SAVE YOUR HAIR | TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S
KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.
COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

FORTY-FIFTH CONGRESS.

SENATE

WASHINGTON, 18. — Morrill moved to reconsider the vote by which the House bill was passed to authorize the issue of certificates of deposit in aid of refunding the public debt, Agreed to.

Morrill then submitted an amendment providing that the money received from them shall be applied the payment of bonds bearing to interest at the rate of not less than 5 per cent. per annum, instead of 5-20 bonds only, which bear 6 per cent., as at first authorized. The amendment was agreed to and the bill passed.

After the morning business, consideration was resumed of the bill to amend the internal laws, and Matthews spoke in favor of his amendment offered last night to tax tea 10c. per pound and coffee 2½c. per pound.

The House bill to promote a knowledge of steam engineering and iron ship building among the students of scientific schools or colleges passed to-day without discussion.

When the Senate bill to repeal the Revised Statutes which forbids any one who served under the confederacy from being appointed to the army was reached, Cameron, Wisconsin, objected, and it was laid aside.

When the House bill to fix the pay of letter carriers was reached, McCreery spoke in opposition to the bill. Letter carriers were well paid. More money was spent here every winter in seeking office than the offices were worth. Pending discussion the bill was laid aside.

The river and harbor appropriation bill was received from the House and was laid on the table until to-morrow.

The other appropriation bills, passed by the House yesterday, were referred to the committee on appropriations.

Morrill submitted an amendment, increasing the tax on tobacco from 16c. to 20c. per pound. Rejected—yeas 21, nays 42.

Ransom's amendment to exempt from certain provisions of the existing law small distilleries, whose daily capacity does not exceed 30 gallons, was agreed to.

The bill having been considered in committee of the whole, was reported to the Senate, and Whyte submitted an amendment that the act take effect on May 1st, instead of April 1st, as proposed by the committee. Agreed to—yeas 31, nays 30.

Grover moved to reconsider the vote. Agreed to—yeas 35, nays 30. Whyte renewed his amendment, and it was agreed to—yeas 34, nays 32.

The amendment in the committee, providing that no tax shall be appraised or collected upon any insolvent bank, and the amendment to section 3048 of the Revised Statutes, so as to exempt from taxation so much of the deposits of provident institutions and savings banks, recognized as such by the laws of their respective States, as they have invested in securities of the United States, were agreed to without division.

Morrill offered an amendment to strike out the whole clause repealing the tax on friction matches. Agreed to—yeas, 33, nays 27; so the law in regard to the tax on matches remains as at present.

The other amendments adopted in the committee of the whole were agreed to without division. The bill was then read the third time and passed—yeas 45, nays 21.

On motion of Dorsey the post-office appropriation bill was taken up, that it might come up as unfinished business to-morrow. Memorial services were then held on the House representatives, Schleicher and Quinn. Adjourned.

HOUSE.

WASHINGTON, 18.—The Speaker recognized Wood for reports from the committee on ways and means under the previous order of the House.

Cox, of New York, made the point that the special order was the consideration of the census bill. The point was overruled. Cox raised the question of the consideration, and the House, by a vote of yeas 91, nays 135, refused to consider reports from the committee on ways and means.

Hale then antagonized the census bill with a motion to go into a committee of the whole on the legislative appropriation bill. Defeated—yeas 117, nays 123.

Cox, of New York, reported back the census bill with the House amendments.

The House then went into committee of the whole on the bill. Cox explained its provisions. There was no reasons why the marshals appointed to execute processes and arrest persons should be made census-takers. There would be, he feared, a bitter political contest in 1880, and the curse of such contests was the influence exercised by federal office-holders. It would be a happy day for the President and the people when the power of the President to appoint such officers as postmasters and census-takers was modified or abolished.

Garfield said he desired to see the bill pass, but would vote against it if the amendment was adopted which transferred the power to appoint supervisors from the Secretary of the Interior to the governors of states. Such a bill would be in direct violation of the Constitution. There had been such a thing as ballot-box stuffing, and there might be such a thing as census stuffing, and Congress should have the appointing power of the man over whom it could punish if frauds were committed.

Butler thought the section unconstitutional and was opposed to it; he was also opposed to it because the enumerators would be appointed on political grounds. He was in favor of having one supervisor appointed from one political party and the next from another, and so on.

Several members—How about greenbackers?

Butler—There is no occasion for this emotion, gentlemen. (Laughter.) If I can get the republicans to work against the democrats and the democrats against the republicans the success of the nationals will be secured.

Ryan, of the census committee, favored the general feature of the bill, but opposed giving the power of appointing supervisors to the governors of the State.

The bill was finally read by sections for amendment. The first amendment was that reported by the committee, transferring the power of appointing supervisors from the Secretary of the Interior to the governors.

Carlisle moved to amend the amendment so as to provide that if any governor shall fail to make the nomination of supervisors before April 1st, 1880, the Secretary of the Interior shall make such appointment. Agreed to.

