

LOCAL AND OTHER MATTERS.

Just Received.—S. G. Read has just received from London the Family Herald for June 1st.

High Council.—There will be a regular meeting of the High Council in the Council House, on Friday, June 18th, 1880, at half-past 7 o'clock p. m.

The Immigrants.—The company of Saints which left Liverpool on June 25th, reached New York this morning, and will leave for Utah tomorrow. So we learn by telegram from Elder W. C. Cairnes.

Adjourned To-day.—Congress adjourned to-day, for the summer and fall. Hon. Geo. Q. Cannon, wife and two daughters are expected home next Tuesday evening. Congress will resume on the first Monday in December.

The Extension.—Bishop John Sharp returned last evening from a two-day's trip to the end of the Utah Southern. The track is rapidly building and will probably be at Frisco by Saturday night. As soon as it reaches that point, the Superintendent will start for the East on business relating to a branch road from Frisco to the mines.

How He Got His Stake.—Saturday night, between eleven and twelve o'clock, another attempt was made to burglarize the meat shop of Mr. Bean, in the 11th Ward. The proprietor, who lives a few rods away, heard the noise, and getting up, secured a stout picket and went noiselessly in at the back door of the shop. A man's head was protruding through the trap, just above the front door, and as its owner was wiggling himself along, he said to a companion outside, who was evidently assisting him to climb, "I'll have a steak, anyhow." "Will you," exclaimed Bean, "then take it," and gave the fellow a fearful wallover the head with his club. "Oh, I'm killed! I'm killed!" shrieked the thiefing rascal, as he fell backward to the ground outside. Mr. Bean went into the house to get on his shoes, but when he returned the would-be burglar had disappeared. He says that if any of the same ilk want a good stake, at any time, they can have it at his shop, but it will be made of good stout cedar or hickory, and may prove somewhat indigestible.

Fuller's Camera Obscura.—On invitation of the proprietor, this morning we paid a visit to the Fuller's Hill Pleasure Gardens, where we found the 8th Ward Sunday School with their parents and friends engaged in enjoying themselves. The place is furnished even better than ever. Mr. Fuller is continually adding new attractions to the great variety already there, and spares neither pains nor expense to make his visitors and patrons happy and comfortable. Among the amusements lately added is the camera-obscura, which is in a small sized round-house in the upper part of the grounds. In the centre of the roof and ceiling, which are one, is fixed a camera, which gathers in a picture of the surroundings and throws it down upon a stand placed in the middle of the apartment and covered with a common white oil-cloth. The lens is made to revolve and a perfect living panorama of whatever is going on in the surrounding gardens outside, is thus presented to the view of the beholder. The sports of the children, the waving of trees, rising smoke and every movement of animate or inanimate nature, with the color of the leaves, grass, sky, etc., are all clearly and beautifully portrayed. This attraction is well worth a visit to the gardens to witness.

The Murderer of Mary Parker Confesses.—Our readers are familiar with many of the details of the Mary Parker murder, which occurred near Rockville, Kane County, last April. Our previous writing upon this subject stated that Samuel Parker, the son of the murdered woman, accused by Dalton, (the arrested party) of being the one on whom suspicion should rest, had arrived from Nevada, at Deseret, and on being told of his mother's death and of Dalton's assertions concerning himself, was horror-stricken to learn of the crime, and of his alleged complicity therewith, and denounced the latter as utterly false, as at the time of the murder he was herding sheep in Nevada. He then set out for Toiyaville. The following, from the Silver Reef Miner, of the 12th inst., tells what followed his arrival there:

On Saturday last, Parker reached Toiyaville, and when the accused (Dalton) was informed of his arrival, he betrayed considerable uneasiness, and asked not to be left alone, as he was afraid that Parker would endeavor to shoot him through the fence. Fear and a guilty conscience subsequently obtained the mastery over him, and when his next meal was brought he told the jailor to bring a sheet of paper, and that he would soon make everything right. In the presence of witnesses Dalton confessed that he and an accomplice by the name of George Jennings had followed the old lady from home, seized her in the foothills, and after violating her person, in order to conceal their crime one of them had held her while the other cut her throat. They then doubled up the body and partially covered it with rubbish, where it lay until found by the searchers. After making this confession, Dalton stated that he was tired of living and would like to be shot.

George Jennings, the accomplice in crime of Dalton, has already been captured by Sheriff Spillbury, but we have not yet learned the result of his examination. The reason that Dalton gave Jennings away is said to be because Jennings promised to bring him tobacco to the jail and failed to fulfill his promise.

Dalton's desire to be shot will very likely be gratified, providing that method of execution is not considered too merciful for such a wretch. Jennings, if proven guilty as charged, should be disposed of in the same way.

