AMERICAN.

RESIGNATION OF GOVERNOR BUNN, OF IDAHO.

RAISING THE RED FLAG OF THE COMMUNE IN CHICAGO.

Wired From Washington.

YELLOW FEVER.

WASHINGTON, S.—Dr. Hamilton, Surgeon-General of the Marine Hospital service, has been advised of what is regarded as a sporadic case of yellow fever at New Orleans. He does not think this should cause alarm, although no evidence has been discovered that it originated in the importation of fever germs. He thinks there can be no doubt that it is due to yellow-fever imported in infected clothing or in some other way. The case was effectually quarantined at the earliest stage, and it is not expected that the fever will spread from it.

NOT GRANTED.

The following letter explains itself:

Treasury Department, Office of Secretary, Washington, July 5.

To the Commissioner of Internal Revenue:

SIR—This office is in receipt of your letter of the 1st instant relative to the application for an extension of seven months from June 25, 1885, on his transportation bond, dated January 16, 1885, for seven months, covering 527 barrels of whisky withdrawn from the distillery warehouse. The applicant alleges that the present condition of the market for American whisky in Europe is depressed, and that the outlay for transportation and exportation of this whisky at this time would entail great hardship. You express the opinion that the time—seven months—allowed by the bond under the provisions of Circular No. 222, of January 3, 1885, was ample for the transportation of said whisky from the place where it is deposited (Cynthiana, Ky.,) to the port of New York, and that no additional time should be granted.

This office concurs with you in the above opinion, and you are requested to instruct the Collector of Internal Revenue holding the bond accordingly. The application submitted with your letter is returned herewith.

COURT-MARTIAL.

The court-martial appointed to try Paymaster-General Smith of the navy convened to-day. The detail of the court is as follows: Commodore Alexander A. Semmes, President; Commodore A. W. Queen, Commodore Geo. E. Belknap, Captain J. A Greer, Captain Wm. P. McCann, Captain A. P. Cooke, Jay Directors J. D. James Tilton, Captain Shenck, Captain M. Bunce, Pay Inspector Rufus Parks, and Paymaster R. W. Allen, Judge Advocate. The charges on which the Paymaster-General is to be tried are: Scandalous conduct, tending to the destruction of good morals, and culpable inefficiency in the performance of duty.

VACATION.

The *Star* says the President is preparing to depart from Washington for his summer vacation. His plans have been arranged and it is expected he will be able to get away within a day or two. He will go to New York state and betake himself to the woods for a few weeks, to get away from the worry and bother of office-seekers and politicians. His plans have been made very quietly and he will probably leave as soon as the appointed time arrives without making any previous announcement. The President wants a period of perfect rest, and does not propose to be followed into his retreat. Office-seekers will wake up some morning very soon and find the White House deserted.

CHANGES.

The President has suspended Mark L. Blunt, Register, and Michael H. Fitch, Receiver of the land office at Pueblo, Colorado.

The President has accepted the resignation of P. B. S. Pinchback, Surveyor of Customs at New Orleans.

This afternoon the President appointed the following cadets-at-large to West Point: Don Carlos Buell, Maderna Sykes, F. D. Hatch, Thomas Newton, C. L. H. Ruggles and E. M. Cleary.

T. D. Kelher of Albany, N. Y., has been appointed disbursing clerk of the Treasury for the Sixth Auditor's office. Kelher was at one time private secretary to Senator Fair.

The Secretary of the Navy has appointed a board to examine the present foremen of the navy yard shops and applicants for such positions, with a view of determining the efficiency of the incumbents and making changes where it is necessary or advisable.

EXONERATED.

[illegible], the Solicitor of the Treasury, to whom was referred the evidence taken during the investigation of the charges preferred against Judge McCrary, has rendered his decision. He exonerates Judge McCrary entirely from the charges preferred against him. Solicitor Harrison, assayer in charge of the United States Mint and Helena, Montana, has made a report to the Secretary of the Treasury in which he exonerates Harrison. W. P. Towner, who was sent to make the investigation, speaks in high terms of the system employed in the office. The solicitor's report is satisfactory to the Secretary of the Treasury and Harrison will be so notified.

