

3 MINUTES AHEAD OF SCHEDULE TIME

First Eastbound Train of Pennsylvania's New 15-Hour Service Arrives in Jersey City.

FASTEST MILE 28 1-3 SECONDS

Westbound Flyer Gets Into Chicago Three Minutes Ahead of Schedule.

New York, June 12.—The first east-bound train of the Pennsylvania's new 15-hour service between New York and Chicago arrived in Jersey City at 9:22 a. m. today, three minutes ahead of schedule time.

The running time of the train from Chicago to Jersey City was 17 hours and 31 minutes. The engineer of the train said on arriving that a short distance east of Hobart, Ind., the train covered a mile in 35 seconds.

ARRIVAL IN CHICAGO.

Chicago, June 12.—On its initial run from New York, the Pennsylvania railroad's 15-hour "flyer," the fastest long distance train in the world, arrived in this city at 8:22 o'clock, this morning, three minutes ahead of schedule time. In order to accomplish this feat, extraordinary arrangements in the way of fast running were necessary. After leaving Pittsburgh the leader of the big Atlantic type engine, which had been attached to the train for the run to Crestline, O., developed a hot box about 20 miles east of Mansfield, O. The engineer stopped his train and 15 minutes later it was back in motion. The train was then made up in 144 minutes, an average of 68 2-3 miles an hour. When the train pulled out of Fort Wayne for the last lap of the long journey it was only nine and a half minutes late. The last of the long time had been made up. Miles were frequently gained off in the last 40 to 50 miles and an average speed of a mile a minute was easily maintained over long stretches of track.

President Underwood of the Erie railroad was a passenger. Already the Pennsylvania railroad officials are discussing the possibility of reducing the running time between Chicago and New York to 14 hours.

PASTEST MILE.

Fort Wayne, June 12.—The westbound Pennsylvania flyer passed through today, 17 minutes late, but the train was running on schedule at Plymouth. The 121 miles from Crestline, O., to Fort Wayne, were covered in 115 minutes. The fastest time was made near Ada, O., where three miles were covered in 15 seconds, or at the rate of a mile in 15 1-3 seconds, breaking all records. This is at the rate of 127 2-3 miles an hour.

BOWEN-LOOMIS CASE.

Secy. Taft Conducted Another Inquiry Today.

Washington, June 12.—Before leaving today for New Point, Secy. Taft conducted another hearing in the Bowen-Loomis inquiry. Clyde Bowen, treasurer of the American Asphalt company, was heard regarding the check which was said to have been exchanged between Mr. Loomis and the asphalt company. The testimony of Mr. Bowen was contradictory to the testimony of Mr. Loomis to the effect that the transaction was a matter of ordinary exchange for the sale of convenience. Mr. Bowen produced the books of the company showing the receipt of Mr. Loomis' check for \$3,000 and the payment to him of a check for the same amount calling for American money. In addition, an official of the asphalt company, also testified. He was one of those mentioned by Harry Thaw, as probable sources for information regarding a rumor said to have been heard to the effect that a certain check passed through the office was intended for Mr. Loomis. Mr. Atkinson denied that he had ever stated such a thing.

MOUNT PELÉE.

Manifests Evidence of Renewed Activity but No Alarm Felt.

Fort de France, Island of Martinique, June 12.—For the past few days Mount Pelée has manifested a recrudescence of activity which, while stronger than that of the month of April of the last year, does not seem to be of an alarming nature. Some dense clouds of smoke have been discharged from the volcano and have slowly fallen over the river valley, afterwards disappearing on arrival at the sea coast. Sharp luminous flashes have been perceived at the dome of the mountain, and a fairly strong burst of flame was seen June 3, between 1:40 and 2:40 on June 3. On that day a very thick cloud of smoke almost descended to the sea and clingers thrown up extended to the village of Leprehur, which is on

GOOD WORK.

Done Daily in Salt Lake City—Many Citizens Tell of It.

Nearly every reader has heard of Doan's Kidney Pills. Their good work in Salt Lake City still continues, and our citizens are constantly adding endorsement by public testimony. No better proof of merit can be had than the experience of friends and neighbors. Read this case:

Mrs. Anna Carlson, 218 West First South, says: "When any one is annoyed with persistent aching across the small of the back and through the kidneys, some of the attacks so bad that one can hardly turn in bed, and sleeping causes sharp twinges across the loins, one may be certain that the kidneys require attention. As a rule trouble is persistently and consistently tried remedy after remedy, all but if any of them could have been directed upon Doan's Kidney Pills. A dose of two took effect, and a continuation ended the pain that housework could be performed to with some degree of comfort. Finally the attack ceased." For sale by all dealers. Price 60 cents. the extreme line forming the limit of the territory devastated during the terrible outbreak of May, 1902, resulting in the loss of about 10,000 lives, and then swept seaward and disappeared. After this the volcano again became calm and remained so until the night of June 10, during which the dome was illuminated by numerous luminous points. The collapse of part of the dome occurred yesterday morning at 6 o'clock. It was accompanied by an outflow of mud into the White river valley. At 11:30 a. m. the same morning a dense cloud of smoke slowly arose from the crater to the estimated height of about 1,000 yards, and extended towards Leprehur, where the smoke was dispersed calm. The volcano has remained calm.

HENRY W. COMSTOCK IS ROBBED OF \$120,000

Boston, June 12.—A robbery involving the loss of \$120,000 in securities by Henry W. Comstock of Boston, which occurred on board the steamer Puritan during her trip from New York to Fall River last night was reported to the police authorities of this city today. The securities, which included 22 certificates of stock of various railroads and of the United States Steel corporation, were taken from under a pillow in Mr. Comstock's state room by someone who it is believed had climbed through a window. The securities were received by Mr. Comstock in a business transaction at a New York hotel on Saturday and it is suspected that some one who witnessed the incident followed the man on board the boat and then committed the robbery. Shortly after Mr. Comstock had reached this city he received a telephone message from New York telling him that he could regain the lost property by paying a suitable amount of cash.