City Council.—Proceedings at the City Council on Tuesday evening, June 16th, 1880, Mayor Little presiding:

A petition from James D. Van Tassel and two others, asking that a portion of the water ditch on the south side of Sixth South, between Ninth and Tenth East streets, be flumed, was referred to the water-master.

A petition from William Jones and ten others, asking that a half block on Sixth West, between Third and Fourth South streets, be turned over to the public, was referred to the committee on streets and alleys.

A petition from A. M. Ledingham and forty-three others, asking that a stagnant pool of water situated on South Temple, between Seventh and Eighth West streets, be filled up, was referred to the mayor, with instructions to notify the superintendent of the Utah Western Railway that the pool which is complained of as a nuisance, is the result of digging in the street for the grade of said railway track, and require the said superintendent to abate the nuisance to the satisfaction of the people residing in the vicinity, and make the street as good as it was before the track was located there.

A petition was presented from the executors of the estate of Brigham Young and twenty-four others, merchants, business men and property holders on First South Street, requesting that the sidewalks should be allowed to remain as they now are until such time as permanent buildings are erected upon said street, at which time they were willing to bring their sidewalks to the established grade.

The subject was fully discussed and the propriety of deferring the improvement on account of the damage that would result to some of the occupants by reason of being located above the sidewalk, was also considered, and after various remarks, the burden of which was that the improvement should not be longer delayed, and that if it were delayed to some future time, the same objections set forth by the present petitioners would then be raised, the petition was received and laid upon the table, the street supervisor was ordered to more fully determine the cost of bringing the sidewalks upon said street to the established grade, and the city attorney was instructed to prepare the necessary papers to carry the contemplated improvement into effect according to the requirements of the law.

W. A. Rostler, agent of the estate of Brigham Young, petitioned for a return of \$10 paid in error for a water license for the use of water upon certain property owned by said estate, which amount had also been collected by the license collector of the tenant renting said property. Permitted and amount appropriated.

A lengthy communication from Wm. J. Silver, C. E., was submitted, making certain propositions for improving upon the present system employed in drilling holes for tapping the city mains to obtain motor powers, and offering to construct a machine and make a contract with the city for tapping the mains in cases where the hole to be drilled exceeds the size for which the machine now in operation by the city plumber is adapted. Referred to the committee on water works.

An invitation was received from the committee on invitation of the 4th of July celebration, signed by A. S. Patterson, chairman, inviting the Mayor and City Council to participate in the services on that occasion, and stating that carriages would be furnished by the committee or arrangements in case the invitation was accepted.

Upon canvassing the subject, it was ascertained that some members of the Council, in fact most of them, had made prior engagements of their time upon the occasion in question, which would preclude the possibility of their participating in the celebration as a body, and it was accordingly ordered that the courtesy extended by the committee on invitation be gratefully acknowledged, and the committee be notified of the facts, as stated above.

The city auditor, J. H. Wood, submitted his quarterly report of the financial condition of the corporation for the quarter ending May 31st, 1880, showing a balance in the treasury at last report of \$2,351.44; receipts during quarter, \$77,223.15; total resources, \$79,574.59. Disbursements during quarter, \$79,411.04. Balance in treasury on June 1st, \$83.75. Referred to the committee on finance.

The city attorney, who was instructed to prepare a document for presentation to the Council which would guarantee the city in its right of way for the Jordan and Salt Lake City Canal through land claimed by Wm. C. Cannon, Esq., reported back for the right of way for said canal, which he understood Mr. Cannon would sign, and which, the attorney stated, would in no wise interfere with the acquisition of the title to that portion of his land entered under the Desert Land act.

After reading and careful consideration of the document, it was decided to accept it and the money awarded by the committee of arbitration was ordered to be paid to Mr. Cannon upon his signing the document for the right of way presented to the Council and approved.

The superintendent of waterworks submitted his report for the quarter ending May 31st, 1880, which was referred to the committee on water works.

The water-master's report for the same quarter was also submitted and referred to the committee on claims.

An appropriation of \$500 was made to the contingent fund of the waterworks, \$1,000 to that of the water master, and \$1,000 to road and street account.

The committee on streets and alleys, to whom was referred the petition of Erick Larson, asking permission to locate a water tank upon West Temple Street, between North Temple and First North Streets, reported that they had visited the locality referred to, and had been told by the petitioner, The tank desired was small and would interfere neither with public rights, nor with the committee, therefore recommended that the prayer of the petition be granted. Adopted.

Bill of Morris & Evans for repairs to fountain upon City Hall Park, \$10, was allowed.

SPECIAL BUSINESS NOTICES.

This paper may be found on file at all times at C. R. I. and P. R. Ticket Office, No. 56 Clark Street, Chicago, where our friends are at liberty to call and examine it.

BLACK ROCK BATHING RESORT.

