MAJOR DELMAR IN EVIDENCE.

MAJOR DELMAR IN EVIDENCE. Another sensational performance was that of Major Delmar, E. E. Smathers' rotting champion, when he trotted a mile to a high wheel sulky in 2:07 flat. It was anotanced by the judges before the trial that the suky was bon-ball-bearing and weighed fity-four and a half pounds. It was also explained that the vehicle was of the same pattern as that used by Maud S in her memorable flight against time in 1:08, when she frotted a mile in 2:08%. Major Delmar was driven by Alta Mc-Donaid. He went to the quarter in 200₂, the half in 1:02%, and the three-quarters in 1.36, the mile in 2:07. The day's sport was marred by an un-

FOOTBALL GAME YESTERDAY.

University "Preps" Proved to be Too Much for High School Boys.

The university "Preps" football team defeated the East Side High School elev-en yesterday afternoon, the score being II to 0. The contest was a determined one, and the High School team put up a hard fight, but was unable to score against the east benchers. In the first half they made many desperate plunges through the "Preps" line and carried the hoghide to within five yards of the line, where the latter made a determined stand and the ball went over on downs. 'Varsity Football Eleven Prepared t Meet Colorado Aggregation. For the past week Coach Maddock has been instilling the advanced doctrines of football guspel into his sturdy 'varsity men, and today leaves with them for Col-orado to do battle with the University of Denver team, out of whom he expects to wallop a good sized victory. Maddock's creed in tackiling is 'Grab 'em by the sheetstings, boys,' and it threatens to become a slogan with a fixed place in University tradition. He has had them hard at work on the tackiling dummy and at signal practise to prevent any opportuality to lose the victory on account of fumbling in mixed signals. These two defects were the weakest spots in the team developed in the Montana game. Meet Colorado Aggregation. Fifteen men of the 'varsity squad go with Maddock, and three men from the side lines. They are: Manager Riser, who will look out for the bills and gate re-ceipts, and President Brown, and 'Fuzzy'' Moore, of the student body, who will rep-resent the yelling section of the bleach-ors. Quite Unlikely the British Government Will Consent to Any Further Delay.

THE ADMIRALTY IS NOT IDLE.

Reports From Naval Stations Show That There is Great Activity.

London, Oct. 27 .- At 3 o'clock this morning there is no sign as to when Admiral Rojestvensky's report will be made public; but if unofficial reports should turn out to reflect the admiral's official report it is evident the Russian officers made bu extraordinary blunder in mistaking trawlers for torpedo boats, and fired on their phantom foes. This astonishing explanation is regarded here as not fitting with the state of panic as suggested having prevailed with the officers of the Baltic fleet; and in that case, it is suggested, the Russian government should find he difficulty in removing or otherwise punishing the officers responsible. The newspapers this morning evince more heat and impatience than heretofore at Russia's delay, which is considered absolutely indefensible in the present circumstances.

Tension increases as time passes without a definite settlement of the situation created by the Russian blunder in the North sea. Ambassador Benckendorff's tentative communica-tion to Foreign Minister Lansdowne today and the fact that this was re-garded as unsatisfactory only served to inflame the public mind, and while official circles are giving out intima-tions that it is their confident belief Lions that it is their confident belief that the whole matter will be satisfac-torily arranged, it is now quite evident that only a short time will be allowed Russla in which to give final and com-plete assurances of her intentions to comply with any and all demands Great Britain may make within reason. The action of Adminal Bodosteensky

The arrival of Admiral Rojestvensky at Vigo, and the certainty that he is in Breet communication with his govern ment removes at once the possibility of any delay on account of the inability of Russia to get her side of the occur-rences on the night of Oct. 21. With this official version between the Rus-slan government, together with the offisian government, together with the offi-cial statement of the members of the fishing fleet, it is unlikely that the British public or the British govern-ment will allow another 24 hours to pass quietly without receiving a satis-factory reply to the note, which de-manded a quick answer. Meanwhile the admiralty is not idle. Reports from all naval stations show that a tremendous state of activity ex-ists. This is especially true of Cibrai-

Breat Britain for Russla's reply to her demands, but the fact that three battleships and three cruisers are under orders for the morning of Oct. 28, 18 construed in some quarters to mean that Great Britain will not wait longer than that date before unleasing her sea dogs, while it is also evident that the Russian cruisers and smaller boats of the Baltic squadron may find difficulty in passing the gateway to the east unless the crisis is completely over by the time they reach the entrance to the Mediterranean

Information has reached the Associated Press from an authoritative source that puts a brighter light upon the situation. It is understood that practi-cally everything has been decided upon to the satisfaction of Count Lamsdorff the Russian foreign minister, except the question of the punishment of the offending officers of the Baltic squad-ron. It is further understood that Great Britain is not demanding final and formal written undertakings before announcing that she is satisfied, but that an undertaking in general terms on the part of Russia will be accepted as sufficient guarantee for an official announcement that the crisis has pass-

side, would be sufficient. One of the ambassadors who visited Lord Lansdowne today said that not one of his colleagues believed that hostile issue was possible. The on conceivable danger was hosaible. The only conceivable danger was the increasing biterness of British public opinion, which is being fanned into feverish-ness far more by the announcement of the precautionary havai preparations than by the news of the outrage itself. The next step is likely to be taken at St. Petersburg, where Count Lamsdorff, who, it is now believed, is in possession of Rojestvensky's report, can deal posi-tively instead of tentatively as he did on Ambassudor Benckendorff's letter with the question of compensation and punishment.
