

NEED ROYLE ARRIVES AT HOME

Will Be Present at the Opening Of the "Squaw-man."

REMINISCENCES OF OLD DAYS.

Will Produce "The Squawman" in London This Year.

The notice of Ned Royle's play, "The Squaw Man," which appears on the dramatic page of the Saturday "News," was already in type when Mr. Royle surprised his father and mother by walking into the family domicile. He has been several years since Mr. Royle was last in his old home, and needless to say, the reunion was a joyful one.

In conversation with a "News" representative this morning, Mr. Royle said he was astounded at the changes he saw on every hand. Along the railroad line, in Ogden and in Salt Lake, the old landmarks were rapidly disappearing. As he passed up and down the business streets he felt indeed "a stranger in a strange land." He had seized the present occasion to visit his parents, though he had been trying to get away from New York for a number of years. He intended being present at the opening night of the "Squaw Man" at the Theater Thursday, though he has no interest in the production, aside from the fact that it was his author's royalties on all the performances. As the play is in its third year, and as a second company has been out for some time, it can be assumed that Mr. Royle's remittances per week amount to a comfortable sum. He is advised that the great business record of the company had been set in Portland, Seattle and San Francisco, and the week's receipts seldom ran below \$15,000.

Asked in regard to his latest production, "The Squaw Man," Mr. Royle brought out with Florence Roberts in New York some weeks ago. Mr. Royle laughingly said that it had been laid away, though he added that he was not without hopes of some day seeing it resurrected. It had proved too serious a conception for the average audience of the day, which wants to be amused, and does not want to be made to think. He spoke highly of the generous faith in which it had been staged by Manager Harris, and the fine work done by Miss Roberts and the supporting company.

Mr. Royle states that he intends to visit London during the winter to arrange for a production of the "Squaw Man" there, and should it succeed, he is in hopes that it might lead to an English production of "The Squaw Man." Mr. Royle's father's part in London would be played by the distinguished English actor, Lewis Waller.

Ned Royle's career and the story of his steady climb up the ladder of success make pleasant reminiscences for his many friends in this city. Not more than one or two of the Salt Lake newspaper colony of today were in harness when Mr. Royle made his debut in the east. Mr. Royle took place on the night of June 18, 1886, in Masonic hall, on Main street, when he gave a recital, rendering "Eugene Aram," "The Nameless Dead." He had previously appeared with the Madison Square Theater company in New York in "Sealed Orders," "The Banker's Daughter," "The Part of John Strebellow," with H. M. Wells, J. D. Spencer, L. A. Cummings, Edith Clawson and Blanche Edwards. DRIPICES CREAM BAKING POWDER

A PURE, healthful, grape cream of tartar powder, the only kind that can be used without impairing the healthfulness of the food. Makes the biscuit, cake and pastry more digestible and wholesome. Absolutely free from alum and phosphate of lime.

Chemical analyses show the low priced powders made of alum to contain large quantities of sulphuric acid, and that a portion of the alum from baking powders remains unchanged in the food! You cannot afford to take alum and sulphuric acids into your stomach.

MANAGER ODELL IS CHEERFULLY OPTIMISTIC ON BUSINESS SITUATION

It is most cheering, in times like the present, when the scarcity of money and the news of shut-downs are depressing so many people to meet an optimist like Manager Odell of the Consolidated Wagon & Machine company.

He has been carefully "surveying the landscape" of the past few days, in the light of the returns from the numerous branches of the company throughout the west, and especially in view of the daily sales and collections of his mammoth establishment. As a result, he gives it as his opinion that there is nothing the matter with the foundation of our business structure. He truly says that after all, it is the prosperity of the farmer that makes the prosperity of the general public. The people are here and Utah is filling up with fresh arrivals. They have got to live and the best of it is that Utah people have many things to sell that the world outside must have. Immense crops have been raised the country over; the sun will go on shining, and people will go on buying and selling, even though plagues and promoters of wildcat schemes come to grief.

Mr. Odell says that his view of things is that people may cut down their luxuries, but as to the substantial there are just as many going out as ever. The trade of the Consolidated Wagon & Machine company continues enormous and has done for the past month, while collections are equally good. Agricultural interests in Utah, Idaho, Wyoming and Nevada were never better than now. Mining interests may slacken temporarily, but the farmer will go on raising potatoes and wheat and the world will go on paying good prices for them.