Having entirely renovated these premises, erected one hundred fine large Bathing Houses, a large Bowery, Swings, etc., we now open these grounds to the public, and with the advantage of having the finest bathing on the lake, hope, by close attention to business and to the wants and comfort of visitors, to secure a fair share of the public patronage. Lunches and all kinds of refreshments to be had on the grounds at city prices.

A limited number of boarders can be accommodated at the Hotel, where the table will be furnished with the best the market affords.

Special inducements offered to Schools and Excursion Parties wishing to spend a day at the Lake, arrangements for which can be made with D. J. Taylor, at Carpet Department, Z. C. M. I.

All of BROWN'S MEDICINES for sale by Z. C. M. I., Goddard, Pitts & Co., Moore, Allen & Co., Salt Lake, and all dealers in Utah. dw

IT IS TRULY WONDERFUL.

TO SEE what improvements now exist as compared with railway travel only a few years ago. To become convinced of this, one has only to select for his route East, the popular and well-known CHICAGO & NORTHWESTERN RAILWAY.

You are landed by the Union Pacific R. R. in the Union Depot, at Council Bluffs, where stands the C. and N. W. Pacette train, composed of Pullman Hotel Cars, Pullman Sleeping Cars, elegant Day Coaches, Smoking Bagnage, Postal Cars, etc., ready to convey its passengers through Iowa and Illinois, and into Chicago. Gliding smoothly along over the super track of steel rail, through thriving cities and villages, comfortably seated in this train, one scarcely discovers the high rate of speed which he is riding. Trains of this road are always on time, connections sure, and passengers seeking pleasure, comfort, safety and ease in traveling will find the "North-Western" in excess of their expectations, and the greatest of all routes to Chicago and the East. Insist upon Ticket Agents selling you "Tickets" on the road; all Agents sell them. Examine your Tickets, and refuse to buy if they do not read over this Road. If you wish the best Traveling Accommodations, you will buy your Tickets by this route, AND WILL TAKE NO OTHER.

A CLEAR POLITICAL HEAD.—May be secured and constipation and biliousness cured by using BROWN'S LIVER PILLS. All dealers keep them.

Among beliefs founded on fact is the faith which the public entertain in the efficacy of CLARK'S SULPHUR SOAP as a remedy for skin diseases and a beautifier of the complexion. It has widely superseded the greasy ointments, onguents and other oleaginous compounds used for cutaneous eruptions, and the ladies declare that it is far preferable to any cosmetic, as a means for whitening the skin and removing tan, pimples, freckles, moth patches and the like. Both the medical profession and the press have borne evidence to the salutary qualities of this standard external specific for all diseases affecting the cuticle.

Sold by Druggists. Price 25c. per cake. 1 Box (3 cakes) 75c. sent by mail on receipt of price. C. N. CRISTENSON, Prop'r 115 Fulton Street, New York.

Hill's Hair and Whisker Dye, Black or Brown, 50c. each dw

Solid Merit will Tell.

For all the bitter opposition of jealous rivals, no better illustration could be had of this fact than the immense sale already attained by the great Throat and Lung Remedy, Dr. Aug. Kaiser's German Elixir. For Coughs, Croup and Bronchial Affections, it is truly wonderful, even those suffering from Consumption in advanced stages find great relief, and many of our patients have found to their delight, not only relief, but cure.

It being perfectly harmless, makes it, at once popular with mothers, who of all others have felt the necessity of such a medicine. The genuine bears the Prussian Coat of Arms, the fac-simile signature of Dr. Aug. Kaiser, and has the name C. N. CRISTENSON, Prop'r 115 Fulton Street, New York.

There is no Pain Like Toothache.—"It beats the dogs" for making a fellow squirm. Nobody pities you "Get it out," says one; "rub the tooth against a stone," says another; "when it begins to swell then it won't hurt so much," says a third. The reason of the ache is you didn't use SOZODONT, and prevent your teeth from decay.

Nothing Short of Unmistakable Benefits.—conferred upon tens of thousands of sufferers could originate and maintain the reputation which AYER'S Cathartic Pills enjoy. It is a compound of the best vegetable alteratives, with the Iodides of Potassium and Iron, and it is the most effectual of all remedies for scrofulous, mercurial, or blood disorders. Uniformly successful and certain in its remedial effects, it produces rapid and complete cures of Scrofula, Sores, Boils, Eruptions, Skin Diseases, and all disorders arising from impurity of the blood. By its invigorating effects it always cures Cures Liver Complaints, Female Weaknesses and Irregularities, and is a potent renewer of vitality. For purifying the blood, restoring the system, and preserving the health, and imparting vigor and energy. For forty years it has been in extensive use, and is today the most available medicine for the suffering sick, anywhere.
