with the soil of the valleys well watered and the channels for streams all open, it is quite possible to suffer much damage here from high water.

There is now every promise of an abundant crop of grain of all kinds, and the outlook is not such as to justify regarding the supply of food much better, in the hope that well filled granaries and cellars are able to come into harvest.

subscriptions among the people at large, as the Jewish feeling is growing, and probably not long their only.

The whole scheme is to be a popular propaganda. It is expected that the same Palestine and the even hourly for work will win for the project many friends.

Such is the busy outfit Dr. Herz's scheme. It is valuable as showing that, in the opinion of competent men, there is no man viable because of the establishment of a new State in Palestine.

Some time the European powers will be called upon to decide what they will do with that country to save it from the jaws of the Turkish empire, and it is not impossible that they will gladly consent to the Jews occupying it as the best way out of the difficulty of disposing the country.

It is in the interest of the Jews to make it manifest ground on which a man must be devolved to the Jews of Palestine.

PALESTINE AS A STATE.

A notable feature of the present time is the increasing agitation for the return of the Hebrew race to the country of their fathers.

THE DESTRUCTOY AT WORK.

Destruction and death seem to be in a way of sweeping, in 1897, all previous records. The Indian famine, the Persian earthquake, the Java floods, the plague at Calcutta, the American South American, and Africa, the storm of Europe, the massacres in Turkish territory, and a score of other destructive operations already witnessed in this year leave no room for doubt as to the destructo being at work.