Manager Odell has received inquiries from manufacturers who take his company's report as a barometer of conditions prevailing in the intermountain country. All expect there will be practically as many goods sold in 1908 as there were in 1907, though, of course, all suggest caution in making deals. Mr. Odell also thinks that labor conditions will be much less acute in the future than they have been in the past. He says he has received many applications for work from people, most of them content, while a few months ago it was difficult to get enough men for the jobs in sight. Now there is quite a reversed condition.

AN ERROR RECTIFIED.

The Divorce in the Lindsay Salt Was Not Granted.

In the Deseret News correspondence from Nephi, printed in the issue of the 6th, the statement was made: "Caroline Lindsay was granted a divorce from her spouse, David A. Lindsay." Mr. Lindsay, who is a resident of Bureka, denies this allegation, and on telephone to the correspondent at Nephi, the Deseret News finds that an error was made in the announcement. As neither this paper nor the Nephi correspondent has any desire to injure any of the parties to the divorce, the error is corrected, and this announcement is made with the following explanation:

Mrs. Lindsay planted suit for divorce from her husband some time ago. A default was entered by the clerk of the court, and our correspondent seeing this entry, naturally assumed that the divorce had been granted, hence his item, which was sent in the ordinary course of news gathering.

Mr. Lindsay, the defendant, applied to the court to have the summons set aside, and the matter is still pending. The "News" regrets the error made by its correspondent, and trusts that this publication will allay any feelings that may have been caused by the publication.

WILL ACCEPT CHECKS.

Idaho Irrigation Company at Gooding Will Take Checks in Payment.

Letters from the Idaho Irrigation Company of Alberta, Idaho, in regard to the opening of the 2000 acres of Carey Act farm land to be opened by that company for public entry, on the 1st inst., state that the company will accept checks at Gooding, on account of the first payments required on water contracts and on the land. This company feels that many people who wish to make entries might be deterred from doing so through the scarcity of cash, and they wish to know that checks will be taken just the same as currency.

H. B. TOOKER GOES UP.

Former Salt Lake Becomes Coast Traffic Agent of Smelter Co.

Circulars have been issued over the signature of William Sprule, traffic manager of the American Smelters Securities company, 71 Broadway, New York, announcing the appointment of H. B. Tooker as traffic agent of the company in local charge of transportation matters on the Pacific coast, vice E. B. Bradley. Mr. Tooker's headquarters will be the Merchants' Exchange building, San Francisco.

Mr. Tooker is well known here where he has a host of friends. For years he was with the Oregon Short Line and secretary to S. W. Eccles, who was then traffic manager. When Mr. Eccles went to the Guggenheims he took Tooker along with him and since that time that young man has been climbing up the ladder.

A nervous person is always at a disadvantage. The steady nerves of the influential, successful, well liked individual are the envy of the timid, cold skinned person who lacks initiative and red blood.

Coffee is a common cause of "cold hands and feet," nervous trepidity, etc.

What a delightful change it is to feel the power of warm blood and strong nerves! Stop drinking coffee for a week or 10 days, and drink Postum Food Coffee as the table beverage.

Make your Postum strong and rich—boil it 15 minutes or longer—then, with good cream and piping hot, it is delicious and wholesome too. Contains no coffee or other drug (caffeine) is the drug in coffee) but only the food elements of clean, roasted wheat and a small amount of molasses.

CHICAGO EDUCATOR HERE.

Chancellor Tobias in West to Secure Land Endowments.

Chancellor J. J. Tobias, a Chicago educator, is in the city. He says that while in Washington recently, he talked with U. S. Treasurer Treat, who stated that the financial distress might be mitigated by utilizing \$250,000,000 in the government vaults, sending west \$2,000,000 a week to the national banks. The banks might be allowed to increase this amount fourfold for immediate circulation of course securing the government with suitable collateral. Mr. Tobias cited an instance of the discomfort attending the present financial stringency, by stating he and his party had \$4,000 worth of securities with them, but could realize on them but \$20 to cash. He is west to secure land endowments for his institution, these being coal lands in Wyoming.

LOCAL TELEPHONE'S CHECKS RETAINED

Independent Telephone Purchase Rapidly Getting Complicated.

MR. JONES IS INDIGNANT.

Says the Extension to March 15 Was Granted and He Will Fight Any Attempt at Consolidation.

