KNOCKOUT DROPS OR POISON.

Doctors Puzzled to Decide Whether it Is a Case of Attempted Suicide Or Murder.

The police department has another mysterious case of probable poisoning to solve, and whether it is a case of attempted suicide or a plain case of 'knock out drops" with the object of robbery is something that has yet to be determined.

At 1 o'clock this morning, a young man giving his name as B. F. Devlin, aged 24 years, was arrested by Officer Evans, who supposed the man to be in a badly intoxicated condition. He was found by the officer wandering aimlessly along the streets and was hauled off to the station in the patrol wagon. When questioned by the desk sergeant he lacked the ability to give any account of himself and was booked as drank and his occupation, given as as drunk and his occupation given as "Booze fighter." He was thrown into the drunkhouse to sober up and about the drunkhouse to sober up and about 0 o'clock this morning some of the trusties heard him walking around. Later, Jailer Kimball locked into the drunkhouse and found the man unconscious. Supposing him to be merely sleeping off the effects of a large quantity of bad whisky, he left him.

Shortly after noon Jailer Kimball became alarmed over the man's condition and sent for Dr. C. M. Benedict. Devilin was taken into the officers' quarters HIGHEST AWARD Utah State Fair 1903.

BROKE INTO A CESSPOOL.

A curious accident happened yesterday at Third South and Fifth East streets. A coal team driven by Charles Ingham, broke through the cover of a cesspool in backing alongside of a house, and one of the horses went to the bottom, and up to his head in the foul liquid. Finally, a rope was got un-der his foreshoulders and the animal hoisted to the surface not much the worse for the wear; but it required four hours to get him out.

HOME GRAIN MARKET.

Local grain men are viewing with more or less discouragement the condition of the home grain markets. Said one of them today: "We have been shipping the wheat to Nevada and California until the market became bare, and now that wheat is wanted at home, and there is none of the Utah product and there is none of the Utah product left, we are forced to ship in from Colorado points paying the railroads 35 cents per cwt for the same, after paying the railroads freights to the westward. Now that does not pay, and one of the functions of the new produce exchange will be to see that such mishaps as this does not occur again, and that when there is a big call from the that when there is a big call from the outside for Utah grain, care will be taken to keep enough in this state to supply the home demand."

This frightened William, and the following day he sat on the doorstep in a very quiet and thoughtful mood. When asked by the village clergyman, who was passing by, why, he did not go out and play. William replied: "I must not go out of the gate, for there are bears in the roads and down in the bears in the roads and down in the park." The minister laughingly replied: "No, there are no bears anywhere around," but William insisted that there were, as his mamma had told him that there were. The minister said: "Let's go in and ask mamma said: Lets go in and ask mamma about it," and mamma had to acknowl-edge that she had simply told William that to keep him from running away from home. When alone with the little boy the mother said: "William, mamboy the mother said: "William, mam-ma is sorry that she told you a story about the bears, and I guess we had better ask God to forgive her," where-upon William said: "Mamma, you had better let me ask God, for maybe He wouldn't believe you."—Lippincott's Magazine.
