly to the different States from Utah, and from whose efforts we expect a good result. My work for the year 1876 in New York is now over, and I shall leave for my home in Salt Lake City in about a fortnight."—*New York Herald*, Nov. 5.

COWHIDING AN UNFAITHFUL HUSBAND.—About two o'clock Saturday morning an interesting cowhiding affair occurred on the corner of Kearny and Post Streets. A well-dressed man, whose name has not been ascertained, was walking up Kearny Street with a woman affectionally clinging to his arm. When they arrived at the corner of Post Street, another woman, whose blood was evidently at the boiling point, appeared on the scene, and, suddenly seizing the man by the coat collar, she struck him a dozen or more blows about the head and face. As the blows descended the enraged woman cried out: "I'll learn you to tell me you are going out of town to attend to business and then go promenading the streets with a good-for-nothing hussy. Oh! you wretch, to leave your poor wife at home and go off with another woman; take that, and that, and that!" The blows were given with all the strength the poor woman possessed, and each one left its mark on the man's face. The woman who was leaning so fondly on the man's arm received a blow of the cowhide early in the action and made good time up Kearny Street. When the injured wife had exhausted her strength she released her hold of her husband's coat collar, and he lost no time in putting a safe distance between himself and his angry spouse.—*S. F. Bulletin*, Nov. 6.

Who was the Inventor of Reaping and Mowing Machines? MCCORMICK!

Who has been building Reapers and Mowers for over Thirty Years? MCCORMICK!

FARMERS OF UTAH!

We have one question to ask you, viz: Ought not the Inventor of the Reaping and Mowing Machine, who has been building them constantly over THIRTY YEARS, and who has the largest capital and largest Manufactory of any firm building machines in the world, ought not he to be able to build as good and BETTER machines than any competitor?

Think of the above before you buy! Also, remember that there were more of the MCCORMICK machines sold in the United States last year, and every year, than any other make, and ask yourself the reason why. Is it not because they are the BEST and most DURABLE machines?

See for yourselves before buying. Remember that every machine is fully guaranteed.
