

MINING, BUSINESS AND STOCKS.

THE WEEK ON THE EXCHANGE.

Business Falls a Little Below the Average of Past Few Weeks.

JOE BOWERS SHOWS GAINS.

Sacramento Made Advances—Buckeye in Demand Today—May Day Stronger—Swansea Sells.

TODAY'S METALS:

SILVER 59 1/2
LEAD \$4.57 1/2
CASTING COPPER 10

On account of Monday being Arbor day the exchange was only open for business for five days this week, which partially accounts for the rather diminished total. Business was very good on Tuesday, when the value of the business transacted amounted to \$14,192.55. On Thursday and today the amount was lower than usual. Altogether 94,268 shares changed hands during the week for \$45,812.30.

Prices have not fluctuated greatly during the week. The most pronounced changes are seen in Joe Bowers and Sacramento. The former sold at 4 1/2 cents a share on Tuesday, but closed with 4 1/2 bid, while the latter, which sold at 1 1/2 in the beginning of the week, is much stronger.

Buckeye shows itself stronger today, when several thousand shares changed hands at from 3 to 3 1/4.

Lower Mammoth, which sold up to 59 on Tuesday, closes today with 53 1/2 bid, while Grand Central remains stationary with no stock offered at less than 46.

Daily West is about the same as at the beginning of the week, though an advance of 20 cents a share was noted during the week. Bullion Beck is a little weaker, while Joe Bowers Extension continues to lose favor.

Mammoth sold lower during the week, but closes strong around \$2.25. May Day has partially regained its position of last week. After selling down to \$1.06 it hangs today around \$1.12. Petro is firm, Valeo is weaker today, as is Yankee Con.

Mercur sold up to \$1.75 during the week, while Sunbeam stands around 9 with the late 10 cent assessment paid. Closing quotations were posted today as follows:

THE WEEK IN WALL STREET.

New York, April 21.—The steel and wire episode and the consequent doubt thrown upon the soundness of conditions in the iron and steel trades was the effective means of checking the disposition of prices to advance, which was manifest at the opening of the week. Realizing on a large scale was induced and buying was discouraged. The effective means of checking the disposition of prices to advance, which was manifest at the opening of the week. Realizing on a large scale was induced and buying was discouraged. The effective means of checking the disposition of prices to advance, which was manifest at the opening of the week. Realizing on a large scale was induced and buying was discouraged.

PRICES BROKE BADLY TODAY.

Iron Industrials Had a Serious Time on Wall Street.

MISSOURI PACIFIC DOWN.

Favorable Bank Statement Causes Slight Rally—Produce and Live Stock Steady.

New York, April 21.—Expectations of the action to be taken at the meeting of the executive committee of the Steel and Wire company were disappointing and the iron industrials broke badly at the opening of the stock market. Steel and wire itself opened in an excited state, sales of 4,200 shares being made at from 40 to 42, compared with 44 1/2 last night. Support appeared in various stocks. Sugar, Brooklyn transit, Metropolitan street railway and others advanced 1/16 to 1/8. The metal stocks ruled in some cases a point above the lowest. Free selling of Missouri Pacific forced it down 3/4, and broke badly all round. The iron industrials fell below the opening level. Shorts covered on the appearance of the bank statement, the rally reaching a point only in Missouri Pacific. The rally brought renewed liquidation and the market sagged. There were some feverish rallies on heavy covering by shorts but the closing was about at yesterday's figures.

MONEY AND BONDS.

Close: Money on call, easy at 2 per cent. Prime mercantile paper, 4 1/2 per cent. Sterling exchange firm with actual business in bankers' bills at 4 1/2 for 60 days and at 4 1/4 for 90 days; for 40 days, 4 1/4; for 60 days, 4 1/4; for 90 days, 4 1/4. Commercial bills, 4 1/4 to 4 1/4. Silver certificates, 60 1/2 to 61 1/2. Bar silver, 59 1/2. Mexican dollars, 47 1/2. State bonds inactive. Railroad bonds, steady. Government bonds, steady. Refunding 2s, when issued, 102 1/2; 2s reg. 99 1/2; 3s reg. 100; 4s reg. 100; 5s reg. 100; 6s reg. 100; 7s reg. 100; 8s reg. 100; 9s reg. 100; 10s reg. 100.

