TUCSON, A. T., 31.—The *Star* advises from Tubac, A. T., to day say the following are the facts in regard to the Indian troubles in this section: A band of Jus, numbering about 200, has been operating in Sonora for about two months, and about the last of the week met the Mexican troops at San Antonio Pass and whipped them. They then camped near our line and divided up into three or four bands, each taking different directions. One band struck the Upper Santa Cruz, near Lanoria, and crossed the Paganias to the Santa Cruz road, striking it a point two or three miles above Chatro Martinez. Here they are said to have killed three prospectors. They then crossed the San Juan Mountains and struck the Magdalena road about three miles above the Custom House at Frontenaza and when last seen were making for the Ponchos de Plata.

Tombstone dispatches say: Wm. Johnson, a cattle man, near the head of the Sonora River, was killed by the Apaches in Sonora, near the Custom House. Four American and one Mexican were killed last Sunday near Bacanuchi. Mexican troops are in close pursuit of the Indians.

CHICAGO, 31.—A private dispatch received here to-day from Denver states that the Union Pacific is cutting rate on freight from seaboard cities to Denver, and offering inducements to shippers in the way of passes. This course is said to have been taken to punish the Burlington Road, because it refuses to agree not to build any more roads in Nebraska. A war on rates is predicted as a probable result.

The Union Pacific, Northwestern, Rock Island and Burlington auditors and general freight agents met here to-day and practically decided on a uniform system of through way billing to points of destination in Nebraska. The custom heretofore has been to way-bill to the Missouri River, and re-bill to destination. This caused much annoyance and frequent overcharges. The completion of the Burlington lines and their billing through to Denver rendered this action necessary.

IOWA CITY, 1.—The burning of the City Hall was the incendiary work of some tramps lately released from the cooler. It is suspected that the fire started in the upper story, as combustibles were found there. The building was largely fire-proof. Insurance \$10,000. The loss largely exceeds that. It was the handsomest building of the kind in the State and was only recently finished.

CHICAGO, 1.—The reception to the widow of John Brown at Farwell Hall, last night, in connection with the effort to raise money for her homestead in California, was attended by about 1,000 persons. The address of the evening was delivered by States attorney Sutter Laften Mills. Reminiscences of John Brown were presented in person or by letter by Allen Pinkerton, H. B. Hurd, Leбина Eastman, Dr. Samuel Willard, and other conductors on the underground railway in slavery days. The exercises were protracted to a late hour and closed with singing, "John Brown's body" by the assembled people. It is impossible as yet to give even an approximate estimate of the amount realized, but it is probably quite a handsome sum. The night was rainy and many who bought tickets were not present. One of the most interesting reminiscences was from the letter from Allen Pinkerton, the well known detective, who told how one morning John Brown, on whose head a price had been set, came to his house in Chicago with a body of nearly 180 fugitive slaves, on their way to Canada. Brown demanded help for them. Pinkerton managed to get the use of a car on the Michigan Central railroad, then he went into a political meeting and collected over \$500 to help them along. They were quietly hustled into the car and landed safely in the Dominion.

All knowledge of the vessels' names, destination or ownership is wanting but an investigation is expected to disclose these facts ere long. No later intelligence has reached this point concerning the matter.

WASHINGTON, 1.—Dr. Bliss having filed his modest little claim of \$25,000 for professional services rendered Garfield, his extreme modesty would not allow him to be in Washington while the board of audit had his claim under consideration, lest some should perchance charge that he was interfering to secure the largest possible allowance, hence he left for New Mexico and other parts of the west, to be absent until the board shall have acted on his claim.

A Washington special says: Additional particulars from Brownsville to Dr. Hamilton, the supervisor general of the marine hospital service, show that about one-fifth of the population of the city are down with yellow fever. The precautions taken by Dr. Hamilton against the spread of the disease from Brownsville are almost perfect in character, and there is little fear of the progress of the epidemic beyond the limits of the four counties included in the outer cordon of guards. The afflicted district includes counties Sepascia with 3,600 population, Stair with 8,300, Hidalgo, with 4,300 and Cameron, in which Brownsville is situated, with 1,500. The cordon of guards protecting the outer world against emigrants from these counties is composed of 125 Texas rangers stretched along the 124 miles of railway between Corpus Christi and Laredo. The inner cordon is composed of a like guard, smaller in number, thrown around the northern and western sections of the city. Persons desiring to leave the city can go out into the district above spoken of, by having their baggage fumigated and their more contagious effects destroyed. Beyond the cordon on the Corpus Christi & Laredo Railroad, however, no person is allowed to go on this road, so it is to all intents and purposes a "dead line," and any person attempting to cross the limits is liable to be shot down. On each of the innumerable wagon roads running from the railroad into the district for distances of seven to eight miles is a well armed relay of guards, whose duty it is to notify the outer cordon of the approach of persons from the infested district throughout the counties.

The contract expressly stipulates that no member or delegate to Congress or officer or agent of the government shall have any interest in the park.

Mr. Bigelow, Sergeant Mason's counsel, intends soon to apply for a writ of habeas corpus in the United States District Court for the Northern District of New York, if his client is not released upon Judge Advocate General Swaim's opinion recently submitted to the Secretary of War. General Swaim in this opinion holds that the court martial had no jurisdiction to try Mason, and there is no evidence in the case to show that Mason committed the offence charged against him. One of Bigelow's arguments charged in the petition for the writ will be that the Secretary of War has no judicial authority to overrule the opinion of the Judge Advocate General.

A large supply of fresh water has been discovered in some old forgotten wells.

The enemy are repairing their fortifications.

Our outposts captured five signalers, who had been flashing lights from in front of our position to Arabi's camp. They seemed to be Fellahs; possibly they are Arab telegraphists disguised. They will be tried by the native court. Report says Arabi has a dozen such signalers in our camp.
