

LOCAL AND OTHER MATTERS.

THEATRICAL.—Miss Adams had, we believe, the best house of the season for her benefit last night, and the performance was excellently rendered. The flocks, ambitious and unfortunate "Catharine Howard" was excellently personated by the headliner, Mr. Milton Nobles showed more advantageously last night than on the occasion of his first appearance here, in "Wine Works Wonders." The "Bill of the Eighth," however, of Mr. David McKenna, was the best rendered male character in the place last evening. All the members of the company who participated in the performance of "Catharine Howard," acquitted themselves creditably.

One of the most pleasing features of the entertainment was the singing, in character, of the fine ballad, "Put me in my little bed," by Miss George Chapman, a talented young lady of about eight summers. Not only did she sing with charming and exquisite sweetness but with touching pathos, suiting the action to the word according to the spirit and sentiment of the song. She was vociferously cheered, when she sang another character song and again elicited well merited plaudits from the delighted audience. The "Comic duet," by Mrs. Thompson and Mr. Spring, was well received. Had it not been for an account of men evidently ill by them on account of being unaccustomed to their position before the public, they would, doubtless, have sung more effectively than they did. "The Smiths and Browns" created great mirth and drew forth frequent applause from the audience. Phil and Graham were, as usual, immense.

To-morrow evening will be presented the sensational drama, "Under the Light," in which the favorite actress, Miss Nellie Colebrook, will appear, and personate the character of "Miss Laura Courtland." Mr. Milton Nobles will make his last appearance in this city as "Snorky," the character which, hitherto, has been so admirably rendered by Mr. David McKenna, who on this occasion, will appear as "Ray Trafford." "Hyke" will be enacted by Phil, who is able to do the character ample justice, and who has seen the "Derby" of the famous Graham can ever forget it. It is one of his best renderings. With Mr. A. Thomas as "Justice Bowling," Mrs. A. Thomas as "Pearl Courtland," Mrs. M. M. Bowring as "Mrs. Van Dam," Miss Dawson as "Peach Blossom," Mrs. M. M. Bowring as "Old Justice," and the other characters of the play in good hands, a treat may reasonably be expected.

WANT TO HEAR FROM YOU.—If this means the eyes of Frederick La Roche, who ten years ago, resided in Liverpool, England, is requested to write to David W. Evans, of Salt Lake City.

ASTRONOMY.—To-night, in the Tabernacle, Professor Orson Pratt will deliver his second lecture on astronomy. The great pendulum experiment, demonstrating the rotation of the earth on its axis, will be elucidated. The lecture commences at half-past six o'clock.

SALT LAKE CITY,
January 18th, 1873.

Mr. Editor.—Occupying different positions, we take different views of subjects, as well as objects. So I thought while reading last evening's News, your quotation from the Chicago Times, And I thought if you had been a whole souled woman, instead of a gentleman, you would have taken off your glove and asked the writer what "gallantry" meant when written by his dirty hand; you would have told him that the four that the professionals referred to will not vote for their patrons is well founded. They will vote for such persons as will aid in raising them from the degradation into which the selfishly corrupt are plunging them deeper and deeper, while they hold the vote in professional holy hands and express fears of woman's "deteriorating" it. This is where, from my view, the "unadulterated truth" comes in.

Persons who feel it a duty, and are permitted the use of the tools, to aid in the restoration of social, moral and political purity have no time to devote to vanity or display.

Yours for the woman's suffrage in Chicago.
REBUTKA.

"THE KING WASHER."—Washing day is always looked forward to by all parties concerned, both man and woman, husband and wife, as a most unpleasant period; and to wives who are compelled to do the washing for their own family, washing day, with its scrubbing, boiling and hard work is a weekly recurring time of torment, and this is especially so if the woman be weak and sickly and have a baby to look after, in addition to her other domestic chores. Such a state of affairs is enough to try the temper of any woman, no matter how good it may be. Of late years the inconvenience and toil of washing days have been lessened, than in former times, by the invention of washing machines, many different patterns of which are now in the market, just as it is in the case of sewing machines, each inventor or advertiser of the several kinds, declares that his is decidedly the best. There is no doubt whatever, that all have some excellence to recommend them, and probably all lessen the time by one-half or two-thirds usually needed to do the week's washing, but it is also certain that while this is the case, it is almost impossible to operate some of them, so that if purchases purchase one, thinking to ease the wife, he finds that he must have somebody to operate it and in this case what is saved in one way is lost in another. A washing machine that will do its work well and easily, is what is required before the invention can be regarded as perfect. Such a machine, we think we are able to say, is now in the Salt Lake market; its name is the "King Washer," and it is entitled to the name, for king of washers it must assuredly be.