Last night's mail brought Elmer B. Jones, managing director of the Utah Independent Telephone company a check for \$50,000 from the United States Independent Telephone company in Rochester, with whom it had been deposited to secure an extension on the final payment of the amount due for the purchase of the bonds and stock of the company.

The return of the check was the first advice Mr. Jones had received that the extension would not be granted. When he and Mr. Odell were in Rochester and deposited the money with the United States Independent Telephone company, they were assured by the members of the board that the matter could be arranged satisfactorily and that the time asked for would be allowed. With this statement the money was in the hands of the company and Mr. Jones and Odell returned home.

Mr. Jones is very emphatic in his statements in regard to the manner in which the money was handled. He said that the matter could be arranged satisfactorily and that the time asked for would be allowed. With this statement the money was in the hands of the company and Mr. Jones and Odell returned home.

"The affair was conducted in the most high-handed fashion. We were not notified in any way and the first intimation that I had of any check was the check itself, which appeared in the newspapers of the city Thursday. I do not even know at the present time that the sale has been made. One thing is certain, we of this company are interested in the continuance of the independent telephone service will resist any such sale in every way possible.

"If the sale has been made to a company representing the Bell interests and it is intended to turn the securities over to the Bell company, the same objection which operated last spring against the sale will operate again. It is beyond the shadow of a doubt that if the Bell company is making the purchase it will not care to continue the present plan in this city. The policy of the Bell company is destruction, and as soon as it had secured a majority of the stock it would probably attempt to sell out the minority. A thing could be prevented under the Sherman anti-trust law."

PARK CITY IS GOING TO HAVE COMMERCIAL CLUB.

(Special to the "News.") Park City, Utah, Nov. 8.—Park City hasn't felt so good in years as it does today. The re-opening of the Ontario tunnel and the happy termination of labor troubles came about just when most needed. As an exhibition of enthusiasm and renewed spirit 250 Parkites met in the city hall last evening to form a commercial club. Mayor Welch who presided appointed a committee to draft a set of regulations, the organization of the club will be pushed ahead without a moment's loss of time.

Coroner R. M. Sperry returned a verdict today which says this substance, "Jerry Murphy died at his own hands while temporarily insane." The body will be shipped today to O'Neill, Neb., where relatives of the deceased lie buried. The coroner's jury consisted of Keith and Mont Perry arrived here from Salt Lake today. They were met at the train by Superintendent Daly of the Silver King. The coroner's jury was allowed to be regarded as important, but its meaning is now known yet.

CHURCH HOUSEWARMING.

Phillips Kindergarten Opens With Good Attendance.

The Phillips Church Kindergarten was formally opened last evening, with a well attended house warming, and an interesting program, including short talks from Rev. P. A. Simpkin, State Superintendent A. C. Nelson and Rev. J. M. Pugh of the First Presbyterian church. Stress was laid on the latest ideals of education, which considers expression to be made the most of. The children, who are 25, Simpkin spoke of the advantages of the new work and what was to be expected. He said the Kindergarten will be open to all children in the city with tuition free to all who are unable to pay. A girl's club will be organized for physical culture. No sectarian doctrines will be taught.

The children in the classes already organized gave an exhibition with songs, marches, and figures that were very pleasing, as well as instructive, and there was a musical program with numbers by Mrs. Browning, Mrs. Moore, Viola Brown and others. The building is well adapted to the purpose for which it is intended, and the school opens under the most favorable auspices. The Kindergarten work will be under the supervision of Miss Anna Beach, Miss Mary McQuinn, Miss Jean Jones and Miss Edith Shaver.

Catarrh of The Stomach.

A Most Dangerous Disease, Which Causes Serious Results, Unless Properly Treated.

Catarrh of the Stomach is very common and is known as one of the most obstinate diseases, which, when neglected or improperly treated with cheap patent medicines, tonics, drugs, pills, and other secret concoctions, results in a broken down constitution and often consumption and death.

Catarrh of the Stomach, like every chronic disease of the system, except cancer, is the result of poor digestion. The digestive organs have become weak, there is a lack of gastric juice, your food is only half digested, and as a result you become afflicted with loss of appetite, pressure and fullness after eating, heartburn, vomiting, water-brash, tenderness at pit of stomach, slight tongue, bad taste in the mouth, constipation, pain in limbs and face, sleeplessness, nausea, belching of gas, diarrhoea, sick headaches, dizziness, mental depression, nervous weakness, and many other common symptoms.