Conger said the amendment was to take away from national control and give to the State control of the appointment of enumerators merely for political purposes. He moved to amend so as to strike out the clause for the appointment of supervisors by the governors. Rejected—yeas 104, nays 111. After the presentation and rejection of other amendments, the committee rose.

Recess.

Upon reassembling, the House went into committee of the whole on the legislative appropriation bill. The pending amendment was offered by Atkins, consolidating the sections relating to the surveys.

Page submitted an amendment providing that the system of public land surveys be continued under its present management, and striking out the clause which abolishes the offices of surveyors general.

Haskell, in supporting Page's amendment, read an extract from a letter from a member of the national academy of science, stating that some of the strongest members of the academy were opposed to the transfer.

Sparks demanded the name of the author.

Haskell replied that it was a letter to Mr. Freeman, Pennsylvania, and he did not feel authorized to state the name of the author.

Haskell, amid much laughter and confusion, crossed the aisle and shook the letter in Sparks' face, to show him the signature.

Sparks—I don't want to see your secret, but I would not quote from a letter of which I would not give the author.

After order had been obtained, and some discussion, Page's amendment was adopted—yeas 98, nays 79.

Atkins then modified his amendment to consolidate the sections in regard to the surveys, exclusive of the clauses striken out by Page's amendment, and with some slight changes it was adopted—yeas 89, nays 44.

Then the committee went back to that portion of the bill providing for the judiciary, which had been postponed, and several political amendments were offered to it, points of order were made on which a decision was passed. The committee then rose and the House adjourned.

EASTERN.

Cabinet Meeting—The Chinese Bill.

WASHINGTON, 18.—It is ascertained to-night that the discussion of the Chinese immigration bill at the cabinet meeting this afternoon was brief, but sufficiently extended to develop a new phase of the subject of great interest, and probably of great importance as regards the ultimate fate of the bill. The various considerations set forth in last night's dispatch as current objections to the executive approval of the measure, were mentioned without being made topics for extended discussion, but the point was then raised that the formal abrogation of the whole of the fifth and sixth articles of the Burlingame Treaty, provided for by the last section of the bill, would be undesirable. These articles are the only portions of the treaty which guarantee the full protection for Chinese in the United States or for Americans in China. The provision for the formal notice of their abrogation was inserted in the bill as an indispensable means of obtaining the votes of several democratic and several republican senators who had signified their intentions of voting for Conkling's amendment or of opposing the bill in toto unless an appearance of courtesy was given to it by embodying in it this congressional requirement for a polite notification to the Emperor of China some months prior to the date of the bill's going into effect. The point thus raised, to-day, was considered worthy of serious notice by the cabinet, but the whole subject was laid aside for discussion and action subsequent to the final passage of the bill and its receipt by the President. Senator Sargent and Representative Page have been informed of this new obstacle to the bill's approval, and are hopeful that it can either be overcome or removed. The omission of this requirement for a formal abrogation of the fifth and sixth articles of the treaty would not, in the least, impair the operations of the remaining parts of the bill, for so far as the provisions of the bill contravene to portions of these articles, the latter will be abrogated *pro tanto*, but otherwise will stand, unless China will hereafter declare them totally abrogated, which, of course, she will be at liberty to do in any event, both as regards these and all other parts of the treaty. If now it be found desirable or advisable, for any reason, to leave these articles introduced, except as regards their permission for the unrestricted immigration, it will be easy to drop out the seventh section of the bill through the instrumentality of a committee of conference. The report of a committee of conference can be presented to either at any time as a matter of high privilege, and is not amendable, but must be accepted or rejected as a whole. The bill, in the shape suggested, can undoubtedly command a clear majority in both houses, if again presented for adoption. In this way unanimous concurrence can usually be obtained, without much difficulty, to take a bill from the Speaker's table for the purpose of moving a non-concurrence in the Senate amendments, after which the appointment of a committee of conference is a matter of course. It may perhaps be determined by the friends of the bill that this plan of moving non-concurrence is the best means of securing speedy and final action, whether the omission of the seventh section is required to obtain the President's signature or not. But the entire subject will be made a subject of consultation, inquiry and careful consideration before any course of action is adopted.

Potter Investigating Committee.

In the Potter investigation, today, the question was asked as to how many electors was the returning board to give to the Tilden party, did Solomon say? A.—Just as many as the Supreme Court should order us to certify.

Q.—The $100,000 offered had no temptation for you? A.—Well, sir, I don't care to vaunt my virtue, but it had not. Under the circumstances it was not enough to induce me to betray the whole trust of the community. I was not surprised at his making the proposition, because I was acquainted with him. I think he had, perhaps, some hope that I would accept when he first came to me, but I quenched that hope at the very first conversation.

Q.—The relations between you and Solomon are still friendly, and the effort to corrupt you has made no change? A.—Not at all, as far as I am concerned.

Springer—Wood says Solomon telegraphed some person in Columbia stating that the goods could not be delivered and that that evening he had read the announcement of the board's action. A.—If Solomon telegraphed to that effect on Wednesday morning, then he must have lied to me. He told me they were negotiating for money and if we would wait until 2.30 the arrangement would be completed.

Contested Seats.