WEEKLY BANK STATEMENT.

New York, April 21.—The weekly bank statement of the associated banks is as follows:
Surplus reserves increased, \$3,444,073. Loans increased, \$5,500,000. Specie increased, \$4,506,100. Legal tenders increased, \$1,423,300. Deposits increased, \$8,300,000. Circulation increased, \$3,300,000. The banks now hold \$14,894,350 in excess of the 25 per cent rule.

CHICAGO MARKETS.

LIVE STOCK.

Chicago, April 21.—Cattle—Receipts, 100. Generally steady. KANSAS CITY LIVE STOCK.

Kansas City, April 21.—Cattle—Receipts, 100. Market unchanged. Native steers, 4.00 to 4.50; stockers and feeders, 3.50 to 4.00; cows, 3.00 to 3.50; heifers, 3.00 to 3.50; canners, 2.50 to 3.00; bulls, 2.00 to 3.00; calves, 4.00 to 5.00. Texas fed steers, 4.00 to 5.00; Texas bulls, 2.50 to 3.50.
Hogs—Receipts, 5,000; market weak to 5c lower. Bulk of sales, 5.00 to 5.50; heavy, 4.00 to 4.50; packers, 3.50 to 4.00; mixed, 3.00 to 3.50; light, 2.50 to 3.00; yokefords, 2.00 to 2.50; pigs, 1.00 to 1.50.
Sheep—Receipts, 5,000; market unchanged; lambs, 5.00 to 5.50; muttons, 4.00 to 4.50.

OMAHA LIVE STOCK.

Omaha, April 21.—Cattle—Receipts, 200. Market steady. Native beef steers, 4.00 to 4.50; cows and heifers, 3.50 to 4.00; stockers and feeders, 3.00 to 3.50; canners, 2.50 to 3.00; bulls, 2.00 to 3.00; calves, 4.00 to 5.00. Texas fed steers, 4.00 to 5.00; Texas bulls, 2.50 to 3.50.
Hogs—Receipts, 5,000; market weak to 5c lower. Bulk of sales, 5.00 to 5.50; heavy, 4.00 to 4.50; packers, 3.50 to 4.00; mixed, 3.00 to 3.50; light, 2.50 to 3.00; yokefords, 2.00 to 2.50; pigs, 1.00 to 1.50.
Sheep—Receipts, 5,000; market steady; lambs, 5.00 to 5.50; muttons, 4.00 to 4.50.

DENVER LIVE STOCK.

Denver, Colo., April 21.—Cattle—Receipts, 150. Market steady. Beef steers, 4.00 to 4.50; cows and heifers, 3.50 to 4.00; stockers and feeders, 3.00 to 3.50; canners, 2.50 to 3.00; bulls, 2.00 to 3.00; calves, 4.00 to 5.00. Texas fed steers, 4.00 to 5.00; Texas bulls, 2.50 to 3.50.
Hogs—Receipts, 200; market weak to 5c lower. Bulk of sales, 5.00 to 5.50; heavy, 4.00 to 4.50; packers, 3.50 to 4.00; mixed, 3.00 to 3.50; light, 2.50 to 3.00; yokefords, 2.00 to 2.50; pigs, 1.00 to 1.50.
Sheep—Receipts, 500; market steady; lambs, 5.00 to 5.50; muttons, 4.00 to 4.50.

SAN FRANCISCO PRODUCE.

San Francisco, April 21.—Wheat—Receipts, 100. Market steady. No. 1, 65 1/4; No. 2, 64 1/4; No. 3, 63 1/4; No. 4, 62 1/4; No. 5, 61 1/4; No. 6, 60 1/4; No. 7, 59 1/4; No. 8, 58 1/4; No. 9, 57 1/4; No. 10, 56 1/4; No. 11, 55 1/4; No. 12, 54 1/4.

COLD PRODUCT OF CALIFORNIA.

Shows a Slight Decrease During the Past Year.

RECORD OF SOME PLACERS.