THE CATTLE TRAIL.

The reported obstruction of the cattle trails through the Indian Territory, by settlers upon the Cherokee strip is engrossing the attention of the Secretary of the Interior. In answer to complaints made by drivers, that they were not permitted to take their cattle over the established trails, the Secretary telegraphed that no one had a right to obstruct them. Nevertheless it appears that the officers of the Federal courts in Kansas, whose jurisdiction extends over the Cherokee strip, have disregarded these telegrams and persisted in excluding Texas cattle under the act of May 24, 1884, which forbids any person to drive cattle on foot through any State or Territory, knowing them to be infected with contagious disease. Secretary Lamar has consequently requested the Attorney General to instruct the officers to cease their opposition to those using the established trails, and to refrain from interfering with the cattle drovers while on the trails, in the Indian Territory.

A HISTORIC PISTOL.

Judge Chenowith, on behalf of a number of ex-Confederate soldiers, today presented General Rosecrans with a pistol captured by Texans in a raid on his baggage train in the summer of 1864. On the stock of the pistol is inscribed the names of the battles in which Rosecrans was victorious. The General was much pleased with the present and the manner of its restoration.

SILK CULTURE, ETC.

In the convention of the representatives of agricultural colleges begun here to-day Commissioner Coleman briefly sketched the discussions in Congress which preceded the munificent grants of lands for the endowment of agricultural colleges in several of the States, and said it would be conceded that the general public professed a degree of disappointment in the outcome of those institutions. After alluding in detail to some of the branches which should be fundamentally taught in all agricultural colleges, he referred at some length to some of the operations and plans which might be carried out on the college farms by the college faculties, and which would be more particularly under the auspices of the Department of Agriculture and for its special use and advantage. The operations and plans involving problems which could only be solved by investigation carried on simultaneously in different localities. The peculiarities consequent upon the changing of seed from one soil and climate to others, were strongly suggestive that good would result from a well conducted series of experiments made over widely diversified climates and conditions. The wider the system of interchange of seeds and the greater the number of simultaneously made tests, the sooner could be tabulated the results out of which to deduce principles for future guidance and action. As an example of special work for suitable localities he would mention investigations relating to the cotton plant. The Department could collect the seeds of many varieties and assign them to all the colleges in the cotton States, with instructions which would secure a similarity of treatment throughout their growth. Semi-weekly inspections might be made, when every detail of the progress connected with the rain-fall, temperature, time of first flowering, continuation of the flowering period, and the quantity and quality of lint, should be carefully noted. This process should be continued for a series of years, and, when completed, could not fail in being a great benefit to all engaged in the culture of the crop. The determination would be reached as to the adaptability of certain kinds to certain climates. Better varieties than those now cultivated would be indicated for many localities, and the profits would be enhanced. The first fact to be evolved by such experiment would be the eliciting of the knowledge necessary to the intelligent crossing the varieties, for the purpose of combining in one the excellencies of many. He could see the necessities for a great national experiment farm also, which he would have established near the Capitol, and if he might go further, he would establish it as a national or world's exposition, where the products of this and other nations might be exhibited. He believed that at no distant date this would be realized, for agriculture, the nurse and mother of all industries, was entitled to such recognition. After the conclusion of the Commissioner's opening address, the temporary officers were made permanent. Commissioner Colman this afternoon announced that he had received a letter from Miss Cleveland of the Executive Mansion, which he did not think was intended as a private communication. He said Miss Cleveland had manifested a laudable interest in one of the industries in which the whole country was interested. The letter was read and is as follows:

EXECUTIVE MANSION, Washington,

I venture to ask if the subject of silk culture in the United States is one which will receive attention from the agricultural convention? I find myself feeling a deep interest in this industry, not only because it seems right and fitting that we should produce our own silk in successful competition with the world, but because this industry, when so established, as it may be by encouragement from the Government, will afford one more avenue of self-support to women. I am sure you desire, with me, to see such avenues increased in a worthy and legitimate way. I am hoping to have the pleasure of visiting your bureau before long.