The House committee on elections, to-day, agreed to report a bill appropriating $46,616 for paying the expenses of contestants to seats in the House. The aggregate claim is $80,000.

Washington's Birthday.

All the departments will be closed on Saturday, Washington's birthday.

Sudden Death.

COLUMBUS, Ga., 18.—R. H. Carlton, an adjutant general of General Lee, fell dead at his desk, to-day, aged over 60. He was a graduate of West Point from Virginia, promoted to major in the Mexican war, and was paymaster in Texas before the war.

Fatal Railroad Accident.

ATLANTA, 18.—A railroad disaster occurred near Selma to-day. The passenger train from there on the Selma, Rome, and Dalton railroad, fell through a rotten bridge over Mulberry Creek. One white man, named George Evans, and four negroes were killed. Superintendent Stanton and conductor white were fatally injured; 10 or 12 persons were severely hurt. The train is a perfect wreck.

WESTERN.

The Sutro Tunnel.

SAN FRANCISCO, 18.—The pumping of water into the Sutro Tunnel has been discontinued by the mines. It is now given out that an early settlement of all differences between the tunnel company and the mines may be looked for.

The Press Protests.

News of efforts being made by the eastern press, clergy, etc., to induce the President to veto the anti-Chinese bill has created much uneasiness here, and has called forth from the press a strong and unanimous protest on all sides, publicly, and privately. The expression given to the general sentiment is, that the veto of the bill would be nothing less than a calamity to California and the Pacific Coast. Party distinctions are disregarded in the earnest desire that the action of Congress may be not negatived by the course of the executive.

FOREIGN.

GREAT BRITAIN.

Censuring Government.

LONDON, 18.—Eighteen Catholic bishops, of Ireland, met at Maynooth, to-day, and adopted resolutions strongly censuring government for its conduct in regard to university education.

GERMANY.

The Tax Bill.

BERLIN, 18.—The *National Zeitung* states that the customs tariff committee have decided to propose an import duty of 3 marks per 100 weight on hops, but to admit wool and cotton free.

TURKEY.

The New Turkish Loan.

CONSTANTINOPLE, 18.—The minister of finance, in announcing that a new Turkish loan has been concluded, declares it will be in great part devoted to the paying up of paper currency at 25 per cent., its nominal value.

EGYPT.

Army Reduction.

ALEXANDRIA, 18.—The Egyptian budget proposes that the army be reduced to 10,000 men, and that the remainder, including 2,000 officers, be disbanded.

Riot of Disbanded Officers.

CAIRO, 18.—The crowd which gathered before the ministry of finance, to-day, was composed of some 400 disbanded officers, who clamored angrily for arrears of pay. Nubar Pasha, Minister of Foreign Affairs, and Rivers Wilson, Minister of Finance, were insulted by the mob as they were leaving the ministry. The latters coat was torn. Thirty rioters entered the building, but were expelled on the arrival of the Khedive and foreign consuls. The rioters then invested the ministry. The Khedive harangued the crowd, and made three futile attempts to depart in his carriage, but was himself insulted, while his body-guard arrived, fired on and dispersed the rioters. Several arrests were made. Nubar Pasha was shot in the hand. His coachman and the Khedive's master of ceremonies were also wounded.

THE CHIEF OF HEALING COMPOUNDS.
HENRY'S
Carbolic Salve
The Most Powerful Healing Agent ever Discovered.
Physicians give it the highest recommendations.
☞ POINTS TO BE BORNE IN MIND.
Carbolic Salve positively cures the worst sores.
Carbolic Salve instantly allays the pain of burns.
Carbolic Salve cure all cutaneous eruptions.
Carbolic Salve removes pimples and blotches
Carbolic Salve will cure cuts and bruises.
Henry's Carbolic Salve
ranks at the head of all Salves, Ointments and other Healing Compounds, and has achieved a greater reputation and has a larger sale than any other similar preparation. The most
VIRULENT SORES AND ULCERS
have been cured with wonderous rapidity by the use of Carbolic Salves, and it is prescribed now almost universally by Physicians throughout the country in their practice.
Testimonials from the most respectable sources, medical and otherwise, are constantly accumulating on our hands, demonstrating the sovereign efficacy of
Henry's Carbolic Salve Ointment,
and that the cures, which it effects are as prompt as they are complete. The two following excerpts are all we deem it necessary to insert.
Geo. D. Lincoln, Pres't of the Board of Health, N. Y., writes: "Your Carbolic Salve is an excellent article, and I thank you for it. This is another evidence of the great value of the discovery of carbolic acid."
D. R. Locke (Petroleum V. Nasby), of New York, states that he had "on the forefinger of his right hand one of those pleasant pets, a felon." One bottle of Salve reduced it to a degree unbearable. * * * A friend dressed it with Carbolic Salve, and in twenty minutes the pain had so much subsided as to give a fair night's rest. * * * The inflammation left the finger in a day."
Henry's Carbolic Salve
is used extensively in Hospitals, and is found to be not only a valuable purifier and disinfectant but also the most wonderful and speedy healing remedy ever known. Sold by all Druggists. * * * Price, 25 cents per box.