Alaska Product More Than Doubled—Promises Well for This Year—Items from Utah Camps.

A "News" dispatch from San Francisco today says: The superintendent of the U. S. mint at San Francisco has forwarded to the director of the mint at Washington a report showing that the gold and silver product of California for the calendar year 1899 amounted to \$15,840,045, of which \$15,336,081 was gold and \$503,964 silver. The silver is given its commercial value, its coinage value being \$1,106,578.

Comparing the totals of gold and silver with the corresponding figures obtained from the same sources in the year 1898, the gold yield of the State shows a decrease of \$570,447, and the silver yield an increase of \$98,367, making a net decrease from the previous year of \$472,080. This is attributed to the fact that owing to the dry season many mines were shut down.

The returns to the mint show the employment of 18,701 miners in the gold, silver, lead and copper mines of the State. Alaska has more than doubled its bullion product in the last year. The receipts of Alaska gold at mints, assay offices, refineries, smelters, etc., for the calendar year 1899 were \$6,602,531,255, and the silver \$2,233,343, a total of \$8,835,874,598, or \$3,199,341 more than in the year 1898. Of this increase it is estimated that \$2,490,000 came from the new placer camp at Cape Nome last season, the first year in its history, and the rest of the increase from the quartz mines of southeastern Alaska.

The receipts at mints, assay offices, private refineries and smelters for the calendar year 1899 were \$15,386,625 for gold, and \$503,964 silver, a total of \$15,890,589. This shows a marked advance in output for the Klondike field, since the increase over the previous year is \$3,028,198.

RECEIVER ASKED FOR.

The Consolidated Copper Mining Co. of Eureka, Nevada, Wants One.

A dispatch from Chicago today says: John Gibbs, D. L. Staples and F. R. Ferguson of Chicago, who are the owners of Eureka Nevada, Gen. Wm. Leighton, Walter Jewett and others of Grand Rapids, Mich., have filed suit in the circuit court asking that a receiver be appointed for the Consolidated Copper Mining company, Nevada. The company's mines are in Eureka county, Nev.

THE WEEK AT BINGHAM.

Week's Shipments—The Louise S. Mine—The Dalton & Lark.

In its review of the camp, the Bingham Bulletin says: The Neptune is again delivering ore to the Dewey mill. Mayne's teams finished hauling a 40-ton lot of Phoenix ore Saturday. Shawmut work for main building of the Phoenix is nearly completed last evening.

Among shippers this week were Highland Boy (lead ore), three cars; Amazon ore, eight; Red Wing (concentrates), two.

Shipments from Fortune mine this month include 33 tons lead and 26 tons copper ore. Second grade, pending for shipment, is being put in drifts and on dump and becoming a nuisance. Some of the city papers are engaged in building a big concentrator for Colonel Wall on the Wall-DeLamar property. They say at least let the press button that starts the wheels.

The two carloads of ore shipped from Montezuma last week sampled 48 per cent lead, 20 ounces silver and 17 ounces gold for \$1,800. Manager Strickley is getting ready to send out two carloads more of the same material. Brooks' mill has been idle this week, waiting for the electric power company to get a moving on the line.

Incandescent work in the incandescent electric power, the W. M. Mountain placer laid off part of its force this week.

THE LOUISE S.

The Louise S. Mining company has completed connection between tunnels by a 185-foot raise. This week a chute is being put in, and a wagon road will soon be surveyed and built, when the company plans to market about four carloads of ore per week. The vein, 4 feet wide, has a pay streak varying from 18 inches to 2 feet, gold, silver and lead, of which shipments last fall sold at \$50 per ton. Some of the ore carries nearly an ounce in gold. The company's group consists of six claims—Louise S., St. James, St. James No. 2, Suite S., Hattie G. and Maggie L.

DALTON AND LARK.

Last Monday main incline of Dalton & Lark mines had reached 1025 feet depth. It is in excellent mineral, and going down as rapidly as possible to establish a 1,000-foot level. The mines are looking well at every point, and Manager P. T. Farnsworth states without reserve that purchase of the property by Mascotte company will be consummated according to terms stipulated. A force of about 40 men is employed, mainly on development work.