Very truly yours,
ROSE ELIZABETH CLEVELAND.

The letter was received with applause.

At the afternoon session an invitation from President Cleveland to visit the White House to-morrow afternoon was accepted.

Willetts of Michigan, Lee of Mississippi, Atherton of Pennsylvania, Fairchild of Kansas, and Dwinell of California, were made Vice-Presidents.

A resolution favoring the passage by Congress of the Cullom bill for an appropriation for agricultural experiments was passed. The recommendations of the Commissioner of Agriculture in his address were approved by resolutions. A discussion followed, in which the distribution of seeds by Congressmen who know nothing of their value or the reverse, was condemned.

The evening session was devoted to the reading of papers.

Raising the Red Flag.

CLEVELAND, S.—A heavy detail of police was sent into the 18th Ward early this morning to quell the strikers if it became necessary. There was no trouble and no demonstration until this afternoon. The strikers then assembled in the 14th Ward, elevated the red flag and started for the mills in Newburgh. On arriving there they made a great deal of noise, but did not offer any damage to life or property. The police are prepared to move on a moment's notice if the strikers become turbulent.

More Lynching.

GRENADA, S.—The mob, after hanging the murderers McCristian and Williams yesterday, started after two other men implicated. Williams had confessed, stating that Bartley James and John Campbell had assisted in killing the two peddlers. The mob found James at his house, carried him to the Union church, about ten miles from Grenada, and hanged him to a tree. They then went to Campbell's house. Campbell fired upon the mob, wounding one of the vigilantes, and then made his escape. It is rumored that at daylight this morning the mob overtook Campbell. He refused to surrender and they shot him dead.

Letter of Resignation.

CHICAGO, S.—A dispatch from Pierre, the West the following letter Bunn had forwarded ter to the President:

BOISE CITY, Idaho, July 3, 1885.

To the President:

I have the honor to tender my resignation of the office of Governor of the Territory of Idaho. I am prompted to this act by reasons of an entirely personal nature, and earnestly request I may be relieved of the post as soon as may be convenient to the Department of the Interior.

With assurances of my deep respect and my sincere thanks for the marked consideration shown me,

I am, sir, your very obdient servant,
WM. M. BUNN,
Governor of Idaho.

Scoring the Administration.

HARRISBURG, Pa., S.—The Republican State Convention in the platform public invited attention to the acts of the present National and State Democratic Administration; to the unjust war of the former upon "offensive partisans;" to its hypocritical avoidance of the pledges touching the civil service; to its star chamber proceedings against Republicans, for whose removal no public reason can be given, and to its constantly disloyal preference for the rebel elements of the Democratic party at the South and of the semi-rebel elements of the same party at the North. With such administration the Republican party takes direct issue, and carries its appeal to a people disappointed in every reasonable expectation and promise. The other resolutions refer to State matters.

Col. M. S. Quay of Beaver was nominated for State treasurer on the first ballot. The platform further demands protection to American industry through tariff laws which will effectually stop foreign contract labor, the establishment of a true system of civil service, which will give a fixed tenure of office, and no removal except for adequate public cause, and a closer commercial intercourse with nations on the American continent. The platform also calls for a repeal of the internal revenue taxes, except upon spirituous and malt liquors.

BRIEF TELEGRAMS.

Sir Edward Thornton, British ambassador to Russia, will leave shortly for England.

Gen. Courcey telegraphs from Hue that the French flying columns are patrolling the environs of Hue, seeking Thuket, the [illegible] minister of Anam, who was the instigator of the recent attack on the French.

