WOULD FOLLOW AMERICANS

Responsibility of This Govornment to Establish Peace and Order Recognized by Him.

Havana, Feb. 26 .- Gen. Gomez visited Gov. Gen. Wood this morning and assured him that the stories of unrest and dissatisfaction at the continuance of the United States intervention were false and that he had been misrepresented in statements to the effect that he favored an immediate withdrawal of the United States troops and giving Cuba absolute independence. If they should withdraw now he feared bloodshed, Beyond

doubt within sixty days the Cubans would be fighting among themselves. Gen. Gomez added: "If the Americans were to withdraw today I would go with them."

Gen. Gomez said he recognized the fact that the United States was re-sponsible for the establishment of a stable government in Cuba and could not withdraw until such a condition was brought about. The work of was brought about. The work of handing over the reins of government to the new republic was an under-taking involving much time and labor and a large amount of study and experience on the part of the Cubans in the work of self-government.

The general also said the element in control of the municipalities was not working in the interest of the Island. The officials were inexperienced and

could not be given a free hand. It would mean the destruction and ruin-ation of the island.

Gen. Wood said the greatest difficulty experienced was in getting the con-servative element interested in the municipal government. His purpose was to bring the best element to the front. The coming municipal elections would pave the way for the elections to be held under the electoral law being drawn up by the convention.

Gen. Gomez had no objection to the outline of the future relations between the United States and Cuba as recommended by the Senate of the United States. He thought, however, that it would be better for the United States to lease land for naval stations in-

stead of purchasing it outright. After a discussion of several hours the convention adopted one article defining the proposed relations, namely, that Cuba would not make treaties with any country which would en-danger the sovereignty of the republic or allow the islands to be made of war operations against the United States or any other country.

The last four words, "or any other country," were added after a warm debate. The advocates of this clause

long conference between them on the subject of the Cuban amendment to the army appropriation bill. The communication was by direct wire.

The conference was a protracted one and in the course of it Secy. Hoot gave the governor the full text of the amend-ment. After hearing his views on the subject he gave him certain instruc-tions the pattern of which is not do tions, the nature of which is not di-vulged. It is understood that Gen. Wood will now cease his efforts to hurry the Cuban convention in its formulation of a plan of international relations. Originally, it was the design of the administration that the first proposition would come from Cuba, but now that the United States is taking the initiative there is not the same motive for haste that there was before. The reason for giving Gen. Wood the

full text of the resolutions at once was to forestall comments on the American policy which would result from a par-tial report of the amendment in the Havana papers today. An erroneous impression seems to exist regarding the clause of the amendment which postpones the question of the ownership of the isle of Pines, and provides that it shall be decided by treaty. It has been intimated that this indicates a purpose on the part of the United States to claim the isle of Pines or to hold it for the exaction of further favors. It is stated on high authority that the clause was inserted as a concession to the Cu-

The American right to the isle of Pines is undoubted, Spain having ced ed it to us by the Paris treaty. But the Cubans have so plainly indicated their desire to possess it, that the administration proposes, as a compromise, to let the question go over until after the Cuban government shall be in operation.

Forest, Fish and Game,

Chicago, Feb. 27 .- Several thousand persons attended the formal opening of the International Forest, Fish and Game association exhibit at the Coliseum last night. The interior of the blg building was transformed into a veritable forest. The exhibit of game animals is extensive and represents nearly every type of native animals, while the showing of birds and fish is very large. The latter are displayed in glass tanks lighted from above with incandescent lamps. Opposite the main entrance is an artificial lake on the banks of which is an Indian village. The Indians are from Wisconsin and New Mexico. Through the forest are scattered numerous pens and cages in which the animals and birds are con-

New York, Feb. 27 .- Progress is being made by the war department in the organization of the additional troops authorized by the recent army reorganization law, says a Herald spe-

Corbin said that one battalion of the Twenty-sixth regiment and one battalion of the Twenty-seventh regiment of infantry are now en route to Manila; one battalion of the Twenty-eighth has been organized at the Presidio, San Francisco; one bat-talion of the Twenty-ninth will be filled at Fort Sheridan on Saturday night and other battalions are rapidly forming.

Declares She Never Hurt the Hair of the Head of Any Bad Brother.

Peoria, Ill., Feb. 26 .- Mrs. Carrie Nation rounded out her first day in Peoria by a lecture at Rouss' hall, after which she visited several of the leading saloons of the city.

The first place visited was that kept by P. A. Weast. She collared the proprietor at once, and demanded that he remove a large painting, "Nymphs and Satyr." Weast promised to remove it, and she went to the variety theater next door. Here she witnessed an act and then, mounting the stage, delivered speech.

She next went to the Alcazar, a 'crystal palace the proprietor permission to smash the place. She went out without making any trouble. After addressing a large audience at the Auditorium theater, she retired for the night. Tomorrow she will visit the distilleries. While in the Weast resort she received a telegram informing her that the Texas legislature had passed a resolution asking her to visit the capital of that State. Mrs. Nation left the Cosmopolitan hotel in a huff before breakfast this morning. She had scarcely seated herself at the table when she commenced seif at the table when she commenced giving sympathetic advice to a boarder, whose son had been ruined by intem-perance. Mrs. Hamelle, owner of the hotel, remarked that she took no stock in such advice and Mrs. Nation refused to eat if the landlady remained in the oom. She remained and Mrs. Nation went to a restaurant. The trouble was later adjusted and Mrs. Nation returned to the hotel.