Sunbeam Will Resume.

It is stated positively that the Sunbeam Mining company will resume work by May 1st under the direction of T. G. Weber of Park City, who is one of the heavy stockholders, the control being vested in the Park City (r/o, Weber, Kearns and Keith. The present plant will be reinforced by a new boiler to handle the water and the Job Lawrence shaft sent to the deep—Tintic Miner.

Tintic Shipments.

Special Correspondence. Eureka, April 20.—The ore shipments from the Tintic mining district were up to the usual standard this week, and over one hundred carloads found their way to the smelters from the various mines. The Centennial-Eureka, with its new gravity tramway, which enables the management to handle the mine's product with the greatest dispatch, and at the lowest possible cost, is doing a splendid business. The Tintic carloads, with the Tintic May Day came to the front with the commendation of three carloads, and if the present outlook at the mine is to be taken into consideration,

this property will contribute a like amount of ore every week for an indefinite period. The Grand Central, Mammoth, Swansea and South Swansea each sent out handsome shipments, but the Dragon mine, which has heretofore been one of the principal contributors to the district's shipments, is at present closed down. The shipments were as follows:

Bullion Beck	Carloads
Centennial-Eureka	25
Gemini (Keystone)	9
Godiva	2
Uncle Sam	2
May Day	3
Mammoth	13
Grand Central	7
Carlissa	5
Swansea	10
South Swansea	4

Besides the above the Mammoth mill sent out three carloads of concentrates.

UNITED STATES COMPANY.

Conditional Resignation of James W. Neill Has Been Tendered.

James W. Neill has tendered his conditional resignation as general manager of the United States Mining company. It is stated that Mr. Neill has had a disagreement with Managing Director A. F. Holden and objects to his being again selected for that position. Mr. Neill was in Bingham today and could not therefore be seen. Mr. Holden disavowed any intention of any disagreement and expressed the hope that Mr. Neill would not quit the service of the company, for which Mr. Holden says he has performed heretofore a valuable service. Mr. Neill's resignation is to take place June 1st.

Director S. F. Kelly and President R. D. Evans of the company left the city last evening for Denver.

THE TIEWAUKEE BONDED.

The McCormick-Shaughnessy Litigation Comes to an End.

Owing to the financial conditions in which the Tiewaukee Mining company, of Bingham, became involved in the spring of 1897, the management thought best to cease operations, and from that time until the present this well known property has been closed down.

The indebtedness of the company was all concentrated in the hands of the bank McCormick and Company, who some months ago commenced a suit which has been pending until now. We are today informed by one of the real parties in interest, that all of the obligations existing between the Tiewaukee Mining company and McCormick and Company, on the one part, and McCormick and Company, the sole creditor, on the other part, have been satisfactorily arranged and released executed. While the suit has not been dismissed as yet, it only remains for the attorneys on either side to make the proper motion, which, it is said, will be done and the litigation terminated within a day or two.

Col. Shaughnessy says that while it is his intention to resume work, it will likely be some time before ore will again be extracted from this old producer, from which \$500,000 was extracted years ago. There is no doubt that this property will rank among Bingham's big producers in the near future.

MOUNTAIN VIEW CLAIM.

Lies Near Humburg—One Encountered in the Shaft.

A visitor who arrived from Tintic today brings encouraging news of the Mountain View property, which adjoins the Humburg mine. For some time past the management has been working on the property, and is carrying a large part of the ore in iron. In addition to the iron, the quartz has occasionally shown low silver values. Some time ago, at the depth of about 250 feet in the shaft, a drift was run on the ledge and things looked so encouraging that work in the shaft was resumed. At a depth of about 350 feet it is now stated that a big change has taken place and positive indications exist of the near approach to an ore body.

MINING NOTES.

The Cave mine near Milford reported today with two cars of ore.

Two cars of ore were marketed today from the extension of the Tintic mine. The Centennial-Eureka, Tintic had 10 cars of ore on the market today.

Harry Joseph expects to leave for Fish Springs on Monday to visit the Galena mine.

Two cars of ore were on the market today from the Red Wing mine at Bingham.