In New York, Geo. K. Chase, a heavy stockbroker, was arrested to-day for an alleged fraud in regard to stock and other transactions, on the affidavit of M. Shaughnessy. The amount involved is $100,000. He furnished bail in the amount of $40,000. His sureties are W. J. Preston and A. T. Ferris.

In San Francisco, Harriet Moore, a middle-aged widow, has commenced a breach of promise suit for $250,000 against Moses Hopkins, aged 70. The defendant is a brother of the late Mark Hopkins, the railroad magnate, from whom he inherited an estate estimated at $6,000,000.

Extracts from private memoranda of Louis Riel have been published. Riel claims in the memoranda Divine inspiration and prophecies in the Duck Lake and other fights. No new light is thrown on the cause of the rebellion.

Base Ball—Detroit, 8.—Detroit 18, Philadelphia 5.

Chicago, 8.—Chicago 13, Providence 3.

Buffalo, 8.—Buffalo 8, Boston 8.

St. Louis, 8.—St. Louis 8, New York 3.

Lieut. Schuetze of the U. S. Navy started from New York on a trip to Siberia to-day on the steamer *Fulda*, bearing presents from the United States Government to the Russians who aided in the search for the shipwrecked crew of the Greely exploring steamer *Jeannette*.

In Mexico the trouble over the settlement of the English debt continues. Additional arrests of students and opposition editors have been made. The streets are patrolled at night by troops. The cavalry regiments have their horses saddled day and night. It is reported that ex-President Gonzales has returned to the city for the purpose of watching matters.

Gen. De Courcey telegraphs from Hue: "We are absolute masters here now. The enemies troops are dispersing. The citadel is on fire. The royal palace is intact, owing to the exemplary discipline of the Zouave battalion, who captured and now guard it. This palace contains [illegible],000,000 francs in bar silver, which sum will be largely increased if the gold bars can be found. The artistic riches are of inestimable value. I await instructions.

The *Pall Mall Gazette*, in one of its later afternoon editions, bids defiance to the authorities, in their work of attempting to suppress the sale of the past three days' issue of the paper. It claims the honor for leading in the cause of exposing the vices of the rich and declares that the best men of England support it in its crusade. The *Gazette* challenges the courts of London to prosecute it, for the work it is engaged in, and says that it might subpœna half of the legislature of England to prove the accuracy of its revelations.

JUDGES OF ELECTION.

The Utah Commission yesterday appointed the following to act as judges at the general election to be held in this Territory August 3d:

TOOELE COUNTY.

Deep Creek Precinct—John C. Devine, R. S. Gasn, W. R Shelden.

Vernon—S. H. Bennion, O. H. Rollins, Jas. L. Paxton.

Clover—Wm. Gardner, Alonzo J. Stookey, Orson Johnson.

St. John—John G. Ahlstrom, David Charles, Nephi Draper.

Ophir—J. H. Walcott, A. S. Lineback, H. E. Wiley.

Stockton—Jas. G. Brown, Jno. Frank, Richard Gundrey.

Pooele—J. D. Gilliland, Wesley Meacham, Isaac Elkington.

Lake View—Adam B. Smith, George Cochran, Walter G. Adamson.

Batesville—G. W. Bryan, Charles E. Warr, Jas. M. Gallaher.

Mill—G. Maxwell, E. H. Rodeback, F. D. Jacobs.

JUAB COUNTY.

Tintic Precinct—R. S. Reed, H. H. Lowles, P. H. Connell.

NOTE.—Appointments for Tooele, Grantsville and Malad Precincts are for municipal as well as general elections.

SAN JUAN STAKE CONFERENCE,

Held at Bluff City June 20th and 21st 1885.