Mr. Comstock is certain that the robbery occurred after the Puritan left New York and from the fact that the telephone call referring to a return of the papers was from New York, he believes that the deed was carefully planned by more than one person. "I believe that I am made the subject of a conspiracy," he said. "I think I shall be able to get back the securities by offering a nominal sum of money. Indeed, negotiations would have been started by me had not Chief Watts of the Boston police advised me to turn the entire matter over to District Attorney Jerome of New York. He believes that the New York authorities will be able to locate both the person who telephoned to me and the securities."

Mr. Comstock was told that the person talking over the telephone was a lawyer who did not care to give his name. He said he had been cautious and decided to indicate to Mr. Comstock how the latter could secure from a third person in New York the papers which he had lost. Mr. Comstock said that he had been in New York last week on business and that on Saturday morning, in a public room of the Broadway Central hotel, he exchanged certain property for the railroad and steel corporation stock that was taken from him. He said which was taken from him. He said that at the time a man was observing the proceedings in a way which attracted his attention. Later, as he was discussing the transaction with his business acquaintance in the lobby of the hotel he noted the same stranger near at hand. Mr. Comstock described the man as "repulsive looking," with a heavy black mustache and dark complexion. He was about 35 years old, five feet ten inches in height and weighed about 180 pounds. He said he had an indistinct remembrance of seeing the stranger on the boat last night and on this account he decided to be especially careful. He placed the papers in an envelope and put them under his pillow. Then he made up his mind to sit up all night in his state room. He opened the window for ventilation and then he fell asleep. He awoke just before the boat reached Fall River and discovered his loss.

Mr. Comstock is wealthy, having wide interests in railroad and mining property. Goll Pleads Not Guilty. Milwaukee, June 12.—Henry P. Goll, former assistant cashier of the First National bank, today pleaded not guilty to an indictment containing 13 counts. Goll will be in the custody of the United States marshal until bail is furnished, which Judge Quaries fixed at \$5,000. The counts contained in the Bigelow indictment are practically repeated in Goll's case with the exception that Goll in each instance is accused with aiding and abetting the former bank president by making false entries. The case probably will not come up for trial until the October term.

MR. CLEVELAND BECOMES TRUSTEE

After Reflection He Determined That It Was a Duty He Owed The Public.

WROTE CHARACTERISTIC LETTER

Feels that What Has Overtaken the Equitable Is Liable to Overtake Other Companies.

New York, June 12.—Former President Cleveland has written a letter to Thomas W. Ryan concerning the trusteeship of the stock of the Equitable, which he accepts. The letter was made public today and says in part:

"After a little reflection I have determined I ought to accept this service. I assume this duty upon the express condition that, so far as the trustees are to be treated with discretion in the selection of directors, they are to be absolutely free and undisturbed in the exercise of their judgment; and that so far as they are to act formally in voting for the directors, they are to be held in trust in the same light as other forms of stealing."

"Your very truly," "GROVER CLEVELAND."

Nine policyholders today filed suits of intervention in the United States circuit court asking to be made party plaintiffs with J. W. Cox, trustee of the Equitable Life Assurance society, who recently filed a suit in the federal court asking that a receiver be appointed for the surplus of the Equitable Life Assurance society. Mr. Cox also asked for an accounting, claiming the policyholders of which he was one, had not received their equitable proportion of the surplus, as provided for in their respective policies. The purchase of the stock was absolute and free from any condition or commitment as to future action. The general orders of the trusteeship of the stock have already been given in the letter to Mr. Cleveland. "The deed of trust is now being prepared and will be made public in due course." State Sup't of Insurance Hendricks has finished his investigation of the Equitable affairs. Mr. Hendricks was not in town today. There was no meeting of the Equitable trustees today. Chairman Morton has prepared a circular letter to the society's general agents, informing them officially of his election with plenary powers. He quotes from the letter of Mr. Ryan dealing with the trusteeship and intimates that the plans of retrenchment, while of sweeping character, will not go so far as to restrict expenditures calculated to add to the society's business. PURCHASE OF HYDE STOCK.

New York, June 12.—Paul Morton, chairman of the board of directors of the Equitable Life Assurance society, who went to Washington last night, will not return to New York until Wednesday. It is expected that the work of readjustment of the methods and conduct of the society's management will then be resumed. Thomas P. Ryan, in response to a request for further details concerning the purchase of the Hyde stock, gave out the following statement:

"The purchase of the stock was absolute and free from any condition or commitment as to future action. The general orders of the trusteeship of the stock have already been given in the letter to Mr. Cleveland. "The deed of trust is now being prepared and will be made public in due course." company in the United States and one of the largest financial institutions of the world, was said today to be a part of the plan of Thomas J. Ryan in negotiating the purchase of the stock of the Equitable Life Assurance society held by James H. Hyde. Mr. Ryan's plan was reported today to be to consolidate the Equitable Trust company, the Mercantile Trust company and the Morton Trust company, all of this city, with the last named in control. It is expected that this would result in creating a financial institution with deposits second only to those of the National City bank of New York, which has deposits of \$185,000,000. The deposits of the proposed consolidated trust company would amount to \$100,000,000, the capital stock to \$7,000,000, and the surplus to \$22,000,000. Mr. Ryan's plan was reported today to contemplate also the elimination of the control of subsidiary companies by the Equitable Life Assurance society.
