

# CERTIFICATES OF INDEBTEDNESS

Subscriptions Offered to Public  
By Circular of Nov. 18,  
1907, Are Closed.

## BUSINESS MUCH IMPROVED

So Greatly Secretary of Treasury  
May Not Extend Allotments  
Further.

Washington, Nov. 27.—OWING to the large amount of subscriptions received the secretary of the treasury late today announced that the subscription to the \$1 per cent certificates of indebtedness of the act of June 13, 1898, invited by the circular of Nov. 18, 1907, is closed and that no subscription received after the close of business Nov. 27 will be considered. The several assistant treasurers of the United States have been instructed not to accept any further offers.

The decided improvement in business conditions throughout the country makes it quite possible that the secretary will not extend his allotments further than those already made.

Calculations are already being made as to the probable conditions in the money market next spring and the ability of the country to part in the certificates. If the amount issued should be only \$100,000,000 and half of these should be paid off in six months, the interest charge would fall naturally below the full issue for the year. The sum of \$25,000,000 which would draw interest on the amount of \$25,000,000 and an additional amount of \$25,000,000 for one year would draw \$750,000, making a total of \$1,125,000. This would be at the rate of less than one cent per cent, or less than one cent per month, even from the humitest citizen, whose labor might be affected by the continuance of the crisis.

It is possible that some of the certificates could be called for payment within a given shorter period than six months. It will probably be the policy at that time, if conditions permit, to withdraw some money from the banks in addition to the amount required to pay off the certificates, and this will only be done in case the accumulated debt of gold imports, advances in note circulation, the deposit of public moneys and the libration of hoards creates a plethora of money in circulation which calls for liquidation. The treasurer will be justified in the opinion of the office, in adding to its treasury balance as soon as possible, if such conditions permit. About \$17,000,000 will probably be added to this balance by the proportions retained from the sale of bonds and certificates next week, but the exact amount depends upon the amount and terms of the allotment of the one-year certificates.

If the certificates are generally used to increase bank note circulation this will result in an addition of from \$3,000,000 to \$40,000,000 to the currency in the treasury and with the gold imports and the bank circulation already gained will make an addition of more than \$100,000,000 to the new currency recently placed at the disposal of the market. The nominal cash balance of the treasury today was \$24,139,217, and this was subject to a deduction of \$1,000,000 for gold imports, leaving only \$23,139,217 as the apparent working balance. The cash actually held in the treasury stands at \$119,435, but this is offset by outstanding checks and other demand liabilities amounting to \$119,984,281. Receipts coming in during the month have amounted to \$1,000,000, and expenses have been kept down expenditures more than \$8,000 during the month, though for the fiscal year beginning May 1 there has been an increase in expenditures of more than \$12,500,000.

The situation of the treasury was so serious this afternoon that Secy. Blandford was able to leave early to attend the wedding of Miss Root and Miss Grant.

**WHAT THIS COUNTRY NEEDS IS REST CURE."**

New York, Nov. 28.—"What this country needs above everything else is rest cure," said James J. Hill, who arrived in town yesterday, in discussing the financial situation. "We all want to go to sleep for a good long time and wake up with both eyes open. The country has been suffering from insomnia. While there is an eas-

To contradict certain talk and to put the consuming public in possession of the truth, we say in plain words that no one in this town can sell as good coffee as Arbuckles' Ariosa for as little money.

Misbranded and make-believe Mocha and Java, or coffee sold loose out of a bag or a bin, is not as good value for the money, nor can it be sold at as narrow profit, nor reach the consumer under as favorable conditions.

When you buy Arbuckles' Ariosa Coffee you get more than 16 net ozs. of straight, wholesome Brazilian coffee from the largest coffee firm in the world, with that firm's direct assurance that they are giving you the best coffee in the world for the money.

ARBUCKLE BROS., New York City.

In the mercantile situation, the people who have money are holding on to it and giving checks instead. No one wants to let the money go. The money market is in a bad situation. It has put us on a paper basis, such as we were on just after the Civil war. We need a rest cure to remedy such conditions."

The boom for silver was almost but not quite launched at the Commercial club luncheon yesterday afternoon, that saved a vote favoring the immediate calling of a silver convention before the time set to leave this master finally in the hands of a committee of 16 members who will be appointed by Prest. W. J. Halloran.

This committee will meet Saturday, and its decision on the matter will be final. ## COURT MAY BE OUSTED.

City Needs the Room Now Devoted to Juvenile Tribunal.

Mayor Bransford has decided to veto that portion of Councilman Black's resolution calling for notice to be served upon the juvenile court commission to pay \$75 per month for the use of its present office in the city and county building. It is known that Mayor Thompson had tendered on April 9 the use of the room free of charge until further notice. It is expected that the court will be ousted on Jan. 1, as it is said that the city will need the room. The city has handled its business without the room in question, as the building was thrown open, the only tenant, previous to their occupancy by the court, having been the public library, which is now quartered in the Packard building.

Charles McGuire, a colored man who was arrested several days ago on the charge of stealing \$15 worth of gum opium from Alvin L. Chaffee, merchant, at the Commercial store, was before Judge Diehl late yesterday afternoon for sentence. He was represented by Atty. Newton, who made a plea for mercy for his client. The court was informed that the prisoner was addicted to the use of opium and therefore, at times, was not responsible for his actions.

Judge Diehl said that he agreed with counsel for defense in a certain extent and would not impose a heavy fine or serve 15 days in the city jail, but at the same time, was not responsible for his actions.
