frosts will curtail the building now in
progress all over the city.

this city agree that the weather is fully
the equal of the Michigan article.

States court.

color exhibition yesterday afternoon, in
the church auditorium. Tea was served.

The local business agencies report
very stable business conditions as ob-
taining all through this part of the
country, and there is no complaint
anywhere.

The Westminster Presbyterian church
people enjoyed a reception given last
night by Rev. and Mrs. McClain W.
Davis at the parsonage, 129 West Sixth
South street.

The Ladies' Aid society and Epworth
league of the First Methodist church
will give a rummage sale in the old
St. Mark's school building next Satur-
day at 10 a. m.

Quite a number of improvements are
to be made at State this winter. The
number of tourist visitors do not let
up at all; in fact, they increase as the
season progresses.

Supt. Frank M. Driggs of the Utah
school for the dumb and blind is in
the city, and says there are 125 pupils
now in the school, 30 being from Idaho. Mr.
Driggs reports the school as in fine
shape.

for the Mutual Benefit Life Insurance

be announced later.

rested by Officer Carlson several days
ago on the charge of drunkenness, and

Architects Erskine and Liljenberg
have completed plans for a modern
eight-room pressed brick and stone
dwelling at Centerville for Ben E. Rich,
cost \$4,000. The wood finish will be
in yellow pine, and the style is colonial.

The Short Line has laid out model
stock yards at Montpelier, which in-
clude a large number of pens for cattle to
run free in and a stream of water broad
enough to accommodate all the
cattle that may be turned into the
pasture.

The Salt Lake stockyards are busy
shipping horses to southern California,
and in addition cattle are being sent
in fact, quite a traffic in live stock is
being built up on the San Pedro. The
yards are also shipping east at a pretty
lively rate.

The work today in the Consistory of
the Scottish Rite Masons is under the
direction of the Salt Lake Council of
Jedidah, and the Philosophical and
Chivalric degrees from the nineteenth
to the thirtieth inclusive will be con-
ferred upon candidates.

The tax list will be held open until
the close of office next Saturday for the
payment of delinquent taxes. After
that time County Treasurer Carls
states that no tax money will be re-
ceived until after the delinquent list is
published and the property advertised
for sale.

Extensive improvements are to be
made this winter at Lagoon, so that
when the next season opens, the resort
will be better equipped than ever. But
for the present, all the energies of the
company are directed toward complet-
ing the building of the Salt Lake &
Ogden railroad.

A new company, the Idaho Falls Elec-
tric & Power company, has incorporated
at Boise with \$25,000 capital, whose
object it is to build a dam across the
Snake river two miles above the city
bridge. The reservoir waters will fur-
nish the power desired. Salt Lake,
Rock Springs and Idaho Falls capital is
interested.

Superintendent of Schools Langdon of
San Francisco has written City Supt.
of Schools Christensen of this city ex-
tending to all Utah teachers a most
cordial invitation to attend the National
Educational association there next
year and stating that a special effort
will be made for the entertainment of
those who attend from this state.

The entire apparatus for the State
University gymnasium has been re-
ceived, the same having filled two cars,
and is now in the building ready to be
set up, as soon as the heating ar-
rangements are completed. The lock-
ers are yet to be received, and the
architect reports that the building will
be ready for occupancy by Jan. 1.

The engineers of the Utah Light and
Railway company, and representatives of
the Weber county farmers are in
consultation over a proposition to
build a union dam and reservoir cap-
able of holding 2,000,000,000 cubic feet
of water, in Ogden canyon. The com-
pany has been willing to engage in such
combined effort for some time, but
the farmers were unable to "see it"
until this late summer, when they
found themselves in sore straits in the
matter of water for irrigation.

ANOTHER NEW
AUTO CONCERN.

Company Will Build Handsome
Garage and Conduct Business
On Extensive Scale.

BACKED BY M. A. OTTINGER.

Hinted that He is to Quit Ticket
Brokerage Business for This
Purpose.

The fact that Salt Lake and vicinity
only has about two hundred automob-
iles while Denver has over six hun-
dred, is leading many dealers to look
to this as an unworked market. An-
other big vehicle concern has added au-
tomobiles to its stock within the past
week, and now comes news of a new
corporation about to be formed locally,
having as its purpose the building of a
large automobile garage, and the es-
tablishment of an automobile depot
here on the most modern plan.

The new corporation is said to be
backed by M. A. Ottinger, whose plan
has for years hung over a Second
South street ticket office, and its two
principal members in addition to Mr.
Ottinger are Sam H. Sharmann, local
representative of the Ottinger company,
and Frank P. Libbey, who for some
time has been connected with the Utah
Automobile company.

The organization of this company
means, apparently, that the Ottinger
ticket office in Salt Lake and in San
Francisco are soon to cease operations,
or the active control of at least the
Salt Lake office is to change hands, as
Mr. Sharmann, who is now in control
here, announces that he will give his
active attention to the management of
the new house.

The fact that a new company was
proposed, leaked out today through the
strenuous efforts of Mr. Libbey, who is
to be manager of the concern, under
Mr. Sharmann, to locate a central po-
sition for a new building. He states
that he has been looking for a site for
several days, and while he has options
on several, he has not selected one
which would be desirable. In the
meanwhile Mr. Ottinger is in the east,
where he will soon be joined by Mr.
Sharmann, on a trip, the purpose of
which is to sign up with several manu-
facturers for the Utah agency.

The new building is to be a magnifi-
cent one, according to the plans of Mr.
Libbey, and will be built especially for
the convenience of handling and stor-
ing cars. The capitalization of the
new concern, articles of incorporation
for which will be filed on the return
of Mr. Ottinger from the east, is \$25-
000, fully paid up.

This company is said to have no con-
nection with still another new com-
pany, which filed articles of incorporation
a week ago, and which intends to get
into the business in time for the 1909
spring trade.

Cured Consumption.
Mrs. B. W. Evans, Clearwater, Kan.,
writes: "My husband lay sick for three
months. The doctors said that he had
quick consumption. We procured a bottle
of Ballard's Horehound Syrup and it cured
him. That was six years ago. Since
then we have always kept a bottle in
the house in case of colds, coughs and
colds it has no equal." 25c.
