THE NEW YORK "STAR" AND AF. FAIRS IN UTAH!

THE New York Mar of the 23d ult. contains a short article, headed "War in Utah," which contains as many evidences of the writer's total ignorance of affairs here, and of prejudice towards "Mormonism" and the "Mormon" peopleas could well be crowded into so shortaspace. Being published in themetropolis of the Union, it is probable that the folacies and mis-statements of the Stur will be read by a respectable numb r of people -- its subscribers, and the readers of papers which may copy it, for articles containing denunciations of the "Mormous" are as eagerly copied by a certain class of papers as they are read by a certain class of readers; and in this way falsehood is disseminated. and by harangues such as this published by the Star, false public opluion is created and strengthened.

We have seldom seen a baser tissue of hes than is strung together by the Star, and in reading them one is forced to the conclusion that it has been subsidized by the anti-Mormon "ring," as it echoes their sentiments exactly. I reiterates the old string of fables, echoed by the party from its formation. and dating as far back as 1850, shortly after the organization of the Territory of Utah by Congress.

The Star regrets that that famous army, sent here by President Buchanan etc., by the U. S. army. was not permitted to do waat the "ring" is so anxious to have done now, tary lesson,"-in other words deprive prive them of every right and privilege, degrade them to a condition of serfdom. and despoil them of the fruit of years of hard toil. We can assure the Star that that same army would have been extremely gratified to have had this privilege, but the Almighty and the "Mormoss," a tremendous majority on any question, said they should not carry out their programme of spoilation and wrong, and they were unable to.

The Stur seems jubilant, however at

sure of losing all character for veracity, and for reliability on questions of public interest, if it has ever yet possessed and enjoyed any reputation therefor.

DISTINGUISHED VISITORS.

Among the visitors now in the city are Colonel Audenreid and Captain Ennis, the former Aide to General Sherman, the latter to General Schofield. Colonel W. M. Wherry also accompanies the party to this point. The distinguished party arrived in this have been taken, which it is expected city yesterday, from the West, whither they went some time since to attend the festival of the California Pioners. Since then General Sherman has taken a tour through Oregon.

being commensurate, as far as they could be made so, with the distinguished rank and brilliant military reputation of the hero of the "march from Atlanta to the sea."

The party has been the visitors and guests to-day, of President Young and other influential citizens. A review of the troops at Camp Douglas took place this morning, the great Captain being still quarantined against New Orleans Tours, 1.—The second lot of personal present.

The party proceeds East to-morrow or Wednesday, General Sherman to his home, and the resumption of his duties in Washington, General Schofield to preside over a military commission, to sit either at St. Louis or Fort Hayes, to determine upon the use of certain arms.

the prospect, which it declares now exists, by the issuance of a certain proclamation recently, in relation to the Territorial militia, and a recent decision rendered in the District Court in this city, in reference to juries, that the long standing points at issue between the Mormons and the outsiders, (i. c. the ring) will soon be decided; war in Utah is the dread alternative if Brigham and his followers "are such fools" as to resist their demands, and the result will be, this time, as it has often been before,-on paper-a glorious triumph on the part of the"ring," and the complete extinguishment of "Mormonism," inguding, of course, that bugbear to the journalistic morality of the country, polygamy.

The people of this Territory may rest assured on the authority of the g sepel according to the New York Star, that their course is nearly run; the clique has been wispering to the Star, and the deep under water, and the York Railwhole thing is loaded and primed and only needs firing.