Conference convened on the 20th at 10 o'clock a. m. Present on the stand President F. A. Hammond, Bishop [illegible]son and Counselors, also representatives from the Hurnham Ward [illegible]. Montezuma, Bluff City, Monticello, President and Mancos [illegible] marks, etc. After opening exercises President Hammond made a few remarks pressing his pleasure at meeting the Saints of the San Juan Stake of Zion. Said we were in our infancy as a Stake, with few in number, but there is plenty of room to grow, and it rather pleased him that we were small, for if we were fully developed there would be no chance for growth and our labors would be done. As it is, there is room for hundreds of good Latter-day Saints to make themselves beautiful homes, and if we would be faithful and industrious the little infant Stake would become a large and populous one.

The balance of the forenoon was taken up by the officers in giving reports of the wards and the various associations. All were reported in fair condition, considering the circumstances under which we are placed.

At 2 p. m. the Conference re-assembled. After opening exercises Bishop Nielson spoke a short time and recounted some of the scenes we had passed through and the changes that had taken place since leaving our homes in the old settlements to fulfil this mission; and how many had faltered and fell by the wayside. Out of about one hundred and fifty men that had been called, about twenty-five had stuck to the mission, verifying the words of the Savior; "Many are called but few are chosen." He thought the future looked bright for us in this part of the Lord's vineyard.

Elder Henry Slack, from Burnham Ward, made a few interesting remarks; exhorted the young to improve the opportunities they have for learning, and to qualify themselves for future usefulness.

Pres. Hammond spoke on the principle of obedience and the importance of fulfilling the missions that we are called to perform. He said the Lord would have a tried people, and those who failed to fulfil their missions gave the devil that much power over them. If they were not very careful they would lose their faith in the gospel and apostatize. From those who stuck to their missions the Lord selected his leaders, for they were men that were to be depended upon, and the Lord knew where to find them. He instructed the people to deal honorably with the Indians, and set them good examples and try and raise them from their low and degraded condition to a higher sphere.

Elder L. H. Redd bore a faithful testimony to the work of the Lord.

Elder Wm. Adams made a few interesting remarks.

Bishop Nielson spoke a short time on stock-raising and taking care of that which the Lord had made us stewards over.

Pres. Hammond added a few remarks and [illegible]

Ayer's Cherry Pectoral

Possesses the greatest possible power to heal and control affections of the throat and lungs, with absolute safety for children or adults. The experience of years has proven it to be of inestimable value as a household medicine, and for professional use. Thousands of physicians and families testify to its great worth. Jas. E. Moling, Hilliard, Ohio, writes: "I have used Ayer's Cherry Pectoral in my family for twelve years, and have found that, as a remedy for Coughs, Colds, or Sore Throats, it

Is Unequaled.

J. I. Miller, editor of the "Lutheran Home," Lynchburg, Va., writes: "I advertise nothing that I do not know to be good. I was saved from the grave, I am sure, by the use of Ayer's Cherry Pectoral, and have recommended it to others with the happiest results." L. J. Addison, M. D., Chicago, Ill., writes: "I have never found, in thirty-five years of continuous study and practice in medicine, any preparation of so great value as Ayer's Cherry Pectoral, for treatment of diseases of the throat and lungs; and I constantly recommend it to my patients. It not only breaks up colds and cures severe coughs, but is effective in relieving the most serious bronchial and pulmonary affections."

John J. Uhlman, Brooklyn, N.S., writes: "Twelve years ago, I was afflicted with a severe bronchial trouble, pronounced by a skilful physician to be very dangerous, and liable to terminate in Pneumonia. After using one bottle of Ayer's Cherry Pectoral, I found great relief, and an occasional use of it since that time has, I think, extended my life ten years at least." Mrs. V. M. Thebaud, Montreal, Canada, writes: "Last spring my daughter was attacked by membraneous croup, or diphtheria. The doctor prescribed Ayer's Cherry Pectoral, which cured her of the diphtheria. Being still very weak and sick, she began taking Ayer's Sarsaparilla, which restored her to vigorous health."

Ayer's Cherry Pectoral,