We state this after seeing it thoroughly tested by those who have used other machines as well as this, and are consequently able to speak from experience. There is no romance in saying that a woman, and she need not be extra strong either, may do her washing with this machine and nurse her baby while she is doing it, there is no little labor required. The worthy in the old song, in describing his wife, said she was an angel every day but washing day, but then she was like a devil. If he had had a "King Washer" he might have had his angel all the time, for the excessive labor that effected the evil transformation would have been done away with. The "King Washer" is now superseding every other in the East, and we believe will soon do so in the West.

The "Novelty Wringer," self-adjusting by means of an everlasting elastic contrivance, is sold with this machine, with the addition of no tearing off buttons, which is a continual plague with every other wringer in the market.

Husbands who value the health and temper of their wives, and can possibly raise the dime, cannot make a better investment than by buying a "King Washer." It will copy itself in health and comfort five times in a year.

SPRINGVILLE.—Our Traveling Agent, writing from Springville on the 16th inst., says:

"I stayed at Springville this a. m., and had the pleasure of attending a meeting, held for the purpose of dedicating a new school house just erected in the Second Ward of this City. The proceedings were of a really enjoyable nature, and the disposition to continue improving was very pleasing. The school room is finished inside in a manner superior to most of the West school rooms. The building is a two-story, and the seats and desks are arranged with a view to the comfort and convenience of the scholars. The dedicatory prayer was offered by Bishop Brigham, and speeches were made by himself and others, with vocal and instrumental music in the interstices. Springville is a rapidly growing town in the matter of education. Four new school houses have lately been built, two of which are now occupied and the others will soon be finished."

NEW ADVERTISEMENTS.

To Parties Insuring.
All Parents (who love their Families and can afford the comforting reflection that should pause and well consider the following facts. No minor company can in the least compare:

THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK.

SALT LAKE PEOPLE'S VERDICT!

Over Half a Million sold and in use!
4,000 made and sold per week!
SINGER'S
New Improved Silent
FAMILY SEWING MACHINES

The Best in the World,
Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable.

THE SINGER
NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.

It is simple, compact, durable, beautiful, quiet, light-running, and capable of performing a range and variety of work never before accomplished upon a single machine; using either Silk, Twine, Linen or Cotton Thread, and sewing most elaborate patterns and finish. The Machines themselves are plain or highly ornamented with gold and silver, to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the most direct manner, and does not, as in other makes, pass over a large wheel, thus causing the work to pass from right to left, or the reverse, compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back.

The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long and crooked needle, which is liable to break and miss the stitch.

In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the
Oldest Practical Sewing Machine,
Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now the most perfect and reliable Sewing Machine in existence. All the Very Latest Inventions and Improvements, of all unnecessary parts and possesses All the Very Latest Inventions and Improvements, as all its parts are Practical and will do all that is claimed for them.

Greatly Complicated, to do Useful and Silly things, and thus are rendered liable to Constant Breakdown, and require the services of a Sewing Machine Repairer, who is not always readily accessible. Never gives trouble, and is readily and easily managed by those who usually fail on other Machines.

SINGER'S
New Manufacturing Machines
Claim the same advantages over others of their class as the new Family Machine. These old and well-tried Sewing Machines are now made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

HAVE ARRIVED!
A Full Assortment of those
Beautiful and Unrivalled MACHINES.
(The numbers on which show a manufacture of between Five and Six Hundred thousand.) Consisting of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

EASY MONTHLY INSTALLMENTS
So that all may possess one of these Machines. For the convenience of those who have not the means of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also inform to purchasers all needful instructions, so that they can at once commence work.

We report to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.

We have been so fortunate as to secure the

General Central Agency,
For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.

We Guarantee every Machine we sell to give entire satisfaction.

THE SINGER
BUTTON-HOLE MACHINE
Is the only Practical one in the World.
OTHER SEWING MACHINES REPAIRED on Reasonable Terms.
